Notice of Motion No. 2024-03 - Solar Farms

From Cllr Phil Alford and Cllr Nick Botterill

To consider the following motion submitted in accordance with the constitution:

Whilst not opposed to the principle of the development of solar farms in line with the National Planning Policy Framework this Council is increasingly concerned at the concentration of solar farms, battery storage and associated infrastructure in Wiltshire. Some villages are now completely surrounded by solar farms and their continued concentration represents a significant cumulative impact and industrialisation of the countryside.

Wiltshire Council therefore calls on the Secretary of State for the Department of Levelling Up, Housing and Communities to define more closely what is meant by 'cumulative impact' regarding solar farms and to take clear steps to ensure that solar developments are more evenly spread across the UK and not concentrated in specific areas effectively industrialising the countryside.

We would also ask for clarity of the priority given to ensuring that food production and farming are not destroyed as industries in specific areas through an excessive concentration of solar farms given the massive impact that would have on the rural way of life in villages that have been farmed for time immemorial.
