

Grant Application and Planting Support

Supporting tree and woodland planting
projects across Wiltshire

Wiltshire Council

UK's Climate Targets

- July 2019: UK Committee on Climate Change stated UK needs 30,000 hectares of trees/yr over the next 30 years (2,25 billion trees assuming 1 tree sapling/4m²)
- October 2019: Glover Report highlighted that National Parks and AONBs must play in meeting this target whilst appreciating the need for sensitive planning

Wiltshire's Woodland Cover

- For Wiltshire, this target = 435 ha of woodland/yr for the next 30 years (>1 million trees / an area of woodland the size of Devizes each year)
- 40% of Wiltshire's landscape = AONB, national park or historic sites
- Large-scale tree planting needs to be carefully considered and sensitively introduced
- Woodland planting 2ha> requires planning permission

Why plant trees and woodland?

For communities:

- to engage in biodiversity & climate solutions
- for health, wellbeing, recreation & exercise
- for tree and woodland produce (nuts, fruit...)
- for clean air

Why plant trees and woodland?

For the environment:

- increasing biodiversity by creating new habitat
- reducing flood risk by slowing the flow of rainwater
- storing carbon to combat climate change

Why plant trees and woodland?

For farmers and landowners:

- provide shelter and shade for livestock
- improve soil quality
- reduce nitrate and phosphate runoff
- diversify income generation, through timber, coppice, Christmas trees etc.
- generate carbon credits
