

AGENDA SUPPLEMENT (1)

Meeting: Cabinet

Place: The Kennet Room, County Hall, Bythesea Road, Trowbridge, BA14 8JN

Date: Tuesday 17 September 2019

Time: 9.30 am

The Agenda for the above meeting was published on 9 September 2019. Additional documents are now available and are attached to this Agenda Supplement.

Please direct any enquiries on this Agenda to Stuart Figini, of Democratic Services, County Hall, Bythesea Road, Trowbridge, direct line 01225 718221 or email stuart.figini@wiltshire.gov.uk

Press enquiries to Communications on direct lines (01225)713114/713115.

This Agenda and all the documents referred to within it are available on the Council's website at www.wiltshire.gov.uk

5 **Public participation and Questions from Councillors** *(Pages 3 - 110)*

Requests to read statements and ask questions have been received from:

1. Colin Gale – Statement from Pewsey Community Area Partnership (PCAP)
2. Christopher Humphries – Questions about Becky Addy Wood
3. Lou Barry – Questions about Becky Addy Wood
4. Bill Jarvis – Questions from Extinction Rebellion

DATE OF PUBLICATION: 16 September 2019

Wiltshire Council

Cabinet

17 September 2019

Question from Christopher Humphries

**To Councillor Toby Sturgis – Cabinet Member for Spatial Planning,
Development Management and Property**

Statement and Question:

Becky Addy Wood is ancient woodland with rich, rare and endangered biodiversity. It would be hard to find a wood in Wiltshire that is as rich in biodiversity and has as many species of endangered bats, red-listed and ground-nesting birds, and as much rare flora. These are the reasons why the wood is covered by a large number of environmental protections.

The Woodland TPO is one such protection. By definition, a Woodland TPO protects in law the entire wood. This includes all trees ... all saplings ... all seedlings ... however small.

There is overwhelming photographic evidence that motorbike events have caused serious short- and long-term damage to the woodland – a woodland that also has to regenerate itself as a result of Ash Dieback. It stands to reason that the impact of dozens of motorcyclists riding across a fragile woodland terrain has a deleterious impact on the wood and the wildlife it supports.

A very large number of conservation bodies, groups and individuals are extremely concerned about the use of Becky Addy Wood by West Wiltshire Motor Club for their motorbike events. The conservation bodies and groups in question include the Cotswold AONB, the Woodland Trust, the Wiltshire Wildlife Trust, and the West Wiltshire CPRE. Councillors Kidney, Groom, Matthew, De Rhe Philippe and Kay have also expressed their concern. Natural England have also advised that it may be necessary to contact Wiltshire Wildlife Crime Officers if there are grounds to believe that wildlife or habitat could be disturbed or damaged by such events.

Becky Addy Wood is the least appropriate place in which to hold motorbike events. The event scheduled on 6th October or on any subsequent date - at any time of the year - would cause further and unnecessary damage to a precious wildlife habitat, which Wiltshire Council has a legal and moral duty to protect. There is no need for any further impact assessment.

Furthermore, the IPBES intergovernmental report earlier this year – the most comprehensive of its kind ever – calls on all levels of government to take urgent, radical and transformative action to address the alarming decline in the health of the world's wildlife and biodiversity.

It is time for Wiltshire Council to finally enforce with immediate effect the Article 4 Direction to ensure the protection of this woodland and its wildlife and to ensure that the Council fulfils its duty of care.

Will the Cabinet please ensure that this is done?"

Response:

The site is currently designated by DEFRA as Ancient Semi Natural Woodland and **there is not an Article 4 Direction currently imposed on this site.** As you are aware the effect of such a direction would be to remove permitted development rights to hold meetings of the type described.

My officers have been instructed to monitor activity on this site to determine if enforcement action would be both expedient and appropriate in terms of controlling any damage and preventing further damage from occurring. The bar for action under the TPO legislation is very high and requires proof of wilful damage to a tree in such a manner as to be likely to destroy it.

I have also instructed my officers to look at the imposition of an Article 4 Direction and to report back to me with their conclusions as soon as possible. In order to bolster the case for imposing an Article 4 Direction we need to be able to demonstrate that sufficient harm has occurred to justify the removal of permitted development rights

The imposition of an Article 4 Direction would be more likely to act to prevent damage occurring and my officers have been instructed to report back to me as soon as possible on how we can impose such a Direction in the shortest possible time and if this can be done prior to the event on 6th October although this will expose the Council to the potential liability to pay compensation for a cancelled event

Wiltshire Council

Cabinet

17 September 2019

Questions from Lou Barry

**To Councillor Toby Sturgis – Cabinet Member for Spatial Planning,
Development Management and Property**

Question 1:

Is it true that Wiltshire Council (WC) is proposing to allow yet another West Wiltshire Motor Club motor-bike event to go ahead in Becky Addy Wood on October 6th 2019, despite the evidence of damage which:

- has been photographed minutely by myself, in my capacity as WC Volunteer Tree Warden
- has been corroborated by Arboricultural and Landscape Officer David Wyatt and
- has been both predicted and witnessed on the ground by many individuals and environmental bodies (Viz. plentiful correspondence and statements from CAONB, Woodland Trust, Wiltshire Wildlife Trust, CPRE and your own Councillors)?

Response:

It is the Town and Country Planning (General Permitted Development) Order that “allows” this development to take place as ‘permitted development’.

Wiltshire Council can remove certain permitted development rights by Article 4 Directions. However, planning guidance states that - “*the use of Article 4 Directions to remove national permitted development rights should be limited to situations where this is necessary to protect local amenity or the wellbeing of the area. The potential harm that the direction is intended to address should be clearly identified”.* Accordingly, and at this time, officers are continuing to work to identify the potential harm, and this will include by monitoring and gathering ‘evidence’ at the scheduled, near future event.

Question 2:

and if so, given that **the whole of** Becky Addy Wood is protected by

- Defra *ANSW status and hence the NPPF (July 2018)

- TPO /07/00013/WOOD 2007, **protecting all the wood's tree seedlings however small**
- Bath and BOA Bat *SAC
- *CAONB,

I'd like to ask what Environmental Impact Screening has been done to show that WWMC events would not/do not cause damage to the woodland, its biodiversity and ultimately to the Landscape of the Avon Valley (due to the interference with natural regeneration of the woodland) - damage that Wiltshire Council has the power to prevent?

Please could I see a copy of any Environmental Impact Screening report that has been carried out in respect of any WWMC event over the past decades up to and including the proposed 6th Oct 2019 event.

Response:

The temporary use of Becky Addy Woods for motorcycling events does not involve development listed in either Schedule 1 or Schedule 2 of the Town and Country Planning (Environmental Impact Assessment) Regulations. It follows that there is no requirement under this legislation for the development to be 'screened' to determine whether significant effects on the environment are likely and hence whether an Environmental Impact Assessment is required.

Wiltshire Council

Cabinet

17 September 2019

Questions from Extinction Rebellion

To Councillor Richard Clewer – Deputy Leader and Cabinet Member for Corporate Services, Heritage, Arts, Tourism, Housing and MCI

Originally supplementary questions from Environment Committee meeting 3rd September 2019

The questions below, developed by members of the public, were originally intended for the Environment Committee. At that meeting we were told that they were more appropriate to the Cabinet and so we are submitting them to you for the meeting of 17th September.

Note, the original questions and answers were included in the “Public Pack, Supplement 2” of Environment Select Committee of 3rd September 2019. We have not included these to avoid a long document.

A number of us will not be able to attend but we would appreciate answers to all the questions

Question 1:

Bill Jarvis

Commitment to 2030

Your response states ***“the council will seek to make Wiltshire Council’s administrative area carbon neutral by 2030”***

This is very different from the original February resolution which stated the Council would (Item 2) ***“Seek to make the County of Wiltshire carbon neutral by 2030”***

Please confirm that this will remain your commitment.

We suggest that to avoid ambiguity and to make it clear the Council is only responsible for the County of Wiltshire, the text is changed slightly to **“Seek to make the County of Wiltshire, excluding the Borough of Swindon, carbon neutral by 2030”**

We would appreciate it if a press announcement was made confirming your commitment to the whole county becoming carbon neutral by 2030

Response:

It remains our commitment to seek to make the county of Wiltshire carbon neutral by 2030. The proposed terms of reference of the Global Warming and Climate Emergency Task Group were reported to Environment Select Committee on 3 September and included

1. Develop recommendations and a plan to seek to achieve the target of making the county of Wiltshire, excluding the area administered by Swindon Borough Council, net carbon neutral by 2030.

Question 2:

Lucy Vigar

Commitment to Tree planting in the County and % of Government target fulfilled by Wiltshire Council

We see no reason that this question should have been passed to Highways.

The question directly relates to carbon sequestration and the Council's commitments. The Climate Emergency Task Group working group, "Land Use" is the team to address this question, not Highways and Waste, which has no direct remit yet on carbon sequestration, as far as we know.

Please explain the logic.

Response:

Highways covers a wide range of services including managing the council's trees, both on and off the highway, so would be best placed to answer your original question. The task group is considering land use as one of its themes but does not have a working group. The members of the task group will work

with the relevant cabinet members and officers to ensure a response is provided to the question asked.

Question 3:

Jeremy Wire and Adrian Temple Brown

Communication with the community, Councillors and Council Officers.

We previously suggested a series of community workshops to inform and gain ideas on things to be done. You then proposed that these be run with the Area Boards. If they are, then they really need to be dedicated events and well advertised. Please advise your plans.

The only Councillor to have positively set up a community meeting is Cllr Oldrieve and we thank him for that.

We wonder why others are not doing it and how the outcomes will be fed back into the Task Group? Will you be carrying out more of these with local communities?

To suggest that a full climate emergency discussion can take place at the full Council meeting is an excellent idea, however it would take the whole meeting and wouldn't include officers and other Council staff who surely need to join in the debate.

A dedicated Council workshop with experts to provide background and proposals would avoid the pressure of other Council business and enable proper open debate. Would you consider this?

We are happy to help facilitate such a workshop.

Response:

A number of the Wiltshire Area Boards are working collaboratively to provide environmental and climate change focussed events over the coming months. Area Boards in Amesbury, Royal Wootton Bassett and Cricklade, Salisbury and Southern Wiltshire are already scheduled (dates below). These will be dedicated events promoted by the respective Community Engagement Managers and local partners. Many other areas have started the planning process to have similarly themed meetings and events in 2020.

Salisbury: Monday 4 November.

Amesbury: Thursday 21 November

RWB and Cricklade: Wednesday 27 November

Southern Wiltshire: Thursday 28 November

Climate Change is an agenda item on the Area Board Chairs Meeting on the 16 September 2019. Councillor Wright as chair of the Global Warming and Climate Emergency Task Group will brief the chairs of the Area Boards and discuss how communities could be engaged in carbon reduction across the county through Area Boards.

Question 4:

Sarah Prinsloo

Public lands sale. Why, in an emergency sell Council land that could deliver carbon benefits to the County

We are in an EMERGENCY. Selling the family silver (trading land) will absolutely take away assets vital for climate mitigation.

It may even be that the Council needs to acquire land to support climate mitigation measures such as you mention.

Please reconsider this issue.

Carbon footprint from housing

This question is not answered at all and so we repeat it here.

Will the Council confirm that in calculating the carbon footprint for the County, it will include construction emissions, which account on average for 50% of a buildings lifetime Carbon emissions?

Can the council also please address how it will manage to achieve net zero in light of this, including plans to repurpose old buildings, rather than demolishing and rebuilding.

Do you know what the likely carbon footprint of your future developments is going to be?

Response:

Public Land Sale

As stated previously, the council has a programme of asset disposals to generate capital receipts to help finance council services. Therefore, we cannot give an assurance that we will not dispose of public land in the future as that could jeopardise the council's ability to deliver services to the people of Wiltshire. However, council officers will imminently be bringing forward proposals where use of council land to generate renewable energy not only address that issue but will also provide a return from the asset comparable to that which could be achieved from a sale. The council will consider carbon mitigating measures on its land which may not generate a financial return such as tree planting, and would be keen to work with the communities in Wiltshire to see how that could be achieved.

Carbon Footprint from Housing

As previously stated, the council's control of development in Wiltshire is achieved through the Development Plan i.e. the Local Plan and any 'made' Neighbourhood Plans and their planning policies in the context of the National Planning Policy Framework (NPPF) and the National Planning Practice Guidance. The Local Plan update will include the most recent changes to guidance that require development to demonstrate a biodiversity net gain and wider environmental net gain and hence to further demonstrate that development will be carried out in the most sustainable way. It will be difficult to know the likely carbon footprint of future developments until the developments come forward. The Local Plan can also implement policies to make developers more energy sustainable subject to approval by a Planning Inspector.

The council intends to develop an ambitious council house build programme over the next ten years to help meet the affordable housing needs of Wiltshire. As part of that plan our ambition is to seek to achieve carbon neutral development where possible and economic. We are in the process of researching that in the light of our development opportunities. The programme will include the purchase of some existing dwellings which will then be refurbished to improve the carbon footprint. The council will seek to replace heating systems in its council housing with more efficient systems to reduce the carbon footprint but also to allow its customers to run their homes at reduced cost. In addition, the council will be developing a programme to increase the production of renewal energy from its estate, increase insulation and reduce water usage again to reduce its carbon footprint.

Question 5a:

Elizabeth Roberts -further questions

The Council declared a Climate Emergency in February; why have emergency powers not been put in place to make this issue the absolute priority for all Council departments and business?

Response:

The Council as a unitary authority provides over 230 public services for the residents of Wiltshire within the county of Wiltshire excluding the area administered by Swindon Borough Council. The Council by its resolution in February 2019 acknowledged that there is a 'climate emergency' and confirmed that the Council would seek carbon neutrality by 2030. By this resolution the Council identified to all Council departments and services the pressing need to secure change to its residents to avoid the consequences of climate change.

Having regard to the fact that the pressing need has been communicated and is being actioned and to the fact that the Council also faces other pressing needs within the services the Council sees no basis, at this stage, to elevate this pressing need to use of the exercise of emergency powers.

Question 5b:

Given the predictions by scientists relating to a likelihood of mass crop failure on a global scale due to a changing climate, what are the Council's plans to cope with possible food shortages?

Please could the Council share their Disaster Preparedness Plan and inform us as to whether this has been amended to take into account the Declaration of a Climate Emergency.

Response:

Any response to mass crop failures would be led at a national level by the Department of Environment, Food and Rural Affairs (Defra).

Defra would work with the entire range of farming, food manufacturing, distribution and retail companies to provide a sustainable food supply. It is likely that Wiltshire Council would be required to coordinate and lead actions at a local level based on national plans.

A copy of the Wiltshire Council Integrated Emergency Management Plan is attached which details our response to emergencies and major incidents. The Plan focuses on the response and recovery phases as well as corporate business continuity. It does not contain specific reference to the Declaration of a Climate Emergency, however some potential outcomes which could result from climate change, e.g. increased flooding and disease outbreaks could provide circumstances where the plan would be enabled. Responses to such outcomes would be managed in line with national and regional plans issued by national agencies such as Defra, the Cabinet Office and the Environment Agency.

Wiltshire Council

Integrated Emergency Management Plan

Wiltshire Council's Business Plan has the stated aim of creating safe and resilient communities. From experience, we know that it is during an emergency that communities often stand strong and demonstrate their resilience most effectively.

Wiltshire Council recognises its duty in identifying risks and planning for emergencies. This cannot be done in isolation, and any major incident will require all our partners and communities to work together to overcome the challenges that collectively face us.

This Integrated Emergency Management Plan is a best-practice approach to preparing for emergencies, which will assure partners and communities that Wiltshire Council has planned, and is prepared, for major incidents. The Plan replaces three previous plans, and will align the organisation to the highest national and international standards for Major Incident Response, Business Continuity and Recovery.

In the last few years, Wiltshire Council has worked closely with partners to deal successfully with snow, outbreaks of contagious disease, large fires, unexploded bombs, Foot and Mouth, pandemic influenza and in 2013/14 the most severe floods in a generation. This document is driven by our desire to continuously improve, and to serve our communities in the most effective and efficient way possible.

Policy

Major Incident Plan

Business Continuity Plan

Recovery Plan

1.1 Wiltshire Council Commitment

Wiltshire Council recognises the importance of its role during emergencies and incidents, and is fully committed to protecting the residents, businesses, infrastructure and environment of the county. It will fulfil this duty by working closely and effectively with partner agencies to prevent and manage major emergencies through anticipation; assessment; prevention; preparation; response; and recovery.

Business Continuity supports the organisation to ensure that resources are effectively deployed to maintain and recover services through disruption. It is essential that business continuity is considered an integral part within each service of Wiltshire Council.

Policy

1.2 Role of Wiltshire Council

Wiltshire Council's responsibilities are:

- to support the emergency services and those agencies engaged in the response to an incident
- to lead in certain major incidents
- to provide a co-ordinated response for all council resources
- to lead in community resilience, reassurance and the provision of information and advice
- to activate and co-ordinate the response of the voluntary agencies, utilities and other supporting agencies
- to provide transportation and suitable temporary accommodation for survivors, evacuees, friends and relatives, etc.
- to provide and equip suitable premises for use as emergency mortuaries and body holding facilities
- to provide, on request, a media centre
- to provide emergency catering
- to provide, on request, engineering, highways, environmental health, communications and appropriate specialist support services
- to maintain service delivery in line with Business Continuity Management procedures and ensure a return to normality as soon as possible
- to provide Business Continuity advice to Wiltshire businesses
- to lead the recovery operation to restore the community, its facilities and infrastructure.

Major Incident Plan

Business Continuity Plan

Recovery Plan

1.3 Policy Leadership

The policy framework for Emergency Planning and Business Continuity is agreed by Full Council of Wiltshire Council.

The Integrated Emergency Management Plan is endorsed and promoted by The Corporate Leadership Team for use by all staff of the Council.

It is recognised that Corporate and Tactical On-Call Officers are permitted to act outside the parameters of the policy (if they are required to do so in extreme circumstances). In such circumstances they must document the reasons for operating outside the policy.

1.4 Scope, Aim and Objectives

1.4.1 Scope

Includes:

- Wiltshire Council response arrangements for a major incident
- Business Continuity Management both internally and for local businesses
- Leading the recovery phase of an incident.
- This policy will not impact on day to day running of the council,

1.4.2 Aim

Wiltshire Council will ensure preparedness and commitment to providing an appropriate response to incidents affecting residents, businesses, infrastructure or the environment whilst ensuring that it delivers business critical services.

1.4.3 Objectives

We will do this by:

- Protecting life and the health of the public in Wiltshire
- Looking after our vulnerable residents
- Protecting the environment
- Protecting property
- Protecting the economy
- Working collaboratively with Category 1 and 2 Responders, and other organisations that may be required from time to time to assist in response.
- Providing information to the public that will enable them to prepare and help their community in an emergency
- Preparing the council and businesses with Business Continuity support

1.5 Equalities and Human Rights

In the development of this plan, and during the implementation of this plan, all staff will have regard to The Equalities Act and take into account relevant Articles of the Human Rights Act.

1.6 Legislative Framework

The following legal areas are the subject of this policy:

- Civil Contingencies Act 2004
- Health and Social Care Act 2012 s46 and s47
- The Control of Major Accident Hazards Regulations 1999

- The Pipeline Safety Regulations (PSR) 1996
- Radiation (Emergency Preparedness and Public Information) Regulations 2001
- The Reservoirs Act 1975
- The Public Health Act 1936

The following non- statutory guidance is available for emergency planning:

- Emergency Preparedness (Cabinet Office)
- Emergency Response and Recovery (Cabinet Office)
- Guidance on dealing with fatalities
- Expecting the unexpected: Business continuity in an uncertain world
- Recovery – An emergency management guide

1.7 Administration of the Incident Response, Business Continuity and Recovery

Arrangements are in place for emergency preparedness, resilience and response which:

- Have a change control process and version control
- Take account of changing business objectives and processes
- Take account of any changes in the organisations functions and/ or organisational and structural and staff changes
- Take account of change in supplier and contractual arrangements
- Take account of any updates to risk assessments
- Have a review schedule
- Use consistent unambiguous terminology
- Identify who is responsible for making sure the policies and arrangements are updated, distributed and regularly tested
- Policies and plans will be distributed and made available to relevant staff
- Have a process for identifying reporting and implementing lessons following exercises, emergencies and /or business continuity incidents.
- Include references to other sources of information and supporting documentation

1.8 Assurance Standards

1.8.1 Wiltshire Council will align its Integrated Emergency Management delivery to best practice nationally. This includes:

- Nationally accepted standards promoted by the Cabinet Office in its Guidance on part 1 of the Civil Contingencies Act 2004, its associated regulations and non- statutory arrangements.

Policy

Major Incident Plan

Business Continuity Plan

Recovery Plan

- Maintaining standards that align to the NHS England Core Standards for Emergency preparedness, resilience and response.
- National Occupational Standards for Civil Contingencies, developed by Skills for Justice
- Align with BS 11200, which sets standards for Crisis management
- Align with the internationally recognised standard for Business Continuity ISO22301.
- Chief Executives Guidance for Local Authorities (Solace)

1.8.2 Heads of Service are expected to certify on an annual basis that they are able to meet Business Continuity requirements; this process will be incorporated into normal corporate reporting cycles. Following each review, notice will be given to the Strategic On-Call Officers, and to the Emergency Planning Resilience and Response team that the plan is fit for purpose.

1.9 Review

Wiltshire Council plans are to work in conjunction with the Wiltshire and Swindon Local Resilience Forum Emergency Multi Agency Procedures (EMAP).

Review of documents will take place on an agreed timescale, or when triggered by a significant change in the following:

- Changes in legislation
- Changes in organisational structure
- Recommendation from a post-incident debrief
- Learning from training and exercising
- Changes in national guidance
- Learning from high profile incidents that have taken place nationally or internationally
- biannual peer review with a similar authority
- triannual external review
- Training, exercising regimes
- Internal / external contact lists

It shall be the responsibility of Heads of Service to ensure that their service meets the standards required by the Wiltshire Council Business Continuity Plan.

1.10 Response and Recovery Arrangements

Wiltshire Council's arrangements for response in a major incident are stated in Section 2 of this Integrated Emergency Management Plan. Recovery arrangements are specified in Section 4 of this Integrated Emergency Management Plan.

Definition of an Emergency

The Civil Contingencies Act 2004 defines an emergency as:

Policy

Major Incident Plan

Business Continuity Plan

Recovery Plan

“An event or situation that threatens serious damage to human welfare, the environment, or war or terrorism which threatens serious damage to the security of the United Kingdom”.

Damage to human welfare can be defined as involving one or more of the following:

- loss of human life
- human illness or injury
- homelessness
- damage to property
- disruption of a supply of money, food, water energy or fuel
- disruption of facilities for transport
- disruption to health services

Damage to the environment can be further defined as:

- contamination of land, water or air with biological, chemical or radioactive matter
- disruption or destruction of plant or animal life

Definition of a Major Incident

A major incident is an emergency that requires the implementation of special arrangements by one or all of the emergency services, the NHS or the local authorities and will generally include some of the following features:

- the involvement either directly or indirectly of large numbers of people
- the handling of a large number of enquiries likely to be generated both from the public and the news media, usually made to police
- the initial treatment, rescue and transportation of a large number of casualties
- the need for a large scale combined resources of the police, fire and rescue service and ambulance service
- the mobilisation and organisation of the emergency services and supporting agencies, for example the Local Authority, to cater for the threat of death, serious injury or homelessness to a large number of people.

1.11 Continuous Improvement

Corporate Resilience Group

The Corporate Resilience Group will be established to facilitate business continuity and emergency planning learning and development across Wiltshire Council. The group will be chaired by an Associate Director and will be administered by the Emergency Planning Resilience and Response Team. The group will include representation by Head of Service or a nominated deputy from Priority 1 Services and other services that are required. The terms of reference for the group can be found in Appendix E.

Policy

Major Incident Plan

Business Continuity Plan

Recovery Plan

Debrief

The debriefing of staff following the response to an incident is likely to be one of the most effective methods of capturing information to identify lessons following an emergency. The debrief will allow staff to pass on relevant information and ensure that ongoing actions undertaken in the next shift or incident are as effective as possible.

There are several different types of debrief that will be used during an incident.

Shift Handover Brief

The shift handover debrief will take place when a new shift takes over the control of the incident and will provide an opportunity to share information on the progress and outstanding actions. The Situation, Background, Assessment and Recommendation (SBAR) technique provides a standard template to brief the person taking over in your role during an incident.

Hot Debrief

A Hot Debrief should be completed at the end of the shift or when a member of staff is stood down and should be used to capture information in the immediate aftermath of the incident.

Internal Debrief

Cold debriefings should be more structured, following a set agenda and should result in the production of a report on the incident response. The cold debrief allows staff to consider the response and comment on sections such as the methods used in response, an evaluation of the effectiveness of response, consider any staff welfare issues, identification of the positives and negatives associated with the response and the identification of lessons identified and key recommendations to ensure learning from the them.

Standard Agenda

The following standard agenda should be used for the cold debrief:

- Introduction
 - Attendees and Apologies
 - Overview of the incident
- Review
 - Service / Agency response (Operational, Tactical, Strategic)
 - Communications
- Staff Welfare
 - Issues or concerns
- Feedback
 - Positives
 - Negatives

Policy

Major Incident Plan

Business Continuity Plan

Recovery Plan

- Lessons identified
 - Key lessons identified
 - Recommendations to implement the changes
- Set a date to review the report

Policy

Debrief Report

Following the debrief process, a full debrief report summarising the incident, actions taken in response to resolve issues, positives, negatives, lessons identified and future recommendations should be produced.

The Strategic On-Call Officer will establish whether the report should be written externally or by the Emergency Planning Resilience and Response Team. The report will be circulated to the Resilience Group and will be discussed in future meetings to ensure learning is shared and implemented throughout the organisations.

Major Incident Plan

1.12 Record Keeping

It is essential that a comprehensive record is kept of the Council’s involvement during an incident in order to assess the effectiveness of the response.

Wiltshire Council will make available trained staff who are able to keep a log of key decisions during an incident.

To support the evidence trail it is essential that any notes, jottings or paper scraps written on during the incident are kept and as such no written information or notes should be destroyed.

Introduction

Major Incident Plan

Activation

Business Continuity Plan

Management

Action Cards

Recovery Plan

Appendices

2.1 Introduction

Purpose	The Corporate Major Incident Plan sets out the arrangements for the council's response to emergencies within or affecting Wiltshire.
Background Information	<p>The Wiltshire and Swindon Local Resilience Forum assess the highest risks that affect the partnership within the Community Risk Register. The latest version of this can be found here: www.wiltshireandswindonprepared.org.uk/community-risk-register</p> <p>This is a generic plan for mobilising staff and resources in response to an emergency and for performing council functions in relation to a wide range of possible scenarios.</p>
Emergency Definition	The definition of emergency is found in the policy section of the <i>Wiltshire Council Major Incident Plan</i> and is taken from the Civil Contingencies Act 2004.
Aim	The aim of this plan is to provide a coordinated Wiltshire Council emergency response framework.
Objectives	<p>The objectives of this plan are:</p> <ul style="list-style-type: none"> • to detail the Council's alerting and callout procedures • to define the roles and responsibilities of key staff and service areas • to detail the Council's emergency response strategy • to define the Council's incident management arrangements including the handover process from response to recovery • to detail the Council's emergency response capabilities and related emergency plans
Scope	This plan is designed to enable a response to any major incident or emergency that might arise in or affect Wiltshire and that requires the coordination of multiple services to respond. The plan is not designed to deal with 'routine' out of hours minor emergencies that fall to individual service departments, and which are dealt with by existing schemes and other procedures established and operated by services independently. The plan is not designed to replace local site or building specific procedures, such as fire evacuation plans.

2.2 Activation

Elements of this plan can be used in isolation and, as such, the whole plan does not need to be activated on every occasion. It is however best practice to stand up resources early and have to later stand down resources than have to attempt to catch-up during an incident that has escalated beyond initial expectations.

2.2.1 Incident Notification

Notification of an emergency will usually be from one of the following to the Silver/Tactical On-Call Officer On-Call:

- Emergency Services or another multi-agency partner through Operation Link
- Wiltshire Council Staff
- Neighbouring Local Authority

2.2.2 Activation Triggers

The Wiltshire Council Major Incident Plan (MIP) will be invoked in response to an incident that is or has the potential to cause the following:

- The involvement of a large number of people
- Requirement for large scale multi-agency response
- Significant number of calls or media enquiries
- Significant financial implications
- Impacts on Wiltshire Council's reputation

However the Major Incident Plan will never take the place of service arrangements for dealing with 'routine' minor emergencies.

2.2.3 Level of Incident

The Tactical On-Call Officer has responsibility for determining the initial level of Council response to an emergency and for initiating call-out procedures.

There are three levels of response:

Level	Impact	Response
Minor Incident	Minor emergency (e.g. gas / water main leak) with minimal impacts on the community or minor business continuity impact	Silver/Tactical On-Call Officer has overall management for the incident with support from emergency planning and additional services (as required)
Significant Incident	Significant incident that has not been declared a major incident or an incident which could severely impact on the local authority to deliver critical functions	Silver/Tactical On-Call Officer has overall management for the incident with significant levels of support from emergency planning, internal services and multi-agency partners which is likely to include a Tactical Coordinating Group (TCG). The Duty Gold/Strategic On-Call Officer must be briefed about the incident.
Major Incident	Major disruption to the	Gold/Strategic on call Director has

	community declared as a major incident in line with the definition in the policy section.	overall strategic management of the incident with a full strategic level response at Local Resilience Forum level. The full Wiltshire Council incident management plan to coordinate the response.

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Appendices

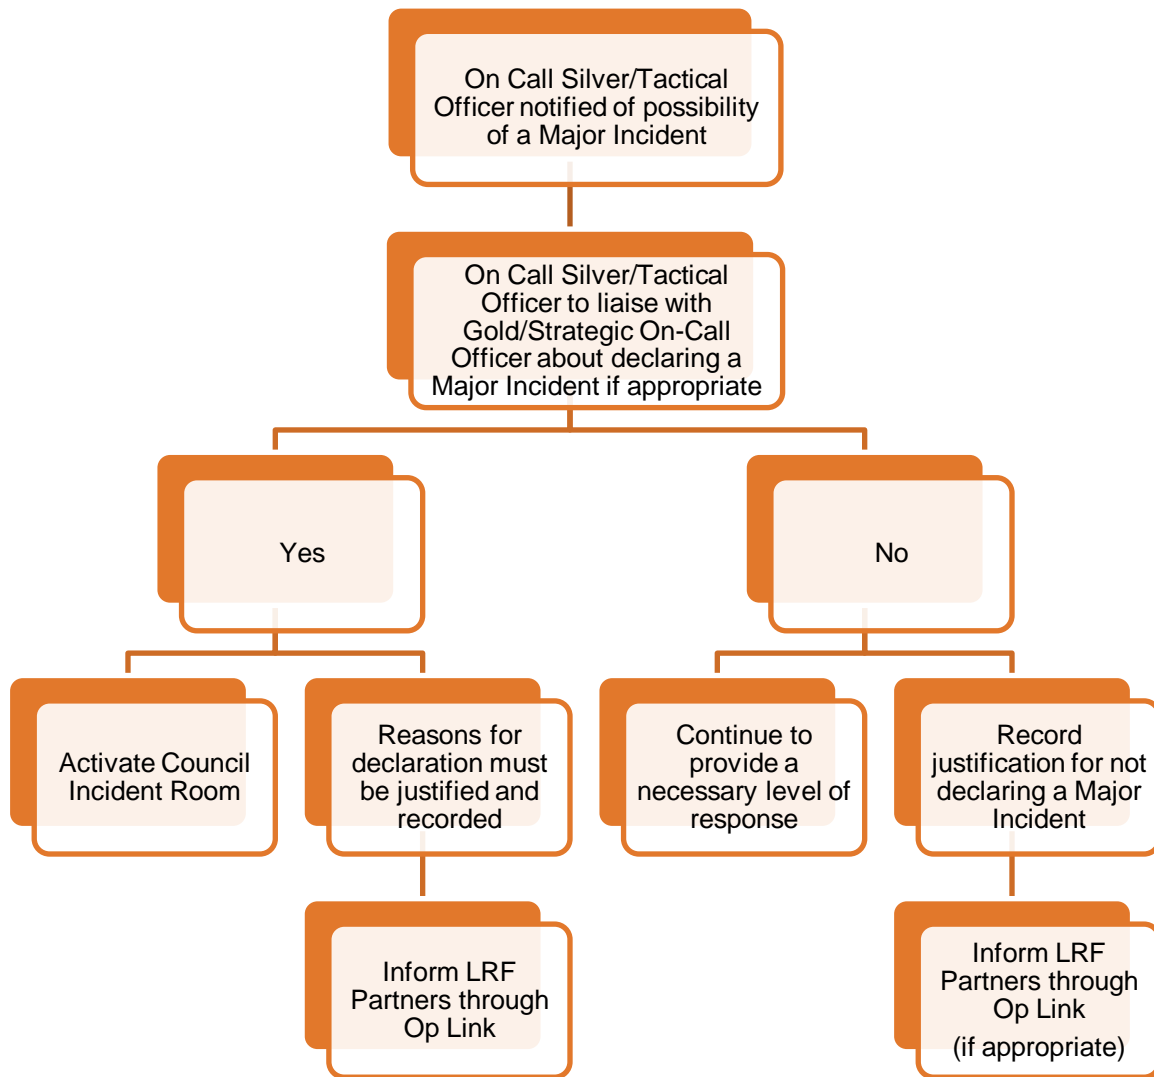

Two Phase Response Model:

The activation of the Major Incident Plan (MIP) by Wiltshire Council does not in itself constitute the declaration of a multi-agency major incident by the Wiltshire and Swindon Local Resilience Forum. Wiltshire Council may activate elements of this plan to respond to incidents that fall short of being declared a major emergency but still require a coordinated response by the local authority.

2.2.4 Activation Process

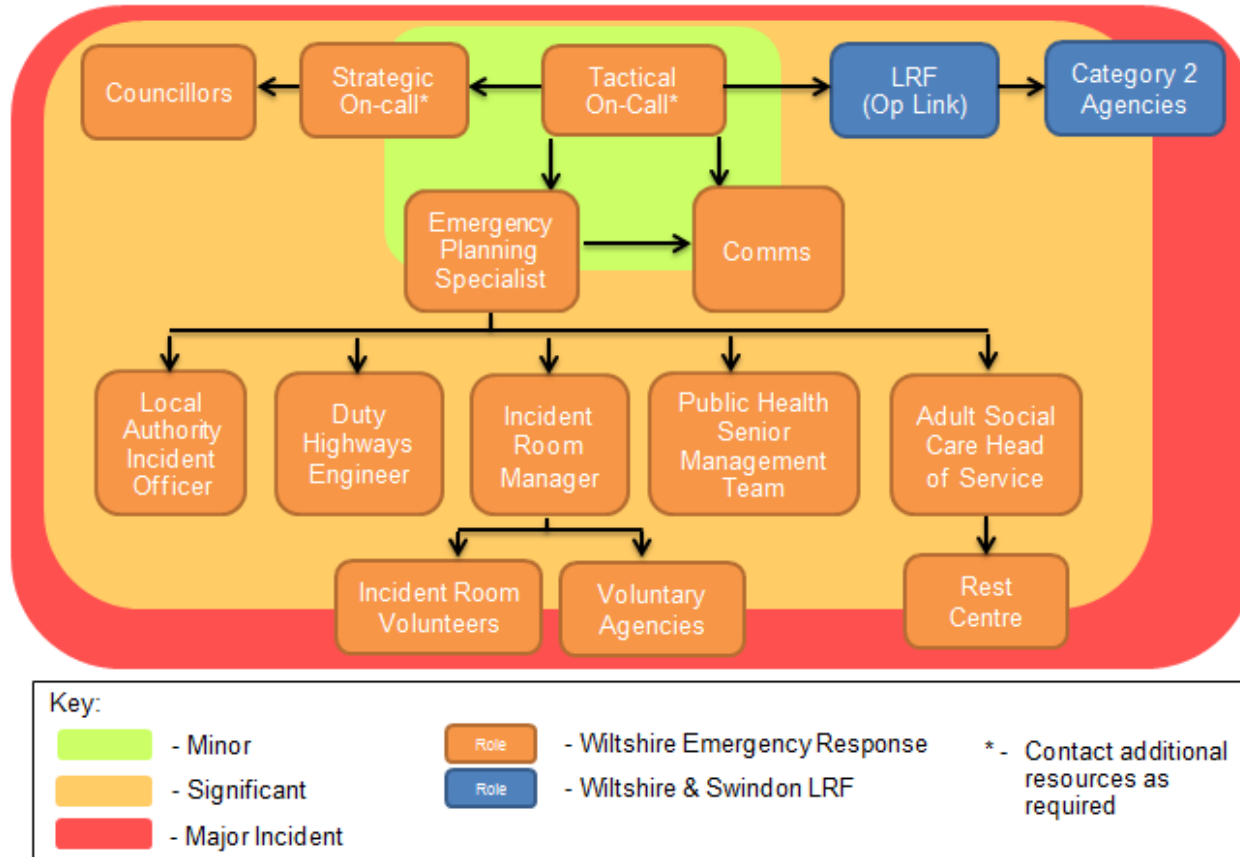

Following notification of an incident the Tactical On-Call Officer should follow the following steps to determine the appropriate level of response.

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management

2.3.2 Response Structure

Strategic Response

The Gold/strategic lead is in overall charge of the Wiltshire Council response and has responsibility for formulating the strategy for the incident. This role involves forecasting the long-term requirements of the response to the incident and for instigating the recovery process. They will be responsible for considering the Council reputation and communications strategy, whilst also maintaining oversight or finance and ensuring sufficient resources are available for response. The Duty Strategic On-Call Officer is the Wiltshire Council strategic lead.

Upon the declaration of a major incident the strategic lead will ensure that Wiltshire Council has appropriate internal and external multi-agency strategic leadership. They will therefore identify appropriate representation for the Strategic Coordinating Group and identify a lead for the Corporate Leadership Team (CLT).

Strategic Coordinating Group (SCG)

In the event of a Major Incident or emergency being declared in Wiltshire or Swindon and the SCG being activated, multi-agency Gold commanders will meet together to set the strategic direction for the incident.

SCG Sites

Primary Location	Police HQ, Devizes, SN10 2DN
Secondary Location	Gablecross Police Station, Swindon, SN3 4RB
Tertiary Location	County Hall, Trowbridge, BA14 8JN

The Duty Strategic On-Call Officer can be supported by the following roles:

Tactical Advisor	<p>Lead: Emergency Planning Specialist</p> <p>Role: To provide advice to the strategic lead and provide support in the implementation of the strategy</p>
Comms Advisor	<p>Lead: Senior Communications Manager</p> <p>Role: To provide advice and support in the development and implementation of the communications strategy</p>
Loggist	<p>Contact: Loggist</p> <p>Role: Log all the decisions and their justification made by the strategic lead. The strategic lead should speak to the loggist before the SCG to discuss how the information should be recorded.</p>

Further information on the SCG can be found within the Wiltshire & Swindon LRF Emergency Multi-Agency Procedures (EMAP) and EMAP Annex A.

Corporate Leadership Team (CLT)

The role of the Corporate Leadership Team (CLT) will be to undertake planning at a strategic (Gold) level within Wiltshire Council; forecasting the long-term impacts and

requirements for the incident and instigating the recovery process. CLT will call upon expertise from appropriate internal and external representatives.

Location

Primary Location	Pitman Room, County Hall, Trowbridge, BA14 8JN
Secondary Location	Monkton Park, Chippenham, SN15 1ER
Alternative	CLT can meet via teleconference (as required)

CLT maintain strategic oversight and provide the strategy to be implemented. The strategy will be developed in coordination with the multi-agency strategy developed at the Strategic Coordinating Group.

Led by a Strategic On-Call Officer (or nominated deputy), CLT will ensure service departments are able to manage their service delivery response to the emergency whilst continuing to maintain priority services. This may require the implementation of the Corporate Business Continuity Plan or CLT making a formal mutual aid request from neighbouring authorities.

CLT are responsible for ensuring that relevant members (e.g. Leader / Cabinet Members) are informed of the emergency and any significant developments. CLT will also assist in the preparation of visits by VIPs / MPs.

CLT will lead on the development of the communications strategy for the incident and oversee any disaster appeals that are developed in response to the incident.

CLT will lead on emergency budget management and the consideration of funding such as through the Bellwin Scheme.

Council Members

Council members will provide the primary link with affected communities. Councillors will be expected to lead on the consultation and assessment of the long-term impacts on the community. Council members should maintain support to the community; highlighting relevant gaps in service provision.

The Leader and Cabinet members will be briefed by the Strategic On-Call Officer at the earliest opportunity, with further briefings will be provided as required. The Communications Team will send all members briefings to Councillors. Requests for information on specific issues should be directed through Members services. Relevant Councillors may be required for public and press briefings.

Tactical Response

The tactical level is responsible for formulating the tactics that will be adopted by Wiltshire Council to achieve the strategy set by the SCG and CLT led by the Tactical On-Call Officer.

Council Incident Room (CIR) Manager

The Council Incident Room Manager role can be completed by a trained member of Wiltshire Council staff.

The Council Incident Room Manager will coordinate the staffing and operation of the Council Incident Room to ensure the overall coordination of the incident is maintained.

Council Incident Room (CIR)

The Council Incident Room can be activated by the Tactical On-Call Officer through Emergency Planning (in hours) or Duty Level 2 (out of hours) to support the overall coordination of the council response. The Council Incident Room team will be staffed as detailed in the Council Incident Room Plan.

Location

Primary	Location:	Westwood Room, County Hall, Trowbridge, BA14 8JN
Secondary	Location:	Monkton Room / Bewley Room, Monkton Park, Chippenham, SN15 1ER
Secondary	Location:	De La Wyle Room, Bourne Hill, Salisbury, SP1 3UZ

Role

The Council Incident Room will provide overall coordination of the Council response including the allocation of tasks to service areas, establishing a central point for information coming into the council and provision of situational updates to senior management. Further details on establishing the Council Incident Room can be found within the Council Incident Room plan.

Public Health Senior Management Team (PH SMT)

Public Health support will be coordinated through the Public Health Senior Management Team and out of hours through the duty Public Health Consultant.

The PH service will provide specialist support and guidance in response to public health issues and potential public health impacts of any incident.

Should a Strategic Coordinating Group decide to activate a Science and Technical Advice Cell (STAC) to support strategic decision making, PH SMT will arrange appropriate representation from Wiltshire Council.

Through links with the wider NHS and the Local Health Resilience Partnership (LHRP) they can mobilise local resources and may take a lead in managing a Public Health Emergency in Wiltshire.

Adult Social Care Head of Service

Welfare support can be provided through the Adult Social Care Head of Service and supporting team.

Adult Social Care will provide a coordination role in the identification of vulnerable people and staffing of welfare centres in an evacuation. They will coordinate the identification of temporary accommodation for a small number of evacuees. In the event of a large incident Adult Social Care Head of Service will coordinate staff operate Rest Centres, Survivor Reception Centres and Family and Friends Reception Centres providing registration, comfort, advice and support.

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Action Cards
	Appendices

Highways Duty Engineer

Highways, specialist equipment and contractors are provided through the Highways Duty Engineer.

The Highways Duty Engineer will coordinate the clearance of gullies, repair of highways / road structures, road closures and diversions. They lead on the coordination of specialist roles including; civil engineering advice, specialist burial and cemetery support, waste clearance and land contamination issues. They will liaise with the building team for specialist engineering advice and commissioning building recovery and securing unstable structures. They will also organise the procurement of access to specialist plant, contractors, equipment and vehicles.

Specifically in flooding events the drainage team would be called to work alongside the Highways Duty Engineers in the Operational Flood plan.

Tactical Coordinating Group (TCG)

The Tactical Coordinating Group (TCG) will be established at an appropriate location close to the scene of the incident with several suggested locations included in the Wiltshire and Swindon LRF Emergency Multi Agency Procedures Annex A. Wiltshire Council will be represented at the TCG by the Tactical On-Call Officer who have appropriate powers to implement the local authority strategy.

They can be supported by the following roles:

Tactical Advisor	<p>Lead: Emergency Planning Specialist</p> <p>Role: To provide advice and support in the implementation of the tactical response</p>
Public Health Advisor	<p>Lead: Public Health Senior Management Team</p> <p>Role: To provide public health advice and support in the implementation of the public health tactical response</p>
Comms Advisor	<p>Contact: Communications Officer</p> <p>Role: To provide advice and support in the implementation of the communications strategy and provision of messages to the public and media</p>
Loggist	<p>Contact: Loggist</p> <p>Role: Log all the decisions actions and the justification for them made by the Wiltshire Council Tactical representative</p>

Emergency Planning Specialist

Emergency Planning specialist will be provided through the Emergency Planning Resilience and Response Team in hours and out of hours the Public protection level 2 rota will call in an emergency planning specialist.

Emergency Planning will provide specialist advice as a tactical advisor to both the Strategic and Tactical representatives.

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Action Cards
	Appendices

The Emergency Planning Resilience and Response Team will provide a range of support to facilitate the overall coordination of the Council response, activation of resources and production of situational awareness. They will advise on a recommended battle rhythm to ensure the production of situation reports to inform decision making at a tactical and strategic level.

Communications

Communications support will be provided through the Communications Team in hours and through the Duty Communications Officer out of hours.

Communications will provide support to the Strategic and Tactical lead and will lead on the development of both the content and methods of delivery of messages to the public. Communications will also lead on monitoring information on the incident available through the media and social media. Communications will provide a representative to attend or lead the LRF Media Cell.

Operational Response

The contact details for activating the operational support resources can be found through the Emergency Contacts Directory.

Forward Control Point

The Forward Command Post is the co-location point from which the on scene response will be coordinated by multi-agency resources.

Local Authority Incident Officer (LAIO)

The Local Authority Incident Officer role will be provided by an appropriate public protection officer in hours and out of hours will be provided by the duty Local Authority Incident Officer (LAIO) north or south depending on the incident.

The LAIO is the local authority representative at the scene of the incident and is responsible for attending the initial silver meetings at the scene of the incident. The LAIO will also provide situational awareness from the scene and act as the point of contact between the scene of the incident and the Tactical Lead and also the Council Incident Room.

All Services

All additional services that are required in response to the incident can be requested through the Council Incident Room or Highways Control Room as appropriate.

2.3.3 Response Considerations

Logging

Each member of staff responding to a major incident must retain a log of their actions, options, decisions and the justification. This should be completed on the paper based logging system.

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Action Cards
	Appendices

The Strategic On-Call Officer in the SCG will have a loggist present with them and a loggist will be available for the TCG. A log will also be maintained within the Council Incident Room.

A well-kept log will enable officers to keep track of the tasks and events, enabling outstanding tasks to be actioned and monitored. The log will also support staff at the handover to see which actions have been completed and to understand the actions that remain outstanding.

It is essential that a comprehensive record is kept of the Council’s involvement in a major incident in order to assess the effectiveness of the Council’s response. The information may also be required to be produced as evidence of the Council’s actions in the event of a public enquiry or other legal proceedings. To support the evidence trail it is essential that any notes, jottings or paper scraps written on during the incident are kept and as such no written information or notes should be destroyed; as all will be evidence at any future investigation.

Response staff should avoid using disposable sticky notes and should never use pencil erasers or correction fluid.

Situation Reporting

A battle rhythm for situation reporting will be established by the Council Incident Room to meet the briefing requirements for the SCG. Depending on the nature of the incident a request may go to specific Heads of Service or all Heads of Service to complete a Service Level Situation Report (found in Appendix D of the Corporate Business Continuity Plan). This information would be used to inform the Wiltshire Council Situation report (Appendix A) which will be produced by Emergency Planning / Council Incident Room and sent to the Tactical On-Call Officer / Strategic On-Call Officer to inform decision making. It is recommended that the STEEPLE analysis tool is used when considering the situation.

Multi-Agency Working

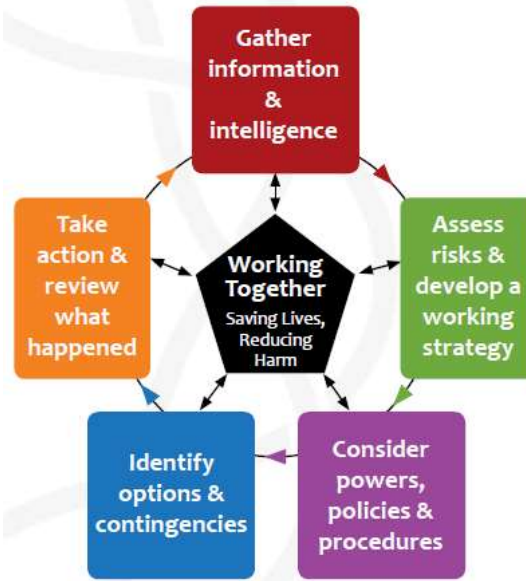

The Joint Emergency Services Interoperability Programme (JESIP) has been developed to improve the way in which blue light responders and multi-agency partners work together in response to a major incident. There are a couple of key sections from this to be aware of during a major incident.

It is important to be aware of the shared situational awareness mnemonic ‘METHANE’. This will be used by multi-agency partners in the initial stages of an incident to share information on the incident and can be seen in the diagram below. Wiltshire Council response staff should also be aware of the Joint Decision Model which will be used in a major incident for multi-agency partners to decide upon the appropriate action to take in

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Action Cards
	Appendices

response. Each section of the model should be considered against the Aims and Objectives of the incident.

- M** Major Incident declared?
- E** Exact Location
- T** Type of incident
- H** Hazards present or suspected
- A** Access - routes that are safe to use
- N** Number, type, severity of casualties
- E** Emergency services present and those required

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Action Cards
	Appendices

Mutual Aid

Wiltshire Council is able to request assistance under mutual aid arrangements from neighbouring authorities if the response to a major incident exceeds the resources available. Mutual aid can include equipment, staff or services from one or more neighbouring authorities.

Requests should be made formally between a Wiltshire Council Strategic On-Call Officer and the chief executive of the other local authorities involved and agreements need to be reached on terms and conditions applicable to the support measures prior to their deployment.

Military Aid to the Civil Authorities (MACA)

During a major incident the military can be available to support the local authority under the following areas:

- **Military Aid to Government Departments (MAGD)**
This is used for work of national importance and in maintaining services essential services to the life, health and safety of the local community.
Example: Animal disease epidemics such as foot and mouth
- **Military Aid to the Civil Power (MACP)**
This is assistance provided by armed forces to the civil power in maintenance of law and order.
Example: Terrorism incident requiring specialist expertise
- **Military Aid to the Civil Community (MACC)**
The military might be asked under Category A of MACC to provide aid to the civil community to assist in alleviating hardship to the victims dealing with an emergency such as a natural disaster.
Example: Flooding

The principles that should be used to determine whether military aid should be requested include:

- where the need to act is clear and where other options have been discounted by the civil authorities (SCG)
- where the civil authority (SCG) lacks the capability to fulfil the task and it is unreasonable or too expensive to expect it to develop one
- and / or the civil authority has the capability but the need to act is urgent and it lack readily available resources

There are no predefined military forces for these tasks and therefore military support is not guaranteed. When it is provided the civil authorities normally have to pay for it, however if there is a threat to life, no charges are made to the requesting authority.

Finances

The provision of resources and services in emergency circumstances remains the responsibility of each service area and will be funded by service budgets. The cost of providing resources and services will be met by the relevant service; typically the service responsible for the provision on a day-to-day basis. It is essential that full financial records are kept by all services detailing any expenditure incurred as part of the incident.

The Tactical On-Call Officer is responsible for reporting expenditure incurred to the Finance Department and will brief the Corporate Leadership Team at regular appropriate intervals on expenditure levels. The Strategic On-Call Officer, Tactical On-Call Officer for Finance and Duty Tactical On-Call Officer have delegated powers to invoke additional expenditure if required in the event of a major incident. The Corporate Leadership Team will monitor the financial expenditure until the formal stand-down of the local authority.

The Chief Financial Officer will be responsible for making a claim to the agency or organisation responsible for the incident. The Bellwin Scheme provides emergency financial assistance to local authorities in England following large expenses incurred following the declaration of a major incident. The government will pay 85% of eligible expenditure above the 0.2% of its calculated annual budget. Further information can be found through the [Bellwin Scheme](#).

Communications and ICT

The Wiltshire Council Emergency Telecommunications and Procedures Guide provides information on the forms of communication available to staff during an incident.

The email account EPRR@wiltshire.gov.uk will be used as the primary email account for Wiltshire Council staff in emergency response. For resilience a secondary email account has been created wiltshireepr@gmail.com in the event that there is an issue with the Wiltshire Council email account.

Welfare

All staff responding to a major incident are required to consider their own personal welfare requirements and complete regular dynamic risk assessments to ensure their own personal safety when responding to an incident.

During an emergency staff may be required to work beyond their normal hours however it is recommended that staff should work in shifts of between six and eight hours and staff do not work shifts exceeding twelve hours. Refer to the HR Policy.

All staff should go through both a hot debriefs immediately after their shift and a cold debrief at a later date providing an opportunity to feedback on the response. Staff should also be offered counselling support where appropriate following a major incident.

Vulnerability

The Local Authority has a responsibility to make specific considerations to people that are considered vulnerable and have been affected by an emergency. The Wiltshire Council Emergency Duty Service can access information on vulnerable people and should be contacted during an incident to identify the vulnerable people within the area.

Community Resilience

Wiltshire Council is working with communities to ensure that they have considered developing community resilience plans to identify the resources available within their area and provide an initial response in the event of an incident.

Parishes that have developed emergency plans are asked to share them with Wiltshire Council. In an incident, Wiltshire Council will contact Parish and Town Councils in order to notify them of an incident and to assist them with their needs.

Category 2 Responders and Voluntary Agencies

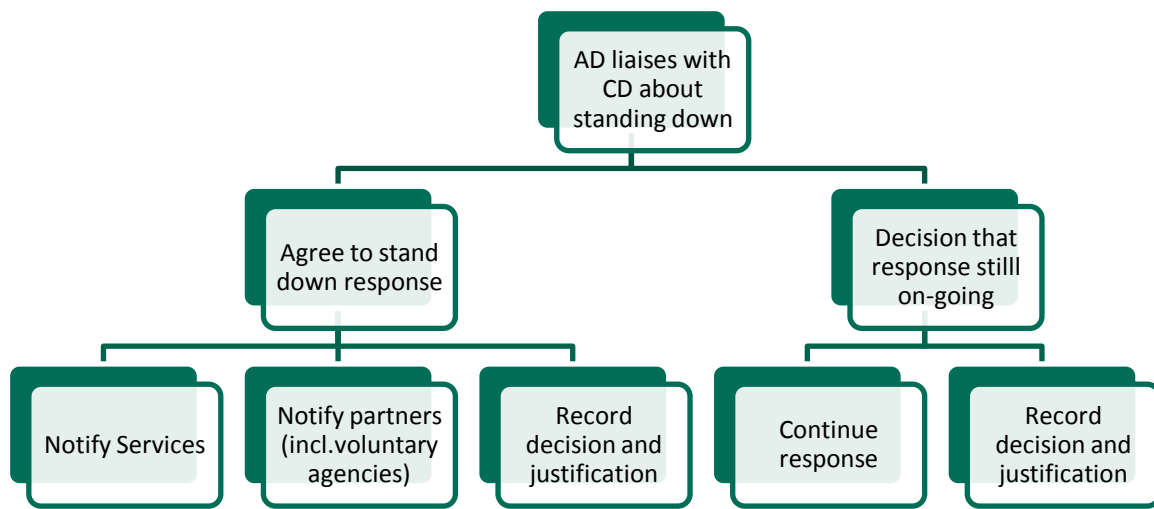

Upon the notification of an incident the Tactical On-Call Officer should consider the appropriate agencies and partners that should be notified about the incident.

Category 2 responders include utilities and transport providers and they have a duty under the Civil Contingencies Act 2004 to cooperate and share information with Category 1 responders. Contact details for Category 2 responders within Wiltshire can be found within the Wiltshire Council Emergency Contacts Directory Section 2.

Information on support available from voluntary agencies within Wiltshire can be found in the Wiltshire and Swindon Local Resilience Forum Voluntary Agencies Emergency Committee (VASEC) Guide. Early consideration should be given to notifying voluntary agencies of an incident. RAYNET can be contacted to place voluntary agencies on standby using the details contained within the VASEC guide.

2.4.4 Stand Down Arrangements

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Action Cards
	Appendices

Involvement in an emergency will finish at different times for different agencies and services. The emergency services direct involvement in the incident will often finish once the initial situation has been resolved, often handing over the scene to the Local Authority. The local authority will often lead on the longer term issues of restoration and recovery of the community and the area affected.

When the incident has been brought under control it is essential that clear instructions are provided to responding services that they should stand down operations. During a major incident it is likely that some services will be required to stand down before others.

The Tactical On-Call Officer will liaise with the Strategic On-Call Officer to establish the point at which the Local Authority response is stood down. This will then be communicated through the Council Incident Room to all responding service areas and partner agencies (including voluntary agencies through RAYNET).

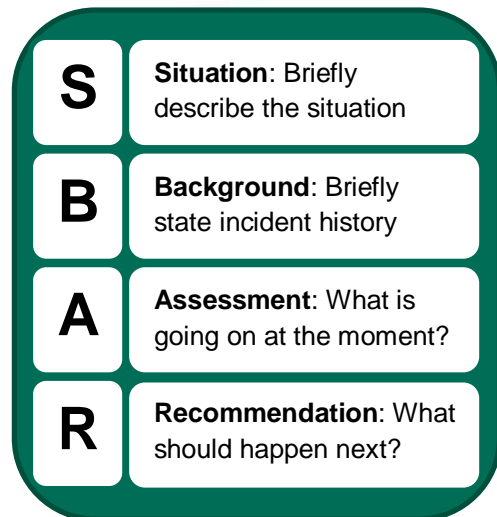

2.4.5 Debrief

The debriefing of staff following the response to an incident is likely to be one of the most effective methods of capturing information to identify lessons following an emergency. The debrief will allow staff to pass on relevant information and ensure that ongoing actions undertaken in the next shift or incident are as effective as possible. It is recommended that debriefs are carried out by an independent person, who was not involved in the subject of the debrief.

There are several different types of debrief that will be used during an incident.

Shift Handover Brief

The shift handover debrief will take place when a new shift takes over the control of the incident and will provide an opportunity to share information on the progress and outstanding actions. The Situation, Background, Assessment and Recommendation (SBAR) technique provides a standard template to brief the person taking over in your role during an incident.

Hot Debrief

An informal 'Hot Debrief' should be completed at the end of the shift or when a member of staff is stood down. The hot debrief should be used to capture information in the immediate aftermath of the incident. Normally this will identify immediate remedies to problems arising from the response, identify areas for improvement to prevent reoccurrence and maintain morale / relieve stress.

Internal Debrief

The internal debrief will be more structured, following a set agenda and result in the production of a report on the incident response. The internal debrief allows staff to consider the response to the incident in hindsight and should be completed prior to any multi-agency debrief. Staff may provide comments on; the methods used in response, an evaluation of the effectiveness of response, staff welfare issues, identification of the positives and negatives associated with the response, identification of lessons identified and key recommendations to ensure learning from the them. This information will be used to inform future responses and information from this debrief should be included within the multi-agency debrief.

Multi-Agency Debrief

The multi-agency debrief allows multi-agency partners that responded to an incident to come together to discuss the response. Key points from the internal debrief will be fed in and this will facilitate discussion between different agencies and allow the identification of aspects of the response that went well and aspects that were not so positive. A report will be produced by the lead agency which will make recommendations for multi-agency partners to take forward into future emergency response.

Standard Agenda

The following standard agenda should be used in each type of debrief:

- Introduction
 - Attendees and Apologies
 - Overview of the incident
- Review
 - Service / Agency response (Operational, Tactical, Strategic)
 - Communications

- Staff Welfare
 - Issues or concerns
- Feedback
 - Positives
 - Negatives
- Lessons identified
 - Key lessons identified
 - Recommendations to implement the changes
- Set a date to review the report

Debrief Report

Following the debrief process, a full debrief report summarising the incident, actions taken in the emergency response to resolve issues, positives, negatives, lessons identified and future recommendations should be produced within a timescale agreed by strategic leads following the major incident.

The Strategic On-Call Officer will establish whether the report should be written externally or by the Emergency Planning Resilience and Response Team. The report will be circulated to multi-agency partners and actions monitored through the LRF.

2.4.6 Recovery

A request to initiate the recovery plan will be made by the chairman of the SCG to the Council’s Strategic On-Call Officer on duty. It is a legal requirement that a formal handover document (see Appendix X) is signed as responsibility is passed from a multi-agency body to the Council.

Details of the procedures and structures for response can be found within the Wiltshire Council recovery plan.

2.4.7 Training and Exercising

The Wiltshire Council Major Incident Plan will undergo training and exercising in accordance with the Wiltshire Council Plan Maintenance document which sets out a cycle for validating, testing and exercising the plan and training personnel on their role in the plan.

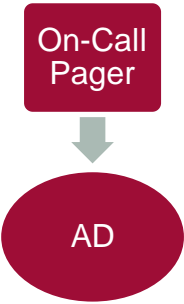

The Wiltshire Council Major Incident Plan will be reviewed on an annual basis and will be subject to training within six months and having been exercised within twelve months.

Handover certificate

Upon this status certificate being signed by both Wiltshire Council and Wiltshire Police, the command and control for dealing with the recovery phase of the incident atis to be taken over by Wiltshire Council.

It is agreed between the chairman of the strategic co-ordinating group (SCG) and the lead Strategic On-Call Officer of Wiltshire Council that the following six points apply:

1. There is no known further risk to life specific to this incident.
2. The circumstances dictate it more appropriate for the command and control to rest with Wiltshire Council in that the phase is clearly now one of recovery.
3. There are no serious public order or crime prevention issues that impact on the overall strategic co-ordination of the recovery phase.
4. Wiltshire Fire and Rescue Service, together with the South Western Ambulance Service Foundation Trust, are now operating at a level, which does not necessitate a strategic (gold) co-ordinating group (SCG) to co-ordinate and facilitate their activity.
5. There are no known scenarios that may give rise for the requirement to reinstate the strategic (gold) co-ordinating group in the foreseeable future in relation to this incident.
6. Wiltshire Council is satisfied that it has the infrastructure and processes in place to take over co-ordination from the police.

Major Incident Plan

Activation

Business Continuity Plan

Management

Action Cards

Recovery Plan

Appendices

3.1 Introduction

Purpose	The Corporate Business Continuity Plan sets out the procedures and actions to be taken by Wiltshire Council in the event of disruption to council services.
Background Information	<p>This plan has been developed to meet the requirements of the Cabinet Office ‘Expectations and Indicators of Good Practice Set for Category 1 and 2 Responders’ and aligned to both the Business Continuity Institute ‘Good Practice Guide 2013’ and ‘ISO22301:2012’. The plan links to the Wiltshire Council Corporate Risk Register and Wiltshire & Swindon Local Resilience Forum Community Risk Register.</p> <p>This plan provides both the strategic management framework within which the service restoration will operate and practical generic advice / information to help achieve a successful recovery.</p>
Business Continuity Definition	The strategic and tactical capability of the organisation to plan for and respond to incidents and business disruptions in order to continue business operations at an acceptable predefined level.
Aim	The aim of this plan is to ensure the continuity of critical services delivered by Wiltshire Council through an incident.
Objectives	<p>The objectives of this plan are:</p> <ul style="list-style-type: none"> • To establish the organisational structure required to manage the corporate response to a business disruption • To identify priority 1 services and maintain them in response to an incident on a continuous basis wherever possible • To reinstate all services to business as usual • To identify the immediate actions to be taken in response • To communicate with staff, suppliers/partners and the public during an emergency or business disruption • To ensure the council continues to meet its statutory obligations as a Category 1 responder as defined in the Civil Contingencies Act 2004
Scope	This plan establishes how Wiltshire Council will provide continuity of its critical services though a disruption; including the prioritisation of services for recovery. The plan will not supersede service level arrangements to respond to minor disruption.
Links to other plans	<p>This plan links to:</p> <ul style="list-style-type: none"> • Major Incident Plan • Recovery Plan • Wiltshire Council Service Level Business Continuity Plans

3.2 Activation

3.2.1 Incident Notification

Every member of staff has a responsibility to bring to the attention of their line manager any situation which might lead to the requirement to activate their Service Level Business Continuity plan or the Corporate Business Continuity plan. The line manager should then discuss with the head of service the level of response that is required to the incident.

Notification of a business disruption incident that needs coordination at a council-wide level should be given to the on-call Council Silver/Tactical Officer.

3.2.2 Activation Triggers

The Wiltshire Council Corporate Business Continuity Plan (CBCP) will be invoked in response to an incident with the potential to impact the delivery of critical services due to the following impacts:

Impact	Examples
Staff shortage	<ul style="list-style-type: none"> • Pandemic influenza / communicable disease • Adverse weather causing transport difficulties • Industrial action • Fuel shortage • Response to external emergencies • Acts of terrorism (fear of attending workplace)
Loss of Access	<ul style="list-style-type: none"> • Fire • Flood • Act of terrorism • Unsafe building • Adverse weather conditions • Security threat
Loss of ICT	<ul style="list-style-type: none"> • Loss of server access • Loss of power • Loss of information • Cyber attack
Loss of Communications	<ul style="list-style-type: none"> • Power failure affecting phone exchange / server • Loss of service due to supplier issue • Industrial action on postal service • Adverse weather affecting postal service
Loss of supply from external provider	<ul style="list-style-type: none"> • Utility failure (gas, electric, water) • Supplier going into receivership • Adverse weather affecting supply
Fuel Shortage	<ul style="list-style-type: none"> • Industrial action / Public Protest • Scarcity of supply • Technical issue with infrastructure
Resources overstretched	<ul style="list-style-type: none"> • Excessive demands on the service
Financial loss	<ul style="list-style-type: none"> • Significant unexpected expenditure
Loss of reputation	<ul style="list-style-type: none"> • Significant negative press coverage

Policy

Appendices

3.2.4 Activation

When an incident occurs with the potential to disrupt the Local Authority’s services, the Head of Service is responsible for determining if the incident can be managed by the Service or whether there is a requirement to notify the Duty Tactical On-Call Officer.

The Tactical On-call Officer has responsibility for determining the level of response to a business continuity disruption and for initiating call-out procedures.

There are three levels of response:

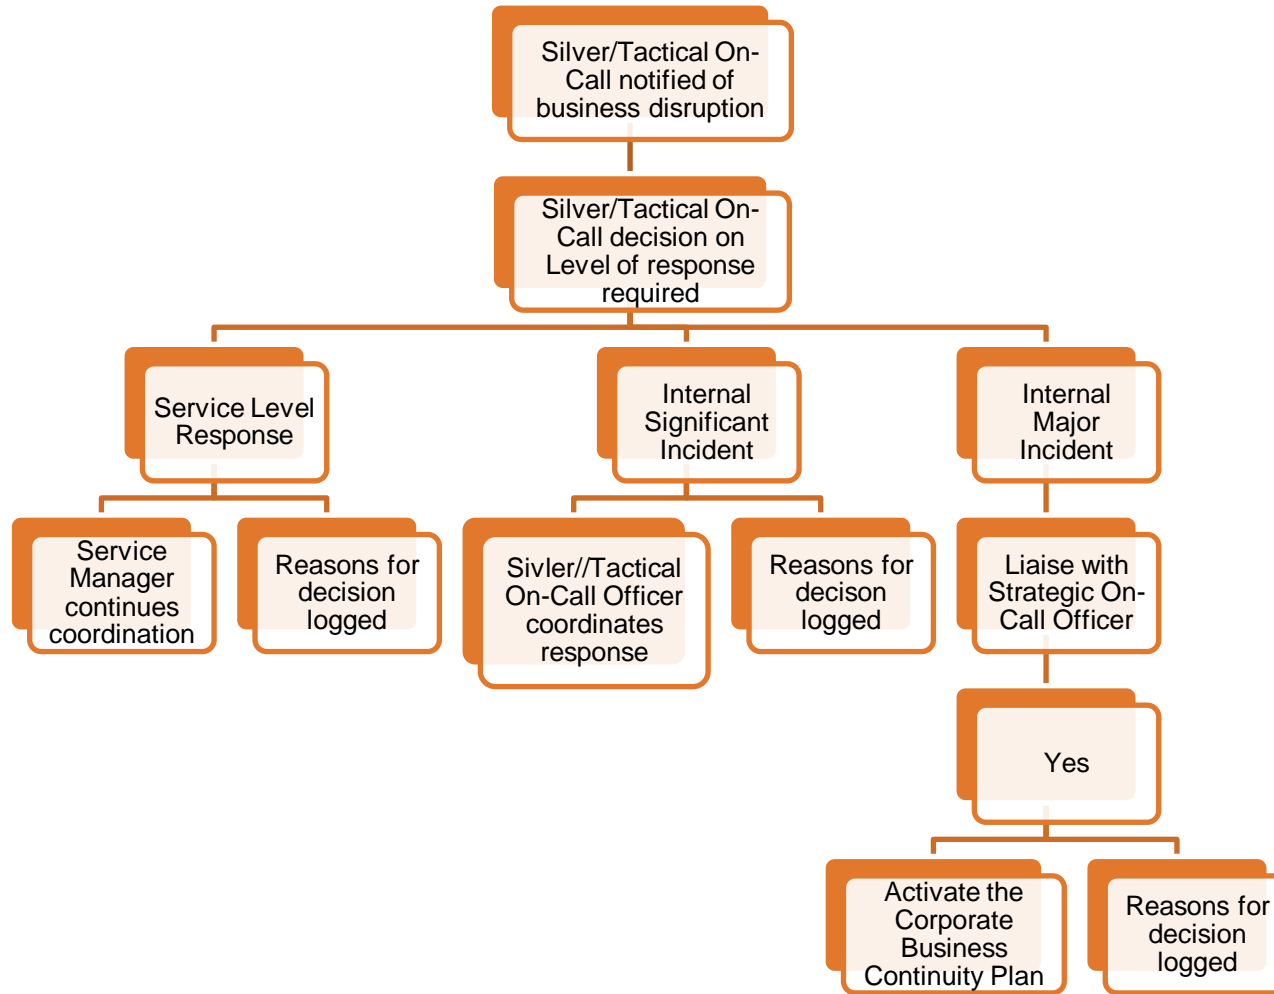

Level	Impact	Response
Internal Minor Incident	Relatively minor incidents that may result in limited disruption of services but involve no threat to health, no legal / statutory implications and pose no threat to Wiltshire Council.	Head of Service responds within their service with support from staff and other services as required
Internal Significant Incident	Incident with the potential to disrupt critical services and pose a potential threat to health, property, legal or statutory implications or pose a threat to Wiltshire Council.	Head of Service will notify their Associate Director and the Silver/Tactical On-call officer who will coordinate the response with support from internal services.
Internal Major Incident	Major Incident that will disrupt critical services and will significantly threaten health or life, legal or statutory implications or the reputation of Wiltshire Council.	The full Wiltshire Council response will be activated.

The Corporate Business Continuity Plan can be activated in response to an incident in progress or in response to a potential incident which could impact on the ability of the local authority to deliver critical services. The activation of this plan does not constitute the declaration of an Internal Major Incident.

3.3.2 Response Structure

Strategic Response

The Duty Gold/Strategic On-Call is the strategic lead for Wiltshire Council. They have overall management of the business continuity response to a service disruption and, as required, the emergency response of the council. The Duty Gold/Strategic On-Call will forecast and manage the long-term requirements for the response. The Duty Strategic On-Call and CLT should maintain strategic oversight and provide a strategy for implementation.

The Duty Gold/Strategic On-Call will set the aims and objectives for response. They will be responsible for setting the communications strategy and signing off external media messages whilst also ensuring the leader, Cabinet Members and Council Members are informed of the incident and any significant developments. The Duty Gold/Strategic On-Call will also maintain an overview of the financial expenditure associated with the incident and will ensure that the required resources are made available to facilitate the response.

Tactical Response

The Duty Silver/Tactical On-Call Officer is the tactical lead for Wiltshire Council. They are responsible for setting the tactics that will be adopted by Wiltshire Council to implement the strategy set by the Duty Strategic On-Call Officer.

In the event that the incident has resulted in both an internal incident and external emergency response, the Silver/Tactical On-Call Officer may consider nominating a deputy to manage the service disruption and activating a secondary incident room.

The Silver/Tactical On-Call Officer can request the support of relevant Heads of Service or representatives from services to support the coordination of response to the disruption.

The Silver/Tactical On-Call Officer will ensure the continuity of Priority 1 and 2 services and coordinate support from Priority 3 and 4 services.

Emergency Planning Specialist

An Emergency Planning Specialist will be provided through the Emergency Planning Resilience and Response Team in hours and out of hours the Public Protection Duty Level 2 will call in an Emergency Planning Specialist.

Emergency Planning will provide specialist advice as a tactical advisor to both the strategic and tactical representatives.

The Emergency Planning Specialist will provide a range of support to facilitate the overall coordination of the Council response, activation of services and provide supporting the Silver/Tactical On-Call Officer. They will advise on a recommended battle rhythm to ensure the production of Situation Reports to inform decision making at a strategic and tactical level.

Communications

The Duty Communications Officer / Communications Team will provide support and guidance to the Gold/Strategic On-Call Officer in setting the media strategy.

Communications will lead on the development of a communications strategy to be agreed by the Gold/Strategic On-Call Officer. Communications will create both internal messages to staff and external messages to the media and public. They will also be responsible for monitoring information within the media and social media during the service disruption and relaying this information to the Silver/Tactical On-Call Officer and Council incident Room.

Council Incident Room

The Council Incident Room (CIR) will provide the central point for coordinating information during the service disruption. The Council Incident Room will be activated by Emergency Planning (in hours) or the Duty Level 2 (out of hours) following the procedures in the Council Incident Room plan. The Council Incident Room Manager will coordinate the response with support Council Incident Room staff; contact details can be found in the Emergency Contacts Directory.

Location

Primary	Location:	Westwood Room, County Hall, Trowbridge, BA14 8JN
Secondary	Location:	Monkton Room / Bewley Room, Monkton Park, Chippenham, SN15 1ER
Secondary	Location:	De La Wyle / Bourne Hill / Salisbury SP1 3UZ

Role

The CIR will collate the service level situation reports, produce the Wiltshire Council Situation Report and liaise directly with services reporting issues.

Operational Response

The operational response to the incident will be led by individual Heads of Service, and be coordinated through the Council Incident Room (CIR) in liaison with the Silver/Tactical On-Call Officer. This will involve the coordination of all services to effectively manage the response to the service disruption.

Heads of Service

All Heads of Service will retain responsibility for implementing their service level business continuity plans. Priority 1 services will be required to ensure that they are able to continue the delivery of critical services and should raise any issues to the Council Incident Room. Priority 2, 3 and 4 services will be required to maintain services unless direction is received from the Silver/Tactical On-Call Officer to suspend, reduce or significantly alter delivery.

All Heads of Service are required to complete (or nominate a member of the team to complete) the Service Level Situation Report (Appendix C). Services should highlight at

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Action Cards
	Appendices

the earliest opportunity any business critical services that require additional support to maintain delivery.

Facilities Management

The Facilities Management team are responsible for the coordination of the response to impacts on premises managed by Wiltshire Council.

ICT / Telephony

The ICT Team are responsible for assessing the impacts of the service disruption on ICT infrastructure and applications. They will make a decision as to whether Disaster Recovery arrangements need to be activated and will coordinate the response of ICT and prioritise the recovery of applications for services. The telephony team will assess the impacts of the service disruption on the council telecommunications and will coordinate the recovery of Customer Services. Both ICT and Telephony, if requested, will send appropriate representation to support the Silver/Tactical On-Call Officer in coordinating the response to the incident.

Customer Services

Customer Services are responsible for the communication of messages about the service disruption to the public through the Council phone lines, emails, apps and public information desks. Customer Services will also feedback from the public that will be fed to the Council Incident Room using the Service Level Situation Report (Appendix C).

3.3.3 Response Considerations

Situation Reporting

Heads of Service will be required to complete the service level situation report (Appendix C) on the level of impact of the service disruption. Services will report whether they are Red (critical services not covered), Amber (staff moved to cover critical roles and some impact in non-critical areas) or Green (limited or no impact). Heads of Service or their nominated deputy will send the service level situation report to bcresponse@wiltshire.gov.uk by the set deadline.

The Council Incident Room will collate the information from the service level returns into a centralised spreadsheet. The Incident Room will contact any services reporting red or amber to identify if any additional support is required. The information will then be collated into a Wiltshire Council Situation Report (Appendix D) which will be sent to the Gold/Strategic On-Call Officer, Silver/Tactical On-Call Officer Communications, Customer Services and wider as required.

The Wiltshire Council Situation Report can then be used to support decision-making and the provision of information to Councillors, staff and the public.

Logging

All staff responding to a service disruption are required to ensure that they maintain a log of the information they receive, options considered, their decisions, actions and

justification. The log will support staff in keeping track of the incident; facilitating the completion of tasks and supporting staff in the handover process.

Communications

The Gold/Strategic On-Call Officer is responsible for developing the strategy for all communications with the public, customers, partners, staff and the media and will be supported by the communications team.

Internal Communications

Communications will prepare messages to be sent internally to staff with the support of the Duty Silver/Tactical On-Call Officer or Council Incident Room as appropriate. Messages will be sent at regular intervals to ensure that all staff are kept informed of the latest developments. The Intranet, Hot Wire, email, staff notice boards and where appropriate the media will be used to send generic messages to all staff and notify staff of the actions that they should be taking. If significant numbers of staff are asked to stay at home or to work from home, consideration should be given to establishing a staff information phone line to keep staff updated.

It is the responsibility of Heads of Service to send information about their service to their staff or request staff to return to work. This may be done by using the service call out cascades found within Service Level Business Continuity Plans.

The Gold/Strategic On-Call Officer is responsible for briefing the Leader, Cabinet Members and Council Members. The Elected Wire and Councillor briefing notes may be used to keep all Councillors informed during the incident.

External Communications

Heads of Service are responsible for notifying relevant partners, external contractors and customers through pre-existing channels and in accordance with the information held in the Service Level Business Continuity Plans (as appropriate). Heads of Service are also required to ensure the Emergency Alerts are updated on the external website if the disruption will impact on the public.

The Gold/Strategic On-Call Officer is responsible for agreeing key strategic messages for the public. The Silver/Tactical On-Call Officer or Gold/Strategic On-Call Officer will also notify the Wiltshire and Swindon Local Resilience Forum partners of the internal incident through Operation Link, if required.

The Communications Team will update information on the Council website, social media and send briefings to the media. This will inform the public of any disruption to services, advice on the impacts of the disruption and will be updated as the situation changes.

The Customer Services team will maintain the call centre as a Priority 1 service to ensure that customers can continue to contact the council. Information on the latest situation will be provided through the Situation Reports and the Council Incident Room.

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Action Cards
	Appendices

Priority Services

There are a number of council services that have been identified as Priority 1 services (recovery time within 24 hours) of service disruption, Priority 2 services (recovery time within 72 hours) and Priority 3 (recovery time of within one week) and Priority 4 (more than one week). The list of services in each Category can be found in Appendix A.

Service Prioritisation

The Silver/Tactical On-Call Officer supported by relevant heads of service will plan whether services will be:

- Enhanced to respond to the service disruption / emergency
- Reduced in order to facilitate making resources available for higher priority services
- Suspended in order to enable the reallocation of resources

Decisions about the reallocation of significant numbers of staff will be proposed by the Silver/Tactical On-Call Officer to the Gold/Strategic on-Call. Decisions will be made by the Corporate Leadership Team, based on the council’s capabilities, constraints and the needs of the community. Heads of Service will be required to implement any reallocation as determined by the Corporate Leadership Team.

Equipment

Heads of Service will be responsible for ensuring that they have sufficient resources available to maintain the continuity of services and should have contact details in their business continuity plans for equipment required. If additional resources are required requests can be made to the Council Incident Room who will support resourcing. Some services may be scaled down to make additional resources available.

If mutual aid is required the Gold/Strategic On-Call Officer will request this from neighbouring authorities.

Finances

Heads of Service are responsible for recording expenditure that is associated with the response to the service disruption and passing this information to the finance team as and when requested. Heads of Service will be responsible for using their available budget to respond to the service disruption.

The Finance Team will be responsible for monitoring expenditure and ensuring that arrangements allow sufficient flexibility for Silver/Tactical On-Call Officer to act where additional expenditure is required to maintain the continuity of services (particularly Priority 1 Services).

The Assistant Director is responsible for reporting expenditure incurred to the Finance Department and will brief the Corporate Leadership Team at regular intervals on expenditure levels. The Gold/Strategic On-Call Officer, Associate Director for Finance and Duty Silver/Tactical On-Call Officer have delegated powers to invoke additional

expenditure if required in the event of a major incident. The Corporate Leadership Team will monitor the financial expenditure until formal stand-down by the local authority.

Welfare

All staff are required to consider their own personal welfare requirements to ensure their own personal safety. Further information on staff policies can be found on the Wiltshire Council Intranet on the HR Direct pages.

If staff are redeployed to new duties (to maintain priority services) Heads of Service must facilitate safe working including the provision of relevant risk assessments, training and appropriate personal protective clothing or equipment. Particular care should be given to the redeployment of appropriate people to appropriate roles, taking into account personal circumstances. Where necessary, Occupational Health will be consulted prior, during and post event.

Relocation

In the event that one of the Council premises becomes unavailable as a result of the service disruption, there is the capability to move Priority 1 staff to alternative premises (primarily council hubs). Facilities Management are responsible for making the space available as requested by the Duty Silver/Tactical On-Call Officer. Services at the receiving location may need to implement their business continuity plan to reduce or suspend services to make space for the additional staff.

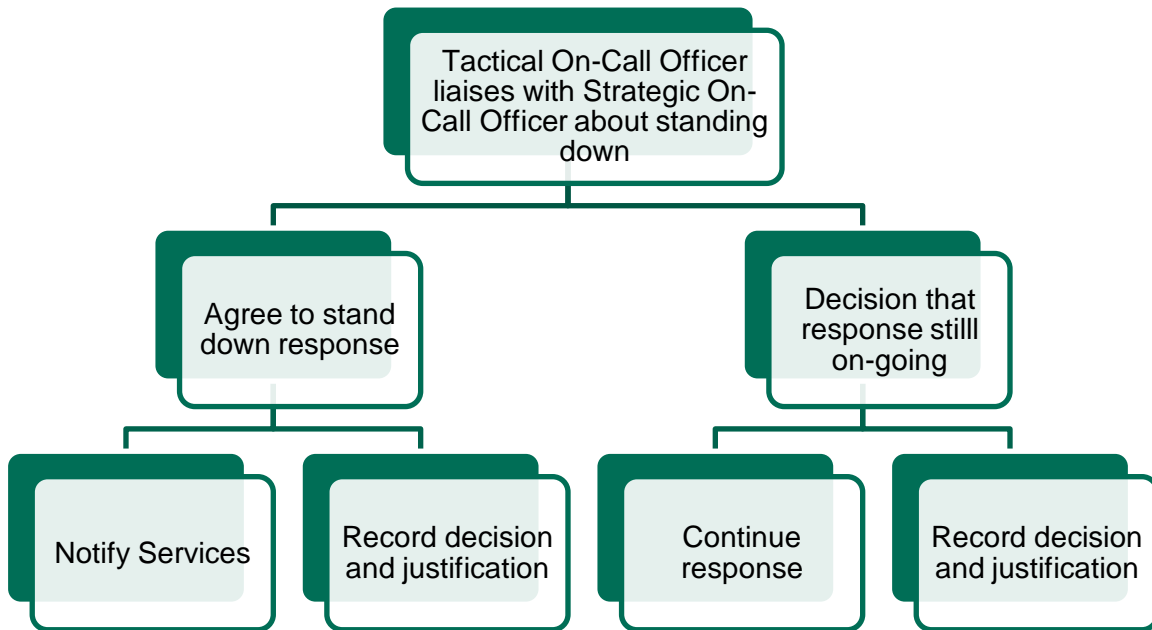

The following desk space has been identified at each of the council hubs:

	County Hall		Monkton Park	Bourne Hill
	OCH	MECH		
Total Standard Desk Capacity	406	565	288	300
Capacity in Break Out Areas	97	364	271	50+
High Seats Capacity in Break Out	24	108		
Total Meeting Rooms	11	25	11	8
Total Meeting Rooms Capacity	108	136	136	82
Total	635	1173	695	432

Human Resources will be responsible for providing guidance on the specific policies associated with working from an alternative location.

3.5.4 Appendix D: Business Continuity Programme

Business Continuity Management

The Wiltshire Council Business Continuity Management (BCM) programme is developed, administered and delivered by the Emergency Planning Resilience and Response Team on an annual cycle. Within Wiltshire Council Business Continuity (BC) arrangements are made at two different levels; corporate planning for the entire organisation and service level planning.

Corporate Business Continuity Plan

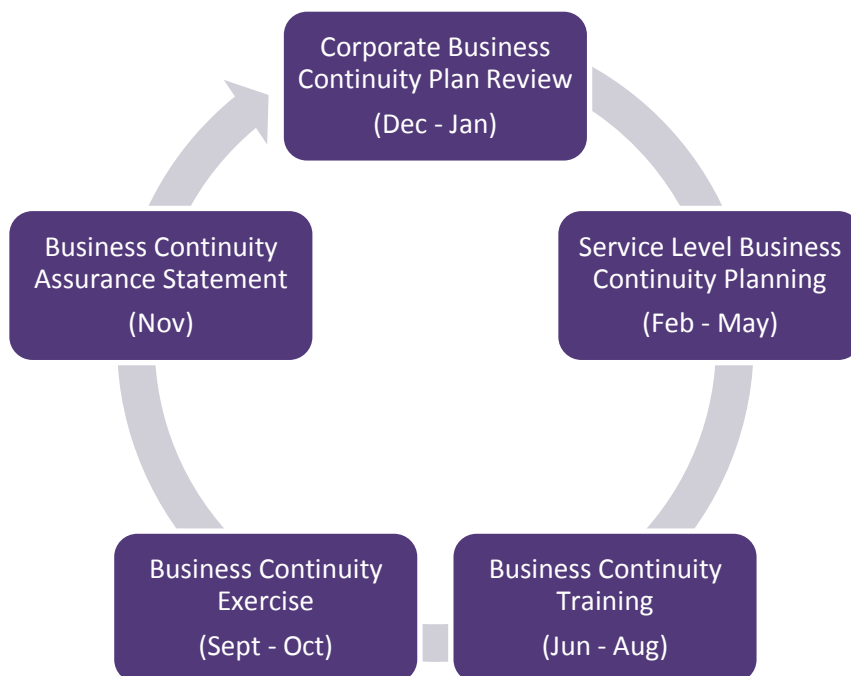

The Corporate Business Continuity Plan establishes the procedures for the management across the organisation of a business disruption and facilitates the coordinated recovery of services.

Service Level Business Continuity Plans

All Heads of Service are required to complete a Service Level Business Continuity Plan (BCP) using the standardised template. This will identify the impacts of non-delivery; establish the requirements for service recovery; including timeframe, personnel and equipment required. It was also establish the procedures for maintaining or recovering service delivery.

Business Continuity Programme

The Emergency Planning Resilience and Response Team will oversee the Business Continuity Programme.

Plan Review

The Corporate Business Continuity Plan will be reviewed on an annual basis between December and January.

Service Level Business Continuity Plan

The Service Level Business Continuity Plan will be reviewed annually between February and May. All Heads of Service will be offered one to one introductory sessions to business continuity and how to complete their service level plan within the standardised Wiltshire Council template.

Associate Directors should ensure Heads of Service have sufficient time to complete Business Continuity Plans and are required to sign off the plan upon its completion. A report will be produced by the Emergency Planning Resilience and Response Team for each Corporate Director based on the information from their Service Area following the period of plan review in July.

Service level plans may need to be reviewed at other times during the year if there is a key business change, restructuring, expansion/contraction, new services are created, services are relocated or due to learning following an incident.

Business Continuity Training

Training is crucial to embedding business continuity; all staff should be trained on relevant business continuity arrangements.

Training of staff should begin with inclusion in the Wiltshire Council induction programme. There will be a specific focus on raising awareness annually by the Emergency Planning Resilience and Response Team during Business Continuity Awareness Week.

Heads of Service should ensure that staff are made aware of their responsibilities in the Service Level Business Continuity Plan.

Specific Business Continuity training will be offered by the Emergency Planning Resilience and Response Team annually between June and August.

Business Continuity Exercise

The Emergency Planning Resilience and Response Team will run Business Continuity exercises in September/October. Heads of Service are required to attend or send a representative to an event to exercise and validate their Service Level Business Continuity Plan.

Business Continuity Assurance Statement

In November Heads of Service will be required to complete an assurance statement for their service. The assurance statement will assess the service business continuity plan, training of both the Head of Service and staff in their roles in the Service Level Business Continuity plan and Corporate Business Continuity Plan and whether the plan has been validated through an exercise.

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Management
Recovery Plan	Action Cards
	Appendices

Services will be assessed as green if they have completed the four stages within the twelve month programme. They will be assessed as amber if one or two stages are incomplete and they will be assessed as red if more than two stages are incomplete.

Heads of Service are required to ensure that they have signed off their assurance statement. The Emergency Planning Resilience and Response Team will then provide an assurance statement for all services across Wiltshire Council to the Corporate Leadership Team based on these returns.

Roles and Responsibilities

Corporate Director	
Role	The Corporate Director has a key role to embed business continuity within their Directorate.
Responsibility	<ul style="list-style-type: none"> to work collaboratively with their Associate Directors and Heads of Service to ensure the business continuity management programme is implemented within their area to promote and provide visible support to business continuity in their area to authorise resource and officer time commitment to achieve the requirements of the business continuity programme to approve or challenge the results of the Service Level Business Continuity Plan to incorporate business continuity management as a standard agenda item in Corporate Leadership Team meetings

Associate Directors	
Role	The Associate Director is responsible for ensuring the Heads of Service in their area implement and embed business continuity.
Responsibility	<ul style="list-style-type: none"> Working collaboratively with Corporate Director in ensuring the business continuity policy is implemented within their service area Overseeing the development, implementation and maintenance of service level business continuity plans Chair the Corporate Resilience Group on an annual basis Ensuring the cooperation of Heads of Service in the Corporate Resilience Group Promoting business continuity actively within their area Signing off service level business continuity plans Discussing business continuity with Heads of Service during meetings Signing off the Service Annual Business Continuity Governance Statement

Heads of Service	
Role	Heads of Service have full responsibility for developing, implementing and maintaining their service level business continuity planning and training their staff on their role in the plan
Responsibility	<ul style="list-style-type: none"> Completing a Service Level Business Continuity Plan Ensuring the service business continuity plan is signed off by their Associate Director. Ensures that they (and at least one nominated representative) hold a copy of their service business continuity plan both at work and in an alternative location ensure any services delivered by a contractor or reliant on a supplier to deliver the service have adequate business continuity plans in place Attending at least one business continuity training session each year Ensuring that their service business continuity plan is validated by an exercise annually

Purpose	This plan provides guidance for Wiltshire Council on how to support recovery in communities, following an incident.
Background Information	Under the Civil Contingencies Act 2004 Wiltshire Council has a responsibility to develop emergency plans in accordance with the local risks as identified in the Wiltshire and Swindon Local Resilience Forum Community Risk Register. Wiltshire Council has a generic major incident plan to guide the standard emergency response and a number of specific emergency plans for specific types of emergency or specific sites.
Recovery Definition	Recovery is defined as the process of rebuilding, restoring and rehabilitating the community following an emergency.
Aim	To enable Wiltshire Council to support local residents and businesses to manager its own recovery from incidents
Objectives	The aim will be achieved by: <ul style="list-style-type: none"> • Putting in place a framework for overseeing recovery. • Recovery will start as soon after the incident commences as appropriate • Concentrating resources on the health and well-being of communities, critical infrastructure, the economy and the environment. • Providing information, specialist services and resources.
Scope	This plan covers strategic recovery in Wiltshire, the responsibility for which is transferred by a Strategic Coordinating Group to Wiltshire Council, following an incident.
Links to other plans	The plan is part of the Integrated Emergency Management Plan.

4.2 Activation

4.2.1 Plan Activation

Recovery will be considered at the earliest opportunity after an incident has commenced. The plan will be activated when a chairperson is appointed and a Recovery Coordinating Group (RCG) is convened.

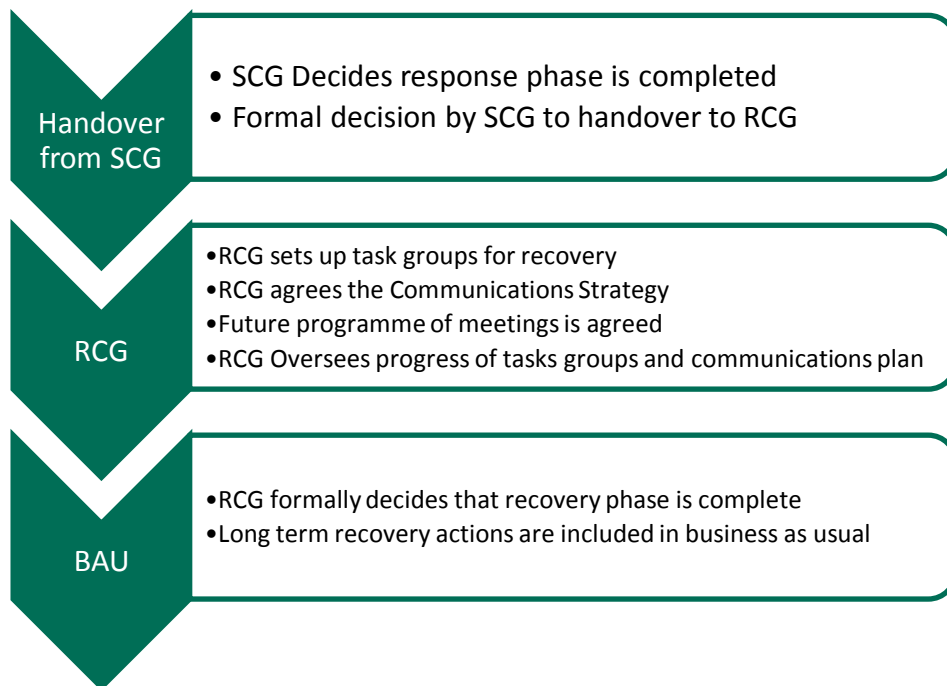

4.2.2 Activation Process

A Recovery Coordinating Group will be set up when requested by the Chair of the Strategic Coordinating Group.

The Recovery Coordinating Group may be set up during or after an incident. In certain circumstances, a Recovery Coordinating Group may be formed as a sub-group of the Strategic Coordinating Group until full handover takes place.

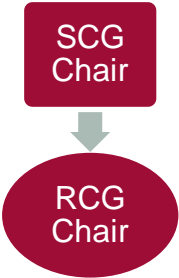

The Recovery Coordinating Group will be chaired by a senior manager of Wiltshire Council.

The decision to hand over management of the incident from response to recovery will be made by the Strategic Coordinating Group, and will be recorded as a formal decision.

4.4 Recovery Management

4.4.1 Recovery Arrangements

The scale of recovery arrangements can vary immensely depending up on the incident.

Recovery Structure (Diagram)

- The Chair of the Recovery Coordinating Group shall decide, in consultation with the Strategic Coordinating Group, which sub-groups are required (if any).
- A draft agenda for the initial meeting is attached in Appendix A
- In forming any necessary sub-groups, relevant internal and external partners shall be invited to attend. External partners could include representatives from both Category 1 and Category 2 responders.
- Sub-groups can meet together as a group or individually, as deemed appropriate by the Chair of the Recovery Coordinating Group.
- Draft objectives are attached in Appendix Y.

Recovery Arrangements

The Recovery Coordinating Group shall formally agree the action plans of each sub-group. Each Sub group will be responsible for implementing its action plan. The Sub group will also be responsible for reporting progress to the Recovery Coordinating Group.

Suggested targets / milestones could include some of the following:

- Demands on public services returned to normal levels (including health)
- Utilities are again fully functional
- Transport infrastructure is running normally
- Local businesses are trading normally
- Tourism in the area has been re-established.

Policy	Introduction
Major Incident Plan	Activation
Business Continuity Plan	Action Cards

	Appendices

Warning and Informing

Communications will be responsible for creating and implementing a communications action plan. The plan will include methods of consulting with affected communities, and identify opportunities for engagement that will allow the local community to be involved and empowered during the recovery process.

The communications plans should recognise that local communities will have a wealth of knowledge, experience and resources that could assist in the recovery process.

Resources

The Recovery Coordinating Group shall be hosted at Wiltshire Council premises.

Resources required to implement the action plans of Sub groups/Communications, shall be reviewed and approved by the Recovery Coordinating Group.

Welfare

Welfare requirements will be identified from the community, and provided on a short term basis. Support will be prioritised for individuals or families that are unable to make alternative arrangements for themselves.

Vulnerability

Identification of individuals that are vulnerable will include by accessing local knowledge in the community, carrying out vulnerable people searches, and information provided from the NHS.

Faith Groups

Information about faith groups is available in the Welfare Plan, and can be referred to, if necessary.

Community Resilience

Parish Councils that have resilience plans will be better equipped to support recovery. Areas that have no plans or resilience mechanisms in place, may require extra support from Wiltshire Council until they establish themselves.

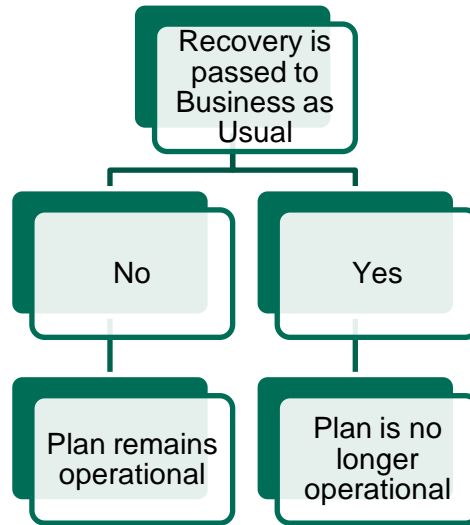

Voluntary Agencies

The Recovery Coordinating Group will task each sub-group to approach appropriate voluntary groups. The LRF will also contact appropriate members of the VASEC (Voluntary Agencies Emergency Committee).

Appendices	

4.4.2 Stand Down Arrangements

Diagram of Standing Down Plan

Stand Down Plan

The Chair of the Recovery Coordination Group shall decide whether to transition from the Recovery phase to business as usual, taking due consideration of the views of the sub groups and community. The decision to cease the Recovery Phase will be minuted at a Recovery Coordination Group closing meeting.

Stand Down Notification

When the Recovery phase is ended, the Chair of the Recovery Coordination Group will notify both the LRF and LHRP, and community leaders.

4.4.3 Debrief

Hot Debrief

All staff responding to the incident should be given a hot debrief before leaving their shift in the response phase.

Internal Debrief

All internal staff that responded should be invited to feedback to and/or at the internal debrief

Multi-Agency Debrief

The information from the internal debrief should be fed into the multi-agency debrief

Alternatively this section could direct readers to the Major Incident Plan section which describes the Wiltshire Council debrief process

4.4.4 Further Information

National Recovery guidance can be found at <https://www.gov.uk/national-recovery-guidance> including:

- [Decontamination of buildings](#)
- [Recovery from Chemical, Biological, Radiation, Nuclear incidents](#)
- [Site Clearance](#)

4.5 Appendices

4.5.1. Appendix A: Draft Agenda for Recovery Coordinating Group

1. Agree / review Terms of Reference
2. Agree appointment of Chairperson
3. Any urgent issues
4. Feedback of progress and exceptions
 - a. Health and Wellbeing
 - b. Infrastructure
 - c. Economic
 - d. Environment

4.5.2 Appendix B: Draft Objectives for Recovery Coordinating Group

Recovery Coordination Group Objectives

- To feed in recovery issues whilst the SGC is running
- To decide the overall recovery strategy, including communications, clean up, health, welfare, economic and business recovery
- Ensure that relevant stakeholders, especially the communities affected, are involved in the development and implementation of the strategy
- To establish appropriate Sub-Groups as required by the emergency.
- To produce an impact assessment on the situation
- To co-ordinate the recommendations and actions of the Sub-Groups and monitor progress
- To monitor financial matters and pursue funding and other assistance.
- To agree exit strategy criteria and timescale
- Decide the final “state” of the physical infrastructure and natural environment affected by the emergency
- Deal with other issues that fall outside the scope of the working groups
- To provide reassurance to the public and to minimise fear and alarm.
- To make recommendations, at an early stage, to elected Local Authority members on the strategic choice between 'normalisation' (restoring an area to its previous condition) and 'regeneration' (aspiring to transform an area in support of longer term development objectives) of an affected area

Health and Well Being Objectives

- Provide welfare to those affected
- Allocation of welfare tasks to individual agencies
- Co-ordination of welfare assistance in order to avoid duplication of effort
- Collation of data on affected persons
- Prepare a health monitoring and protection strategy
- Maintain normal Health Service
- Establish extra health services if required
- Ensure public are informed about any health implications.

Economic Objectives

- To support affected businesses
- To devise an economic recovery strategy that takes account of any longer term strategic regeneration and economic development opportunities in the affected area

Environmental Objectives

- To develop a preferred remediation strategy for submission to, and agreement by, the Recovery Co-ordinating Group, to cover clean up and restoration of the natural environment to an agreed state

Infrastructure Objectives

- To develop a preferred remediation strategy for submission to, and agreement by, the Recovery Co-ordinating Group, to cover cleaning, repair or replacement of the physical infrastructure to an agreed state
- Review integrity of key assets and prepare strategy for reinstatement where required
- To implement the agreed strategy(s).

Communications Objectives

- To ensure effective communication and consultation with affected communities
- To formulate an overall Communications Strategy
- To ensure all information presented to the affected communities is in an understandable language
- To ensure the involvement of stakeholders
- To ensure consistency of message
- To react to negative media stories and misinformation
- To have a representative on the other Sub-Groups if possible
- To ensure that all staff, elected members and those involved are kept informed.

Health and Well being	Physical impacts (including individuals' health, housing, financial needs)
	Psychological impacts
	Deaths
	Community displacement
Economic	Economic and business recovery
Infrastructure	Disruption to daily life (eg. educational establishments, welfare services, transport system)
	Disruption to utilities / essential services
	Damage to residential properties and security of empty buildings
Environmental	Pollution and decontamination
	Waste
	Natural resources and habitats
