#### Note on Audit Commission National Indicators

**NI 191** – The number of kilograms of residual household waste collected per household. This indicator monitors an authority's performance in reducing the amount of waste that is sent to landfill, incineration or energy recovery. A low tonnage indicates good performance.

**NI 192** – The percentage of household waste arisings which have been sent by the authority for reuse, recycling, composting or anaerobic digestion.

A high percentage indicates good performance.

**NI 193** – The percentage of municipal waste which is sent to landfill. A low percentage indicates good performance.
