## CHARITABLE FUNDS – ANNUAL REPORT 2014/2015

## **Purpose of Report**

 To present the Cabinet Member a summary of the trust fund statement of accounts information to ensure these trusts are properly managed and approved.

This report shows the activities of the trust funds in the year ended 31 March 2015 and the Cabinet Member is asked to note the following:

- a summary of the trust fund statement of accounts information
- a discussion of the investment arrangements and performance during the year
- the risk management activity
- a summary of the activity in the year of the four largest trusts.

4. Annual reports are produced for the larger Trust Funds, these are subject to independent examination by a firm of auditors. Following a quotation, Blomfield & Co Chartered Accountants & Registered Auditors of Trowbridge were appointed to carry out the examinations. These are to be carried out under the general directions given by the Charity Commission. At the time of writing the examinations have not yet been carried out. In 2014/2015 there were three such Trusts:-

The Colonel William Llewellen Palmer Educational Charity Westbury Public Baths Edwin Young Collection

The Trusts bear the cost of the examinations apart from Westbury Public Baths as the council has a separate arrangement with Places for People Ltd who manage the facility.

5. Copies of the reports are attached (see background papers 1,3 and 4)

#### Investments

- A detailed breakdown of investments held and their value at 31 March 2015 are attached (see background paper 5). The Cabinet Member has delegated responsibility for investment management arrangements to the Associate Director Finance.
- 7. The Associate Director monitors the performance of investments on a regular basis. Budgets are set for largest three trusts and investment income is monitored against budget. Any large differences are investigated, and the performance of investments are benchmarked against other investments. The market value of investments are calculated at the end of each financial year and compared in the accounts against the previous year. As investments are held on a long term basis fluctuations can occur but are generally not a cause for concern.
- 8. The largest holdings at book cost are two investments into Charishare Income Shares for Llewellen Palmer and Edwin Young with a combined market value of £899k at 31 March 2015. Charishare is managed by BlackRock which offers charities access to a professionally managed, diversified equity portfolio which invests predominantly in quality UK companies. The funds objective is to provide medium to long term capital and income appreciation by investing mainly in UK listed companies. It is benchmarked against the FTSE All-Share TR Index.
- 9. The second largest holding in book cost is for two investments into Charity Equity Fund Income Shares managed by Schroders. Both the Llewellen Palmer and Edwin Young have investments with a combined market value of £832k at 31<sup>st</sup> March 2015. The Charity Equity Fund aims to achieve a rate of total return above that of the FTSE All Share Index

- over a five year rolling basis. It may invest anywhere in the world but predominantly in good quality UK equities.
- 10. In January 2015, there was a merger of the The Charity Fixed Interest Fund Income Units into The Income Trust for Charities A Income Units. The Edwin Young trust had previously 38,652.02 shares which when converted now totals 74,775.08 of the new shares. There was an increase in value of £4,594 from 31st March 20014 and 31st March 2015.
- 11. There are additional smaller trusts including Calne Library, King George's Field Warminster, King George's Field Melksham and other small ones which are shown on the attached Breakdown of investments. An investigation into both playing fields net asset value identified that both fields had to be re-valued. The difference in the value between both fields is due to the Melksham field having buildings whilst the Warminster one is just a field & paddling pool.
- 12. The overall movement in invested funds over the year is explained in the following table:

		£m
i.	Value of investments at 1 April 2014	3.342
ii.	Income for the year	0.228
iii.	Payments to beneficiaries and other expenses	(0.340)
İ۷.	Profit made during the year	0.133
٧.	Revaluation of 2 playing fields	1.122
vi.	Value of investments at 31 March 2015, including	4.485
	permanent endowments	

13. Details of how the various charity based investments performed throughout the year are detailed in Schroders, Black Rock and CCLA investment and performance fact sheets and reports. See appendices 1 to 6 attached.

The overall trust fund investment strategy is a long term position reflecting medium risk and a weighting towards income generation through dividends. This reflects the need for regular income to meet running costs of the trusts and payments to beneficiaries.
