Dear Sir/Madam,

OPPOSITION TO APPLICATION FOR A NEW PREMISES LICENSE AT WADSWICK GREEN RECRUITMENT VILLAGE

We are writing to voice our strong opposition to the license application being made by Wadswick Green Ltd. We live approximately 200m from the Wadswick Green site and are very concerned about the potential for noise, antisocial behaviour and disruption that such a loose license could allow.

Specifically, the company is applying for a license to sell alcohol and make noise between 11am and 1am every day. The new premises will be open to the general public every day.

The application cites indoor and outdoor plays and films. These are already regularly hosted in the nearby Neston Village Hall, without the need for an alcohol license or late opening. It also cites live and recorded music; that describes a night club and the company would be entirely able to build one if this license were approved.

Wadswick Green is a retirement village. This license, and the type of establishment, events and public access that it allows – unfettered – are wholly inappropriate and very likely to cause unwanted disturbance. The families nearest to the site all work; we have small children and are up early. We do not want to be kept awake until 1am any night of the week and later still with traffic departing.

We see no need for such an unrestricted license. If the company wishes to put on an event, then they can apply for one-off licenses. None of the nearby pubs have such a license; even the Corsham Rugby Club, which is way outside of the town, had their application turned down.

Please do not approve this application.

Yours sincerely,
