In addition, groups from the surrounding area use the facility throughout the year resulting in approximately 300 people utilising the all weather pitch each week.<br><br>During the winter months (when the facility is needed most) the absence of a path from the changing rooms to the all weather pitch results in a significant amount of mud being generated. The area immediately outside of the facility can become very muddy and mud can be transported onto the all weather playing surface.<br><br>The benefit to the community of the proposed project is to improve the facilities for young people to meet for recreation and to prevent damage to the training facility such that it is maintained in excellent condition.
