

D	Category	Division	Summary of Issue	Status – most recent update
406	Car Parking	Malmesbury	Residents Parking in Malmesbury	The Local Transport Plan Car Parking Strategy public consultation will take place 12 July - 3 September 2010, when the issue of residents parking can be voiced. This will enable the council to identify whether there is any call for such a scheme in Malmesbury. The preferred method of communication is for comments to be submitted on line at http://consult.wiltshire.gov.uk/portal . (accessible from 12 July). A reference copy of the report will also be available from all Wiltshire libraries. The council will feedback to Area Boards in the autumn and any changes introduced will commence from April 2011.
442	Car Parking	Malmesbury	Noisy vehicles in town & long stay car park	End of February 2010 - white lines completed. End of March 2010 - trees pruned around the lights. End of May installation of modern, efficient white lights and new lamp covers, completing a range of actions agreed by the Area Board in conjunction with the police, antisocial behaviour officers and local residents.
443	Car Parking	Malmesbury	Anti-social behaviour in Station Road Car park	End of February 2010 - white lines completed End of March 2010 - trees pruned around the lights End of May installation of modern, efficient white lights and new lamp covers, completing a range of actions agreed by the Area Board in conjunction with the police, antisocial behaviour officers and local residents.
655	Car Parking	Malmesbury	St Joseph's School seek parking permits for Cross Hayes when dropping off children	The Local Transport Plan Car Parking Strategy public consultation will take place 12 July - 3 September 2010. The preferred method of communication is for comments to be submitted on line at http://consult.wiltshire.gov.uk/portal (accessible from 12 July). A reference copy of the report will also be available from all Wiltshire libraries. The council will feedback to Area Boards in the autumn and any changes introduced will commence from April 2011.
273	Highways	Malmesbury	Poor condition of roads in Malmesbury	Boundary marker across top of Gloucester Road at the Triangle was repaired in January 2010. Speed bumps review being undertaken by Malmesbury Town Council in conjunction with Malmesbury & Villages Community Area Partnership. The findings will be presented to the Area Board. General repairs will form part of the prioritisation for the 2010/11 minor roads maintenance programme.

334	Highways	Minety	Safety at North End Crossroads, Ashton Keynes	The coroner did not make any recommendations to Wiltshire Council to carry out improvements at this junction. The issue has been forwarded to officers in the council for their consideration in respect to the roads programme.
426	Highways	Minety	Speeding traffic in Minety	Silver Street does meet the criteria for Community Speedwatch, however the Parish Council has advised there is insufficient interest in the village to participate at present. They are also in the process of investigating alternative approaches to speed control, with neighbouring parishes. Parish Council requested that the issue remained live for the time being.
430	Highways	Malmesbury	Poor road conditions in Malmesbury	Roads mentioned have been reviewed and while they may be uneven, they are structurally sound, which is the most important thing, so patching will be undertaken. Safety is the highest priority and roads requiring repair for safety reasons will always be given priority.
438	Highways	Malmesbury	Remove or replace speed bumps in the town	Questionnaire being produced by the Town Council and Malmesbury & Villages Community Area Partnership (M&VCAP). It will address speed bumps in addition to other highways matters.
440	Highways	Malmesbury	Disabled Access in Malmesbury	Access from Oxford Street into Market Lane has been resolved with the installation of double yellow lines which stop cars from blocking Market Lane. Questionnaire being produced by the Town Council and Malmesbury & Villages Community Area Partnership (M&VCAP) is also likely to reveal where additional dropped curbs are necessary in the town.
562	Highways	Malmesbury	Crossing needed on Tetbury Hill Road near Filands.	No further progress at present.
609	Highways	Malmesbury	Concerns about speeding traffic in Malmesbury	Metro count sites requested as follows 1. Webbs Way - just past the entrance to Neibull Close 2. Park Road - opposite/near to Punters House 3. Bristol Road - between Parklands junction and the mini roundabout 4. Sherston Road - between the mini roundabout and Bremilham Rise (Riverdale? the detached house) 5. Wychurch Hill. These have all been forwarded to the Camera Safety Unit for installation of metro counts over the coming months which will measure vehicle speeds.

620	Highways	Brinkworth	Footpath required in Dauntsey	A request for a footway in Dauntsey was requested several years ago. Since that time, this request has been annually assessed and considered as a potential transport improvement scheme to be funded from the Council's Local Transport Plan (LTP) funding. However, the provision of a footway has not to date been deemed to have sufficient priority to be allocated funding. It will be re-assessed in the coming weeks and in March it will be considered for inclusion in our 2010-11 Local Transport Plan works programme.
637	Highways	Malmesbury	Poor state of the roads in Malmesbury	These roads are on the list for consideration, but the priority sites for 2010/11 minor roads maintenance programme have still to be published.
656	Highways	Malmesbury	Safe Routes to St Joseph's school	Governors and Head teacher have a meeting at the end of June to discuss the proposals.
762	Highways	Sherston	HGV, speeding and lack of crossing in Corston	<p>Metro count installed in June in Corston – waiting for results.</p> <p>All requests for freight management measures, such as weight limits, are assessed using Wiltshire's Freight Assessment and Priority Mechanism. This ensures that all requests are assessed against each other using a range of scoring criteria to determine the impact that HGVs have on both the route in question and the communities that they pass through. The route has recently been assessed alongside all other similar requests but unfortunately it has not been identified as a priority route this year.</p> <p>A scheme was developed some years ago to implement a zebra crossing in Corston in the vicinity of the Village Hall and Bus Stop. During the comment period an objection to the proposal was received from the neighbouring property regarding the impact the scheme would have on a young resident. Following subsequent discussion with the Parish Council and debate at the former County Councils Environment Advisory Panel, the decision was taken not to go ahead with the crossing but to use the funding to widen the footway on the northern side between the Radnor Arms and Radnor Park as well as providing some improvement in the location of the crossing that would not have the same impact, hence the dropped kerbs, coloured surfacing and the warning signs.</p>

813	Highways	Malmesbury	Poor state of pavement on Pool Gastons Road	Excavations were carried out to the footway on Pool Gastons Road in early May. There were no problems with tree roots encountered from the beech tree in question and it was possible to level the footway at these small sections. A repair was also made to the footway directly outside no.1 Rowans in order to level the footway here. In addition the whole length of footway has been submitted on the area list to receive major maintenance.
882	Highways	Sherston	Concerns about speeding in Corston	Metro count installed in June in Corston – waiting for results.
906	Highways	Brinkworth	Poor condition of unclassified road between Lea - Cleverton	General repairs will form part of the prioritisation for the 2010/11 minor roads maintenance programme.
947	Highways	Brinkworth	Speeding traffic through Startley	Metro count to be installed.
1024	Highways	Sherston	Replacement finger post at Willesley T junction sought	Highways officers confirm that a resin finger post has been ordered for the Willesley T junction and they are awaiting delivery.
748	Planning	Brinkworth	Surface water discharge concerns on new development - Dauntsey	The Area Board considered the matter on the 12 May. It was stated that legal proceedings were being undertaken in respect to this issue so it would be inappropriate for the matter to be discussed.
749	Planning	Brinkworth	Concern that barn and other structures block floodplain - Dauntsey	The Area Board considered the matter on the 12 May. It was stated that legal proceedings were being undertaken in respect to this issue so it would be inappropriate for the matter to be discussed.
