Community Governance Review

Go to <http://www.wiltshire.gov.uk/council-democracy-cgr> to comment.

The screenshot shows the Wiltshire Council website with a map background. The header includes the council logo and navigation links: Home, Pay, Report, Apply, Services, News, Salisbury, Accessibility, and Contact. A search bar is present with the text "What would you like to do?" and a "Search" button. The main content area features a large green banner with the text "Community Governance Review". Below the banner, a breadcrumb trail reads "Home > Council and democracy and elections > Community Governance Review". At the bottom of the banner, the text "Community Governance Review" is repeated.

- Dorset & Wiltshire Fire and Rescue Service
- Health Services
- Town and Parish Councils
- Marlborough Area Neighbourhood Plan

Petitions

- **Barton Park/College Fields, Marlborough Public Open Space Petition.**

Changes to recycling collections in 2020

Marlborough Area Board
Tuesday 19 November 2019

Martin Litherland
Head of Waste Management

What is happening?

- The way we collect materials for recycling will change in the new year
- Some recycling collection days may change
- Residents will receive further information through the post, including details of new collection days, in advance of changes being made
- View your new collection days and print a collection calendar from the council's website once these days have been confirmed

We are making it even easier to recycle at home

- In addition to plastic bottles, pots, tubs, trays, cardboard boxes, food and drink cartons, you will be able to include paper, food and drink cans, aerosols and foil in your blue lidded bin
- Please rinse and squash your recycling where possible
- If your cartons have a lid, put them back on
- Plastic film, black plastic and flower pots cannot be recycled in the blue lidded bin

What else can you recycle?

You will continue to use your black box for glass and textiles

- Clean, dry textiles must be bagged and tied
- No duvets, sleeping bags or unpaired shoes

Why are we making changes?

- The changes will make it even easier for residents to use the kerbside recycling collection service and will reduce the number of vehicles we use
- Fewer vehicles means a reduction in our impact on the environment
- A new materials recovery facility is being built which will sort the mixed recycling, reducing the requirement for residents to separate their recyclable materials at home

Further information

- All collections will remain fortnightly
- Sign up for email alerts on the waste pages of our website, to ensure you are kept up to date with service developments
- If you think you need a larger blue-lidded bin or an additional blue lidded bin you can register via the council's website via the following link

wiltshire.gov.uk/rubbish-and-recycling-collection-changes

How can we help you to help your community?

Town and parish councils and community groups play a key role within communities. We wish to work with you to advise residents of these service changes. If you would like assistance with:

- Writing an article to be published in your town or parish magazine or community newsletter
- Obtaining information for your town or village website or community Facebook site
- Requesting posters for you to display within your area
- Inviting a waste officer to a parish council or other local meeting to talk about these changes

Please email wasteandrecycling@wiltshire.gov.uk

End Destination Charter

- Voluntary scheme developed by the Resource Association to promote openness and transparency over end destinations of waste
- We are a signatory to the charter and we publish an annual return on its website <http://www.wiltshire.gov.uk/what-happens-to-recycling>
- Provides clarity as to where materials collected for recycling are sent for reprocessing
- In 2018/19, **89%** of all of the waste collected for recycling, composting and re-use was managed within the UK
