Currently informal Carers are the largest providers of community care often to the detriment of their own health and wellbeing. There are currently 271 Carers known to us in the Westbury area who are of mixed age and gender. CSWW provide one to one contact either over the telephone or through home visits, a magazine 3 times a year and an opportunity to take part in outings, craft, training, alternative therapies and monthly group meetings, thereby aiming to relieve social isolation, enable informed choices and give Carers a break from their responsibilities. We are applying for this grant in order to provide training through our group in Westbury around a theme of 'healthy living'. We would like to employ individuals to cover 6 sessions who can provide training to Carers within our Westbury group setting which is of mixed age and gender. Training provided can enable Carers to improve their own health therefore improving their ability to provide care. We will be covering topics such as healthy eating, guided relaxation, Tai Chi, managing difficult emotions, increasing physical exercise and safe lifting and handling. All training provided will be aimed at improving health and wellbeing whilst maintaining a caring role.			

Wiltshire Council will be unable to meet the ongoing costs of your project. Please describe, therefore, how you will ensure the financial sustainability of your project beyond the period of this grant (if successful)?

This is a one off and will only go ahead if funding is obtained.

3 – Additional information to support and strengthen your application e.g consultation, community involvement, energy efficiency measures

Please tell us more about the organisations and groups that are involved in your project, who will benefit from the award and how will you know that it is making a difference.

IMPORTANT: PLEASE DO NOT TYPE IN PARAGRAPHS – THIS SECTION IS LIMITED TO 1500 CHARACTERS ONLY (INCLUSIVE OF SPACES)

We believe that this organisation and the training proposed can actively improve the mental and physical health and wellbeing of carers thereby improving their ability to provide care for their friend or family member. The skills that could be learned by Carers through training can directly benefit their other family members through sharing of information and strategies for improving health and may help to reduce the risk of the caring role breaking down.
