Local Priorities

Since the Community Policing Team Model rolled out, we have been setting the local area priorities in a more fluid way. The priorities, in the most simplistic form, are what officers are expected to be doing, and where they should be patrolling, when they are not responding to ongoing crimes or incidents, or not carrying out enquiries relating to those crimes and incidents.

The priorities are set and evaluated each week and may be long term or short term.

The priorities for the Malmesbury Community Policing area during June continued to be focused on tackling issues with drugs and Anti social Behaviour in Station Yard and other areas of Malmesbury :

This has involved three different approaches:

- 1) Gathering of intelligence in relation to drug supply and disruption of activities.
- 2) Targetting of individuals and robust policing in the problem areas.
- 3) Education in schools and working with other agencies to provide support and education.

A number of people have been arrested in possession of drugs and this will be an ongoing priority.

A number of suspected drink drivers have also been targeted.

We will also be approaching the local Supermarkets to establish whether they intend to take a more pro-active approach towards shoplifting in their stores.
