<b><u>Minute No..</u></b>	<b><u>Summary of Issues Discussed and Decision</u></b>
119	<p><u>Welcome and Introductions</u></p> <p>The Chairman, Cllr Sven Hocking welcomed everyone to the meeting of the Salisbury Area Board and invited the members of the Board to introduce themselves.</p>
120	<p><u>Apologies for Absence</u></p> <p>Apologies for absence had been received from:</p> <ul style="list-style-type: none"> <li>• Cllr Caroline Corbin</li> <li>• Cllr Dr Mark McClelland</li> <li>• Chriss Wood – Fire &amp; Rescue</li> <li>• Irene Kohler – Silver Salisbury, Item 7</li> <li>• Carmella Town – Emergency Contact Hubs, Item 9</li> </ul>
121	<p><u>Minutes</u></p> <p><b><u>Decision</u></b>  <b>The minutes of the meeting held on Thursday 1 December 2022 were agreed as a correct record and signed by the Chairman.</b></p>
122	<p><u>Declarations of Interest</u></p> <p>There were none.</p>
123	<p><u>Chairman's Updates</u></p> <p>The Chairman gave the following updates:</p> <p><u>Highways</u>  Information provided by Councillors during and after the last Area board meeting had been fed into the Forward Maintenance Program and would be looked at as a whole. The Chairman had requested that works be extended to include walkways. A full response to this input would be presented by Highways Officers at the next meeting. It was also noted that there was a delay caused by budget pressures due to increased prices and availability of materials, and a change to the designated Highways contactor from Ringway to Milestone Infrastructure at the end of the financial year.</p> <p><u>LCWIP</u>  Mike Crook, appointed to replace Heather Blake, was now working on reviewing the consultation responses received, some of which were very detailed. The document would be revised with a view to finalising it in the summer.</p>

	<p><u>Dol</u> Under the newly adopted Code of Conduct for elected members, there were some changes which would impact on members of the Salisbury Area Board who were also Salisbury City Council Councillors. For any applications where Salisbury City Council (SCC) was the applicant, any dual hatted member would need to request a dispensation, in advance of the Area Board meeting where an application was due to be considered. This is because there is now a requirement for dual hatted members leave the room and not take part in the discussion or vote on the matter, leaving the Board inquorate to make a decision. It was noted that this did not apply to LHFIG funding schemes which were supported by SCC.</p> <p><u>Comments:</u> Cllr Dalton requested that the Board receive an update on the Maltings Development at the next meeting.</p> <p><b>Action: Karen Linaker to liaise with Officers to bring an update on the Maltings to the next meeting.</b></p>
124	<p><u>Information items</u></p> <p>The Board noted the Information Items attached to the agenda, which included:</p> <ul style="list-style-type: none"> <li>a) BSW Together (Integrated Care System)</li> <li>b) Community First</li> <li>c) Healthwatch Wiltshire</li> <li>d) Wiltshire Council Consultation Portal</li> <li>e) Wiltshire Council Information Items: <ul style="list-style-type: none"> <li>King Charles III Coronation – Community Celebrations</li> <li>Wiltshire Families and Children’s Transformation (FACT) Partnership</li> <li>Cost of Living Update</li> </ul> </li> </ul>
125	<p><u>Partner and Community Updates</u></p> <p>The Board received the following verbal updates:</p> <p><u>Silver Salisbury Programme</u> Alan Mitchell, Treasurer gave thanks to the Board for funding awarded the previous year, noting that Silver Salisbury was now a registered charity. The Autumn 2022 review highlighted the brochure which had been produced, with around 5000 copies being delivered around the Salisbury area.</p> <p>The initiative had reached 980 older people who had taken part in the 36 one off events. The aim for this year would be to produce 2 brochures one for the whole year and another for the Silver Salisbury fortnight.</p> <p>There had been good feedback from those who had taken part, with many relaying their surprise at how much was going on around Salisbury, which they</p>

previously had no idea about.

#### Street Light Audit Update

Liz Batten gave an update on the progress of the project.

19 volunteers had come together to take part in the street audits during February. Since the audit was carried out, there had been some improvements with replacements of LED lighting. Liz noted that the audit report pre-dated that work, so there may now be some on the list which had been addressed.

The audit report was included in the agenda pack and set out all of the locations where lights still needed to be addressed.

Some suggested works included wall painting for the ends of the tunnel at St Pauls underpass to improve visibility and brighten the area and for the lights at back of the City Hall to be turned on at night, for improved safety for people leaving the Playhouse.

#### Questions:

It was suggested that issues reported on the MyWilts are being recorded as closed before being actioned.

Answer:- Cllr Hocking responded that he understood MyWilts reports were closed once the task had been allocated to the relevant contactor to attend, but would clarify at the next meeting. Cllr Hocking also stated that in his capacity as IT Portfolio Holder he will be looking at way to improve the MyWilts App and will report at the next AB.

**Action:- Cllr Hocking to clarify at what point reports are logged as closed and update on possible option to improve the App at the next AB**

**Action: David Redfern, to enquire with the Estates Team whether the lights at the rear of City Hall could be turned on in the evenings.**

#### Underpasses working group Update

In addition to the minutes attached Cllr Sample noted that the Group was currently waiting for partners in Highways England to complete an evaluation to identify the ownership of the underpasses, which it was hoped would set out responsibilities as a starting point for any work.

#### A36 National Highways Update

Chris Hilldrup, Highways England noted the projects he was involved with around the city, including the River Park Project and the A36 Southampton Road.

Chris worked in partnership with the Environment Agency and Wiltshire Council and would be working one day a month from County Hall in Trowbridge with council officers.

In addition, Chris advised National Highways were also sharing A36 traffic modelling data with Wiltshire Council Highways to assist with the Harnham Gyratory and Exeter Street roundabout project.

Questions:

- The work on the A36, particularly Southampton Road was well received, however. there was currently a study on the M4 in Dorset, how do your three schemes link into that?
- Answer: There is some £20m expected to be spent on the A36 Southampton Road to make Salisbury workable for the next 15 – 20 years. The M4 to Dorset study is a separate piece of work, and whatever the outcome, if any, would not be expected to break ground for at least two decades, if at all.
  
- Would you be able to share the A36 traffic modelling study at the next meeting in June?  
Answer: I would like to but not promising it would be ready then.
  
- I didn't think that Wiltshire Council was pursuing the Harnham Gyratory development anymore, it would be useful for the Board to receive an update from the Council on the scheme.  
Answer: The request would be fed back to the relevant Officer.
  
- The ideas for the junctions mentioned had not been shared with SCC, as advised, could this be done?  
Answer: The Highways Engineer working on the project would be asked to share the data.

Air Quality Group

Cllr Hocking noted that there was still one site along the Wilton Road where the nitrous oxide pollution levels were above 40ppm thus too high. The Group were working on signage for no engine idling around parts of the city centre and schools and looking at whether restrictions were enforceable. The Group also hoped to attract a representative for electric car hire.

The Board noted the written updates provided in the Agenda and in Supplement 1, these were:

- a) Salisbury City Council (SCC)
- b) Police – NPT
- c) Fire & Rescue
- d) Salisbury Future High Street Fund
- e) Salisbury BID

Alzheimers Support Salisbury

Julian Roberts, Trusts and Foundations Fundraiser at Alzheimer's Support gave

	<p>thanks to the Board for its generous grant which had been awarded last year towards the new dementia centre.</p> <p>There would be a new day club with 6 hrs of activities, open from 28 March. A launch event to thank the funders and partners would be held in April.</p> <p>Julian gave assurance that the provision offered at the centre would really make a difference to those that use it, which included not only people with dementia, but for the families and carers as well.</p>
127	<p><u>Emergency Contact Hubs</u></p> <p>This item was postponed until a future meeting as the speaker was unable to attend.</p>

This did not align with Wiltshire Council's vision for City Hall which remained to remobilise the building as an arts and entertainment venue.</li> </ul> <p><u>Comments &amp; questions:</u></p> <ul style="list-style-type: none"> <li>• Was it still the plan to open in Jan 2024, because bands etc book venues a year in advance at least, noting the impact of any further delay on the night-time economy? <u>Answer:</u> It was still the target, however more would be known once the procurement exercise was complete.</li> <li>• Noting all similar venues are still struggling will it be a challenge to get someone to come onboard? <u>Answer:</u> Yes, however I work with a number of arts partners across the county, they had recently all advised how</li> </ul>

	<p>buoyant things were starting to get.</p> <ul style="list-style-type: none"> <li>• It there were a ticking clock, how long before Wiltshire Council would have to succumb to the offers of other potential non art related offers on the premises? <u>Answer:</u> This is the first attempt at talking to operators, we were not looking past that at the moment.</li> <li>• As part of the levelling up application was there anything specific which related to the structural repairs which would be needed? <u>Answer:</u> No, we were not specific in the funds as part of the levelling up bid. The works with the PIN would be a lot more specific. There was a requirement for some work related to the roof, details would be provided within the report available next week, which as part of the procurement exercise would be accessible publicly.</li> <li>• Had the funds accrued from the NHS hire been set aside for works to the city hall? <u>Answer:</u> Estates had been operating that side of things. I will ask and feedback.</li> </ul>
