<b>What is the Community benefit of your project, and approximately how many people will benefit?</b>	
<p>In the short term we are transforming what was a hazard to walkers on the towpath alongside into a complete, sound and visible structure. The lock will form part of the restored Wilts &amp; Berks Canal which connects into the national waterway network, and which will provide leisure space for the communities of Wiltshire and Oxfordshire. The lock is accessible via a permissive footpath. A sign at the roadside explains our purpose, and invites people to find out more from the Trust Office and our website.</p> <p>In the short term, the project offers benefit to the local communities, the total population of Lyneham and Tockenham is about 6000. In the longer term, the population living in the 20 mile corridor either side of the completed canal is estimated at 950,000.</p>	
<b>NWDC will not meet future running costs for projects. Please tell us how these will be met in the future</b>	
<p>The restored lock chamber will require no maintenance. The local branch members of the Canal Trust will continue to mow and strim the surrounding area at our own expense.</p>

## Appendix 4

### 3 – Additional information to support and strengthen your application e.g consultation, community involvement, energy efficiency measures

The completed Wilts & Berks Canal will provide a green corridor both for people and for wildlife – a managed area offering a range of terrestrial and aquatic (and marginal) habitats. We have already laid significant lengths of the towpath hedge – providing cover for nesting birds, and regularly mow the grass on the towpath to keep access open. When the sections of canal at the locks at Tockenham are dredged we will leave a significant shallow margin on the canal bank opposite the towpath for relevant species of still-water vegetation. The canal bank will remain ‘soft’ to encourage burrowing animals such as Water Vole.

Local volunteers, who enjoy the camaraderie of our weekly work parties, do the construction and planning. Several team members find the building work helpful in maintaining their physical fitness now that they have retired from regular paid employment.
