6. Project summary:

The aim of the project is to provide a footpath from the changing rooms to the football pitches. As an all-inclusive club, we try to meet the needs of everyone who comes to our club, whether to watch rugby or football. We have two adult rugby pitches, three football pitches and a cricket square. Putting a footpath in will allow wheel chair access from our disabled section of the car park, through to the disabled toilets and then onto a position where viewing of either the football or cricket can be easily achieved. The new clubhouse will have access to the rugby pitches for disabled spectators

7. Which Area Board are you applying to?

Electoral Division

13. Please tell us WHO will benefit and HOW they will benefit from your project benefit your local community?

We have several members who are disabled and are unable to watch sport other than from disabled parking spaces situated on the car park or on the concreted area outside the changing rooms. These people have said they would benefit from closer viewing. In addition members who are injured are also unable to view satisfactorily. Families with young children in prams/pushchairs would be able to gain access from RWB lake and the town itself on properly constituted paths. Also, elderly people with mobility issues(walking sticks, and people without transport would also benefit as they would be able to access facilities on foot from RWB. By providing access from the town car park to the sporting areas, viewing sport will become more accessible and will encourage more people to become more active. This will develop more inclusion in our sporting community.

14. How will you monitor this?

By speaking to spectators who use the path and assessing their responses. There will be increased usage of the facilities and we will monitor that alongside sporting organisations who use Ballards Ash

15. If your project will continue after the Wiltshire Council funding runs out, how will you continue to fund it?

We will maintain the path as an ongoing expense as and when required through our own fundraising and contributions from organisations who benefit from the footpath.

16. Is there anything else you think we should know about the project?
