

Calne Community Neighbourhood Plan

Neighbourhood Plans gives communities real power to create a shared vision and guide future development for their areas.

What is a Neighbourhood Plan?

Neighbourhood Plans (NP) were introduced in 2011, they empower communities to shape the development and growth of a local area. Once a NP is adopted (or 'made' to use the planning term) it has the same weight and strength as the Wiltshire Local Plan. A NP cannot block development that is already part of the Wiltshire Local Plan, but it can shape where that development will go and what it will look like.

The NP covers the area for the community of Calne and the villages around of Fishers Brook, Ratford, Derry Hill and Studley, Sandy Lane, Stockley & Calstone.

Updating the Calne Community Neighbourhood Plan

In February 2018, our community voted in support of the Calne Community NP through a local referendum and it was adopted.

Now the NP is now more than 4 years old, we need to update the Plan to make sure it is relevant and up-to-date. We also want to make it stronger where we can in response to recent planning permissions and appeals.

Through the update we'll address a range of issues including climate change, future housing, green space and heritage protection for example
