

## **Update for Wiltshire Area Boards**

May 2023

### **Discharge Project**

The project aims to support people (and those who care for them) being discharged from hospital with support to feel better informed and engaged in the discharge process. This will help to improve their experience of being discharged and supporting front line staff to have better conversations about discharge planning.

The project is progressing well and following an extensive engagement and development process, the information has been shared with a media production agency to develop videos and supporting resources. We are currently in the development stage and are working to identify a group of people with experience of hospital discharge who can provide feedback on the products being developed to ensure they will meet the needs of the people we are aiming to support in the best possible way.

There will be a full programme to launch, embed and share the information which will include raising awareness prior to admission.

### **Health Inequalities**

A successful workshop held in March has supported the development of the WHIG work plan for the coming year. Priority actions and objectives have been aligned and key relationships for developing work across the system have been identified. The full work programme will be shared widely in July once it is completed and agreed.
