Up-to-date method of acquiring information on the origin/destination of daily commuting, whilst linkage to a site for assessing the carbon footprint of today's journeys to work/school/leisure can be compared to the carbon footprint of the same journey were it to be made by train from a reopened Corsham Station. The Panel to the WCC Structure Plan advised that W,Wiltshire should form part of the GBSTS. However, whilst the map did include this area, the written definition of the Study area to the east was given as "Junction 18". I am awaiting confirmation from WCC officer, Rob Murphy, that the information we are seeking is entirely new. At present the only reference in GBSTS Report for this area is "one roadside interview in Chippenham". We would hope that the website will provide accurate information which will prove a useful adjunct to that prepared by Halcrow, Consultants on the traffic implications of the Basil Hill development, and support the County Council in gaining funding for the reopening of Corsham Station. Benefit = 1000's - Commuters and particularly the young who will at last have the same journey opportunities as youngsters in the towns of W.Wiltshire.			
<b>NWDC will not meet future running costs for projects. Please tell us how these will be met in the future</b>			
Community First will be approached for funding to cover the continuing out of pocket expenses of running the Corsham Station Campaign.
