

**Wiltshire Council**

**Cabinet**

**19 November 2019**

---

**Supplementary Questions from Colin Gale – on behalf of Pewsey Community Area Partnership (PCAP), Pewsey Parish Council (PPC), Campaign to Protect Rural England (CPRE) about the Final Report of the Public Consultations Task Group**

**Hereafter referred to as the “Report” and the “PCTG” respectively**

**Agenda Item 5 – Public Participation**

**To Councillor Allison Bucknell – Cabinet Member for Communications, Communities, Leisure and Libraries**

**Question 3 – Response from Mr Gale:** It is disappointing to note that the Task Group did not receive the Memorandum sent to the Chairman. The Memorandum has been provided again for circulation to the officers.

**Response**

Q3 – this has now been received, thank you. It will also be included in the agenda papers for OS Management Committee for its meeting on 3 December 2019.

**Question 4 – Response from Mr Gale:** The final sentence of the response states “A list of the complete consultations is provided at Appendix 1” however, there does not appear to be an Appendix 1?

**Response**

Q4 – apologies that this was omitted in the original response, please see below.

**Question 11 – Response from Mr gale:**

There appears to be some confusion with respect to the use of the term ‘Executive’. The Groups understanding of ‘Executive’ is that it is the ‘Councils Key Decision Making Body ie Cabinet’, which is wholly appropriate especially considering the task

originated from Cabinet on 9<sup>th</sup> October 2018. The PCTG in its Final Report are using the OSMC as the 'Executive' and the response to the Groups questions is using the OSMC as the 'Executive'. Please clarify.

## **Response**

Q11 – 'The Executive' refers to Cabinet members (which have Executive day-to-day decision making powers) and Portfolio Holders (which support the Cabinet Members in their role). Overview and Scrutiny (OS) can only be undertaken by non-executive members. OS Management Committee is the council's lead OS committee and coordinates the OS forward work programme. More information regarding Overview and Scrutiny's role can be found on the council's website:  
<http://www.wiltshire.gov.uk/council-democracy-overview-scrutiny>

A specific response has not been provided to the final part of the question:

“ The above list does not represent the totality of the Group's questions, comments and concerns. The Group therefore invites the Council to respond to, or comment on, Review items 05, (internal documents) - 06 (interim arrangements pending the establishment of the Business Intelligence Hub) - 09 (canvassing and engagement matters) - 15 ( Hub expertise and legal challenges) and 16 ( comment on Recommendations). The full text of the Group's Review is attached to this Statement.

Q11A – Members of OS Management Committee and the Cabinet Member may wish to make further comment on the Group's submission at OS Management Committee on [Tuesday 3 December](#). A written Executive response to the recommendations of the Task Group will also be received and discussed.

12 entries. ('Baby Steps Evaluation Survey' submitted twice).

#### Legal Comment

12 = examples of canvassing/satisfaction surveys/general communications

0 = statutory/discretionary consultations

On the basis of the titles, it would appear that all entries are surveys (canvassing), to either seek the views of residents on various issues that may need to be considered in the future, or to assess satisfaction of the users/stakeholders.

None of the above are examples of either statutory or discretionary consultations.

10 entries.

### Legal Comment

8 = canvassing/satisfaction surveys/general communications

2 = statutory/discretionary consultations

On the basis of the titles, it would appear that all entries, bar two, were surveys (canvassing) to either seek the views of residents/stakeholders on various issues that may need to be considered in the future, or to assess satisfaction of users/stakeholders. These eight titles were not needed or recommended by legal to ensure legal compliance, nor were they needed to ensure such compliance.

The one that we can identify as recommended by legal to ensure legal compliance is the fifth entry relating to car parking charges.

The ninth entry relating to changes to Children's Centres may also have been initiated to ensure legal compliance with consultation. Legal Services is aware that a formal legal consultation was carried out in respect of this issue at around this time. However, it is difficult to confirm whether this was the case by use of the word "survey".

### Legal Comment

10 = canvassing/satisfaction surveys/general communications

2 = statutory/discretionary consultations

On the basis of the titles, it would appear that all entries, bar two, were surveys (canvassing) to either seek the views of residents/stakeholders on various issues that may need to be considered in the future, or to assess satisfaction of users/stakeholders. These ten titles were not needed or recommended by legal to ensure legal compliance, nor were they needed to ensure such compliance.

In respect of the two identified as having different considerations, the first entry relates to a Community Governance Review and was required as part of a statutory (set by legislation) consultation.

The second is the fourth entry (Bus Services Timetable), which was a legal consultation recommended by Legal Services, since the proposed changes may have had an adverse effect on users – particularly those with protected characteristics (equalities duties). This consultation was recommended to ensure that the ultimate decision maker was fully informed on the impacts, and particularly impacts, on persons with protected characteristics.

13 entries above.

## Legal Comment

11 = canvassing/satisfaction surveys/general communications

2 = statutory/discretionary consultations

On the basis of the titles, it would appear that all entries, bar two, were surveys (canvassing) to either seek the views of residents/stakeholders on various issues that may need to be considered in the future, or to assess satisfaction of users/stakeholders. These eleven titles were not needed or recommended by legal to ensure legal compliance, nor were they needed to ensure such compliance.

Of the two identified as having different considerations, the ninth entry related to the potential closure of the Everleigh Recycling Centre and was a consultation recommended by Legal Services, based on a promise by an elected member that the Council would consult with users (legitimate expectation) and ensured legal compliance in decision making.

The tenth entry relates to the Housing Allocations Policy and was a statutory consultation, required as part of the Town and Country Planning Act requirements.

## Legal Comment

11 = canvassing/satisfaction surveys/general communications

2 = statutory/discretionary consultations

On the basis of the titles, it would appear that all entries, bar two, were surveys (canvassing) to either seek the views of residents/stakeholders on various issues that may need to be considered in the future, or to assess satisfaction of users/stakeholders. These eleven titles were not needed or recommended by legal to ensure legal compliance, nor were they needed to ensure such compliance.

Of the two identified as having different considerations, entries 8 and 9 (Salisbury Public Spaces Protection) relate to statutory consultations, undertaken to give effect to Designated Public Open Spaces orders for Salisbury and were required by law and could not be avoided.

## Legal Comment

9 = canvassing/satisfaction surveys/general communications

2 = statutory/discretionary consultations

On the basis of the titles, it would appear that all entries, bar two, were surveys (canvassing) to either seek the views of residents/stakeholders on various issues that may need to be considered in the future, or to assess satisfaction of users/stakeholders. These nine titles were not needed or recommended by legal to ensure legal compliance, nor were they needed to ensure such compliance.

Of the two identified as having different considerations, entries 2 and 3 (Special Schools Consultation) were recommended by Legal Services, to ensure legal compliance; following guidance put out by the Department for Education and also ensured that Cabinet - as the ultimate decision-maker - was fully informed as to the impact on and views of both the public and specific members of the public with protected characteristics (equalities duties).

12 entries above.

## Legal Comment

12 = canvassing/satisfaction surveys/general communications

0 = statutory/discretionary consultations

On the basis of the titles, it would appear that all entries were surveys (canvassing) to either seek the views of residents/stakeholders on various issues that may need to be considered in the future, or to assess satisfaction of users/stakeholders.

None of the above are examples of either statutory or discretionary consultations.
