To: dan@sunrisefestivals.co.uk  
FW: Message from member of the public

16 April 2013 08:27

Dan

I don't know where the figure of 30 arrests has come from?

Avon and Somerset police made 2 arrests over the Sunrise festival in 2012.  
There were 8 reported thefts and 15 recorded incidents of drugs with no violent crime.

These figures have been passed to Wilts police.

From my involvement last year I can say that the feeling of the festival is normally good, it's well run and the organisers are fully supportive of police advice.

Give me a call if you wish to discuss - 01935 402141

Jamie

Sergeants and Sara,

Message from Dan Hurring sent to the SSN mailbox.

He is obviously concerned about the licence for his new venue.

I would reply but do not have access to the figures.

Tim  
PCSO 7467

=====  
=====  
Message for Edward Hawkins (Area East)

Message:  
Dear Ed,

I hope this finds you well.

Its Dan Hurring here, from the Sunrise Celebrations.

As you may know, Sunrise has recently moved to a new venue inside Wiltshire. We're currently going through the licensing process with the Hearing for the event due in the next two weeks.

We have had long and constructive discussions with Wiltshire Constabulary over the last months, where everything seemed to be in order. However, at a meeting several days ago, held to finalise the last of the arrangements on the license, a new officer was present, one Charlie Dibble.

He came at us from a very different angle, quoting statistics provided from Avon & Somerset, specifically from one Sergeant Rees. He stated

that he was the officer in charge of covert operations at Sunrise in 2012. He also stated that the covert operatives made 30 arrests for drugs and had to abandon the operation due to the level of arrests being too high for them to cope with.

This varies massively from our own understanding of the operation. Our understanding was that the operation was run by Sergeant Sara Stephenson with a single other officer alongside. As I handed over only two wristbands, this does seem to add up. The understanding we had at the time was that there were relatively low incidents, one of which involved our security being called out.

The low level of incidents was confirmed at our Multi-Agency Meeting in September 2012 when the stated figure was around a dozen, ten of which were on the spot cautions. The only substances found in these incidents, at least in all but the one case of arrest, was cannabis. I do not know about the arrest case.

The 30 figure is obviously quite significantly higher. As all Police vehicles were contained in our own production compound, and all police attendance was recorded in our logs, it would seem likely that we would know of 30 arrests.

Finally, it was never mentioned that the operation was abandoned due to overwhelm. The only recorded incidence here was a substantial number of officers being withdrawn from the event site for a larger incident elsewhere.

Ed, do you have any way of locating the correct figures for arrests at Sunrise 2012, specifically from drugs crime and whether these affected the continuance of the operation?  
Is there also any way of finding out whether these figures (if different from those stated above) were given to Wiltshire Police?

If so, could you verify these figures with me, as, as I say, they are not what I have on record from our own multi-agency meeting?

The result of these figures has been the painting of the festival as a high-crime, high-drugs, high-risk event which is, frankly, utterly in opposition to the truth as far as we're concerned and the records we have from all previous years.

I'd appreciate a swift response if you are able and apologise if this is a case of error on our part.

Yours sincerely,

Dan Hurring

Letter of Confirmation

---

Ref: Sunrise: Another World Thoulstone Park 30  
May- 2 June 2013

Dear Jacqui,

We hope this finds you well. Thank you very much for the time you, Inspector Winter and Chief Inspector Dibble have given us in seeking to resolve the issues around the festival application. We understand and fully support the your commitment to ensuring public safety and the prevention of crime. We also believe these are key issues at any event and want to work with you and your colleagues to achieve both.

We would also like to thank you for the concessions made in light of the information received from Avon and Somerset and confirm that we will be requesting Special Police Services. This is in the Event Management Plan.

Due to the number of representations from the local community, we have engaged TLT Solicitors (Matthew Phipps) to represent us at the License Committee Hearing. We have a meeting with Matthew on Thursday afternoon to finalise our position on all aspects of the hearing and will be in a position to confirm our request once we have had that meeting.

Can we ask whether on receipt of the form requesting Special Police Services you propose to withdraw your objection, formally, prior to the Hearing, or is it the case that the representation will be maintained, albeit that you will not have any actual objection or negative observations to make to committee.

Kind regards

Alex Lepingwell and Dan Hurring

RE: Noise Propagation & Aggregation

10 April 2013 09:07

2 Attachments, 487 KB

Dan,

Many thanks for this 'site specific' noise impact information we requested and I would just like to clarify some timescales for your information.

I have appointments and meetings over the next couple of days, so it is likely to be Friday afternoon before I am able to assess the detailed information initially and furthermore, would also like to visit the outskirts of the festival site in order that the calcs and receptors have more meaning to me as I am based in Chippenham.

Myself and Annabel can then discuss where our written reps stand having assessed the detail(which looks like it is what we asked for).

I would imagine we would be able to respond formally by the middle of next week regarding our written reps position.

Regards

John

**Sent:** 09 April 2013 13:35  
**To:** Freegard, John; Golledge, Kate; Wilkinson, Annabel  
**Cc:** Jones, Maggie; Alex Lepingwell; Steve Anderson  
**Subject:** Noise Propagation & Aggregation

Hello John,

Attached are the noise propagation and aggregation spreadsheets requested & an explanatory document. Also attached are two Google Maps showing where the sound sources are on the site and where the nearest residences are.

We have chosen a range of the most sound sensitive and local properties to measure from/to as well as Chapmanslade as the nearest large settlement of note. We hope that this will present a balanced view of what can be expected at other properties. See Steve's explanatory document for more on this.

What is clear is that the main hours of off-site noise will be during the running times of the Main Stage, which is for a total of 22.5 hours over the weekend, taking into account that there are long breaks in between acts for changeovers. This amounts to 25-30% of the running time.

Between the hours of 9am and Midday each day there are no programmed entertainment venues running, and so sound levels at these times from scheduled activity will be very low in comparison to later times. Similarly, no amplified entertainment will be running until 5pm on the opening day (Thursday) and so the 60 dBA limit will not be troubled at all during this period.

The total 'On-Time' therefore where the 60dBA criteria agreed would be needed is:

1700 - 2300 - 6 hours - Thursday 30th May  
1200 - 2300 - 11 hours - Friday 31st May  
1200 - 2300 - 11 hours - Saturday 1st June  
1200 - 2300 - 11 hours - Sunday 2nd June

A total of 39 hours rather than 60 mentioned before.

I would also like to emphasise here that there will likely be times between these points when there will be much lower levels due to band changeovers, etc, but these are flexible periods in time and extent. I would also like to emphasise that the Aggregation information does not suggest we will be running at 60dBA at all times, but that this ceiling will be needed during the operating times above for non-ideal climatic and other conditions.

Further to the above, we are in dialogue with the most local residents over sound levels and disturbance, recognising that several houses in Thoulstone will receive higher levels than anywhere else in the vicinity and thus needed to be treated with the utmost respect and consideration.

Finally, to meet the inaudibility criteria, we will no longer be seeking to run any amplified music past the times set aside for 45dBA limits. Previously we had left one venue in place as running during this period and will now alter this, see the spreadsheet of amended venue ON Times.

So, in summary:

- We agree to the Inaudibility Criteria during the hours previously agreed at all residences. We agree that this is to be measured outside of properties, rather than inside.
- We agree, as stated before, to the dBA limits of 60dBA prior to 11pm; 50dBA from 11pm-12am; 45dBA until 1am Thursday/Friday AM & 2am Friday/Saturday/Sunday AM
- We continue to be prepared to work with WCC to achieve the conditions put forward by Environmental Health in previous and current communications.

We hope that this will be sufficient for us to agree the required conditions related to Noise on- and off-site during the licensed period of the Sunrise Festival 2013.

I look forward to speaking soon.

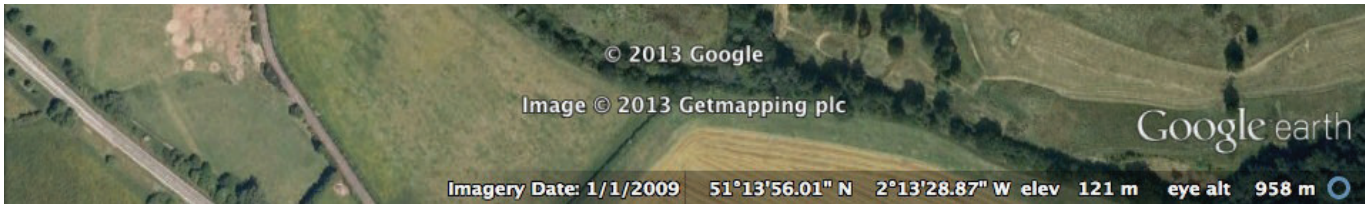

All the best,

Dan Hurring

RE: Representation

2 Attachments, 4 KB

Dear Dan,

Thank you for your response and the revised attached security schedules.

I can confirm that the revised schedule has addressed the Licensing Authorities concerns over numbers and roles on the part of the security team.

Once I have confirmation that the music noise levels have been addressed to the Environmental Health officers satisfaction the Licensing Authorities' concerns will have been addressed and will be reported as such at the hearing on the 22<sup>nd</sup> of April.

The issue of Special Policing Services is a contractual matter between you as the applicant and Wiltshire Constabulary.

My only concern was where you have made reference to a role that was going to involve police officers; of course you could adjust your security schedules to cover these roles if you wished.

I am sure your negotiations will continue with the Responsible Authorities and I await the outcome,

Kind Regards,

Kate Golledge

**Subject:** Re: Representation

Dear Kate,

Apologies for the radio silence since this interaction last week.

As you may have heard, the Police did indeed ask for Special Police Services to be requested during our meeting. We have agreed to this in principle, though the negotiation as to the extent of these is ongoing, especially as we have been given such short notice.

At the current time, we do not have resolution with the Police due to this, though I think we are now fulfilling all the conditions asked for on their part, including a slightly revised SIA schedule which includes additional venue SIA staffing in the nightclub-style venues where bars are present. I attach this for your benefit. This was the final query over SIA provision, to our knowledge. We hope that the Representation can and will still be removed in time for the Hearing.

We have submitted all information requested to the EHO (which I believe I cc'ed you in to). We are now just awaiting response to these. Again, technically, we have fulfilled all requests and agreed to all conditions laid down, so we are hopeful that this can now be resolved.

Are there any matters beyond these that are of specific concern to you and in need of further resolution?

Yours sincerely,

Dan Hurring

To: Daniel Hurring  
RE: Sunrise

15 April 2013 11:34

---

Hi Dan

Apologies I didn't get chance to come back to you last week...busy busy.... and then rest days!

Anyway here is what I have found out:

Figures from last year were:

8 thefts (tent/bicycles etc)

15 drugs

No violent crime

Our policing model has been low key with patrols by neighbourhood teams only supported by the Special Constabulary. Due to a peak in theft related offences in 2011 Sergeant REES decided to deploy a pair of plain clothes officers in 2012.

The festival has normally been good, well run with the organisers being fully supportive of any police advice.

Hopefully this will assist you further.

Sara

Dear Sara,

Hope this finds you well.

We had an interesting and rather surprising meeting with a senior officer from Wiltshire Police today.

He suddenly hit us with a statistic of 30 drugs arrests/charges from the covert patrols at Sunrise last year.

Previously you had listed 12, 10 of which were cautions on the spot.

Is it possible to know the correct numbers?

Also, he mentioned operations were abandoned due to high number of arrests.

Is it possible for you to verify this?

I appreciate some of this may be confidential, but it rather knocked us sideways as this wasn't our understanding of proceedings from previous conversations.

Believe he spoke to a Sergeant Rees.

**Re: SUNRISE FESTIVALS 2013 Ltd**

**Application no. 201-303-551**

**Hearing Monday 22/4/13**

---

## **OUTLINE LEGAL ARGUMENT**

### **SECTION ONE**

SEE WILTSHIRE COUNCIL'S NOTES FOR GUIDANCE : APPLICATION FOR PREMISES LICENCE, PAGE 6.

I RAISED THIS POINT IN MY REPRESENTATIONS PAGE 69 OF COUNCIL DOCUMENT.

#### **Failure to give proper Notices of License Application**

Where premises exceed 50 square metres notice is to be displayed every 50 metres abutting highway where it can be conveniently read for a period of no less than 28 consecutive days.

I inspected boundary on 28/3/13 (21 days after publishing) and again on Monday 8/4/13.

On 28/3/13 I inspected perimeter of Golf Course from boundary of Brake's Farm along the A3098, A36 slip road, the A36, the Thoulston Lane to Club entrance, and then along THE DROVE, a track capable of taking traffic and used by riders/cyclists/walkers.

From the Brake Farm boundary to first Notice opposite Short Street junction I measured, with surveyor's tape, 109/110 meters of fencing clear of any Notices. The first Notice was displayed on the very point of bend making it highly dangerous to read.

From First notice to Second Notice there was a gap of approximately 102/103 meters.

From Second Notice to Third Notice there was a gap of 68.5 meters.

From Third Notice to Fourth Notice, opposite Turnpike Cottage, there was a gap of 219/220 meters.

OF THESE NOTICES ON A3098, only the Fourth could be read safely. From the Fourth Notice to the gates to the Club no notice was displayed at all.

On 28/3/13 the Fifth Notice was displayed near entrance gates of Club.

On 8/4/13 this Fifth Notice had been removed, or I could no longer see it. This was outside the 28 day period.

I suggest, with respect, that the failure to post Notices every 50 meters round the boundary fence and to continue to display them for 28 days, is sufficient to justify a dismissal of the application.

There are plenty of points along the boundary where notices could be displayed safely, including from Brake Farm boundary to the first Notice, from the fourth Notice to the slip road, and on the slip road itself. All were safe to allow inspection.

## **OUTLINE LEGAL ARGUMENT SECTION TWO**

I RAISED THE FOLLOWING POINTS IN MY WRITTEN REPRESENTATIONS, SEE PAGES 69/70 OF THE COUNCIL'S BUNDLE.

Breaches of Natural Justice and Article 6 Right of a Fair Trial Human Rights Act 1998 (see Procedural Rules Page 2 section 3)

1. Section 3 Human Rights Act 1998 gives a Statutory general requirement that all legislation must be read or given effect wherever possible in a way compatible with the Conventions of Human Rights unless prevented from doing so by statute.
2. The Licensing Act 2003 (c 17) requires a Licensing Committee to act in a QUASI-JUDICIAL capacity.
3. Fair Hearing Article 6  
Parties must be given equal and reasonable opportunities to present case. There should be equality of arms, i.e. one party should not be placed at a procedural advantage over the other.

The system presently hampers access to a tribunal and creates inadequate time limits.

Common Law breach of Natural Justice, in that parties affected are given inadequate opportunity both to state their case and consider issues to be raised.

See R-v- Chief Constable of North Wales ex p Evans 1982 1WLR 1155 (HL)  
R-v Secretary of State for the Home Department ex parts Doody 1994 AC 531  
R-v Army Board of the Defence Council ex p Anderson 1992 QB 169  
R-v Paddington Rent Tribunal ex-parte Bell Properties Ltd 1949 1 K.B 666

### **(a) ISSUE ONE**

Text of Notices is inadequate. An ordinary member of the public not familiar with Licensing jargon would not understand the implications. No times of activities are given. It is not reasonable to expect citizens to understand the legalistic terminology, to telephone the Council to make a special appointment, to travel to Council offices, and then wade through a Management Plan of 280 pages, plus license application, in the presence of an officer.

Presuming Blue Notices were posted early on 7/3/13, an objector would only have 18 working days to inspect the application and supporting document. This year, the Easter holiday intervened.

**(b) ISSUE TWO**

I repeat argument in Section One as to failure to display Notices every 50 meters on boundary. It is not sufficient to rely on a citizen noticing the advert being placed on a Council's website. Firstly, there are still a considerable number of people who do not have an internet connection or who could be expected to visit the website as a matter of general course. Only one Notice was advertised in one newspaper, 'The Wiltshire Times'. This particular publication covers the whole county and many people just purchase their local newspaper or rely on a free newspaper.

**(c) ISSUE THREE**

The Management Plan lodged with Application and available for inspection contained insufficient information to enable a person to make a reasoned judgement. For example, Noise Management Statements were dated previous year. Some possible objectors might have accepted the plan at face value, not realised implications, and failed to lodge Representations within tight time schedule expiring on 4/4/13

**(d) ISSUE FOUR**

The Applicant's Noise Management Statement has still not been lodged with the Council as at date of drafting, Tuesday 16/4/13. Objectors are not being given adequate notice or information to enable them to respond. Most people work.

Dear Sirs

**SUNRISE FESTIVAL 30<sup>TH</sup> MAY – 2<sup>ND</sup> JUNE, CHAPMANSLADE**

I very strongly object to the above festival being organised on the former golf course, Thoulston, for the following reasons:

1. I know there were plans for another site, which fell through, but the time between that application and this proposed event is far too short. The Parish Council and the local residents only heard about it very recently.
2. Despite all the promises of controlled volume, we know that music being played from 1.00pm to 3.00am will ruin the lives of those living close by. The last festival held in Bruton could be heard in Chapmanslade, 12 miles away.
3. Traffic chaos and potential accidents are a huge concern. 7,000 people, 2,000 cars, caravans, mobile homes on a very busy bank holiday weekend is inviting injury and possible loss of life. The A36 is very fast, 1km of back-up parking for cars arriving is insufficient and there will be tail backs on the main road (note Tintinhull 4 years ago – A303 blocked for 2 hours).
4. Teenagers, especially, will walk on the busy roads at night and will be very unsafe.
5. The charge of £18 parking fee for cars will mean that many will park up where they can. Old Drove Lane, roads around Upton Scudamore, Short Street, Village Hall car park (and anyone's gateway) will be used to save the fee.

6. Only one business – the pub – will benefit from this event. Barbers Nurseries, on the busiest gardening weekend, will lose business, customers being put off by excess traffic.
7. Access to elderly and infirm patients will be limited and carers will have great difficulties.
8. The site, especially this year, is as wet as ever. Sinking vehicles, and lots of mud, will hinder all movements.
9. Water pressure is not good. The adjoining farms have difficulties at certain times and 7,000 extra people will make matters much worse.
10. Litter, alcohol, drugs – all expected to create problems.
11. The meeting in the Village Hall showed a 75% objection to the festival. Those living nearby (one lady is 94) are very concerned indeed.
12. Deer, owls, bats, badgers, birds – all undisturbed for several years, will be greatly affected.

FRIENDS, TO GIVE A LICENCE TO FESTIVAL SUNRISE,  
WILL, FOR THE MAJORITY, BE VERY UNWISE.

Yours sincerely

Dennis R Barnard
