10	<p><u>Calne Community Area Status Report</u></p> <p>The Area Board considered the report of the Community Engagement Manager (CEM), Jane Vaughan, which provided an overview of the Community Area Status Report. The Community Area Status Report combined the main messages gathered from local data and discussions with the local community. From these discussions and the gathering of evidence, the information provided a base from which priorities were identified that the Area Board could focus its resources upon.</p> <p>The Area Board then considered the following priorities for the Calne Community Area for the forthcoming year and assigned Area Board Members to each priority:</p> <ul style="list-style-type: none"> • Young People including those living with SEND – Health, wellbeing and positive activities – Cllr Sam Pearce-Kearney • Older and Vulnerable People and families – Health, wellbeing, isolation and access to services – Cllr Tom Rounds • Environment – addressing climate change targets – Cllr Ian Thorn • Local Economy – promotion of sustainable business and support for the economically vulnerable – Cllr Tony Trotman • Community Resilience – cross community area communication and co-operation – Cllr Ashley O'Neill <p>It was noted that each Area Board Councillor would champion one or more of the priorities. The priorities would then feed into a rolling work plan detailing how each priority is progressing, with regular update reports to the Area Board.</p> <p>It was noted that engagement with other groups would be beneficial for the Area Board Environment Champion, these could include, Sustainable Calne, Wiltshire</p>

	<p>Climate Alliance and the Air Quality Monitoring Group.</p> <p>Resolved:</p> <ol style="list-style-type: none"> 1. That the Area Board approves and adopts the Community Status report 2. That the Area Board considers the following concerns, identified through the Status update process and discussions at previous area board meetings, for further investigation, and appoints Area Board Members as Champions for each priority as detailed above: <ul style="list-style-type: none"> • Young People including those living with SEND – Health, wellbeing and positive activities • Older and Vulnerable People and families – Health, wellbeing, isolation and access to services • Environment – addressing climate change targets • Local Economy – promotion of sustainable business and support for the economically vulnerable • Community Resilience – cross community area communication and co-operation 3. That the Area Board produces a rolling action plan to demonstrate where it will contribute to addressing the identified issues and appoints a lead member for each priority area. 4. That the Area Board will prioritise its resources including funding upon those issues identified in the status report. 5. That the Area Board requests that the Community Engagement Manager and lead members work with key partners, agencies and community groups to encourage them to consider where they are best placed to take actions around the priorities identified. 6. That regular updates are submitted to the Area Board on progress made in relation to its own action plan. 7. That the Area Board expresses its thanks to those who gave their time to help bring this report together.
11	<p><u>Calne Area Transport Strategy</u></p> <p>The Area Board received an update from Anne Henshaw in relation to the Calne Area Transport Strategy.</p> <p>Anne explained that the purpose of the Calne Area Transport Strategy is to outline the proposed approach to meeting specific transport objectives for Calne and Calne Without, and identify a prioritised list of complimentary schemes and</p>

	<p>interventions that are shown to address known and well-evidenced issues.</p> <p>The Strategy has been developed by the Calne Area Transport Group (CAT) and Wiltshire Council with support from Atkins. It builds upon previous work by CAT to develop it into a full Transport Strategy for the area, that will identify the key priorities for future interventions, and provide a foundation for these schemes to be considered for future funding and delivery programmes.</p> <p>Once strategy schemes are identified, potential funding streams and delivery mechanisms can be identified. All of the funding and delivery processes require a strong evidence base and logical justification of the scheme linking an identified issue to a transport objective to address that issue, and a scheme that is shown to address both the issue and meet the objective.</p> <p>The Area Board noted that without the background evidence, any promoted schemes are unlikely to be prioritised and be successful in securing funding through competitive bidding processes against other schemes. Anne asked for any comments to be forwarded to her so that these can be included in the evidence base and fed into the process going forward.</p> <p>Comments from the Area Board included the study area and concerns about the impact of developments in Chippenham on parishes other than Calne and Calne Without, air quality management in the area and purchase of equipment to monitor particulates and traffic movement around the Curzon Street and High Street area of Calne.</p> <p>The Chair thanked Anne for an excellent presentation and encouraged Area Board members to forward any comments on the Study to Anne.</p>
12	<p><u>Partner Updates</u></p> <p>a) <u>Wiltshire Police</u></p> <p>The Area Board considered the update report from Insp James Brain, Wiltshire Police. Comments from the Area Board included the use of the vehicle in Calne to observe suspicious activity and the potential for it to be used to observe hare coursing during the hours of darkness.</p> <p>b) <u>Wiltshire Fire and Rescue</u></p> <p>The update report of Dorset and Wiltshire Fire and Rescue Service provided by Darren Nixon, Station Manager was noted.</p> <p>c) <u>NHS Wiltshire Clinical Commissioning Group</u></p> <p>There was no update report.</p>

The Community Engagement Manager should seek the views of all Area Board members to obtain a majority in support, prior to the expenditure being agreed.</i></p> <p><i>Decisions taken between meetings will be reported in the funding report to the next meeting of the Area Board explaining why the matter was considered urgent or necessary to expedite the work of the Board.
