No

12. If so, which Area Boards?

13. Please tell us WHO will benefit and HOW they will benefit from your project benefit your local community?

The objective of the Colerne Skate Park Project is to provide a safe and appropriate environment for skateboarding, in-line skating, scooter and BMX biking for the residents of Colerne and surrounding areas. This facility is to be free at the point of access and open to all. The provision of a skate park will promote healthy, sport driven activity for young people who may not be involved in team sports and thereby help reduce the incidence of obesity in children. The nearest similar facilities are in Bath (8 miles) or Marshfield (5 miles). There is a limited bus service to Bath (£5 child return), but no public transport to Marshfield. Neither of these places are a viable option for after school use. A local facility would support parents and families as it would provide an easy to get to activity for young people. Our project team has included the young people of the village in the fundraising and design of the skate park and we hope this will help them to achieve their potential by taking part in active citizenship. We anticipate that by being included in the project from the start, the youngsters will feel ownership of the facility and this will reduce anti-social behaviour.

14. How will you monitor this?

Once delivered the skate park facility will be adopted and maintained by Colerne Parish Council. They routinely inspect the Recreation Ground where the skate park is to be located.

15. If your project will continue after the Wiltshire Council funding runs out, how will you continue to fund it?

Colerne Parish Council has agreed to adopt and maintain the skate park once it is completed.

16. If this application forms part of a larger project (eg. building of new village hall), please state what this project is and approximately how much the overall project will cost.
