# 1. Introduction

## Introduction

- 1.1 Wiltshire Council is preparing a Wiltshire Housing Site Allocations Plan ('the Plan'), which is comprised of a settlement boundary review and housing site allocations. The Plan is supported by a number of documents including Community Area Topic Papers that form the evidence for the Plan. This paper summarises the outcomes of the settlement boundary review and site selection process in relation to the Royal Wootton Bassett and Cricklade Community Area.

### Settlement boundary review

- 1.2 The Council did not review the extent of the boundaries to inform the Wiltshire Core Strategy ('WCS') and relied upon the former district local plans. They would instead be reviewed as a part of preparing the Plan<sup>(1)</sup>.
- 1.3 Consequently, the Council has undertaken a comprehensive review of the boundaries to ensure they are up-to-date and adequately reflect changes which have happened since they were first established. The Plan amends settlement boundaries where necessary. It is also the prerogative of local communities to review them through the preparation of neighbourhood plans.

### Housing site allocations

- 1.4 The WCS refers to the role of this Plan, in combination with the Chippenham Site Allocations Plan, to help ensure a sufficient choice and supply of suitable sites throughout the plan period in accordance with national policy and to compliment neighbourhood planning.

### Topic paper structure

- 1.5 *Table 1.1* shows the layout of the Royal Wootton Bassett and Cricklade Community Area Topic Paper ('CATP'). The sections and appendices will differ between community areas depending upon how far they progress through the site selection process. ***Any text appearing as bold, italics and underlined, or struck through indicates a change made after the Council's pre-submission consultation on the draft Plan, either as a result of representations made through the consultation or a factual update.***
- 1.6 The following topic papers explain the methodologies used for the settlement boundary review and the site selection process and should be read alongside this CATP.
- Topic Paper 1: Settlement Boundary Review Methodology
  - Topic Paper 2: Site Selection Process Methodology

---

1 This Plan does not review the settlement boundary for Chippenham. This has been reviewed by the Chippenham Site Allocations Plan.

2	<b>Community area</b>	Planning policy context for the Royal Wootton Bassett and Cricklade Community Area Topic Paper, including an overview of the WCS and, where applicable, any neighbourhood plans that have been made or that are in progress within the community area.	
3	<b>Settlement boundary review</b>	Identifies those settlements where settlement boundaries have been reviewed by the Plan and those where they are considered to have been reviewed by a sufficiently advanced neighbourhood plan.	<b>Appendix A</b> contains maps of each settlement showing the revised settlement boundary proposals with tables explaining the changes.
4	<b>Overview of the site selection process</b>	Briefly outlines the stages of the site selection process, which is covered in more detail by <i>Topic Paper 2: Site Selection Process Methodology</i> .	
5	<b>Outcome of the site selection process for Royal Wootton Bassett</b>	Summary of the site selection process for Royal Wootton Bassett (Stage 1). It outlines the methodology and identifies whether housing site allocations for the town should be included in the Plan.	
6	<b>Outcome of the Royal Wootton Bassett and Cricklade Community Area Remainder site selection process</b>	Where required a summary of the Royal Wootton Bassett and Cricklade Community Area Remainder site selection process (Stage 1). It outlines the methodology and identifies whether housing site allocations for the community area remainder should be included in the Plan.	
7	<b>Conclusions</b>	Summary of the process, listing any sites that have been identified as proposed allocations in the Plan and settlements where the boundaries have been reviewed.	

## 2. Royal Wootton Bassett & Cricklade Community area

### Context

**2.1** The WCS provides the context for the Plan in relation to the Royal Wootton Bassett and Cricklade Community Area. Core Policies 1 (Settlement Strategy) and 19 (Royal Wootton Bassett and Cricklade Area Strategy) set out:

- the settlement hierarchy for sustainable development in the Royal Wootton Bassett and Cricklade Community Area, and
- associated indicative housing requirements.

**2.2** Core Policy 19 requires approximately 1,455 new homes to be provided in the Royal Wootton Bassett and Cricklade Community Area, of which about 1,070 should occur at the Market Town of Royal Wootton Bassett and approximately 385 homes will be provided in the rest of the Community Area over the Plan period 2006 to 2026. This reflects the settlement strategy set out in Core Policy 1 and the role and function of settlements in the Royal Wootton Bassett and Cricklade Area Strategy. It indicates how much growth should be provided here to ensure the delivery of the overall housing requirement for the Housing Market Area ('HMA').

### Settlement strategy

**2.3** The settlements listed in *Table 2.1* below fall within the Royal Wootton Bassett and Cricklade Community Area.

**Table 2.1 Settlement Strategy in the Royal Wootton Bassett and Cricklade Community Area**

<b>Market town</b>	Royal Wootton Bassett
<b>Local Service Centres</b>	Cricklade
<b>Large Villages</b>	Lyneham and Purton
<b>Small Villages</b>	Bradenstoke, Broad Town, Hook, Latton, Lydiard Millicent and Purton Stoke

### Issues and considerations

**2.4** Core Policy 19 and the supporting text (paragraph 5.102) of the WCS identify specific issues to be addressed in planning for the Royal Wootton Bassett and Cricklade Community Area, including:

- non-strategic growth should be brought forward in accordance with Core Policies 1 and 2 and phased throughout the plan period to deliver homes in a balanced manner that will enable infrastructure issues to be addressed
- the long established policy of protecting the distinct character and identity of the villages and settlements remains a priority for local communities. This applies particularly to the parts of the Community Area which adjoin the administrative area of Swindon Borough Council where there may be unplanned development pressure. The open countryside should be maintained to protect the character and identity of the area in accordance with Core Policy 51.

- there are a number of environmental constraints around Royal Wootton Bassett, including areas prone to flooding and a SSSI to the south which will need to be considered and appropriately protected before selecting any sites for future housing growth.
- all relevant development within the Community Area will need to conserve the designated landscape of the North Wessex Downs AONB and its setting, and where possible enhance its locally distinctive characteristics

**2.5** The Wiltshire Infrastructure Delivery Plan ('the IDP')<sup>(2)</sup> identifies specific essential infrastructure requirements that will need to be addressed in planning for the community area, including.

- provision of a new primary school in the town and extension of existing village primary schools to provide additional places
- extension of secondary schools to provide additional places
- provision of additional nursery school places
- support development of local primary care health facilities, as most practices are at capacity

**2.6** However, neither the WCS or the IDP identify insurmountable issues to the extent that they would restrict the delivery of the level of housing proposed over the Plan period.

## Housing requirements

**2.7** **At the time the Plan was released for pre-submission consultation, the Council was undertaking its annual surveying exercise for the 2016/2017 monitoring year. In order to present the most up-to-date housing land supply position at the time, the Council estimated the 2017 housing land supply position (base dated April 2017) in order to inform the Plan. This was based on data known at the time of publication, namely the update to the 2016 Housing Land Supply Statement (published March 2017).**

**2.8** The **estimated** housing requirements for the Royal Wootton Bassett and Cricklade Community Area are set out in *Table 2.2* below. The table shows the overall housing requirement for the community area over the Plan period 2006-2026. In addition, it shows the number of dwellings that have already been delivered and those that are planned. This leaves an 'indicative residual requirement' of homes yet to be delivered during the remainder of the Plan period. **The estimated indicative residual requirements have been used to inform the areas of search where allocations in the Plan are directed.**

Royal Wootton Bassett and Cricklade CA Remainder	385	315	150	0
Community Area Total <sup>(4)</sup>	1,455	1,312	309	0

**2.9** Since the pre-submission consultation, the Council has published the 2017 Housing Land Supply Statement (published March 2018) (hereafter “2017 HLSS”). This provides a confirmed housing land supply position (base dated April 2017), and this represents the current housing land supply position.

**2.10** The housing requirements shown in the 2017 HLSS (excluding any proposed allocations) for the Royal Wootton Bassett and Cricklade Community Area are set out in Table 2.3 below.

### 2.11 Neighbourhood planning

**2.12** Neighbourhood plans can also allocate sites for housing and review settlement boundaries. The progress of a neighbourhood plan and the level of housing it is proposing to allocate help determine which settlements to consider through the site selection process. Likewise, the settlement boundary review will not look at settlements that are considered to have had their settlement boundaries reviewed by a sufficiently advanced neighbourhood plan.

**2.13** Royal Wootton Bassett and Cricklade Community Area has ~~seven~~**nine** neighbourhood plans in preparation. ~~Table 2.34~~ below shows the stage of the neighbourhood planning process reached by these plans. If a neighbourhood plan is sufficiently advanced, having at least submitted a draft neighbourhood plan to the Council for a Regulation 16 Consultation, then

### 3. Settlement boundary review

3.1 The Plan also proposes amendments to the settlement boundaries, as defined in the WCS, of the following settlements within the Royal Wootton Bassett and Cricklade Community Area:

- Royal Wootton Bassett
- Cricklade
- Lyneham, and
- Purton

3.2 **Appendix A** contains maps showing the proposed amendments to these settlement boundaries and tables setting out the justification behind these amendments. The methodology used in the settlement boundary review is set out in *Topic Paper 1: Settlement Boundary Review Methodology*<sup>(8)</sup>.

3.3 **'The 'made' Cricklade neighbourhood plan includes a review of the settlement boundary of Cricklade and therefore has not been reviewed as part of this Plan.** No ***other*** settlements in the Royal Wootton Bassett and Cricklade Community Area are considered to have had their settlement boundaries reviewed through a sufficiently advanced neighbourhood planning process. Therefore, ***all those*** settlements with currently adopted settlement boundaries within this community area have been considered through the settlement boundary review.

## 4. Overview of the site selection process

- 4.1 *Figure 4.1 provides a simple overview of the site selection process, which is explained fully in *Topic Paper 2: Site Selection Process Methodology*<sup>(9)</sup>. **Since the publication of the pre-submission draft Plan, further assessment has been undertaken to include sites that were promoted to the Council through the pre-submission consultation and were in areas of search, or to re-assess sites where new evidence was submitted through the consultation.***

## 5. Outcome of the site selection process for Royal Wootton Bassett

### Overview

- 5.1** This section summarises the outcome of the site selection process for the Market Town of Royal Wootton Bassett. It follows the methodology outlined in Section Four and is covered in more detail by *Topic Paper 2: Site Selection Process Methodology*<sup>(10)</sup>.
- 5.2** The decisions taken after each stage of the process for Royal Wootton Bassett, along with the reasons for these decisions, are summarised below.

### Stage 1: Identifying broad 'areas of search'

- 5.3** The purpose of Stage 1 is to establish where housing site allocations may be needed during the rest of the Plan period. To do this, Stage 1 reviews the indicative residual requirement outstanding for Royal Wootton Bassett. Generally, the areas with an outstanding requirement to be met form the broad 'areas of search', which are then progressed for further assessment through Stage 2.
- 5.4** *Table 2.2* demonstrates that the indicative residual requirement for Royal Wootton Bassett to be delivered during the Plan period has been met.
- 5.5** Therefore, the Plan will not need to allocate additional land to help meet an indicative residual requirement. It is proposed that housing sites will not be identified for allocation within Royal Wootton Bassett and the site selection process ends after Stage 1.

10 Wiltshire Council (June 2017). *Topic Paper 2: Site Selection Process Methodology*.

## 6. Outcome of the Royal Wootton Bassett and Cricklade Community Area Remainder site selection process

### Overview

- 6.1** This section summarises the outcome of the site selection process for the Royal Wootton Bassett and Cricklade Community Area Remainder. It follows the methodology outlined in Section Four and is covered in more detail by *Topic Paper 2: Site Selection Process Methodology*<sup>(11)</sup>.
- 6.2** The decisions taken after each stage of the process for the Royal Wootton Bassett and Cricklade Community Area Remainder, along with the reasons for these decisions, are summarised below.

### Stage 1: Identifying broad 'areas of search'

- 6.3** The purpose of Stage 1 is to establish where housing site allocations may be needed during the rest of the Plan period. To do this, Stage 1 reviews the indicative residual requirement outstanding for the Royal Wootton Bassett **and Cricklade** Community Area Remainder. The areas with an outstanding requirement to be met form the broad 'areas of search', which are then progressed for further assessment through Stage 2.
- 6.4** *Table 2.2* demonstrates that the indicative residual requirement for the Royal Wootton Bassett and Cricklade Community Area Remainder to be delivered during the Plan period has been met.
- 6.5** Therefore, the Plan will not need to allocate additional land within the Royal Wootton Bassett and Cricklade Community Area Remainder and the site selection process ends after Stage 1.

---

11 Wiltshire Council (June 2017). *Topic Paper 2: Site Selection Process Methodology*.

## 7. Conclusions

### Royal Wootton Bassett

- 7.1 The indicative residual requirement for the Market Town of Royal Wootton Bassett to be delivered during the Plan period has been met. Therefore, the Plan will not need to allocate additional land to help meet an indicative residual requirement. It is proposed that housing sites will not be identified for allocation within Royal Wootton Bassett and the site selection process ends after Stage 1.

### Royal Wootton Bassett and Cricklade Community Area Remainder

- 7.2 The indicative residual requirement for the Royal Wootton Bassett and Cricklade Community Area Remainder to be delivered during the Plan period has been met. Therefore, the Plan will not need to allocate additional land to help meet an indicative residual requirement. It is proposed that housing sites will not be identified for allocation within the Royal Wootton Bassett and Cricklade Community Area Remainder and the site selection process ends after Stage 1.

### Settlement Boundary Review

- 7.3 The Plan has reviewed the settlement boundaries of the following settlements within the Royal Wootton Bassett and Cricklade Community Area:

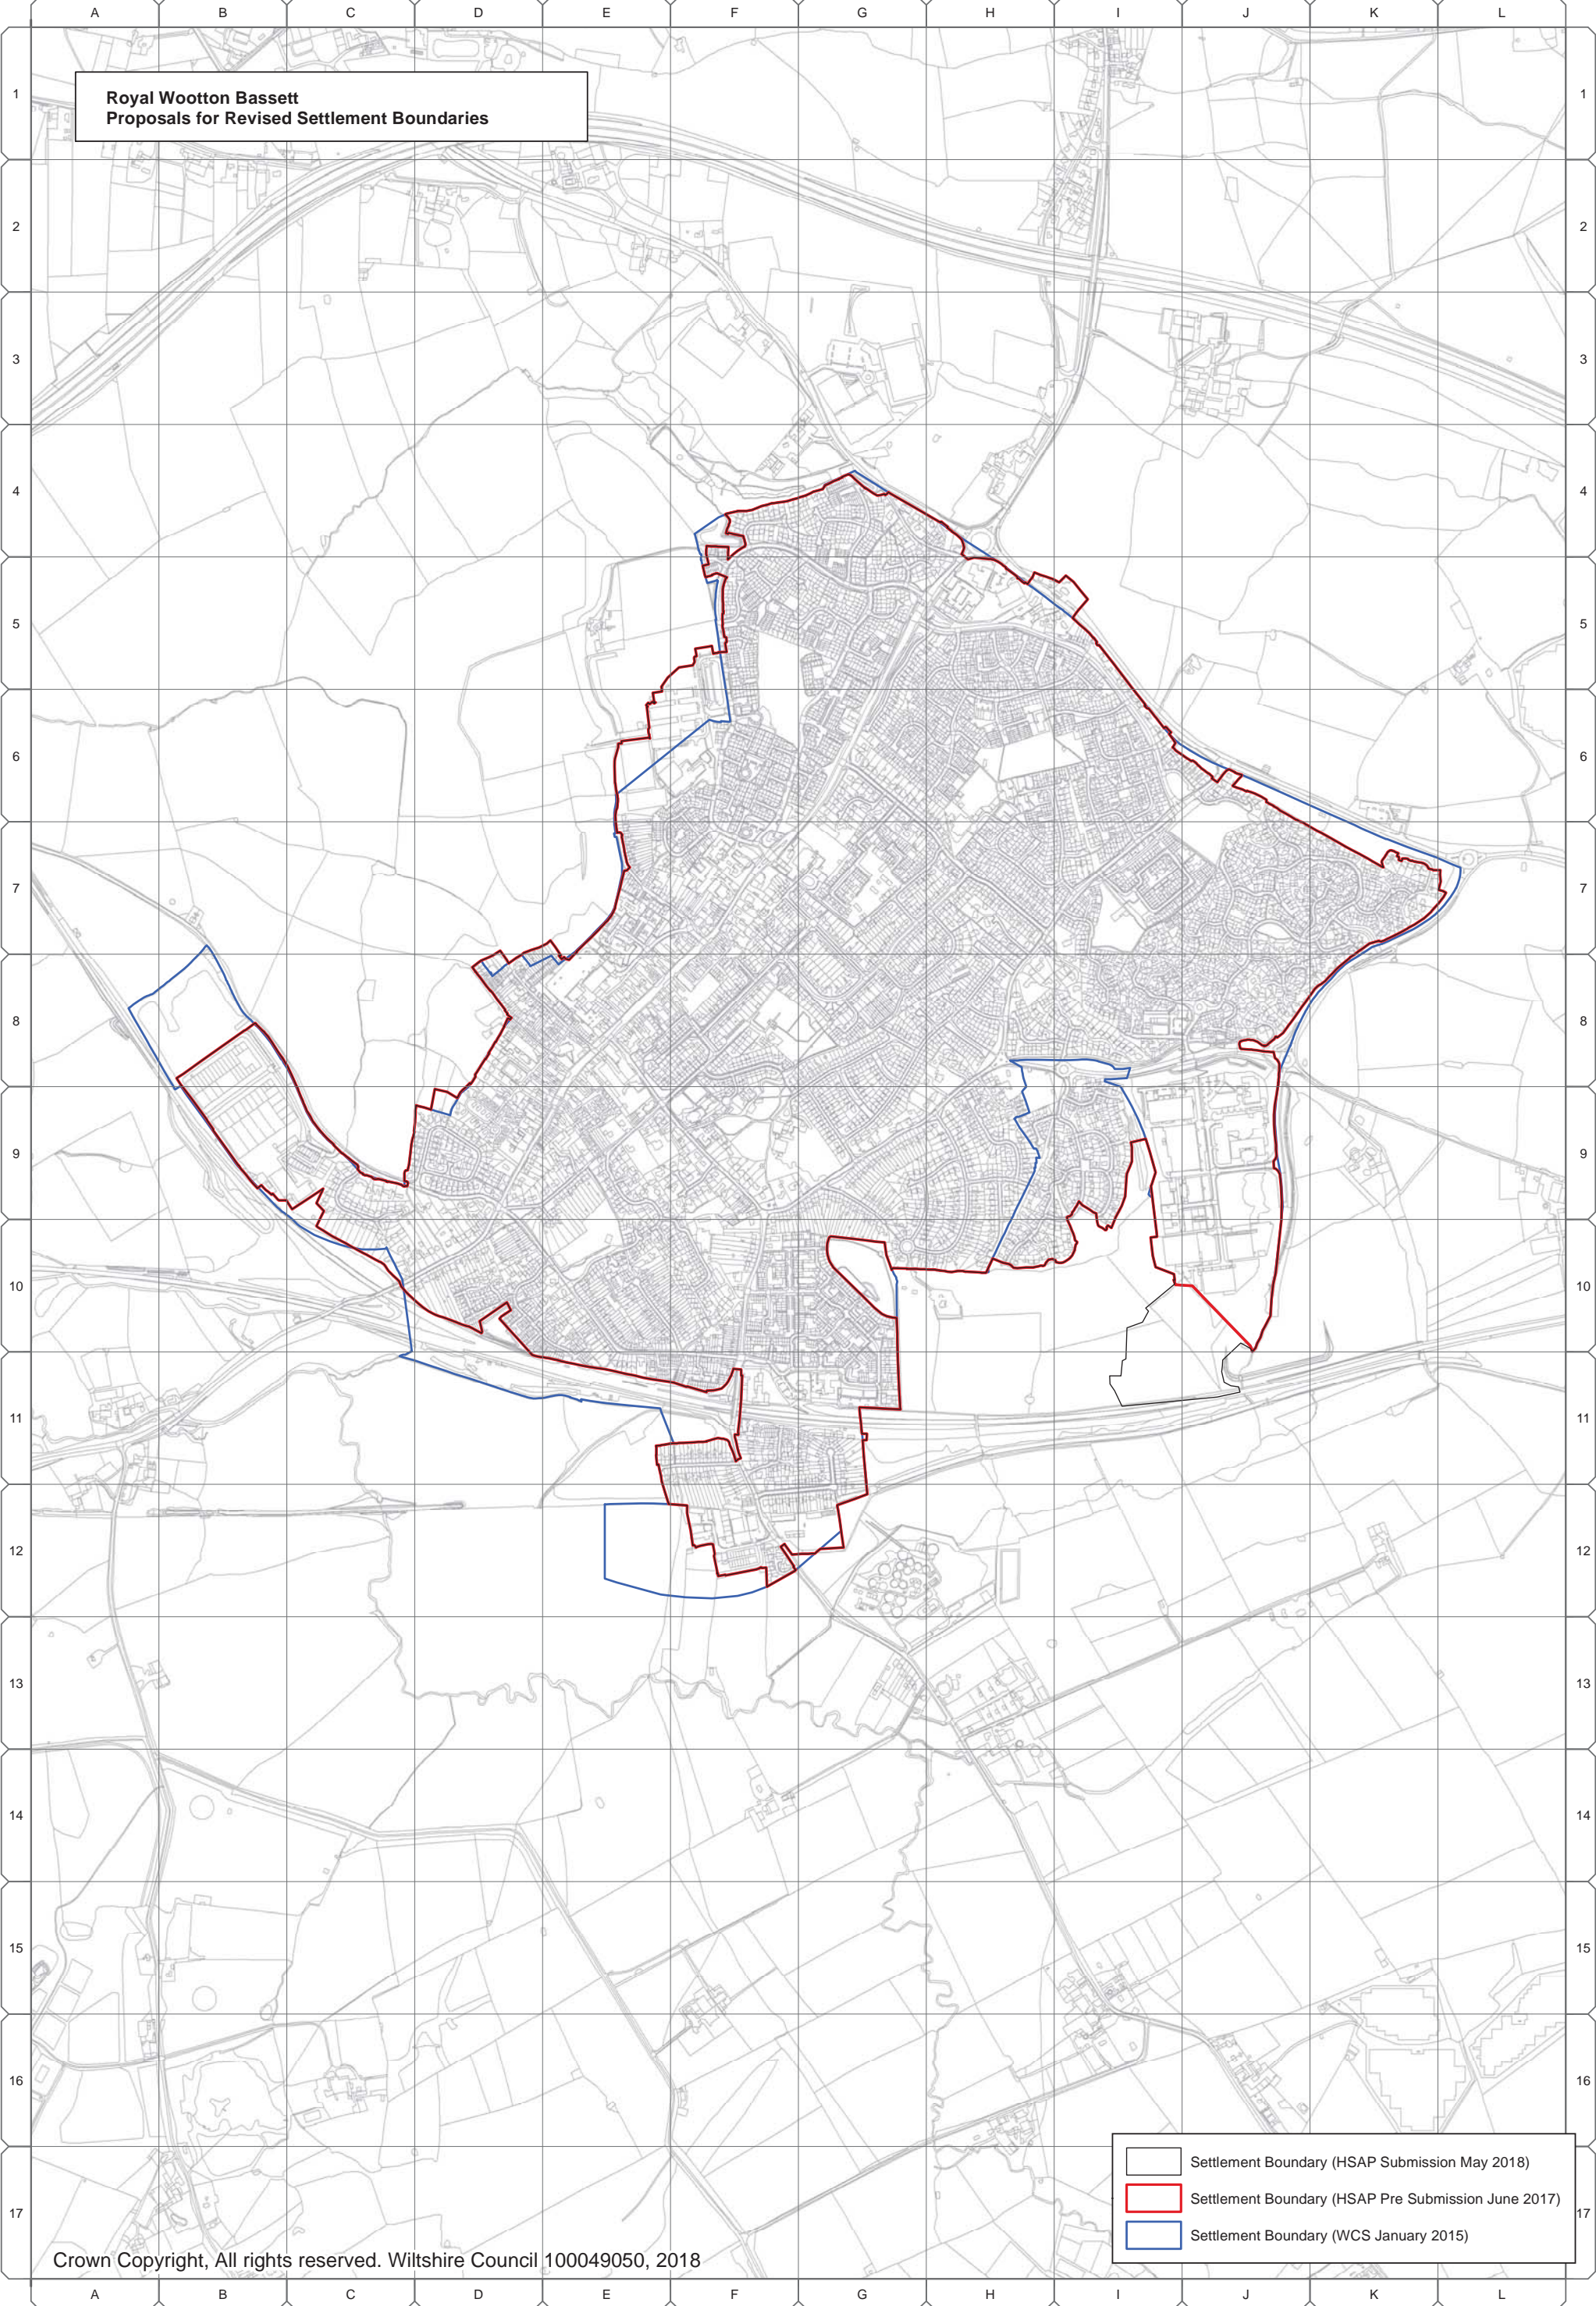

- Royal Wootton Bassett
- Cricklade
- Lyneham, and
- Purton

- 7.4 ***The 'made' Cricklade neighbourhood plan includes a review of the settlement boundary of Cricklade and therefore has not been reviewed as part of this Plan.*** No ***other*** settlements in the Royal Wootton Bassett and Cricklade Community Area are considered to have had their settlement boundaries reviewed through a sufficiently advanced neighbourhood planning process. Therefore, ***all those*** settlements with currently adopted settlement boundaries within this community area have been considered through the settlement boundary review.
