Subject: At Home - Variation - Blue Notice

Hi Hannah,

I attended At Home at 1845hrs this evening, in company with PC Billington and checked for the Blue Notice, which neither of us could locate.

Later whilst speaking to Louella Adamson (DPS) on the phone, together with the Bar Manager on duty, Jessica Clark, the Blue Notice was identified as being in the window beside the door, but at the very top of the window, i.e. at ceiling level, where it was completely impossible to identify or read.

I told Louella that I was requiring the Bar Manager, Jessica Clark, to relocate it to an eyelevel position beside the door, where members of the public can see it & read it.

Louella stated to me that you were aware of where it was placed and were happy with the position.

I advised her that I considered that statement to be incorrect and that I was aware she had sent a photograph of the Blue Notice, but it was not at all clear where it was positioned. I reiterated that the whole point is that members of the public can read the Notice.

Regards

Sue
