## **Appendix 3: List of Proposed Modifications**

Since the publication of the draft Chippenham Site Allocations Plan proposed changes have been suggested as set out below:

- Proposed changes to the Plan considered and agreed at Council meeting on 14 July 2015 following the Pre-Submission Consultation on the draft Chippenham Site Allocations Plan. These were made to respond to comments submitted during consultation or to add clarity to the Plan. They were submitted to the Inspector in July 2015 and have not been the subject of consultation (document library reference CSAP/02). These changes were given a straightforward number from 1 – 55.
- Proposed changes to the Plan suggested by the Council during the Examination of the Plan. The proposed changes arose either through evidence submitted by the Council in response to the list of main matters to be discussed at the hearings or through Statements of Common Ground agreed between Wiltshire Council and key stakeholders. These were submitted to the Inspector for consideration during the hearings and have not been consulted on. (Document library reference EX2a, EX9) These changes were given a number which relates to the chapter of the plan and then a numeric value eg 2/01

Further proposed changes to the Plan have arisen as part of the Schedule of Works that has been undertaken following the suspension of the Hearings in November 2015. These changes affect some of the previously published changes. For example an earlier change may now be deleted or an additional amendment is proposed to the text. For clarity all current changes are being published for consultation and have been given a new number with a suffix of S eg S2

The changes are presented below by Chapter order. In Table 1, the proposed change shows deleted text in strikethrough and new text in **bold.** Where a proposed change arising from the reassessment of evidence supersedes an earlier proposed change the earlier proposed change is also indicated in strikethrough. In Table 2, each of the changes which have now been deleted are presented by Chapter order.

| Change<br>No. | Previous<br>Change No | Page | Para | Reasons for Proposed Change  | Proposed Change   |

| CHAPTE | ER 3: Vision a | nd Objecti | ives            |   |  |
| S5     | 2              | 17         | 3.6             | Improves context<br>Additional text clarifies the   | Amend paragraph 3.6 as follows:<br>""It is important that housing delivery is managed throughout   |
|        |                |            |                 | need that new improved<br>infrastructure includes<br>transport infrastructure<br>encompassing the strategic                 | the plan period to ensure that it takes place in step with the<br>provision of new infrastructure. As well as facilities forming<br>a part of development, this may, for instance, include<br>strategic highway improvements that may be required to   |

|    |   |    |     | road network<br>As originally submitted <b>July</b><br><b>2015</b>   | accommodate the impact of growth. The Core Strategy<br>already identifies a number of improvements needed in<br>Chippenham which need to be provided alongside<br>development including enhanced health and emergency<br>services. This is also recognised in the Infrastructure<br>Delivery Plan (September 2013) which identifies extended<br>GP services as prioritised essential infrastructure. The<br>NHS and GPs in Chippenham are working towards a<br>detailed proposal for delivering these enhancements.<br>Sustainable construction and low-carbon energy will be<br>integral to the development of all strategic sites."  |
|----|---|----|-----|--|--|
| S6 | 3 | 17 | 3.7 | Factual update<br>Amended text reflects<br>more precisely the Plan's<br>approach<br>As originally submitted<br>July 2015 | Amend paragraph 3.7 as follows:<br>"In relation to primary education there is a desire to<br>rationalise primary school provision to include more two form<br>entry schools as this size has advantages in revenue<br>funding, sustainability and in teaching and learning. The<br>revenue funding advantages include being able to achieve<br>significant economies of scale, being more able to employ<br>specialist staff and having a larger base budget that is more<br>able to cope with fluctuations in income that result from<br>changing pupil numbers. The proposals of the plan should<br>seek to enable this change-therefore focus on provision<br>for two form entry primary schools as a part of the<br>development of strategic sites." |
| S7 | 4 | 17 | 3.8 | Improve context<br>Additional text explains how<br>this objective requires traffic<br>impacts on the wider road          | Amend paragraph 3.8 as follows<br>"Improvements are planned to improve how the A350 works<br>and development at Chippenham must not undo these<br>benefits. Congested road corridors and junctions within the  |

|    |           |    |      | network to be managed, in<br>particular M4 junction<br>17.<br>As originally submitted <b>July</b><br><b>2015</b>   | town impede and can deter travel to the town's businesses,<br>services and facilities. In particular, congestion in and around<br>the town centre, as recognised by the Chippenham Vision,<br>needs to be addressed as a part of planning for the town's<br>growth. This also goes for management measures to<br>prevent negative impacts on junction 17 of the M4<br>motorway. Joint working with Highways England helps to<br>identify the cumulative impacts of growth on the strategic<br>road network and will inform measures to improve<br>junction 17."   |
|----|-----------|----|------|--|---|
| S8 | 5<br>3/01 | 18 | 3.11 | Improve clarity  | Amend paragraph 3.11 as follows   |
|    |           |    |      | Amend the text to clarify that<br>heritage assessment was a<br>key part of this evidence<br>alongside landscape impact.<br>Correct typographical error<br>As submitted <b>July 2015</b><br>incorporating proposed<br>change 3/01 | "The allocation and development of strategic sites will inevitably<br>bring about fundamental change from rural to urban to areas<br>around the town. The landscape surrounding Chippenham<br>provides the setting to the settlement, defining its edges and<br>also providing characteristic glimpses from the town out to the<br>countryside. Evidence Paper 4: Landscape Assessment(26)<br>also raised specific concerns about protecting the setting<br>and historic value of the conservation areas and heritage<br>assets within each Strategic Area. Development should seek<br>to respect the important landscape features that make up this<br>character and look to capitalise on opportunities to protect and<br>enhance local heritage assets as well as biodiversity." |

A strategic sit<br>oed to define how<br>ed and was inforr<br>nmunity and othe | Chippenham<br>es a set of six<br>on (the Core<br>Il basis for<br>e assessment<br>the Core Policy<br>ned by |
|     |           |               |   | stra   | itegio   | areas located   | grammatically, a<br>east of the A350<br>on for strategic n  | as potential   |

| The 'strategic areas' are defined by barriers such as<br>main roads, rivers and the main railway line. Land west<br>of the A350 is not considered a reasonable alternative<br>for the allocation of strategic sites. The Council's<br>reasoning is set out in Briefing Paper 2, which explains<br>the definition of strategic areas.  |
|---|
| 4.12 The strategic areas and options for strategic sites have<br>been assessed using sustainability appraisal.<br>Sustainability appraisal performs a similar task to the<br>strategic site assessment framework and reports on<br>likely environmental, social and economic effects of the<br>options in order to inform decision making. This work<br>has been carried out independently to the council.  |
| 4.13 Each of the strategic areas has been assessed to see<br>how they perform against the criteria contained in the<br>core strategy as well as the sustainability appraisal. A<br>result of that process was to suggest different patterns<br>for the town's growth involving different strategic areas<br>These are termed 'development concepts'.  |
| 4.14 Based on information in the Council's Strategic<br>Housing Land Availability Assessment more than<br>twenty potential strategic site options were examined.<br>An assessment of these sites removed those that could<br>not realistically be considered developable, suitable and<br>achievable, reduced the number to 14 site options that<br>were the looked at in greater detail using both<br>sustainability appraisal and an assessment of their<br>strengths, weakness, opportunities and threats in terms |

|  | c<br>a<br>f<br>s<br>a<br>s | of how they performed against the guiding criteria<br>contained in WCS Core Policy 10. Based on these<br>assessments and how well each strategic site option<br>fitted with a development concept, four alternative<br>strategies were compared, again using sustainability<br>appraisal and SWOT assessment, and a preferred<br>strategy selected. The process is set out<br>diagrammatically below: |
|--|----------------------------|---|
|  | t<br>t<br>r                | A preferred strategy has been selected and modified to<br>take account of the risks and constraints identified<br>through the assessment process. These proposals<br>have also been subject to sustainability appraisal. As a<br>result of this process the preferred strategy is<br>summarised below.  |
|  | g<br>F<br>I<br>a           | SW Chippenham is an immediate phase of development<br>geared to provide deliverable land for employment and<br>nousing. The proposals are to meet the great majority of<br>and required urgently for employment development on<br>an 18ha site at Showell Farm. This will provide serviced<br>and for a variety of business uses.   |
|  | The Pro                    | posals  |
|  | a<br>(<br>F                | The assessment of strategic areas, site options and<br>alternative strategies is set out in detail in the<br>Chippenham Site Allocations Plan: Site Selection<br>Report (April 2016) The preferred strategy represents a<br>combination of development concepts that capitalise on  |

| <ul> <li>significant development north of Chippenham, loc in Area A (see above) for a mix of uses including u 750 new homes (Land at North Chippenham 12/00560/OUT). This development would have accer the A350 and it would provide a road built to a distributor road standard offering the opportunity to have a wider role in the network. This road can a provide a clear visual and man-made boundary to town. The evidence suggests that further development would have detrimental landscape and ecold effects, in particular with respect to cumulative im on the value of Birds Marsh Wood County Wildlife and fails to meet Criterion 5 (Landscape) of Core F 10 without offering significant benefit over and aborthe development already permitted.</li> <li>9 Within Area E, SW Chippenham is an immediate pl of development geared to provide deliverable land employment and housing. The proposals are to may the great majority of land required urgently for employment development on an 18ha site at Show Farm. This will provide serviced land for a variety uses. Landscape impacts are acceptable and land employment development is well located and can brought forward relatively quickly. |  |     | allocation comprises the Rowden Park site which is     |

|  |  |      | not all this number will be built within the plan period to<br>2026. At a late point in the current plan period land<br>allocated land will contribute to meeting housing<br>requirements for the next plan period and reduce the |
|--|--|------|---|
|  |  |      | potential for a fall off in housing supply while a new plan is emerging for the period beyond 2026. The scale   |
|  |  |      | of development recognises the additional complexity of  |
|  |  |      | ensuring deliverable. The amount of land allocated results in a scale of development that therefore exceeds   |
|  |  |      | the requirements set out in the Wiltshire Core Strategy.  |
|  |  |      | It is justified by the need for continuity in the provision<br>of land for business and jobs as part of an employment   |
|  |  |      | led strategy. A choice of new locations for new homes   |
|  |  |      | provides a flexible choice of deliverable sites in terms  |
|  |  |      | of a range of potential house builders and the choice of<br>homes. It also recognises that not all large strategic  |
|  |  |      | sites will be completed in the Plan period and the risks  |
|  |  |      | associated with the greater level of complexity involved  |
|  |  |      | in the delivery of large strategic sites.   |
|  |  | 4.22 | Development at Rawlings Green involves building new   |
|  |  |      | roads in step with the development in order to ensure there are no unacceptable traffic impacts and so that   |
|  |  |      | the wider benefits to the network are achieved as soon  |
|  |  |      | as possible. The proposals also include large new areas   |
|  |  |      | along the River Avon for country parks. These will provide easier and direct public access to the   |
|  |  |      | countryside for all residents and visitors. They will also  |
|  |  |      | include areas set aside to be managed to protect and  |
|  |  |      | improve their nature conservation value. As a   |
|  |  |      | substantial corridor of land it also provides   |

|     |            |    |       |   | <ul> <li>opportunities for new and improved cycle and pedestrian links around the town, as well as to and from the town centre. These proposals go a substantial way to fulfilling a longstanding aspiration to capitalise on the River Avon as an asset to the town.</li> <li>4.23 The proposals in the Chippenham Site Allocations Plan must be read in conjunction with the Wiltshire Core Strategy. Proposals for new development will be considered against all relevant policies, including those relating to place shaping and high quality design. As with all planning applications the general policies, for example affordable housing (Core Policy 45), sustainable construction (Core Policy 41), high quality design (Core Policy 57) in the adopted Wiltshire Core Strategy apply to the consideration of these sites. The developers of strategic sites will prepare Sustainable Energy Strategies setting out how proposals meet carbon reduction targets, and identifying how maximum targets can be achieved, particularly where lower cost solutions are viable (such as Combined Heat and Power)."</li> </ul> |

| S16 | 10<br>4/01 | 25 | 4.23a | Improve clarity<br>To clarify the relationship<br>between policies CH1-3<br>and the role and purpose of | Insert sub heading after paragraph 4.23 Consideration of planning applications and new paragraph 4.23a after existing:<br>" <u>Master plans</u>  |
|     |            |    |       | master plans  | The following proposals establish the principles of<br>development at South West Chippenham and Rawlings   |

| Updated to include further<br>changes in October 2015<br>and April 2016 to remove<br>reference to East<br>Chippenham | <ul> <li>Green and East Chippenham based on evidence prepared that is appropriate to plan making. Each policy also requires any application to be informed by a master plan which will reflect additional evidence prepared at a level of detail to support a planning application as well as the principles and requirements established in policies CH1 and CH2 and CH3. Such evidence will include, but is not limited to a Landscape and Visual Impact Assessment, Heritage Assessment, Biodiversity Report, surface water management plan, Flood Risk Assessment and Highways Statement. Such new evidence can be used as a material consideration when considering a specific planning application. A master plan will refine and provide a more detailed distribution of land uses for each site than that shown in the indicative plans (figures 5.1-3). Further detailed landscape assessment may suggest boundaries that have a better visual impact. A minor variation in site boundaries from those on the policies map may therefore be justified on new evidence presented at the time of the application en landscape grounds.</li> <li>Adopted standards for provision to meet leisure and recreation needs will be applied to each of the proposals. An audit of existing open space assets concludes that Chippenham does not have a shortage of outdoor sports provision. A shortage of amenity green space, parks and areas for informal recreation is addressed by provision for substantial open space by proposals contained in policy CH4.</li> </ul> |
|--|---|
|--|---|

|     |    |               |                       | A master plan will also include an explanation and show the nature and location of surface water management measures." |

|         |  |          |         |   | Development will be subject to the following requirements:   |

|  |  | <ol> <li>surface water management that achieves equivalent or<br/>less than current Greenfield rates of run-off</li> <li>financial contributions toward provision of new schools<br/>provision of sufficient school capacity to meet the need<br/>created by the development</li> <li>A marketing strategy to be agreed with Wiltshire<br/>Council and carried out to ensure the early release of<br/>serviced land for employment is available for development<br/>before the completion occupation of the 50th dwelling</li> <li>a pedestrian and cycle route across the River Avon<br/>connecting to the town centre enhanced routes for cycling<br/>and walking to and from the town centre</li> <li>a design and layout that preserves or enhances the<br/>importance and settings to designated heritage assets</li> <li>Design and layout of development must not prohibit a<br/>potential future road connection to land to the east</li> <li>measures to enhance the character of the Rowden<br/>conservation area</li> </ol> |
|--|--|--|
|  |  | Development will take place in accordance with-a main<br>masterplan for the site, <b>as shown on the policies map</b> ,<br>approved by the Council prior to commencement. The master<br>plan will be informed by detailed evidence which will<br>include a Landscape Visual Impact Assessment, Heritage<br>Assessment, Biodiversity Report, Surface Water<br>Management plan, Flood Risk Assessment and Highways<br>Statement."<br>Smaller Extension Sites   |
|  |  | Approximately 11ha of land at South West Chippenham, as identified on the policies map, is proposed for mixed use development to include the following:  |

|     |    |    |     |  | <ul> <li>Up to 400 dwellings</li> <li>strategic landscaping and open space to retain and reinforce existing hedgerows and establish new areas of substantial planting</li> <li>Development will be subject to the following requirements:         <ol> <li>functional integration with the main site in terms of meeting local community needs and traffic management</li> <li>that adequate infrastructure is available to serve the needs of the development</li> <li>financial contributions towards provision of new schools and other infrastructure necessary to enable development to proceed</li> <li>surface water management that achieves equivalent or less than current Greenfield rates of run-off</li> <li>a design and layout that preserves the importance and settings to designated heritage assets</li> </ol> </li> </ul> |
|-----|----|----|-----|--|---|
| S19 | 16 | 29 | CH1 | Improve clarity<br>Each allocation policy refers<br>to the need for a master plan<br>to support any planning<br>application. It aids the clarity<br>of the plan to explain the<br>relationship between the<br>plans<br>policies, the master plan<br>process and the<br>evidence necessary to<br>support a planning | Amend final sentence of CH1 as follows:<br>"Development will take place in accordance with a master plan<br>for the site approved by the Council prior to commencement. The<br>master plan will be informed by detailed evidence which will<br>include a Landscape Visual Impact Assessment, Heritage<br>Assessment, Biodiversity Report, Surface Water<br>Management plan, Flood Risk Assessment and Highways<br>Statement."   |

|     |         |    |               | application.                                    |   |
|-----|---------|----|---------------|---|---|
| S20 |         | 30 | Figure<br>5.1 | Improve clarity<br>New change <b>April 2016</b> | Replace figure 5.1 as shown in appendix 1.  |
| S21 |         | 31 | 5.1           | Improve effectiveness                           | Amend paragraph 5.1 as follows:   |
|     |         |    |               | New change April 2016                           | "The development of this area requires a comprehensive<br>treatment to the western side of the River Avon south of<br>Chippenham. To support a supply of deliverable land,<br>treatment of the site will be divided between the Rowden<br>Park site and smaller extension sites.  |
|     |         |    |               |   | The Rowden Park site comprises the site allocation as<br>shown on the Policies Map excluding the smaller extension<br>sites. This will provide a mixed use development. Much<br>smaller sites are likely to provide additional housing once<br>the Rowden Park site progresses and as the urban area is<br>extended outwards from the town.   |
|     |         |    |               |   | Development will therefore be led by a single master plan<br>for a predominant part of the site, the Rowden Park site, as<br>shown on the policies map. Proposals for this site are well<br>advanced and this site will set in place employment land,<br>land for a new school and other infrastructure. It is<br>envisaged that further opportunities for development will<br>arise as development envelopes the other parcels of land, ,<br>but as the detailed design and timing of these sites has yet<br>to be determined, they need not form part of the Rowden<br>Park site masterplan." |
| S22 | 17 5/06 | 31 | 5.2           | Improve clarity                                 | Amend paragraph 5.2 as follows:   |
|     | 5/00    |    |               | Remove unnecessary                              | "A key element of these proposals is the early release of serviced land for employment development for a range of uses.   |

|     |    |    |     | wording.<br>As previously published in<br>July 2015 incorporating<br>examination Change 5/06<br>as set out in the Statement<br>of Common Ground with<br>Crest Nicholson and<br>Redcliffe Homes. | With easy access to the A350 and M4 premises within an<br>attractive environment the area will accommodate existing local<br>businesses looking to expand and attract inward investment from<br>further afield. The Council with its partners will play a proactive<br>role in partnership with developers in order to ensure<br>development can take place, by marketing the site, brokering<br>discussions with interested businesses and exploring other<br>initiatives in collaboration with the Local Enterprise Partnership.<br>Development of the site will deliver serviced land, with road<br>access, utilities and communications infrastructure, as part of a<br>first phase of development. A marketing strategy to be agreed<br>with the Council will include details of the marketing<br>campaign and site particulars. The marketing campaign<br>should include (i) On site marketing boards displayed<br>throughout the period in which the property is being<br>marketed (ii) Registration on the Council's Commercial<br>Property Database (iii) Web based marketing. Site<br>particulars should include (i) Location Plan and description<br>of the site (ii) Marketed Use of the Site including all options<br>available to future owners (iii) Relevant Dimensions (iv)<br>Relevant planning conditions or covenants (v) Known<br>Costs." |
|-----|----|----|-----|---|--|
| S23 | 18 | 31 | 5.3 | Factual update  | Amend paragraph 5.3 as follows:  |
|     |    |    |     | Additional wording highlights   | The <b>Rowden Park</b> site divides into three distinctive areas that  |
|     |    |    |     | the need for master planning to address issues around the   | will each help to retain the mature network of hedgerows and<br>trees which with areas of greenspace will provide linkages   |
|     |    |    |     | rifle range currently operating   | through development to the wider countryside and retain the  |
|     |    |    |     | within the site   | distinctive enclosed mature setting to the landscape. <b>Master</b><br>plan work must address environmental issues around  |
|     |    |    |     | Updated to include further  | Patterdown Rifle Range operating within the allocation.  |
|     |    |    |     | changes April 2016 to add   | Detailed design should <b>also</b> recognise the generally higher level  |

|     |       |    |     | reference to the main site   | of the road to the town."   |
|-----|-------|----|-----|--|---|
| S24 | 5/02  | 31 | 5.5 | To improve clarity   | Amend paragraph 5.5 as follows  |
|     |       |    |     | Rephrase to better explain<br>how Heritage Assets will be<br>protected through the<br>application process. | The proposals include provision of a large area of informal open<br>space that includes the historic features assets and landscape<br>setting to the Rowden Conservation Area. Development should<br>be set back from the edge of Rowden Conservation Area.<br>Layout and design must preserve the importance of<br>agricultural land as a setting contributing to the significance<br>of Rowden manor and farm. The surrounding agricultural<br>land contributes to the significance of Rowden Manor and<br>farm, and the character and appearance of the Rowden<br>Conservation Area. To ensure the significance of those<br>affected heritage assets are safeguarded a further more<br>detailed Historic Environment Setting Assessment will be<br>required to inform the future Masterplan and the layout,<br>design and appropriate distance of development from the<br>boundary of the Conservation Area. Enhancing the<br>attractiveness and improving access to this area will realise this<br>area's potential as an asset to the town for informal recreation and<br>leisure. This includes interpretation of the Civil War battlefield and<br>the buildings and setting to Rowden Manor. These elements will<br>be considered in detail as a part of a historic assessment of<br>the site which will inform the master plan. |
| S25 | S5/10 | 31 | 5.6 | Improve clarity  | Amend paragraph 5.6 as follows:   |
|     |       |    |     | New change to include<br>further changes <b>April 2016</b><br>to add references to the main<br>site        | "Land will be reserved within the scheme Rowden Park site for<br>a two form entry primary school. The estimated needs<br>generated by the development of the site itself do not by<br>themselves require two forms of entry but reserving land allows<br>for future expansion to accommodate the needs from   |

|     |            |    |     |  | development elsewhere within the allocation or likely beyond the plan period."   |
|-----|------------|----|-----|--|--|
| S26 | 21<br>5/01 | 31 | 5.7 | Improve clarity  | Amend paragraph 5.7 as follows:  |
|     |            |    |     | The amended wording                                      | "A If a river footbridge is considered as part of the master plan  |
|     |            |    |     | clarifies the extent of                                  | process it should be located as sensitively as possible to avoid   |
|     |            |    |     | transport improvements                                   | impact on riparian habitats and provide improved pedestrian and  |
|     |            |    |     | required as a part of the                                | cycle links to the town centre avoiding busy roads and bat flight  |
|     |            |    |     | development.   | <b>lines</b> . A riverside country park will be managed to promote good pedestrian and cycle access to and from the town centre. |

Financial contributions toward provision of new schools<br>provision of sufficient school capacity to meet the needs<br>created by the development."   |
| S36 | 30 | 32 | CH2 | July 2015<br>Improve clarity  | Amend final paragraph of policy CH2  |
|     |    |    |     | Each allocation policy<br>refers to the need for a<br>master plan to support any<br>planning application. It aids<br>the clarity of the plan to<br>explain the relationship<br>between the plans<br>policies, the master plan<br>process and the evidence<br>necessary to support a<br>planning application.<br>As originally proposed<br>change <b>July 2015</b> | All other aspects of development will take place in accordance<br>with a master plan for the site approved by the Council prior to<br>commencement. The master plan will be informed by<br>detailed evidence which will include a Landscape Visual<br>Impact Assessment, Heritage Assessment, Biodiversity<br>Report, Surface Water Management plan, Flood Risk<br>Assessment and Highways Statement." |
|     |    | 32 | CH2 | New change April 2016   | Additional criterion 5   |

|     |    |    |      | To ensure the development<br>does not undermine the<br>future development of the<br>town  | Design and layout of development must not prohibit a potential future road connection to land across the river to the south-east.   |
|-----|----|----|------|---|---|
| S38 | 31 | 34 | 5.11 | Improve clarity   | Amend paragraph 5.11 as follows   |
|     |    |    |      | Additional text clarifies the<br>most appropriate means to<br>manage surface water and<br>establishes the need to<br>undertake water supply<br>improvements as soon as<br>possible.<br>As originally proposed<br>change July 2015 | "Connection to the drainage network will also require<br>enhancements off site. Any improvements to the water<br>supply and foul drainage network need to be put in place at<br>the earliest opportunity. Consideration of flood risk and<br>necessary improvements to the drainage network must precede<br>detailed development proposals. This must involve determining<br>accurate boundaries to flood risk areas and a set of effective<br>sustainable urban drainage measures. These must take<br>account of ground conditions and ensure sufficient land is<br>set aside at the master plan stage." |
| S39 |    | 34 | 5.12 | Improve effectiveness<br>New change <b>April 2016</b>   | Amend paragraph 5.12 as follows:<br>"The site is prominent to a wide area. It forms a backdrop for<br>westerly views from the River Avon floodplain, public rights of<br>way, Tytherton Lucas and the Limestone Ridge. Development<br>must avoid adversely affecting the rural and remote character   |
|     |    |    |      |   | immediately around the site and increasing the visual<br>prominence and urban influence of Chippenham over a much<br>wider area. In particular, development must have<br>appropriate regard to the setting of Langley Burrell and<br>Tytherton Lucas conservation areas beyond the site, as<br>well Rawlings Farm, a listed building within. A strategic<br>landscape scheme should:"   |
| S40 | 32 | 35 | 5.16 | Factual Update  | Amend paragraph 5.16 as follows   |
|     |    |    |      | A revised rationale<br>for this element of  | Land will be reserved within the scheme for a two form entry primary school. The estimated needs generated by the   |

|     |    |    |      | the scheme<br>reflects new<br>evidence on how<br>best to provide<br>local school<br>capacity.<br>As originally<br>proposed change<br>July 2015                                   | development itself do not by themselves required two forms of<br>entry <del>but reserving land for future expansion likely beyond the plan<br/>period</del> this school will also be necessary to meet needs<br>generated by development at North Chippenham.   |
|-----|----|----|------|--|---|
| S41 | 33 | 35 | 5.16 | Improve clarity  | Additional sentence to paragraph 5.16 as follows (See change 24 for footnote):  |
|     |    |    |      | Additional text explains<br>standards for additional<br>open space and formal<br>sports provision that will be<br>required as a part of<br>development<br>As originally proposed | "Development plan policies <sup>1</sup> set out requirements for the additional open space and formal sports provision that will be necessary as a part of all new residential development."  |
|     |    |    |      | change July 2015   |   |
| S42 |    | 35 | 5.17 | Improve effectiveness  | Amend paragraph 5.17 as follows:  |
|     |    |    |      | New change <b>April 2016</b>   | "The site is reasonably well located in relation to the town<br>centre and development should include measures to enable as<br>many trips as possible to the town centre to take place on foot,<br>cycling or by public transport. <b>This should include enhancing</b><br><b>the attractiveness of the North Wiltshire Rivers Way.</b> Open<br>space will provide a connection to the river as a corridor for<br>pedestrian and cycle access to the town centre. Nevertheless<br>the site's location will inevitably place strains upon existing<br>traffic corridors into and out of the existing built up area, parts of<br>which are already congested. The completion of new traffic |

|     |       |    |      |  | routes including a bridge over the railway will do much to<br>address such problems and ultimately should improve existing<br>conditions. This new road infrastructure structure therefore<br>needs to be provided as soon as possible. <b>Road proposals</b><br><b>should demonstrate how the design of the route minimises</b><br><b>visual impact and effects on local amenity</b> "   |
|-----|-------|----|------|--|---|
| S43 | 34    | 35 | 5.18 | Improve clarity<br>Additional text clarifies<br>retaining the opportunity to<br>deliver the Eastern Link Road<br>in the future.<br>Change as originally<br>proposed change July 2015<br>but reason updated <b>April</b><br><b>2016</b> | Additional sentence to paragraph 5.18 as follows:<br>Land will be reserved in the vicinity of the western site<br>boundary to facilitate the construction by a third party of a<br>road over the river bridge to enable the Eastern Link Road to<br>be completed. Provision will be made within a legal<br>obligation to ensure that the connection is deliverable by a<br>third party without land ransom"   |
| S44 | S5/15 | 35 | 5.18 | Improve clarity<br>New change <b>April 2016</b> to<br>reflect the role of the<br>Cocklebury Link Road<br>New paragraphs 5.19a-<br>5.26h  | <ul> <li>Add additional sub-heading and paragraphs after paragraph 5.18</li> <li>Cocklebury Link Road</li> <li>5.19 a Rawlings Green is of a scale that it is necessary for it to have at least two different points of access.</li> <li>5.20 b It would not be acceptable for Rawlings Green to have one point of access to serve 650 dwellings. Neither, given its scale and location, would it be acceptable for it to be served by just two accesses. Development of the site requires construction of a link road from Cocklebury Road via Darcy Close to Parsonage Way and the B4069.</li> <li>5.21 c The overall result is a new route around</li> </ul> |

|  | <ul> <li>Chippenham; a Cocklebury Link Road. This is necessary for development to be acceptable and is directly related to the development, appropriate in scale and kind. It will be an express part of any development scheme permitted and built by the site's developers.</li> <li>5.22 d Road improvements through Monkton Park have been carefully considered recognising the sensitivity of traffic levels to residents and the potential to worsen existing issues such as congestion and onstreet parking.</li> <li>5.23 e Inevitably there are shorter term impacts before the link road is complete. In the absence of the Cocklebury Link Road, development at the 200 dwelling threshold for Rawlings Green is forecast to lead to a 30% increase in traffic flows on Cocklebury Road and up to a 55% increase in delay time experienced on the approach to the New Road / Station Hill junction, compared to the existing situation. This is expected to be a short term impact, as the Cocklebury Link Road would need to be open beyond the 200 dwelling threshold.</li> <li>5.24 f Once complete and the benefits of the Cocklebury Link Road, in particular for residents of Monkton Park, are:</li> <li>In pure infrastructure terms, the Cocklebury Link Road doubles road capacity for traffic entering and leaving the existing Monkton Park area – there would be two single-carriageway routes rather than the present one single-carriageway route;</li> </ul> |
|--|---|
|  | With the Cocklebury Link Road open and 650 dwellings at Rawlings Green, traffic flows and   |
|  | delays on Cocklebury Road / Station Hill are  |

|     |           |    |               |   | <ul> <li>forecast to be at levels that are similar to those experienced now; and</li> <li>When the complete Eastern Link Road is open, and dwelling numbers are at the levels proposed in the Chippenham Site Allocations Plan to 2026, traffic flows and delays on Cocklebury Road / Station Hill are forecast to be 10-15% lower than experienced now.</li> <li>5.25 g Traffic modelling evidence justifies a threshold for completion of the CLR, at the latest, by the occupation of 200 new dwellings served via Darcy Close. This is a requirement of the proposal. Sufficient commercial incentive exists to ensure that developer will comply. The delivery framework explains responsibilities and additional steps necessary to co-ordinate timely completion.</li> <li>5.26 h The policies map shows geographically an alignment for the road.</li> </ul> |

| S45 |           |    | Policy<br>CH4 | Improve clarity<br>New change <b>April 2016</b> | Amend first sentence of policy CH4 as follows:<br>"Land adjacent to and relating to the River Avon running<br>through the allocations at South West Chippenham <b>and</b><br>Rawlings Green <del>and East Chippenham</del> will be developed for<br>use as country parks, to include the following uses."  |
| S46 |           | 10 | 5.32          | Improve clarity<br>New change <b>April 2016</b> | Amend penultimate sentence of paragraph 5.32 as follows:<br>"A key role will also be for these areas to provide<br>improvements to the rights of way network through introducing<br>new green corridors., especially to and from the town centre but<br>also other destinations like Abbeyfield School   |

| S47       | 49        | 40      | 5.33 | Improve clarity   | Amend paragraph 5.33 as follows  |
|-----------|-----------|---------|------|---|--|
|           |           |         |      | Amended text clarifies how<br>the proposal will be taken<br>forward through the planning<br>process.<br>Original proposed change<br>amended to delete<br>reference to CH3 <b>April 2016</b> | "In order to ensure these objectives are achieved in a complementary and comprehensive manner the management and use of new country parks will be directed by a management plan that will be approved by Wiltshire Council with the involvement of local stakeholders and land owners alongside specialist interests such as the Wiltshire Wildlife Trust. The precise boundaries for the country parks will be determined as part of the management plan process. Master Plans for each strategic site proposal (CH1-2 3) will define the precise boundaries to country parks and will show pedestrian and cycle routes across them necessary to connect the new development and necessary for it to proceed.<br>Indicative areas are shown on the policies map and in Figures 5.1 and 5.2 and 5.3 above It is envisaged that the long term management of the country parks will be secured through planning obligations relating to individual sites. Further work is being undertaken to develop the ownership, governance and detailed management of the Country Parks." |
| Strategic | Transport | Network | 1    |   |  |
| S48       |           |         |      | Improve clarity<br>New policy CH5 and<br>supporting text<br>Reason: To recognise the<br>cumulative impact of<br>development on the strategic<br>transport network                           | Insert New Policy CH5 and paragraphs 5.34 and 5.35<br>Policy CH5<br>Strategic Transport Network (A350 at J17 of M4)<br>Work will be undertaken in collaboration with Highways<br>England to develop and improve the Strategic Transport<br>Network to support the objectives and policies of the<br>Chippenham Site Allocations Plan. The following  |

| New Change April 2016 | improvements to enhance the Strategic Transport Network will be progressed:  |
|-----------------------|--|
| New Change April 2010 | <ul> <li>Part signalisation of Junction 17 of the M4 to mitigate the cumulative impact of development on this junction and unlock Chippenham's potential for growth as a Principal Settlement in Wiltshire. Further detailed study will be undertaken to agree a detailed scheme design which will incorporate protection for the geological SSSI associated with the west bound off slip road.</li> <li>5.34 The strategic transport network is illustrated in Figure 4.1a of the Wiltshire Core Strategy [add footnote reference] and includes the M4 in Wiltshire as part of the Strategic Road Network (SRN) and the A350 as part of the Primary Route Network (PRN). Core Policy 66 of the Wiltshire Core Strategy establishes a commitment to maintain, manage and selectively improve the A350 corridor to support development growth at Chippenham, Melksham, Trowbridge,</li> </ul> |
|                       | Westbury and Warminster and maintain and enhance journey<br>time reliability.[add footnote reference to Wiltshire Core<br>Strategy core policy 66 and paragraph 6.174] In addition, as<br>recognised at paragraph 2.16 of the Plan, the Swindon and<br>Wiltshire Local Enterprise Partnership prioritise investment in   |
|                       | improvements to the A350 which has resulted in the partnership securing funding for a A350 Improvement package through the Growth Deal [add footnote reference].   |
|                       | 5.35 Working in conjunction with Highways England,<br>evidence has shown that the proposals of the Plan will have a<br>cumulative severe impact on Junction 17 of the M4 which will  |

|           |    |    |               |   | result in queuing on both the M4 mainline and the A350 at<br>Junction 17 by 2026. This presents both a safety issue and<br>operational performance issue which will result in reduced<br>journey time reliability. [add footnote reference to the<br>evidence] Policy CH5, above, recognises the need for the part<br>signalisation of the junction to resolve these issues. Design<br>and delivery of the proposed work will be agreed with<br>Highways England and set out within the Chippenham<br>Transport Strategy.  |

| Chapter 6 |    |    |               |   |  |
| S49       |    | 41 | Figure<br>6.1 | Factual update<br>New change <b>April 2016</b>                                    | Replace figure 6.1 as shown in appendix 1  |
| S50       |    | 41 | Table<br>6.1  | Improve clarity New change April 2016   | Replace table 6.1 as shown in appendix 1   |
| S51       | 50 | 42 | 6.4 - 6.6     | Factual update  | Amend paragraphs 6.4 – 6.6   |
|           |    |    |               | Text amendments<br>necessary with adoption of<br>Community Infrastructure<br>Levy | "In June May 2014 2015, Wiltshire Council submitted adopted a<br>Community Infrastructure Levy (CIL) Draft Charging Schedule for<br>independent examination Wiltshire Community Infrastructure<br>Levy. CIL is a charge that local authorities in England can place<br>on development in their area. The money generated through the<br>levy will contributes towards the funding of infrastructure to<br>support growth. From April 2015, The council will be is restricted<br>in its ability to pool infrastructure contributions from new<br>development through the existing mechanism of Section 106<br>agreements. |

|  |  | The Draft Charging Schedule proposes has differential charging          |
|--|--|---|
|  |  | rates based on the type and location of development. The Draft          |
|  |  | Charging Schedule also proposes has a reduced CIL rate for              |
|  |  | residential development within the strategically important sites as     |
|  |  | identified in the Wiltshire Core Strategy. This is due to the higher    |
|  |  | cost of delivering the critical on-site infrastructure needed to        |
|  |  | unlock the development potential of these strategically important       |
|  |  | mixed use sites. However, as a result of the removal of the             |
|  |  | Chippenham strategic sites formerly allocated in the Core               |
|  |  | Strategy, there would is not be a reduced rate for the sites            |
|  |  | identified in this Chippenham Site Allocations Plan. To reflect the     |
|  |  | fact that the standard rate   |
|  |  | of CIL is to be charged for the strategic sites In Chippenham, the      |
|  |  | Council is seeking fewer off site funding contributions than            |
|  |  | usual because a much higher proportion of infrastructure                |
|  |  | investment will need to be sourced from the CIL. This avoids            |
|  |  | an unacceptable burden on developers but necessitates much              |
|  |  | closer collaboration and co-ordination around how CIL funds             |
|  |  | are used to support growth. As such, the council has proposed a         |
|  |  | change to the draft charging schedule through the CIL examination       |
|  |  | process so that the lower rates of CIL will apply to the allocations in |
|  |  | the CSA Plan.   |
|  |  |   |
|  |  | An independent examiner, appointed to review the CIL rates              |
|  |  | proposed in Wiltshire, in January 2015 held two days of hearing         |
|  |  | sessions to consider the Draft Charging Schedule                        |
|  |  | (and subsequent modifications) published by Wiltshire Council.          |
|  |  | Once the examiners report has been received, the council plans to       |
|  |  | adopt and formally implement the CIL charging schedule by April         |
|  |  | 2015. Planning applications determined after the published              |

|     |    |      |                          | implementation date will, if approved, be liable to pay CIL."                          |

| ambiguity. | Cocklebury Link Road: A road from Parsonage Way, over the railway line and via Darcy Close to Cocklebury Road that provides a second access to Monkton Park.  |
|------------|---|
|            | Core Strategy: A Development Plan Document setting<br>out the spatial vision and strategic objectives of the<br>planning framework for an area, having regard to the<br>Community Strategy.   |
|            | Eastern Link Road: A distributor standard road between the A350 Malmesbury Road and the A4  |
|            | Examination in Public (EiP) : An independent examination of draft plans.  |
|            | Evidence Papers: a set of documents that summarises the information described in the Strategic Site Assessment Framework. Separate evidence papers cover each of the Chippenham Core Strategy Criteria.   |
|            | Site Selection Report: A report explaining the Council's<br>choices of preferred areas and site options drawing on<br>evidence guided by the Strategic Site Assessment<br>Framework and Chippenham Core Strategy Criteria.  |
|            | Strategic sites: Major development that delivers a mix of uses,<br>critically local employment as well as homes, but also all the<br>infrastructure (for example: primary<br>schools, community facilities, formal and informal recreation<br>facilities and often local shops and services) necessary to |

|  | support the development of the site and wider impacts of<br>significant growth (often funding contributions to facilities and<br>infrastructure elsewhere made necessary by needs arising<br>from development, for example, leisure facilities or bus<br>services)   |
|--|--|
|  | Sustainability Appraisal (SA): An appraisal of the impacts of policies and proposals on economic, social and environmental issues.   |
|  | Strategic areas: The different broad directions for long term<br>growth at Chippenham. Five areas have been identified for<br>assessment. They are defined by significant obstacles to<br>development such as transport corridors and the river and<br>included on a diagram in suggested changes to the Wiltshire<br>Core Strategy.   |
|  | Site options: detailed proposals for strategic sites. Located<br>within a strategic <del>preferred</del> area, their extent is shown on an<br>ordnance survey base. These include an estimated number of<br>new homes and the area that will be developed for new<br>employment. The proposals also include specific<br>requirements for new infrastructure necessary to serve the<br>development and other requirements to ensure it takes an<br>acceptable form. |
|  | Preferred area: The strategic area (or areas) that perform best when considered by the strategic site assessment framework and sustainability appraisal.   |

| Strategic site assessment framework: How each of the six<br>criteria set in the Wiltshire Core Strategy will be used to assess<br>site options and strategic areas.   |
|---|
| The Chippenham 'core strategy' criteria (CP10 criteria): The<br>six criteria setting out the principles guiding the selection of<br>strategic sites around Chippenham, as established in Core<br>Policy 10 (the Chippenham Area Strategy) of the Wiltshire Core<br>Strategy." |

|---------------|--------------------------|------|------|--|---|
| CHAPTER 4     |                          |      |      |  |   |
| S55           | 9                        | 25   | 4.21 | DELETED APRIL 2016<br>Improve clarity The wording<br>of the 5th sentence should<br>be clarified to reflect the<br>level of detail provided in<br>the policy. | Amend paragraph 4.21 as follows "This area has no obvious<br>features that form a logical natural boundary. A chosen site<br>option creates a new potential boundary by taking a new<br>distributor road to form a corridor that would provide visual<br>containment <b>and an attractive edge to the town</b> following a<br>similar approach used for the existing Pewsham area in the<br>south of the town and as proposed at North Chippenham." |
| S56           | 4/02                     | 24   | 4.21 | DELETED APRIL<br>2016<br>To improve internal   | This area has no obvious features that<br>form a logical natural boundary. The chosen<br>site option identified in Figure 4.1 <b>suggests</b><br>creates a new potential boundary by taking a   |

|     |      |    |      | consistency of the<br>Plan  | new distributor road to form a landscaped<br>corridor that would provide visual containment<br>and an attractive edge to the town. The final<br>detailed alignment of the new distributor<br>road will be determined through the<br>master plan process that is required to<br>support any planning application and will<br>be informed by detailed studies in relation<br>to, for example, landscape impact,<br>biodiversity, heritage assets and ground<br>conditions.  |
|-----|------|----|------|---|---|
| S57 | 4/03 | 25 | 4.23 | DELETED APRIL<br>2016<br>To acknowledge that a<br>key outcome of the site<br>selection process is the<br>delivery of an eastern link<br>road. | A key outcome of the development strategy is delivery of<br>an Eastern Link Road.<br>This will be provided as a part of the development of<br>Rawlings Green and East Chippenham. Development<br>committed at North Chippenham provides the northern<br>section linking the A350 to the Rawlings Green proposal.<br>Each of the Plan proposals involve the building of new roads<br>in step with the additional development proposed in order to<br>ensure there are no unacceptable traffic impacts and so that<br>the wider benefits to the network are achieved as soon as<br>possible. The proposals also include large new areas along<br>the River Avon for country parks. These will provide easier<br>and direct public access to the countryside for all residents<br>and visitors. They will also include areas set aside to be<br>managed to protect and improve their nature conservation<br>value. As a substantial corridor of land it also provides<br>opportunities for new and improved cycle and pedestrian<br>links around the town, as well as to and from the town centre.<br>These proposals go a substantial way to fulfilling a |

|     |      |    |       |   | longstanding aspiration to capitalise on the River Avon as an asset to the town.  |
|-----|------|----|-------|---|---|
| S58 | 4/04 | 25 | 4.24b | DELETED APRIL<br>2016<br>To acknowledge that a<br>key outcome of the site<br>selection process is the<br>delivery of an eastern link<br>road.<br>New paragraphs 5.19-5.26 | <ul> <li>4.24b Preferred areas for strategic sites have been selected using the six criteria contained in Core Policy 10 of the Wiltshire Core Strategy. Two of these concern transport and accessibility. They include, in the balance of considerations, how development might offer wider transport benefits for the existing community, how they achieve access to the local and primary road network and are capable of redressing transport impacts, including impacts affecting the attractiveness of the town centre.</li> <li>4.24c In assessing how to deliver these objectives the evidence suggested that there was an opportunity to capitalise on the dependencies which exist between strategic areas A, B and C to deliver growth and supporting infrastructure which is more advantageous, in transport and accessibility terms, than completely dispersed growth. [Insert footnote reference to paragraph 7.13, Part 1 of Evidence Paper 3]</li> <li>4.24d A link road around the town connecting the A4 to the A350 can help t0 relieve traffic within the built up area and particularly the town centre. Modelling traffic patterns shows a link north east of the town. Such a link through Strategic Areas A, B and C can help unlock the town's long term development potential.</li> </ul> |

|  |  | 4.24e New roads are necessary to serve the          |
|--|--|---|
|  |  | development of both Rawlings Green and East         |
|  |  | Chippenham. Each site requires more than one        |
|  |  | point of access onto the road network. The          |
|  |  | proposal therefore is that the main access roads    |
|  |  | for each development connect together and to        |
|  |  | that committed at North Chippenham so they          |
|  |  | deliver an Eastern Link Road that can provide       |
|  |  | infrastructure benefitting the whole town.          |
|  |  | 4.24f The committed development at North Chippenham |
|  |  | includes a road which will link the A350 from       |
|  |  | Malmesbury Road roundabout to the B4069.            |
|  |  | Proposals for Rawlings Green include the            |
|  |  | provision of the Cocklebury Link Road (defined      |
|  |  | in Policy CH2) to continue this road over the       |
|  |  | railway to serve the development and provide a      |
|  |  | second access from the Monkton Park area that       |
|  |  | allows traffic to avoid the town centre. The        |
|  |  | master plan for Rawlings Green will also consider   |
|  |  | provision of the Eastern Link Road from the         |
|  |  | iunction with the B4069. The completion of the      |
|  |  | link over the river to the A4 is included as a      |
|  |  | requirement for the East Chippenham site.           |
|  |  | 4.24g Proposals for East Chippenham will            |
|  |  | complete the link to the A4. Along with the precise |
|  |  | alignment of the road, a detailed design treatment  |
|  |  | for the road  |
|  |  | corridor will be determined at the master planning  |

|                                    |               |    |     |   | stage of the development process for each<br>proposal.          |  |  |  |

|     |           | figure<br>5.3 | A small parcel of land at<br>the end of Harden's Mead<br>provides an area for<br>informal recreation to<br>nearby residents. Currently<br>shown within the allocation<br>boundary, this land will be<br>left unaffected by proposals<br>for development and<br>should therefore be<br>excluded. | The boundary to CH3 should be re-aligned as shown in appendix 1, below  |
|-----|-----------|---------------|---|---|
| S80 | 38-<br>39 | 5.19-<br>5.31 | DELETED APRIL 2016<br>Improve clarity   | Delete paragraphs 5.19 to 5.31 inclusive.<br><b>5.19</b> A site is identified beyond the valley of the River Avon<br>east of Chippenham. Flood risk areas (zones 2 and 3) that<br>separate it from the town must remain undeveloped. This area<br>plays an important role providing water storage that helps to<br>protect the town from flooding. In recent times the town's<br>protection has failed and development is a means to reduce<br>risks for existing residents and business as well as protect the<br>new uses that will occupy this site. Rates of surface water run<br>off to the River must be less than current levels in order to<br>reduce the risk of flooding elsewhere. Connection to the<br>drainage network will also require enhancements off site. Any<br>improvements to the water supply and foul drainage<br>network need to be put in place at the earliest opportunity.<br>Consideration of flood risk and necessary improvements to the<br>drainage network must precede detailed development<br>proposals. This must involve determining accurate boundaries<br>to flood risk areas. and a set of effective sustainable urban<br>drainage measures. A sustainable urban drainage system<br>will need to be designed and built to take into account |

|  |  | 'clayey-loamey' ground conditions and sufficient land                   |
|--|--|---|
|  |  | outside flood risk areas will need to be set aside at the               |
|  |  | master plan stage.  |
|  |  | 5.19a Land will be reserved in the vicinity of the eastern              |
|  |  | site boundary to facilitate the construction by a third party           |
|  |  | of a road over river bridge to enable the Eastern Link Road             |
|  |  | to be completed. Provision will be made within a legal                  |
|  |  | obligation to ensure that the connection is deliverable by a            |
|  |  | third party without land ransom.  |
|  |  | <b>5.20</b> Two areas of land are proposed for employment               |
|  |  | generating uses. A smaller area will provide for needs within           |
|  |  | the Plan period to 2026 and a second larger area is                     |
|  |  | safeguarded for development focussing on needs up to and                |
|  |  | beyond 2026. The timing of its development and attractiveness           |
|  |  | to the market will depend upon a road connection to the A350            |
|  |  | and M4 via completion of that part of an Eastern Link Road.             |
|  |  |   |
|  |  | <b>5.21</b> The Council with its partners will play a proactive role in |
|  |  | partnership with developers in order to ensure employment               |
|  |  | development can take place, by marketing the site, brokering            |
|  |  | discussions with interested business and exploring other                |
|  |  | initiatives in collaboration with the Local Enterprise Partnership.     |
|  |  | Development of the site will deliver serviced land, with road           |
|  |  | access, utilities and communications infrastructure. A southern         |
|  |  | area accessed via the A4 will be a first phase of development.          |
|  |  |   |
|  |  | <b>5.22</b> The site is in a landscape which is strongly associated     |
|  |  | with the River Avon. Its development also needs to provide a            |
|  |  | new rural edge to east Chippenham when viewed from                      |
|  |  | surrounding footpaths in the landscape and from higher                  |
|  |  | ground. Large scale woodland is not characteristic of this              |
|  |  | landscape but would be required to adequately screen large              |
|  |  | scale employment development and provide a strong visual                |
|  |  | boundary to the site. Development should avoid high ground,             |
|  |  | retain the rural approach along Stanley Lane and reinforce a            |

|     |    |    |      |                           | wooded and riparian character along the Avon valley.  |
|-----|----|----|------|---------------------------|---|
|     |    |    |      |                           | 5.23 A strategic landscape scheme should:   |
|     |    |    |      |                           | <ul> <li>Reinforce planting along the existing edges of<br/>Chippenham and adjacent to the North Wiltshire Rivers<br/>Route to reduce the glimpses of the urban edge from<br/>the wider countryside and especially in views from<br/>public rights of way close to Tytherton Lucas to help<br/>reinforce its rural and remote character;</li> </ul> |
|     |    |    |      |                           | <ul> <li>Extend and manage linear woodlands along the edge<br/>of the River Avon to help with screening, filtering and<br/>backgrounding of views towards existing (Chippenham)<br/>and proposed development;</li> </ul>  |
|     |    |    |      |                           | • Create bold landscape structure by reinforcing existing field boundaries with new hedgerow and tree planting and where possible creation copses and linear woodlands. Development to be inserted within the bold landscape structure;   |
|     |    |    |      |                           | <ul> <li>Seek opportunities to reinforce the riparian character<br/>along the River Avon and River Marden including<br/>waterside meadows, areas of tree planting and areas<br/>for SuDS;</li> </ul>  |
| S81 | 44 | 38 | 5.19 | DELETED APRIL 2016        | Amend paragraph 5.19 as follows and new paragraph 5.19a   |
|     |    |    |      | Improve clarity           | Rates of surface water run off to the River must be less than current levels in order to reduce the risk of flooding  |
|     |    |    |      | Additional text clarifies | elsewhere. Connection to the drainage network will also   |
|     |    |    |      | the most appropriate      | require enhancements off site. Any improvements to the  |
|     |    |    |      | means to manage           | water supply and foul drainage network need to be put in  |

|     |      |    |      | surface water and<br>establishes the need to<br>undertake water supply<br>improvements as soon as<br>possible.<br>The amended wording<br>clarifies the timing and<br>extent of road<br>improvements required<br>as a part of the<br>development. | <ul> <li>place at the earliest opportunity. Consideration of flood</li> <li>risk and necessary improvements to the drainage network</li> <li>must precede detailed development proposals. This must</li> <li>involve determining accurate boundaries to flood risk areas.</li> <li>and a set of effective sustainable urban drainage measures.</li> <li>A sustainable urban drainage system will need to be</li> <li>designed and built to take into account 'clayey-loamey'</li> <li>ground conditions and sufficient land outside flood risk</li> <li>areas will need to be set aside at the master plan stage.</li> <li>Land will be reserved in the vicinity of the eastern site</li> <li>boundary to facilitate the construction by a third party of</li> <li>a road over river bridge to enable the Eastern Link Road</li> <li>to be completed. Provision will be made within a legal</li> <li>obligation to ensure that the connection is deliverable by</li> <li>a third party without land ransom."</li> </ul> |

| S82 | 5/03 | 38 | 5.20 | DELETED APRIL<br>2016<br>To improve internal<br>consistency of the<br>Plan   | Two areas of land are proposed for employment<br>generating uses. A smaller area will provide for needs<br>within the Plan period to 2026 and a second larger<br>area is safeguarded for development focusing on<br>needs up to and beyond 2026 unless specific<br>proposals for inward investment appropriate to<br>Chippenham come<br>forward that cannot be accommodated on existing and<br>other employment sites   |
| S83 | 45   | 39 | 5.28 | DELETED APRIL 2016<br>Improve clarity<br>Additional text explains  | Additional sentence at the beginning of the paragraph 5.28<br>(See change 24 for footnote)<br><b>"Development plan policies<sup>1</sup> set out requirements for</b><br><b>the additional open space and formal sports provision</b>  |

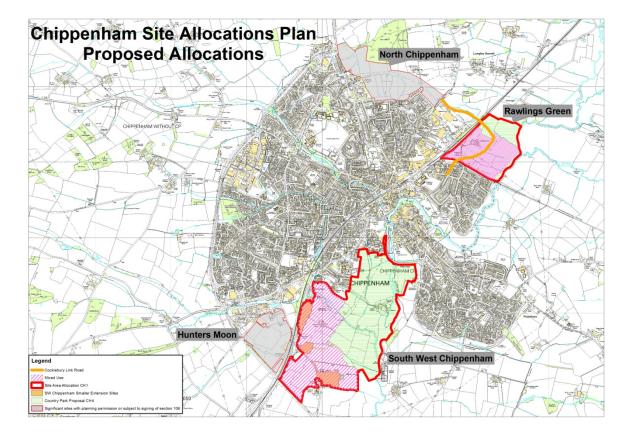

|     |    |    |      | standards for additional<br>open space and formal<br>sports provision that will<br>be required as a part of<br>development  | that will be necessary as a part of all new residential development."  |
|-----|----|----|------|---|--|
| S84 | 46 | 39 | 5.29 | DELETED APRIL 2016  | Amend paragraph 5.29 as follows:   |
|     |    |    |      | Improve clarity<br>The Chippenham-Calne<br>(national cycle route) has a<br>particular importance that<br>needs to be recognised in<br>the<br>detailed design and layout<br>of the site. | "The riverside park would be central to creating attractive<br>routes for walkers and cyclists. The pedestrian and cycle<br>network should also be improved through the<br>enhancement of the existing and provision of new<br>routes, to retain the attractiveness of the Chippenham-<br>Calne cycleway and in particular specifically to increase<br>the accessibility of Abbeyfield School, Stanley Park and the<br>riverside to the existing urban area."  |
| S85 | 47 | 39 | 5.30 | DELETED APRIL 2016  | Amend paragraph 5.30 as follows  |
|     |    |    |      | Improve clarity<br>The amended wording<br>clarifies the timing and<br>extent of road<br>improvements required<br>as a part of the<br>development.                                       | "Development is expected to commence from a southern<br>access to the A4. Evidence on the impacts of<br>development of this site and elsewhere shows that new<br>road infrastructure needs to be provided as soon as<br>possible in order to prevent unacceptable impacts on<br>the network. This will inevitably put an additional burden<br>on this corridor into the town. Completion of a the<br>Cocklebury Link Road link and an the Eastern ILink rRoad<br>around the town to the A350 north of the town will do much<br>to tackle pressures from additional traffic. Transport<br>assessments suggest that up to 400 new dwellings should<br>can be provided before the Cocklebury Link Road Link |

|     |    |    |                                      |   | should be <b>is</b> in place. A new bridge over the River Avon can<br>then connect to <b>the Rawlings Green part of</b> this<br>infrastructure and <b>the</b> rates <b>and quantum</b> of development<br>can then increase. An Eastern Link <b>rRoad</b> to the A4 will be<br>built in step with development and needs to be in place by<br>the completion of the 750th dwelling."   |
|-----|----|----|--------------------------------------|---|--|
| S86 | 48 | 39 | 5.31                                 | DELETED APRIL 2016<br>Improve clarity<br>This paragraph largely<br>duplicates the previous<br>one and can be removed. | Delete paragraph 5.31<br><u>"Evidence on the impacts of development of this sit</u><br><u>e and elsewher e shows that new road infrastructure</u><br><u>needs to be provided as soon as possible in order to prevent</u><br><u>unacceptable impacts on the network. Consequently, to</u><br><u>ensure timely delivery, a road bridge across the River Avon</u><br><u>should in place by the occupation of the 400th dwelling and</u><br><u>an eastern link road connecting to the A4 by the occupation</u><br><u>of the 750th_dwelling "</u>   |

#### S53 Insert Table 6.3

### Table 6.3: Chippenham Eastern Extension Outline Risk Register

| Outline Risk Register |               |            |  |  |  |
|-----------------------|---------------|------------|--|--|--|
| Generic               | Site Specific | Assessment |  |  |  |
|                       |               |            |  |  |  |

| Outline Risk Register |  |   |   |  |
|-----------------------|--|---|---|--|
|                       | Generic  | Site Specific   | Assessment  |  |
| Unavailable           | Land not made available by<br>land owners or no clear<br>undertaking to do so  |   | All land included within SHLAA is considered available. All land<br>owners have indicated a willingness to release land for development<br>but no firm agreement between land owners to ensure comprehensive<br>approach.   |  |
| Unsuitable            | Location cannot be developed,<br>employment land requirements<br>will not be met or significantly<br>less developable land | No employment<br>land is made<br>available, is<br>reduced in scale<br>or is delayed | Current application for significant provision for employment land at<br>Showell Farm. Form of employment provision at Rawlings Green has<br>yet to be agreed and developer aspirations may not conform to plan<br>objectives  |  |
|                       |  | Development<br>increases flood<br>risks   | Design of sustainable drainage measures advanced west of the river<br>at SW Chippenham. Sustainable drainage measures appear at an<br>early stage at Rawlings Green. No indication that effective measures<br>are impossible to implement. Little risk that larger amounts of land<br>may be required, reducing developable area. |  |
|                       |  | Development has<br>an unacceptable<br>impact upon<br>heritage assets                | Significance of heritage assets and their setting have been assessed<br>and mitigation considered possible. Development at SW Chippenham<br>has less than substantial harm. Further detailed work required at<br>Rawlings Farm.   |  |

| Outline Risk Register |  |   |  |  |  |
|-----------------------|--|---|--|--|--|
|                       | Generic  | Site Specific   | Assessment   |  |  |
|                       |  | Development has<br>unacceptable<br>visual impacts                     | Development at SW Chippenham within existing visual envelope of<br>urban area. Low density at Rawlings Green appears to be accepted<br>by developers.              |  |  |
| Unachievable          | Unrealistic prospect of<br>significant development within<br>5 years | Access cannot be<br>achieved to Darcy<br>Close from<br>Rawlings Green | Detailed design stage has been reached and there is agreement in principle between land owners.  |  |  |
|                       |  | Access cannot be<br>achieved to<br>Parsonage Way<br>and A350          | Detailed design stage has been reached and there is agreement in principle between land owners.  |  |  |
| Viable                | Insufficient incentive for land<br>owner/developer                   |   | Developer has submitted planning application for SW Chippenham.<br>No developer yet firmly associated with taking forward detailed<br>proposals at Rawlings Green. |  |  |
|                       |  | Inadequate level<br>of affordable<br>housing (less<br>than 40%)       |  |  |  |
