PC3	Paragraph 4.2		To improve clarity.	Amend the paragraph to read: “The figures above <i>do not include windfall and</i> show a minimum to be allocated <i>that the Plan should aim to allocate</i> , but a surplus is necessary to maintain five years supply of housing land in each HMA and to surpass the buffer in excess of five years required by the NPPF.”	Minor

PC5	Paragraph 4.8		Factual update to reflect the consideration of new sites.	<p>Amend the paragraph to read:</p> <p>“All councils are required to maintain a register of land that has been put forward for development. This is referred to as the Strategic Housing Land Availability Assessment (SHLAA). Within areas of search the SHLAA provides a pool of land opportunities for possible housing development <u>Since the publication of the SHLAA other sites have been promoted to the Council through the consultation on the draft Plan, which would be considered through future updates to the SHLAA, now referred to as the Strategic Housing and Employment Land Availability Assessment (SHELAA). Such sites can also be regarded as SHLAA (SHELAA) sites for site assessment purposes.</u>”</p>	Minor
PC6	Paragraph 4.32		Factual update to reflect the latest published Housing Land Supply Statement (March 2018).	<p>Amend paragraph to read:</p> <p>“Housing trajectories are site by site estimates of start and finish dates and annual completions. Aggregating housing trajectories for each HMA shows how the Plan helps to deliver in excess of five years supply of land in each area for the remaining years of the plan period. The table below provides estimates of how many years supply there will be in each remaining year of the plan period. It shows that supply exceeds the five-year requirement through to the end of the plan period for all years except one four in the South Wiltshire HMA and well before by then additional allocations will be included within the review of the WCS.”</p>	Minor
PC7	Paragraph 4.39		Factual update to reflect the latest published Housing Land Supply Statement (March 2018).	<p>Amend paragraph to read:</p> <p>“The overall pattern of growth is in general conformity with the WCS. It is consistent with the principles of the spatial strategy. Compared to indicative levels, development is focussed slightly more on the Market Towns (+4% +7.2%) and less on the rural settlements (-8% -6.5%).</p>	Minor

PC8	Paragraph 4.41		To correct a typographical error.	Change 'Netheravob' in second sentence to 'Netheravon'.	Minor
PC9	Paragraph 4.45		Minor factual amendment to express the degree to which market towns have disproportionately grown in recent years when compared to the Principal Settlements of Trowbridge and Chippenham. This reflects the latest published Housing Land Supply Statement (March 2018).	Amend paragraph to read: "There are marked differences in the anticipated growth of <i>many of the Market Towns in the HMA (including Calne, Malmesbury, Melksham and Bowerhill,</i> and Westbury) over the plan period compared to the two Principal Settlements of the HMA, Chippenham and Trowbridge."	Minor
PC10	Paragraph 4.47		Minor factual amendment for clarity to reflect the fact that Melksham and Bowerhill village are treated as being a single settlement within the Wiltshire Core Strategy for the purposes of planning.	Amend paragraph to read: "In contrast, rates of development at most Market Towns have met expectations and at Bradford on Avon, Calne, Malmesbury, Melksham <i>and Bowerhill,</i> Royal Wootton Bassett and Westbury anticipated levels of growth have been exceeded over the first half of the plan period. Land has been available and some additional sites granted consent by planning appeals. Over the same interval, scales of development within rural areas in many places have also exceeded those anticipated by the WCS."	Minor
PC11	Paragraph 4.49		Factual update to reflect the latest published Housing Land Supply Statement (March 2018).	Amend paragraph to read: "Chippenham however is now likely to exceed <i>now has the potential to meet</i> the minimum scale of growth anticipated in the WCS by <i>delivery of</i> higher rates of house building in the last half of the plan period compared to much lower rates over recent years. This will come about in large part as a result of significant allocations for housing development made in the Chippenham Site Allocations Plan <i>as well as other significant permissions at the town.</i> "	Minor

Six new site allocations provide land for approximately 800 1,100 dwellings and have the potential to increase their capacity to make the best use of land. Nevertheless, housing development at Trowbridge will fall short of the WCS indicative level of 6,810 dwellings by around 4,220 1,247 .”	
PC13	Paragraph 4.53		Factual update to reflect the latest published Housing Land Supply Statement (March 2018) and Proposed Changes 34, 39, 43 and 49.	Amend paragraph to read: “One main reason for a shortfall in land supply is the complexity and consequent delay developing Ashton Park, a south-eastern extension to the town. 4,600 1,350 dwellings will be built on this site in the plan period and a further 4,000 1,250 post-2026; rather than first envisaged that the whole of the allocation would have been completed in the plan period. This <i>broadly equates</i> can be seen to account for 1,000 of the 4,220 1,247 dwelling shortfall.”	Minor
PC14	Paragraph 4.63		Factual update to reflect the latest published Housing Land Supply Statement (March 2018).	Amend the paragraph to read: “The South Wiltshire HMA has a slightly less generous housing land supply than elsewhere in Wiltshire.”	Minor
PC15	Paragraph 4.64		Factual update to reflect the latest published Housing Land Supply Statement (March 2018).	Amend the paragraph to read: “Salisbury is the Principal Settlement within the HMA. It is intended to be the primary focus for development, providing significant levels of jobs and homes. Two site allocations of more than 500 dwellings <i>provide a large source of supply</i> are important to ensuring there is a surety of supply to the end of the <i>Plan</i> period <i>to ensure</i> and that the City achieves the role set out in the spatial strategy: Churchfields <i>Fugglestone Red</i> and land at Netherhampton Road. The first is a strategic site allocated in the WCS. The latter of these, <i>land</i> at Netherhampton Road, is an allocation of the Plan.	Minor

PC16	Paragraph 4.66		Factual update to reflect the latest published Housing Land Supply Statement (March 2018).	<p>Amend paragraph to read:</p> <p><u>“One of the WCS strategic allocations, namely</u> Churchfields, is a strategic mixed-use site that Core Policy 20 of the WCS requires to deliver 1100 dwellings by 2026. To be developed, this site requires substantial employment uses to decant and is now expected to commence later than envisaged and much less land for new housing will be available before <u>beyond the current plan period of</u> 2026. It is a complex regeneration project that will take time to deliver and will require other sites to enable existing businesses to relocate.</p>	Minor
PC17	Paragraph 4.68		Factual update to reflect the latest published Housing Land Supply Statement (March 2018).	<p>Amend paragraph to read:</p> <p>“Recognising the scale of the site, a generous lead in time is provided for the delivery of Netherhampton Road. The site is not expected to contribute to housing delivery for several years whilst work is carried out to masterplan the site and develop mitigation measures. In the meantime, supply from major schemes such as Fugglestone Red and Longhedge will ensure sufficient supply. Churchfields <u>Fugglestone Red</u> and <u>the</u> Netherhampton Road sites will deliver new homes alongside each other toward the end of the plan period.”</p>	Minor

PC22	Paragraph 5.5	ID: 403793 Rep: 1641	In response to comments from Heritage England. To reflect the Heritage Impact Assessment undertaken by the Council and ensure appropriate consideration is given to heritage assets and their settings consistent with the national policy.	Amend existing paragraph 5.5 to read: "Development has the potential to affect the significance of a range of heritage assets within or beyond site boundaries. <u>The Council has produced a high-level Heritage Impact Assessment (HIA) to support the Plan. The HIA identifies and assesses the significance of heritage assets (and their settings) on sites where such matters will be particularly important considerations to address in subsequent planning applications.</u> Where necessary, <u>further detailed a site-specific heritage assessments</u> will prescribe measures which will need to be incorporated as part of a scheme in order to protect them, including the importance of their settings. Settlement Boundary Review Changes

Appendix 2: Schedule of Proposed Changes to the Pre-submission Draft Plan (May 2018)

Following consideration of representations to the pre-submission consultation, a schedule of proposed changes to settlement boundaries (including recent development up to April 2017), have been presented as tracked changes in the submission version of the Community Area Topic Papers. Appendix A to the Community Area Topic Papers contains new tables listing the proposed changes for each settlement, where relevant, and revised settlement boundary review maps for all settlements.
