

Area Board Project/Councillor Initiative

1. What is the project?

To acquire a defibrillator for the village of Collingbourne Kingston, to be sited at the Tipple Inn.

2. Where is the project taking place?

Collingbourne Kingston

3. When will the project take place?

ASAP

4. Please outline:

- **Community benefits**
- **Evidence of need**
- **Links to Community Plan**
- **Community Issue**

The benefits are access to the whole community to a defibrillator for use in emergency life threatening situations. The area has a long history of slow ambulance response times and the community would be reassured by the presence of the device.

Area Board Project/Councillor Initiative

5. What is the desired outcome/s of this project?

To supply and fit one community defibrillator at the Tipple Inn, Collingbourne Ducis.

The community defibrillator will readily available for use in emergency life threatening situations.
