Chippenham Police Retail Working Group

Shoplifting and retail crime is a growing national concern and one of our key local priorities is the reduction of retail theft and an increase in successful prosecutions.

To achieve this, with the help of our local retailers, we can work towards reducing the 30% increase year on year in shoplifting recorded by the police in England and Wales, according to Office of National Statistics data released in July.

The Chippenham Neighbourhood Policing Team (NPT) would like to hear from all our local retailers to become part of a new Operational Retail Working Group that will meet monthly and be led by the Police. The purpose is to give retailers a voice and influence local policing but not discuss individuals or specific incidents.

Our first two meetings were held on 19th September and 22nd October at the Chippenham Museum. We would like to say a huge thank you to everyone who attended.

We would like to pass on our thanks to Chippenham Town Council for arranging the meeting venue for us. This shows their commitment to working in partnership with us and local businesses to combat retail crime in Chippenham.

Chippenham Night Time Economy (NTE)

The safety of people in the night time economy is everyone's responsibility. Together, we must change our culture to call out behaviours which are disrespectful and cause harm.

The Town of Chippenham is proven to be a safe and welcoming environment for those visiting. Chippenham Neighbourhood Policing Team have worked closely with the Town Council to assist with the Purple Flag accreditation and offer congratulations on retaining accreditation for the 9th consecutive year.

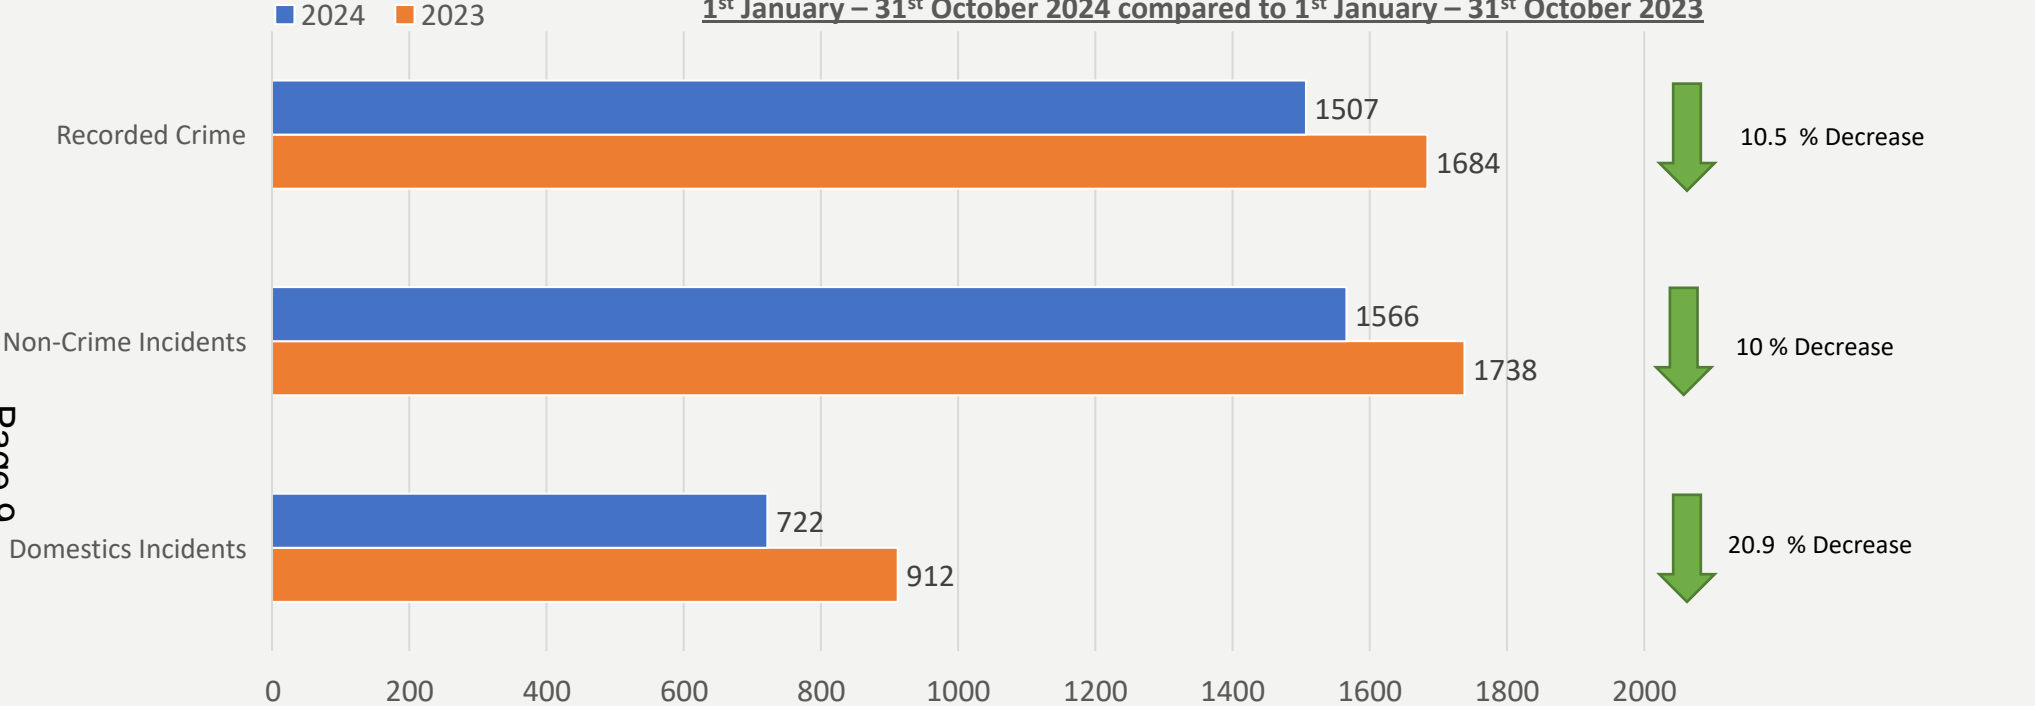

The Neighbourhood Policing Team:

- **Run monthly Night Time Economy Operations** focussing on the safety of those attending licensed premises as well as ensuring the licensed premises are adhering to their licence terms. Richard Tottle – New Licencing Officer for the Town has met with all licensees and regularly visits our licenced premises. Rich has recently retired from Policing following 30 years as a Police Officer, the majority of his time a Sergeant within the Swindon Neighbourhood Policing Team.
- Support the Town Council with the resurrection of the Pub Watch scheme – **First Pubwatch to be hosted at The Pheasant on 12th November.**

Drink diving

In England, Wales, and Northern Ireland, the legal alcohol limit for driving is 80 mg of alcohol per 100 ml of blood or 35 µg per 100 ml of breath). In Scotland, the limit is lower at 50 mg of alcohol per 100 ml of blood (or 22 µg per 100 ml of breath). Factors such as weight, age, metabolism, and food intake affect how alcohol is processed, making it difficult to predict how much you can drink and stay under the limit. Alcohol takes time to leave your system; common remedies like coffee or showers do not speed this up. You can still be over the limit the next day, risking your license if you drive. Alcohol impairs

driving ability, and the safest choice is to avoid drinking entirely if you plan to drive.

There is no way to know how much you can drink and stay under the limit, since it can depend on your weight, age, metabolism, the amount of food you've eaten and other factors.

It's impossible to get alcohol out of your system quickly, it always takes time. A shower, a cup of coffee or other ways of 'sobering up' may make you feel better but won't remove the alcohol from your system.

If you've been out drinking, you may still be affected by alcohol the next day and could lose your licence if you drive and are still over the legal limit.

Alcohol affects everyone differently and any amount can impair your ability to drive. The only safe option is to avoid alcohol completely if you're driving as even 'just one drink' could put you over the limit. **If you're driving, don't drink any alcohol at all.**

Drug driving

It's an offence to drive with any of 17 controlled drugs above a specified level in your blood. This includes [illegal and legally prescribed drugs](#).

The limit set for each drug is different, and for illegal drugs the limits set are extremely low. They aren't zero to rule out any accidental exposure (eg from passive smoking).

You should always check with your doctor or pharmacist if you're unsure about whether your prescription or over-the-counter medication will affect your ability to drive.

Risks and physical effects

The biggest risk you take when driving under the influence of alcohol or drugs is the risk of causing a collision.

Driving under the influence of drink or drugs is extremely dangerous and can affect your driving in numerous ways, such as:

- ability to judge speed and distance
- reaction and coordination skills
- blurry or impaired vision
- drowsiness
- aggression
- erratic behaviour
- panic attacks and paranoia
- hallucinations
- nausea
- dizziness
- tremors

Alcohol and drugs can also create a false confidence which can lead to an increase in risk-taking behaviour, which puts your life and the lives of others in danger.
