#### **3 Declarations of Interest**

There were no declarations of interest.

#### **4 Chairman's Announcements**

There were no Chairman's announcements.

#### **5 Public Participation**

There were no members of the public present or councillors' questions.

#### **6 Security Vetting Policy**

Consideration was given to a report by the Associate Director, People & Business which sought approval for the new Security Vetting Policy.

It was explained that security vetting applied when specialised security checks were required for certain specified roles that included access to particularly sensitive or secure data.

As Wiltshire Council now worked in partnership with Wiltshire Police, some employees working in roles that worked closely with them required non police personnel vetting (NPPV) to reduce the risks of unauthorised disclosure or loss of sensitive police information.

A baseline personnel security standard (BPSS) check might be required if an employee had access to certain sensitive information via the public services network (PSN) in the course of their employment with the Council.

It was noted that there were no costs associated with NPPV checks as they were carried out by the police. However, there was a cost associated with obtaining a BPSS check which was £33.16 per individual. There would be a number of checks required in 2016 and work was currently underway to identify the individuals needing the checks.

Members were informed that the policy had been approved and ratified by the Joint Consultative Committee (JCC) on 7 December 2015 following consultation with facilities, management, HR, the legal team, union representatives and other stakeholders.

After some discussion,

**Resolved:**

**To approve the Security Vetting Policy.**

## 7 **Smoke-free Policy**

The Committee received a report by the Associate Director, People and Business which presented a new Smoke-free Policy and Procedure. The new policy outlined the move to a smoke-free working environment in order to provide a healthy workplace for employees, which would include the removal of designated smoking areas on site and requiring staff to move off site. The policy also removes smoking breaks.

Members were reminded that the Committee gave some initial consideration to suggested planned revisions to this Policy at its last meeting but, whilst supporting in principle the development of a new smoke-free policy, expressed some concerns about the practicality of implementing and enforcing the policy, especially on shared sites with partners.

It was explained that the current policy provided designated smoking areas and cigarette bins at each of the main hubs and depots. It also allowed managers to use their discretion when permitting smoking breaks outside of the lunch period, provided that the time was made up.

The Public Health team had expressed concerns about allowing Council staff and members of the public to smoke on site considering the Council's policy to promote healthy living both across Wiltshire and within the workforce and aspiration to attain the "Healthy Workplace Charter". As a consequence, the Corporate Leadership Team (CLT) had agreed to implement smoke-free sites across Wiltshire Council sites on 24 August 2014.

The new policy would provide for a three month lead in time to ensure arrangements were in place and to provide sufficient time for staff wishing to stop smoking to gain support.

During the ensuing discussion, Members once again expressed their concern that certain aspects of the proposed new policy would not be enforceable, especially those areas which were shared with partners and also outside areas which were accessible to by members of the public. There was also discussion about potential reputational issues, specifically in relation to staff smoking in public places where complaints had been previously received.

**Resolved:**

**To reject the new Smoke-free Policy for the following reasons:-**

- (1) Under this Committee's terms of reference, it can only consider matters relating to staff; it has no authority to make decisions affecting members of the Council or the general public.**
- (2) Whilst not being averse to agreeing to some amendments to this policy, the Committee considered that the proposals were unlikely to be enforceable, particularly relating to shared premises and council owned car parks.**

**8 Pay Policy Statement**

Consideration was given to a report by the Associate Director, People & Business, which presented an updated pay policy statement for the financial year 2016/17 for approval, prior to agreement by Council and publication on the Council's website.

It was noted that chapter 8 of the Localism Act 2011 stated that every local authority must prepare a pay policy statement for the financial year 2012/13 and each subsequent financial year. Wiltshire Council originally published its pay policy statement in February 2012 and the updated policy was required to be published on the website by 1 April 2016.

The Committee was informed that the existing policy had been updated to include:

- A revised introduction stating the forthcoming legislation that will impact on the council's pay arrangements. This includes the new National Living Wage, gender pay gap reporting, and the public sector exit payment cap.
- The ability to pay at a rate higher than the median pay rate for posts where there are skills shortages as stated in the Council's market supplement policy.
- Information relating to the publication of trade union facility time as required by the Local Government Transparency Code 2015.
- An updated total number of council employees and the latest pay ratios.

**Resolved:**

**To approve the draft Pay Policy Statement for endorsement by Council on 23 February 2016 on the understanding that the budget figure would first be reviewed and updated and subject to the heading prior to para. 71 reading as follows:-**

**The relationship between the *basic pay* remuneration of chief officers and employees who are not chief officers.**

9 **Update on Local Government (Green Book) Pay Negotiations 2016/17 and consideration of the payment of the living wage**

The Committee considered a report by the Associate Director, People and Business, which provided an update on the national pay negotiations that were taking place.

At its meeting on 14 December 2015, CLT considered whether the Council should adopt the Living Wage and agreed that they could not support the adoption of the Living Wage for the foreseeable future in light of the ongoing budget pressures for both the schools and non-schools teams and bearing in mind that the National Living Wage would be introduced from 2016 which would have a significant impact on lower paid staff.

During discussion, Members supported the decision of the CLT and also noted that there were currently no problems in recruiting to the lower grades.

**Resolved:**

- (1) To note the update on pay negotiations and that further updates would be provided when more information became available.**
- (2) To agree with the introduction of the new National Living Wage which would have a significant impact on lower paid staff and which would be introduced in April 2016.**

10 **Equality & Diversity Update**

The Committee considered a report by the Associate Director, People and Business which presented the updated Annual Equality and Diversity Employment Monitoring Report. It was noted that the Council was required to produce this information annually as part of the Public Sector Equality Duty in line with the Equality Act 2010. This was the first report to be based on a new reporting date of 1 October which had previously been 1 April each year. The reporting date had been changed to move it closer to the statutory publishing date.

Reference was made to work that had been taking place to extend the data collected on the protected characteristics on SAP which included religion and belief, sexual orientation, marriage and civil partnerships, gender reassignment and caring responsibilities. Staff had been asked to complete an equalities monitoring questionnaire to provide this additional information but it was noted that 40% of staff had completed this questionnaire. Ongoing work was being carried out to explain to staff why this additional information was required.

**Resolved:**

**To note the contents of the report.**

11 **Date of Next Meeting**

**Resolved:**

**To note that the next scheduled meeting of the Committee was due to be held on Wednesday 2 March 2016, in the Kennet Room at County Hall, Trowbridge, starting at 10.30am.**

12 **Urgent Items**

There were no items of urgent business.

(Duration of meeting: 10.30 am - 12.00 pm)

## QUARTERLY WORKFORCE REPORTING

Report for Wiltshire Council relating to the quarter ending December 2015.

### Notes on the figures:

- All reported figures exclude casual employees and agency/professional services staff (unless stated).
- Wiltshire Council figures exclude Schools:
  - **Headcount** = Number of positions that are filled, not individual people.
  - **FTE** = "Full Time Equivalents" which take into account actual working hours to show accurate staffing levels.
- The **voluntary staff turnover** section does not include information for those who leave due to statutory retirement, ill health, compulsory or voluntary redundancy, dismissals, end of contract, unsatisfactory probation and TUPE transfers as these are classified as compulsory reasons. Only voluntary leavers are included as these are the individuals that have decided to leave for their own reasons and therefore it may not be in Wiltshire's best interest. Overall turnover rates will be higher and can be analysed upon request.
- Although the cost associated with turnover is not readily available, CIPD estimate that the recruitment cost of replacing a leaver is £2,930. Based on this year's turnover rate (10.4%) we could estimate that 524 employees will leave Wiltshire Council during 2015-16 resulting in costs of **£1,533,960**.
- **% <1 year turnover rate**: The cost of turnover in this group is generally higher as the investment in recruitment, induction and training is unlikely to be recovered within such a short time period.
- The measures relating to **last year** refer to figures from the same quarter one year ago.
- The quarters refer to the following periods:
  - Quarter 1: January – March 2015
  - Quarter 2: April – June 2015
  - Quarter 3: July – September 2015
  - Quarter 4: October – December 2015**
  - Last year: October – December 2014**
- Last year is shown on measures that can show seasonal variances e.g. we expect sickness figures to be lowest during January to March and then highest April to June which means an increase in line with the same period last year should not be seen as a concern.
- The benchmark used is that received from DLA Piper (37 local authorities). Although we don't detail the exact benchmark difference we use a traffic light system to show how we compare:

10%+ Positive Variation **Green**

Less than 10% variation **Amber**

10%+ Negative Variation **Red**

- The **sickness measure** given is the number of FTE days lost per FTE during each quarter; this figure is **not annualised**. Adding up the four quarters gives a full rolling years days lost per FTE.

# QUARTERLY WORKFORCE REPORTING

Wiltshire Council (excl. Schools)  
Quarter ended: 31<sup>st</sup> December 2015

## HR Information Team Observations:

---

<b>Headcount reduction</b>	1	<p>The headcount across Wiltshire Council has seen a decrease since last quarter of 37 employees (-0.8%), with this figure now standing at 4828. The headcount has consistently decreased over the past year; as would be expected, reducing by 206 (4%) over the past rolling year. The greatest reduction in headcount was seen in the Adult Care Commissioning and Housing service (-18), followed by Commissioning Performance and Schools Effectiveness (-16). Corporate Function, Procurement and Programme Office saw an increase in headcount of 21 (+4.5%).</p> <p>The full time equivalent (FTE) figure has decreased this quarter by 10 (-0.3%) and these changes in FTE were broadly in line with the changes in headcount outlined above. Again, the highest reductions in FTE were in the Adult Care Commissioning and Housing service (-17.4) followed by the Commissioning Performance and Schools Effectiveness service (-11.6).</p>
<b>Increase in sickness absence</b>	2	<p>Sickness rates have increased this quarter to 2.4 days lost per FTE; an increase of 0.5. This is 0.1 days per FTE below the benchmark for a local authority. This is a seasonal increase in sickness absence; the last 4 years have seen an increase in sickness absence between the July-September and October-December quarters. The highest levels of sickness absence remain within the Waste and Environment service at 4.0; an increase of 1.1 days per FTE. Whilst Legal and Governance have the second highest sickness absence rate at 3.0; this is due to a significant increase in sickness since last quarter (2.1 days per FTE). This was the largest increase seen across the council, meaning Legal and Governance went from having one of the lowest to one of the highest sickness absence rates. This is due to several long term absences, the majority of which were due to stomach/digestion, in electoral services and legal services. Commissioning, Performance and Schools Effectiveness decreased the most, down by 0.3 days per FTE from 1.9 to 1.6. Whilst Finance saw the lowest sickness absence rate across the quarter; at 1.1 days per FTE (no change from last quarter).</p> <p>This quarter, 48.4% (+5.0%) of all absence days lost were due to long term absences (greater than 20 days), this is 7.4% below the benchmark for a local authority. As well as the lowest sickness absence levels, Finance also had the lowest proportion of long term absences (15.6%, a decrease of 3.1%). Highways and Transport had the greatest improvement in long term absences decreasing from 50.9% to 37.7% (-13.2%). Commissioning Performance and Schools Effectiveness had the largest proportion of long term absences (65.0%) and also saw the largest increase in long term absence over the quarter (+38.2%).</p> <p>26.0% (-4.8%) of all absence days lost were due to 'stress/depression/mental health/fatigue'; of which 34.3% (-6.9%) was recorded as not work related, and 18.9% (-1.1%) recorded as work related. 'Cold/flu and other infections' became the second most common reason for absence this quarter; with 13.7% of absences attributed to this reason (+7.2%). This can be put down to a seasonal variance.</p>
<b>Decrease in voluntary turnover</b>	3	<p>The voluntary turnover rate has decreased to 2.1% this quarter (-0.3%). This is 0.4% above the benchmark voluntary turnover rate for local government. This is the lowest voluntary turnover rate seen over the last year.</p> <p>Adult Care Commissioning and Housing had the highest voluntary turnover</p>

# QUARTERLY WORKFORCE REPORTING

rate this quarter at 5.2% an increase of 2.9% (the largest increase seen by any service over the quarter). This was predominantly due to the restructure in Housing. 11 of the 13 voluntary leavers came from either Housing – Strategy and Assets (6) or Strategic Housing (5); with alternative employment not in local government the overriding reason. The service with the second highest voluntary turnover rate was Corporate Function, Procurement & Programme Office with 4.1% (+1.4%). This increase in the Corporate Function, Procurement & Programme Office service predominantly came from business support officers in Performance, Risk & Scrutiny (3 of the 5 voluntary leavers). Legal & Governance had the lowest voluntary turnover rate at 0.9% (-1.9%) with 1 employee leaving voluntarily in the quarter. Whilst Waste and Environment saw the largest decrease, reducing from 3.2% to 1.1%.

35.6% (37) of all voluntary leavers during the quarter resigned for alternative employment not with a local authority. This is down 3.6% from last quarter (39.2%, 47 leavers). The second most common reason continues to be due to family commitments with some 27 employees accounting for 26.0% of all leavers (up from 20.8%, 25 people last quarter).

The ratio of starters to leavers (FTE) has increased this quarter to 1:1.4 (a change from 1:1.2). This means that there were more leavers than starters this quarter; which would explain why the headcount and FTE have both decreased this quarter.

**Disciplinary and grievance** 4 The number of new disciplinary cases opened this quarter has increased slightly to 26 (+3). The largest number of disciplinarys this quarter came from Adult Social Care Operations; with 10 new disciplinary cases opened (an increase of 5 from last quarter). This was also the largest increase seen by a service this quarter. The largest decrease was witnessed by Public Health and Finance, both with a reduction of 3 disciplinary cases; with the latter reducing to 0 new cases in the quarter due to this reduction.

The number of new grievance cases opened in the quarter has increased to 5. This is an increase from 0 last quarter. Highways and Transport had the highest number of new grievance cases opened in the quarter (2).

**Decrease in non-casual wage bill** 5 The non-casual wage bill has decreased this quarter by £296,416 and currently sits at £26.16m. This is in line with the considerable fall in headcount seen over the last few quarters. The largest reduction by far was seen within Commissioning, Performance and Schools Effectiveness with a reduction of £250,880; 85% of the total reduction across the whole of Wiltshire Council. The next largest reduction was in Adult Care Commissioning & Housing; with a reduction of £57,514. Both figures are in line with recent large reductions in headcount, with the change in headcount last quarter in Commissioning, Performance and Schools Effectiveness making a significant impact on their wage bill this quarter. Corporate Function, Procurement & Programme Office had the largest increase in non-casual wage bill this quarter with an increase of £0.08m to £0.97m. This is primarily due to the centralisation of the procurement service. This will have also had an effect on the decrease in the Commissioning, Performance and Schools Effectiveness and the Adult Care Commissioning & Housing services. Whilst Operational Children’s Services also saw a significant increase this quarter of £0.07m to £4.79m, and is by far the highest costing service across the council. Continuation of the social care recruitment activities will account for some of these increases.

**Increase in casual wage bill** 6 The casual wage bill has continued to increase this quarter by £70,745 this quarter to £514,011. The majority of this increase was from canvassers in Electoral Services in Legal & Governance who witnessed an increase of £75,670. This is due to the fact that in November we used the equivalent of 49.9 FTE’s in canvassers; which were paid in December 2015 costing

## QUARTERLY WORKFORCE REPORTING

£75,645, with a small cost of canvassers also incurred in October (£25). Whilst Adult Social Care Operations continue to have the largest casual wage bill at £0.17m. Public Health saw the largest reduction in casual wage bill this quarter, reducing by £0.04m to £0.10m. This reduction in Public Health could be due to the seasonal spike seen last quarter and therefore a reduced demand this quarter.

### Reporting Agency Use

7 Reporting on agency staff is being reviewed to ensure a consistent approach between the figures provided by finance, procurement and HR. This continues to be ongoing; however the figures published by HR are below. The use of agency staff continues to reduce, with a fall from 158 equivalent full time employees to 140 FTE's this quarter. Operational Children's Services saw a decrease in agency use this quarter of 5.4 FTE, the largest seen by a service, to 36.9 FTE in total across Operational Children's Services. This follows a reduction of 3.5 FTE last quarter. This is caused by the reduction in use of agency social workers in Placement Services - Fostering and Adoption; due to the success of the WIHSC social worker campaign; funding new starters of social workers across Operational Children's Services. Waste and Environment saw the second largest decrease from a service this quarter, reducing from 65.9 FTE to 62.1 FTE (-3.8 FTE). This decrease was primarily from Waste Loaders in Waste & Recycling Collection – East; who reduced their agency use by 4.3 FTE this quarter.

In line with the decrease in agency use this quarter; the spend on agency staff has also decreased significantly. Reducing our spend on agency by £369,375; to an overall spend of £1.93m over the quarter. Since the same period last year the spend on agency has reduced by £0.85m, a reduction of 31%. Consistent with the largest decrease in agency use over the quarter, Operational Children's Services also saw the largest decrease in agency spend over the quarter (-£123,874), spending £0.74m between October and December.

### Increase in sick pay

8 The cost of sick pay has increased this quarter by £146,016 to £763,814. This is in line with the seasonal increase in sickness absence (+0.5 days per FTE). Operational Children's Services saw the largest increase in sick pay over the quarter (+£48,395) to £178,418; in line with an increase in sickness absence of (+0.4 days lost per FTE). This is also the highest cost of sick pay to the council. The majority of this increase in Operational Children's Services came from the 0-25yr SEND Service and Early Help. With a significant impact from North & East in both services. The fact that there was a disproportionate increase in cost of sick pay (+£48,395) to increase in sickness absence (+0.4) is due to the number of highly paid employees (such as service managers, team managers and social workers) seeing an increase in sickness absence.

The sickness statistics for North & East children's services and especially for Early Help, have been referred to the HR advisory service as none of the main contributory reasons are necessarily common with seasonal variance in sickness (such as stomach, chest and respiratory and stress); with stress in YOT workers contributing the most prevalent. Conversely the SEND North & East service increase was in fact predominantly due to seasonal reasons; i.e. cold/flu and other infections. Economy and Planning saw the largest decrease in sick pay (-£20,274) to £35,282. This is not in line with their change in sickness absence over the quarter (+0.5 days per FTE). This is mainly due to two employees, one in Employment and Skills and one in Development Control North, having to repay the council for overpaid statutory and occupational sick pay (£5,591 and £2,360 respectively) whilst a highly paid manager in the service has returned to work; meaning the costs have reduced significantly whilst the sickness absence has increased in much lower paid staff; such as planning officers and enforcement officers.

**Why this is important:** Clear budgetary restraints mean that keeping track of this information is vital. Whilst we are seeing a reduction in contracted employees we may see some services using alternative resourcing options on a more regular basis such as agency workers, consultants or casuals. This information will highlight whether this is happening or not.

FTE change due to employee hour changes	-8.6	-4.5	-15.4	-6.0
Cost/saving of employee hour changes	-£199,026	-£154,971	-£318,662	-£124,842

**Why this is important:** Sick pay amounted to £2,630,230 across Wiltshire Council during the 2014-15 financial year and therefore this is a substantial area of spend that should be minimised whenever possible. Some services may also be looking to employees to work more hours than they previously have done to cover gaps where a reduction in the headcount of employees has been made. It is therefore important that we keep track of the change in FTE resulting from employees changing their hours.
