

Salisbury Community Area Waiting Restriction Requests

Year Received	Location	Request	Supported by SCC	SCC Priority	Comments
2020	Cornwall Road	Removal of a residents parking bay in front of a recently installed dropped kerb access	Yes	N/A	
	Devonshire Road	Removal of residents parking bays in front of two recently installed dropped kerb accesses	Yes	N/A	
	Hulse Road	Removal of a residents parking bay in front of a recently installed dropped kerb access	Yes	N/A	
	Endless Street	Removal of a residents parking bay in front of a dropped kerb access to a garage	Yes	N/A	<p>A residents parking bay was installed in front of the dropped kerb in question in 2017 on the basis that the garage is clearly not being used to park a vehicle and under the council's terms and conditions for issuing residents parking permits is too narrow to be considered a garage that the council would expect to be used for the parking of a vehicle.</p> <p>The length of the dropped kerb in front of the requestor's garage is much wider than the access to the garage itself and removing parking from in front of the dropped kerb would result in the loss of two parking spaces in Endless Street.</p> <p>As there have been no changes to the situation in respect of this location from when the parking bay was originally provided it is suggested the existing parking arrangements are kept in place at this time.</p>
