Question from Cllr Ernie Clark

Were you one of the 102 Conservative council leaders who contacted Brandon Lewis claiming that you were 'best placed to make decisions about Sunday trading' and calling on the government 'to put its trust into councils'? If you were, what mandate did you have for doing so from the elected members of this council?

Response

The response being referred to was submitted by the LGA's conservative group. As such there was no requirement so seek the views of elected members of this council.
