

Services at Savernake Hospital – August 2010

Inpatients – Ailesbury Ward

There are 24 general medical beds + 4 swing beds which are used by Acute Trust when required to relieve pressures at Great Western Hospital.

Most beds are in single rooms with en-suite facilities.

There is dedicated rehabilitation on the ward, a seven day therapy service, an independent living flat and a relative's overnight room.

A doctor is present 9am-5pm Mon – Fri who works under a visiting Consultant Great Western Hospital. There are regular ward rounds.

From July 2010, and for a temporary period only, 12 of the inpatient beds have been closed while Wiltshire Community Health Services, which runs the beds, carries out an intensive recruitment and training initiative aimed at putting the staffing levels on the ward on a sustainable footing. The beds are planned to reopen in September.

Outpatient Clinics

Great Western Hospital and Wiltshire Community Health Services run a number of outpatient clinics at Savernake, including:

Audiology

Children & Adolescent Services

Chronic Wound Clinic

Diabetic Retinal Screening

Diagnostic Services

Dermatology Services

Ear, Nose and Throat Services

Gastroenterology and Hepatology Services

Gynaecology Services

Neurology

Opthalmology Services

Orthopaedic Services

Physiotherapy

Podiatry Services

Rheumatology Services

Speech and Language Services

Urology Services

X-Ray – coinciding with outpatient clinics

Mental Health Services

There are a number of services provided by Avon & Wiltshire Mental Health Partnership Trust, including:

Psychiatric Clinics for Adults

Older Adult Clinics

Drug & Alcohol Outpatient Appointments

Art Therapy Sessions

Community Teams

Savernake is a base for both the Neighbourhood Nursing Team and the Community Mental Health Team.

The Neighbourhood Team is made up of nurses, occupational and physiotherapists, and other Allied Health Professionals. The Neighbourhood Team works across the community, treating patients in their own home, or in residential or nursing home settings between 7am and 10pm.

The Community Mental Health Team carry out assessments and care for people in their own home, or other community settings with the aim of helping patients to carry on living a normal life while receiving treatment. The Team is made up of psychiatrists, community psychiatric nurses, occupational therapists, social workers and support staff. The CMHT also offers support to carers and can carry out carers assessments to make sure the right level of assistance is given to all those affected.

Eating Disorder Unit

Oxford and Buckinghamshire Mental Health Trust runs a twelve bedded specialist inpatient facility in what used to be the Farmer Unit. There is also a day care service and group and individual support services for patients and their families and carers. The service offers input from dieticians, psychologists, doctors, nurses and specialist therapists.

Patients are referred through GPs, other mental health services, general hospital physicians and other eating disorder services.

NHS General Update - August 2010

Equity and excellence: Liberating the NHS

The Secretary of State for Health, Andrew Lansley, has published a new NHS White Paper, 'Equity and excellence: Liberating the NHS', setting out the coalition Government's vision for the NHS. The White Paper is the first step towards the Government's ambition for the NHS to achieve health outcomes and quality health services that are among the best in the world.

The White Paper sets out proposals for the NHS to become a truly world-class service: a service that is easy to access, treats people as individuals and offers care that is safe and of the highest quality.

This vision puts patients at the heart of everything that the NHS does. This means giving them more choice and the information they need to be able to exercise that choice. It also means putting GPs in charge of local commissioning decisions and setting providers of health services free from top-down targets.

In order to achieve its vision for the NHS, the Government has proposed changes to the way the NHS is organised. It plans to create an independent National Commissioning Board for the NHS. The Board will allocate money to local GP consortia for them to use to commission local health services. Local

authorities will take on responsibility for public health and health improvement, currently held by primary care trusts.

As a result of these changes, the Government expect PCTs to cease to exist from 2013 in light of the successful establishment of GP consortia. It is also planned that strategic health authorities will no longer exist from 2012/13. In the meantime, these organisations will have important roles to play in supporting the NHS through a period of change.

For NHS Wiltshire, this means getting ready to ensure we have a safe and effective transfer of responsibilities to GP consortia and Wiltshire Council. It also means making sure that we maintain our focus on securing safe and effective services that deliver value for money and which are as good as they can be.

A number of more detailed, supporting documents have been and will continue to be issued in the following weeks as part of the White Paper consultation process. Details are set out below about how you can forward your comments for the consultation.

Wiltshire Community Health Services

The White Paper also makes it clear that the Government's commitment to separating NHS provider functions from the commissioning part of Primary Care Trusts is unchanged. The commitment stands that by 1 April 2011, Primary Care Trusts will have divested themselves of directly-provided services. This has a direct implication for the Wiltshire-wide, individual services currently provided by Wiltshire Community Health Services, as well as the clinical and nursing staff employed by Wiltshire Community Health Services.

As a consequence, the Board of NHS Wiltshire agreed at its Board Meeting on 21 July 2010 to put in place appropriate commissioning arrangements to transfer Wiltshire Community Health Services to other NHS organisations. In order to preserve the strengths of the services, the plan is that the transfer will happen in 'clusters'.

- Cluster 1: Maternity managed transfer to a NHS Trust capable of securing on-going employment for front-line staff on NHS pay and conditions. The resultant contract will have a 3-year term.
- Cluster 2: Children managed transfer to a NHS Trust for a period of two years with the strategic intent of maintaining the integrated working with Wiltshire Council.
- Cluster 3: Miscellaneous –The PCT will pursue the transfer of each of these services via the appropriate contractual arrangements, as outlined in the option appraisal.
- Cluster 4: Adult Services managed transfer to an NHS organisation capable of securing on-going employment for front-line staff on NHS pay and conditions. The resultant contract will have a 3-year term.

Expressions of interest will be received from other NHS provider organisations, including Great Western Hospital, Royal United Hospital, Bath and Salisbury Foundation Trust. In considering the proposals from these organisations, NHS Wiltshire will look at how they propose to continue delivering the high-quality clinical services which WCHS staff currently provide and to build on the successes of these services. This is likely to result in the transfer of frontline clinical staff into the relevant NHS organisations.

Reduction in management costs

The Coalition Government has asked for a 45% national decrease in NHS management costs by the end of 2013, linking to new models of working and shifts in commissioning responsibilities. NHS Wiltshire is therefore reviewing corporate teams and structures across HR, finance, IM&T, PALS and Communications teams, reducing the number of posts in each area. Redundancies will be made by 31 March 2011.

Stakeholder Assembly - Delivering Value for Patients

Nationally, the NHS is looking at ways to deliver more efficient ways of working in the future. In Wiltshire, we are working on more than 50 projects, led by local clinicians and PCT staff, to deliver savings which can be re-invested in front-line services to manage the increasing demand from our ageing population, new technologies and new medicines. The projects were shared with stakeholders, including colleagues from the voluntary sector, patients groups, Wiltshire Involvement Network and Wiltshire Council at our Stakeholders Assembly at the end of June. The feedback we received supports the work we are doing and the Borrad of NHS Wiltshire has agreed thirteen priority projects which Hill be the focus of work over the next six months so that we Stara to deliver savings from the beginning of 2011/12.

The next Board meeting will be held on **29 September 2010**, **venue to be confirmed**.

Papers are published a week before the meeting on www.wiltshire.nhs.uk or on request from Stacey Saunders, NHS Wiltshire (tel: 01380 733839, email: stacey.saunders@wiltshire.nhs.uk). For further information or copies of documents referred to above, please contact Jo Howes, Community Engagement Manager, 01380 733929 or jo.howes@wiltshire.nhs
