

## Update from National Highways on the Royal Wootton Bassett to Swindon Cycle Scheme

- Detailed design is complete.
- National Highways must review the scheme amongst other priorities for the new Road Investment Strategy 5-year period. (RIS3)
- Costs of construction are estimated to be in the region of £5 million.
- National Highways has asked Wiltshire Council to make a significant contribution towards that figure.
- If the Authorities were to agree funding the next stages would require planning permission and the acquisition of land prior to construction.
