

Trowbridge Area Board – Thursday 17 March 2011

Chairman's Announcements

Update on Action against Parked Cars for Sale in the Highway

We have advised Legal services of the locations in question and plans of the area and the notices are being drawn up at the moment. The site at The Poplars is requiring a little extra work as only half of the area in question is actually deemed highway and so Legal services are having a think about the best way to prohibit car sales to the rear of this area (which is still Council land).

Obviously we would prefer to impose restrictions on the entirety of all of these locations at the same time, but as Legal services did not feel there would be any great delay caused by figuring out how to treat this 'non-highway' stretch of land, I don't foresee it causing any significant delay to the serving of the notices themselves.
