

Salisbury Area Board Highway Information

Salisbury Area Board Highway Information

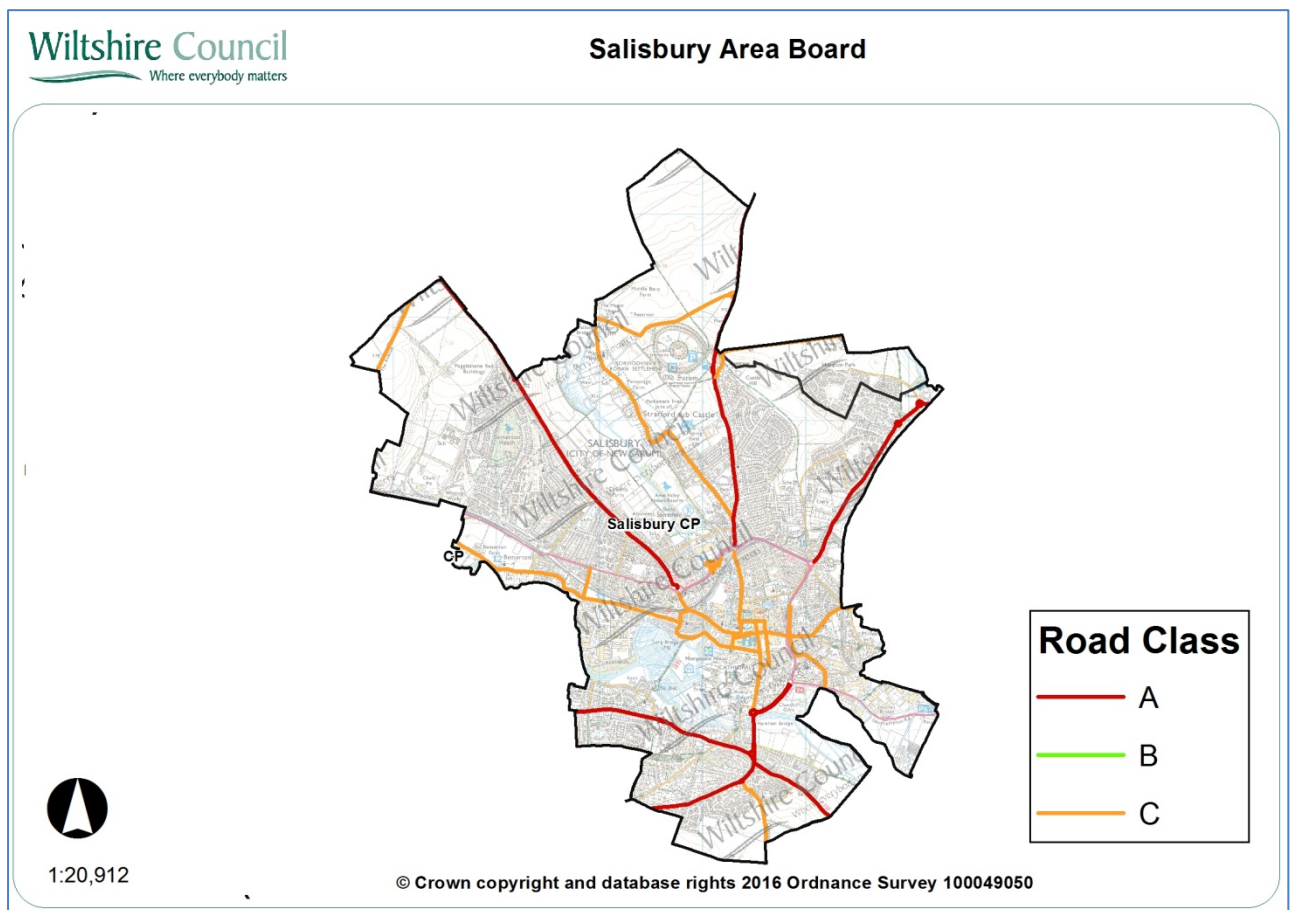

Introduction

This document summarises highway information for your area board. It lists the recent highway and related work carried out by Wiltshire Council, including the road resurfacing carried out during the first two years of the 'Local Highways Investment Fund 2014 – 2020', and includes other information which should be of interest.

Further information on the Council's activities is available at the website www.wiltshire.gov.uk. If you wish to report a specific highway issue please use My Wiltshire. Details are provided at the end of this document.

Parishes in the community area are:

Salisbury (including part of Laverstock & Ford)

Network statistics in your area

Road length by class

Road type	Urban (km)	Rural (km)
A Class Roads	14.29	1.36
B Class Roads	0	0
C Class Roads	13.97	3.1
Unclassified Roads	99.18	0.8
Total	127.44	5.26
	Overall Total	132.7

The council categorises its roads to reflect their importance. This enables an effective assignment of highway inspection frequencies and maintenance standards.

Highway assets in your area

The council keeps an inventory of its highway assets in order to assist planning its highway maintenance. Important statistics relating to your board area are:

Asset Type	Measure
Carriageway	132.7 km
Footways adjacent to road	212 km
Footways (linked)	24.51 km
White road centre lines	89 km
Road kerbs	221 km
Grass verge (maintained)	92 km
Drainage grips	83 number
Drainage pipe grips	8 number
Drainage gullies	5, 492 number
Road signs	2, 817number
Street lights	1, 424 number

Major highway maintenance

Road resurfacing

Wiltshire has over 3,000 miles of road. The Council's 'Local Highways Investment Fund 2014 – 2020' is making a massive investment to improve the condition of the roads in Wiltshire over six years. The programme of work started in April 2014, and is designed and supervised by the Council's consultants Atkins, with the work carried out by our main highway contractors Tarmac and Eurovia.

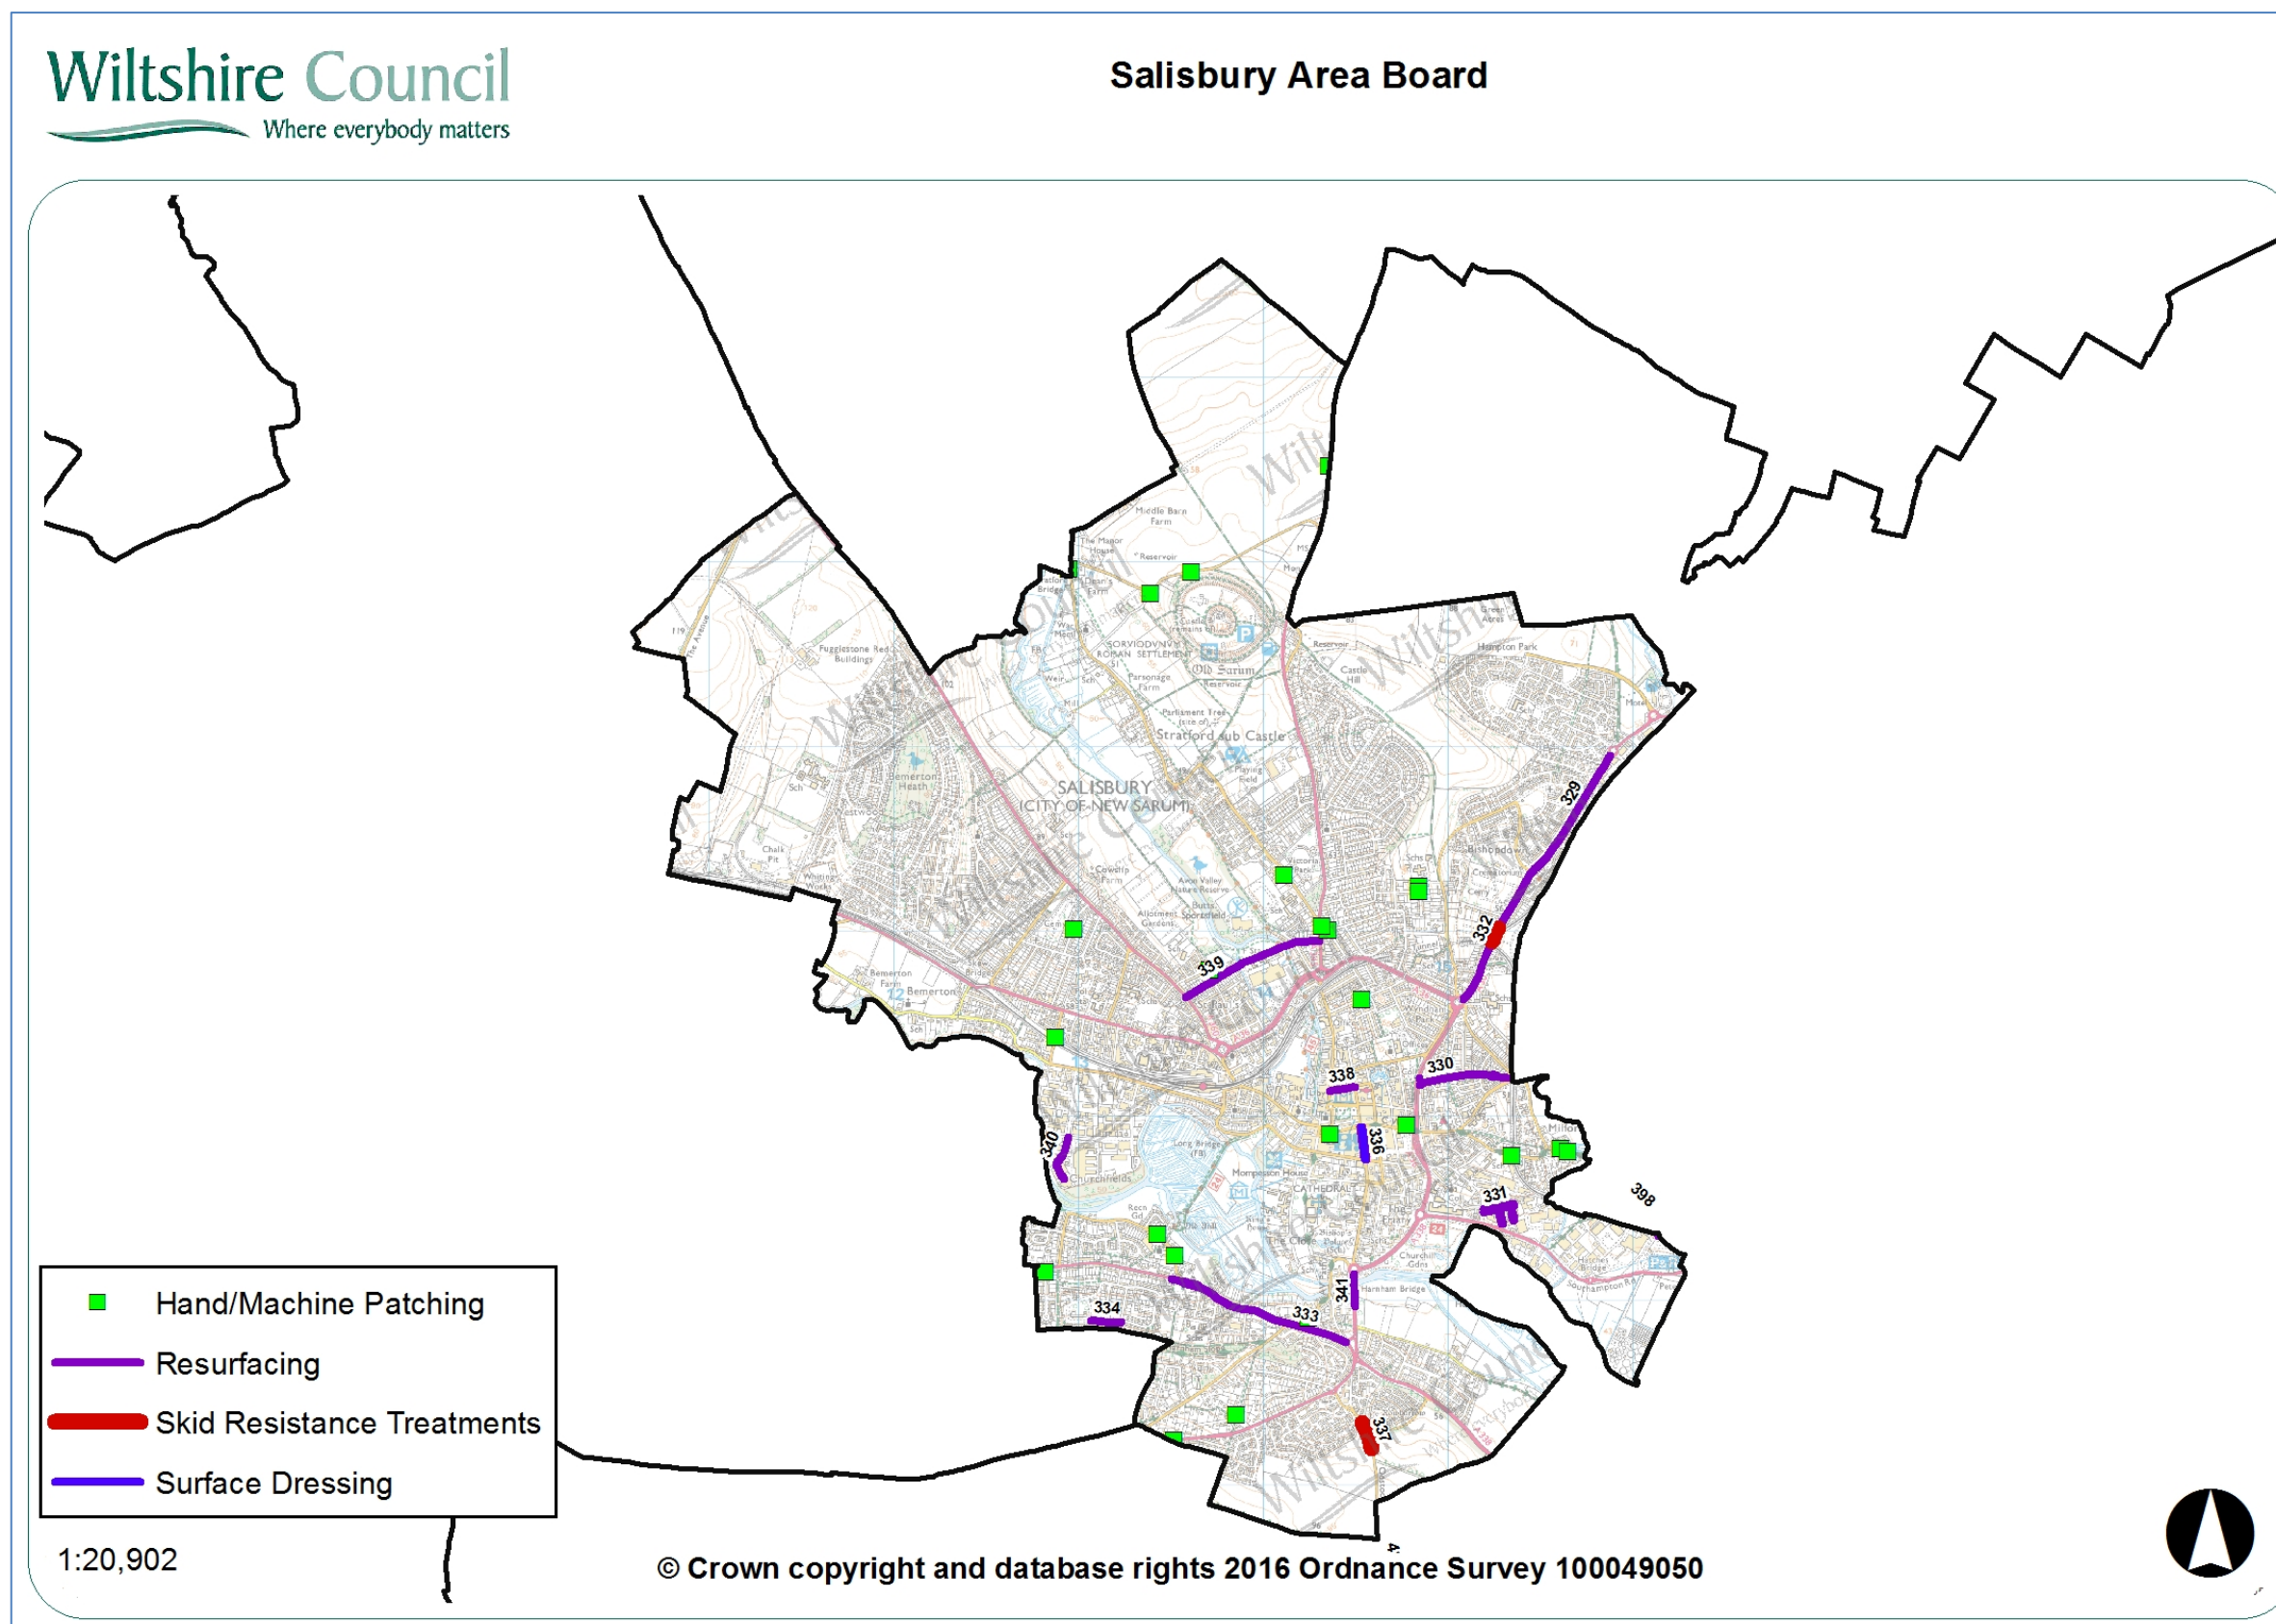

The work carried out in the first two years of the programme has improved a considerable number of the roads in previously poor condition. The locations of sites treated in recent years are shown below.

Carriageway repairs

As well as resurfacing roads other works are undertaken to make localised repairs to keep the roads safe. The works undertaken in your area since 2014 are shown on the map below.

The wet winter and flooding in previous years has resulted in substantial damage to the road network. It is important that serious defects are treated promptly to keep the roads safe. The Council currently operates four Pothole teams that respond to urgent issues to keep the roads safe.

Plan showing major maintenance schemes & hand/machine patching sites completed since 2014

Major maintenance completed since 2014

No	Location	Works
329	A30 London Road Salisbury - St Marks Roundabout to St Thomas Roundabout	Resurfacing
330	Kelsey Road	Resurfacing
331	Waterloo Road	Resurfacing
332	Weeping Cross Rbt To Bishopdown Rbt	Skid Resistance Improvements
333	A3094 Netherhampton Road, Salisbury	Resurfacing
334	Sussex Road, Salisbury	Resurfacing
335	Catherine Street, Salisbury	Resurfacing
336	Salisbury - C370 Catherine Street, Salisbury	Surface Dressing
337	Rowbarrow, Salisbury	Skid Resistance Improvements
338	Chipper Lane Salisbury	Resurfacing
339	Ashley Road/ Butts Road, Salisbury	Resurfacing
340	Brunel road, Salisbury	Resurfacing
341	New Bridge Road, Salisbury	Resurfacing

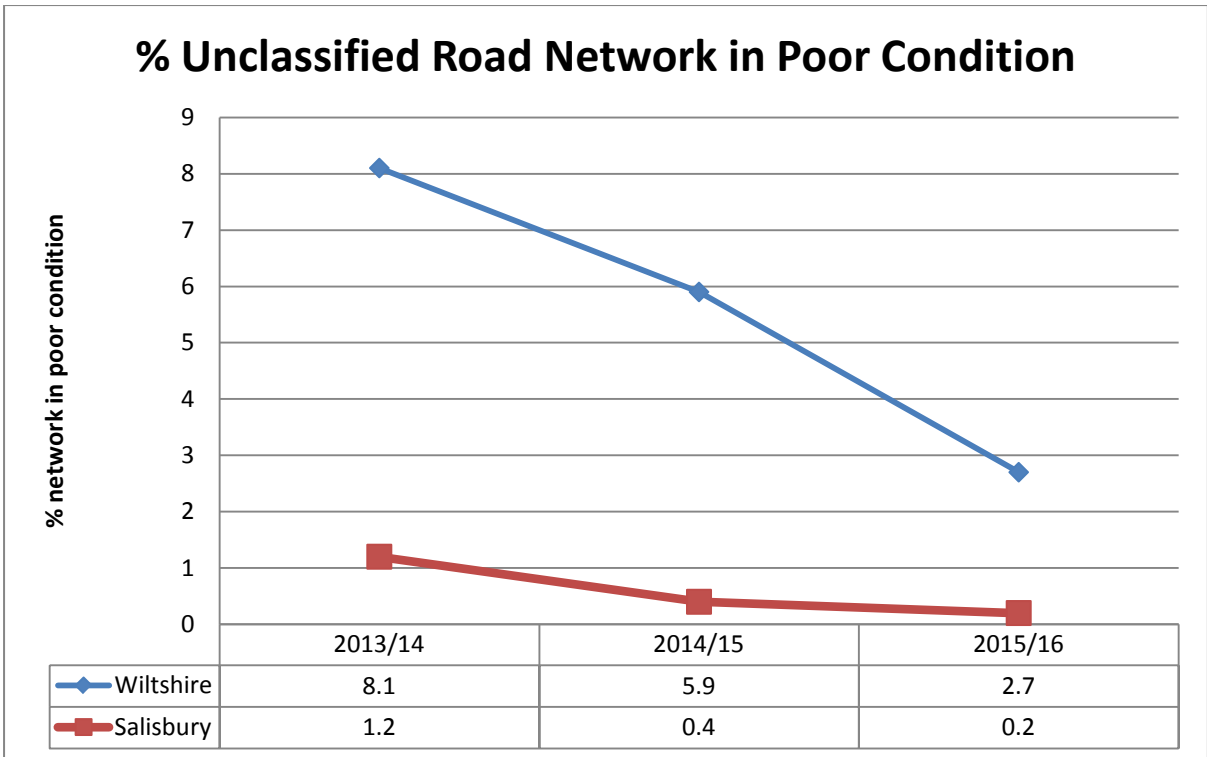

Highway conditions and technical surveys in your area

Roads deteriorate in condition because of various factors, including traffic volumes, ground conditions, and weather and drainage issues. Technical surveys of the condition of the highway network are carried out annually and the information is used to help prioritise schemes. Road safety is the priority, and maintaining adequate skid resistance on the busy high speed roads is vital.

The surveys include the use of a vehicle equipped with lasers and cameras to record road surface condition, which allows us to report on road conditions to the Department for Transport and to prioritise maintenance work. Other surveys include measuring skid resistance on the busier roads.

The road conditions in your area are shown below. It should be noted that low numbers are good because it indicates that less road length should be considered for treatment. More detailed information is shown in Appendix A.

Integrated transport, bridge and drainage works

Integrated transport

The Council's traffic engineering team work with our contractors to plan and deliver a range of projects to the local community, most notably through the Area Boards and Community Area Transport Groups (CATGs). The schemes range in size and complexity from simple sign installation through to more complex road safety and improvement schemes.

Bridges

The Council regularly inspects its bridges and other highway structures. There is a programme of renewal and refurbishment works to keep them in good condition, as well as having to respond to damage caused by collisions.

Drainage

Programmes of drainage investigations, repairs and flood alleviation schemes are undertaken throughout the year, but the flooding in recent years has meant that there has been a need to respond immediately to flooding issues, as well as dealing with previously identified problem sites. The drainage improvement and flood alleviation work is co-ordinated through the Council's Operational Flood Working Groups that include the Environment Agency, Wessex Water, other organisations and stakeholders.

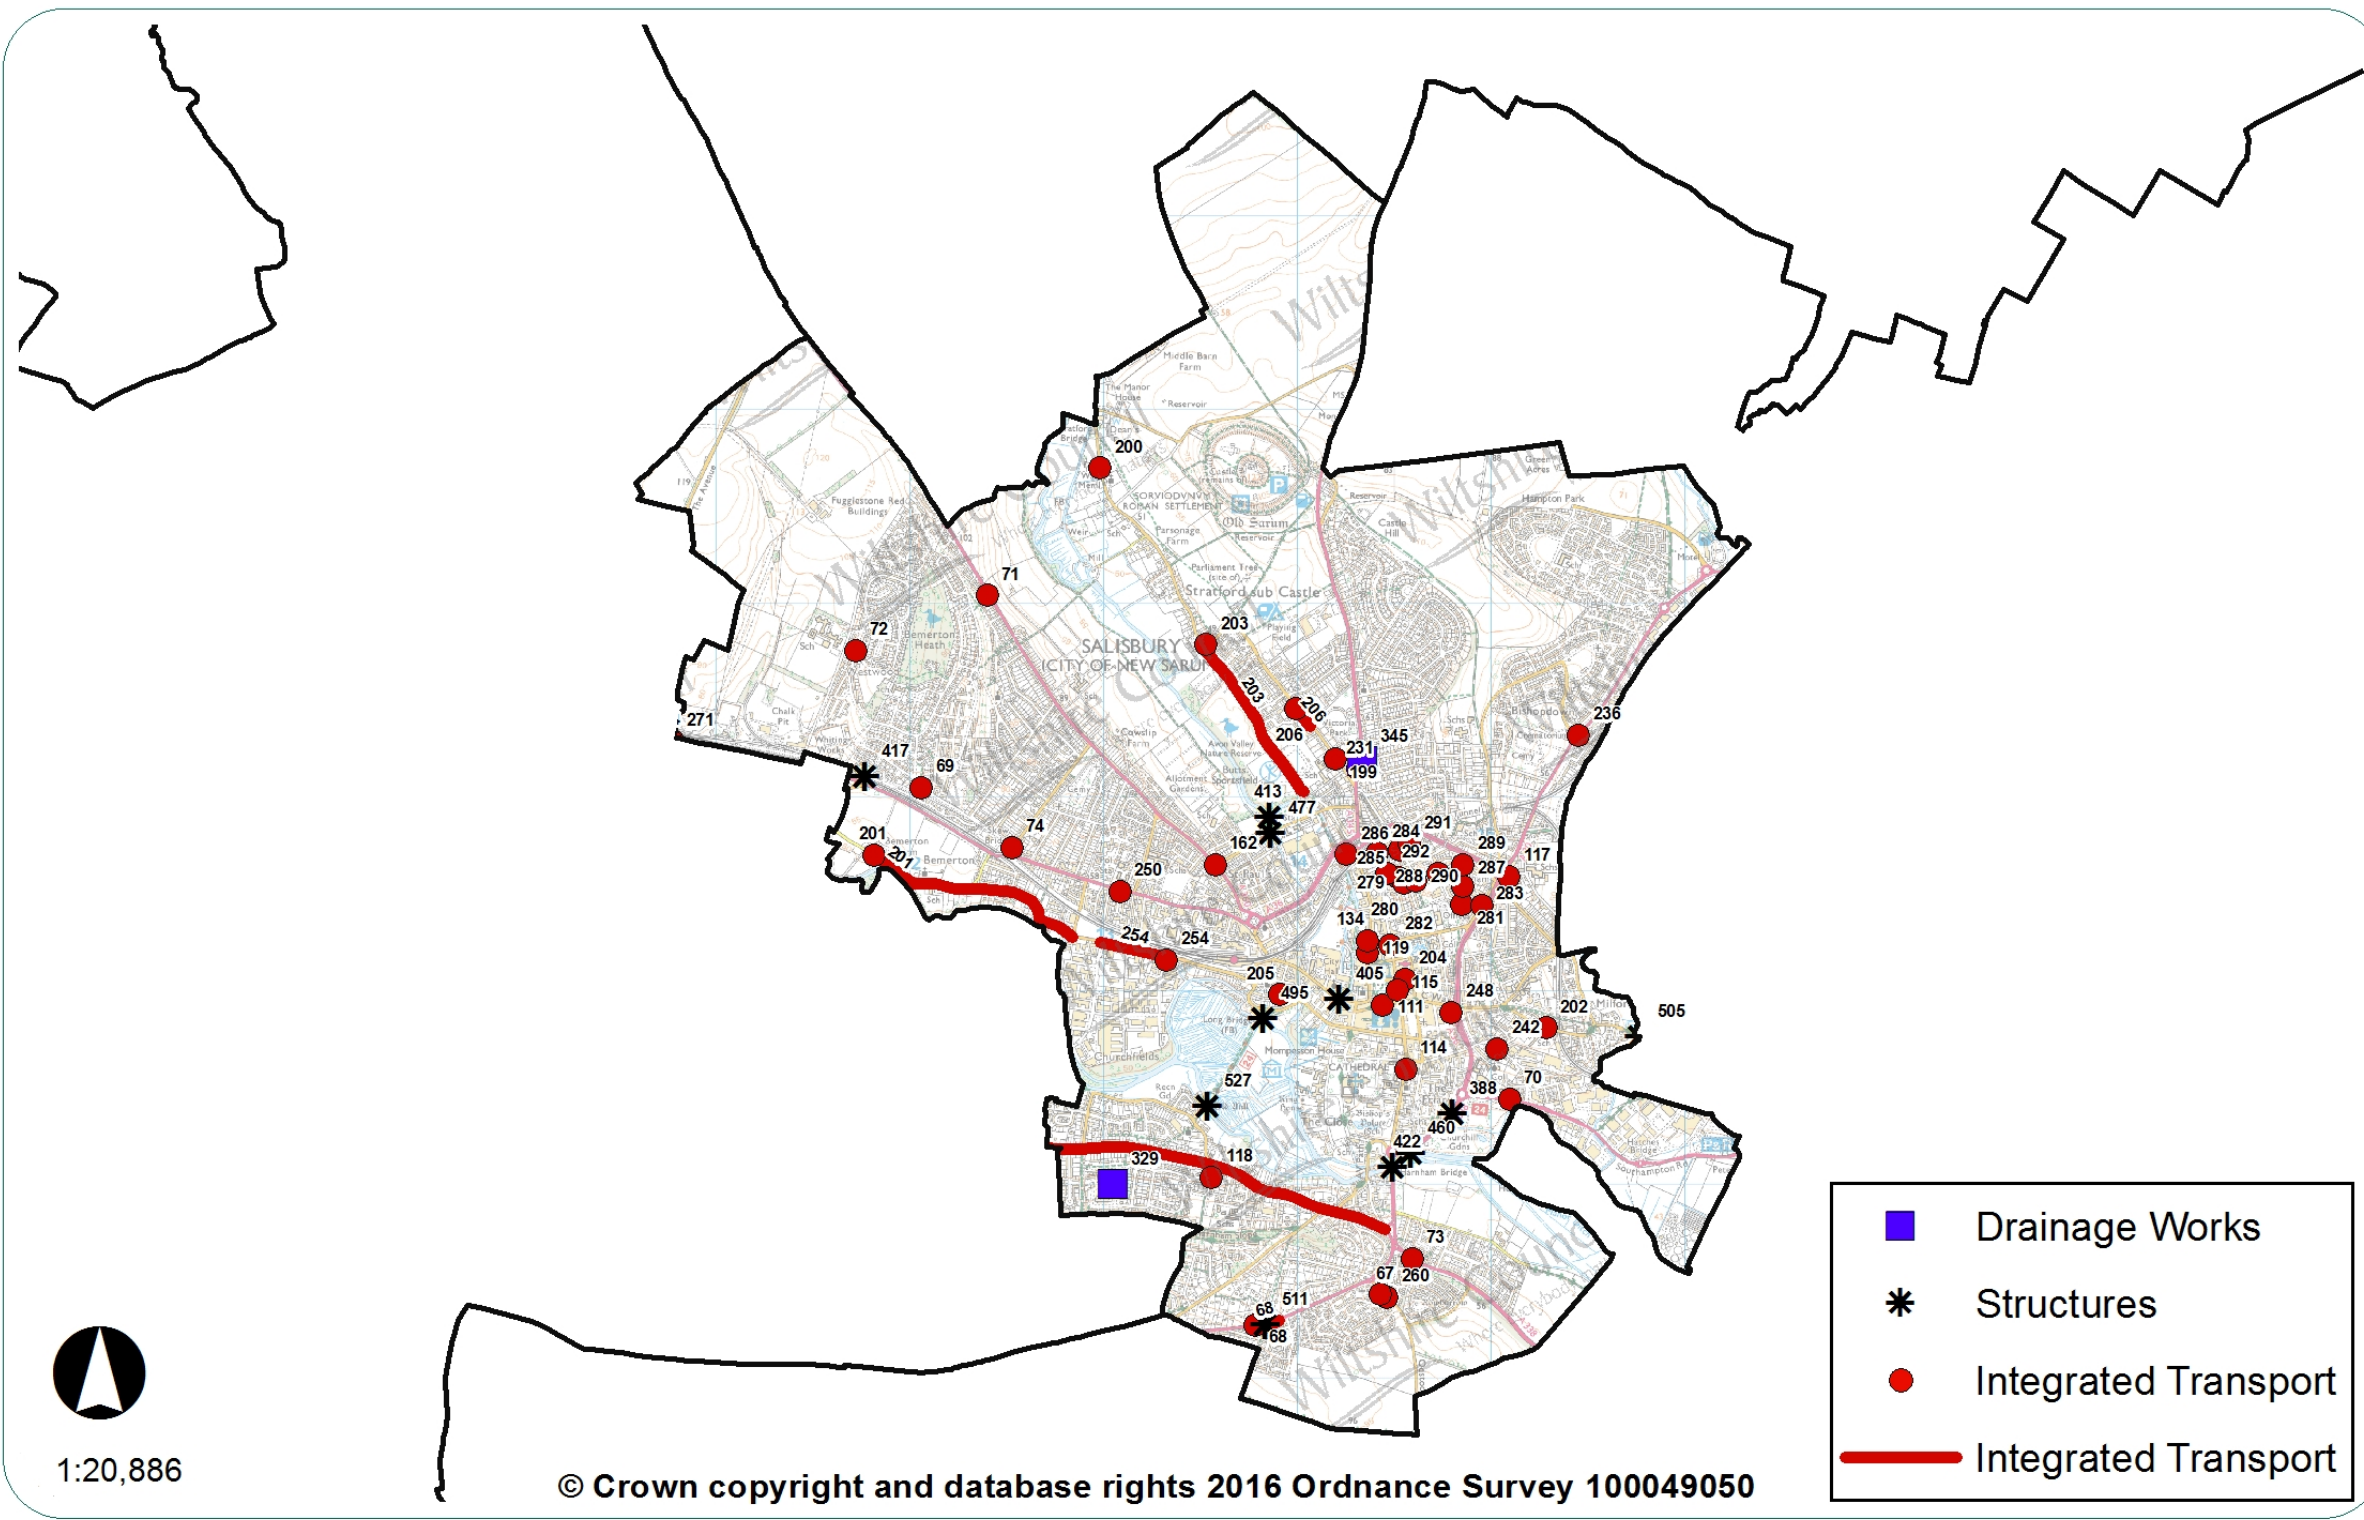

Recent work in your area

The Integrated Transport, Bridge and Drainage schemes carried out in your area since 2015 are listed below.

Plan showing completed integrated transport, bridge and drainage schemes since 2015

Salisbury Area Board

Integrated transport schemes since 2015

No	Location	Description

527	Salisbury	Harnham Mill

Drainage works since 2015

No	Location	Description
329	Salisbury	New parking bays and upgrade to SW system
345	Salisbury	New Gully and connecting pipework

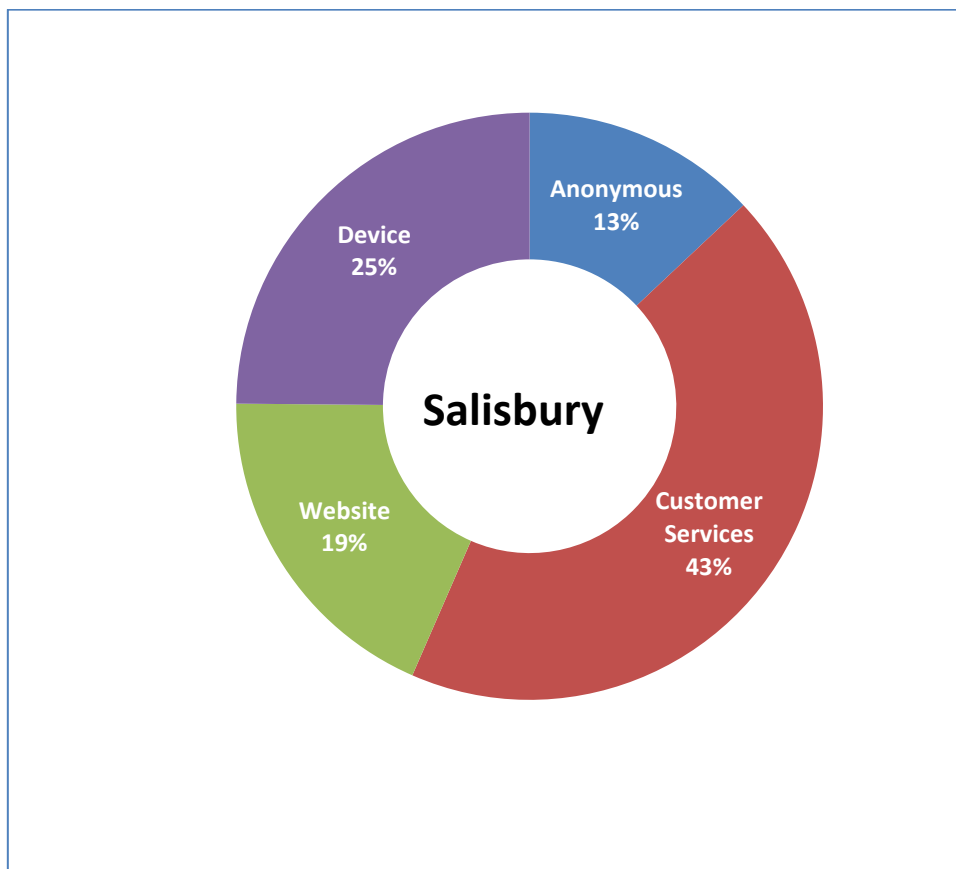

My Wiltshire

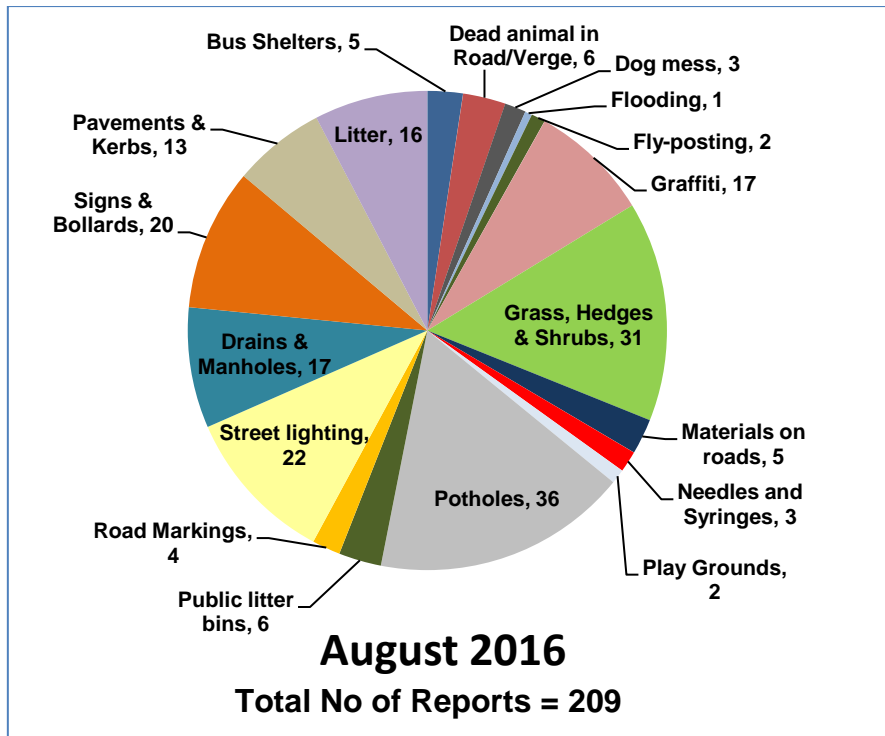

My Wiltshire provides an easy way to report highway issues, including using the Council's website. We have an app so you can report on the go using your smartphone. The My Wiltshire app is available to download at both the [App Store](#) (for iPhones and iPads), from [Google Play](#)[™] (for Android phones) and Windows Store. You can attach information such as photos or videos and pinpoint the location of your report using the mapping software on your phone.

A summary of recent reports in your area is shown below, and further details are shown in Appendix B.

Customer reporting methods in your area

Customer reports in your area for the month of August 2016

Actions following recent reports in your area

Action definitions

1. **Not Intervention** – the technician has attended site and classified the defect as not meeting intervention levels as per the Highway Inspection Manual 2013 or in the case of streetscene reports, service level agreements.
2. **Duplicate** – a report has already been received in relation to this issue and a works instruction has previously been passed to the contractor to undertake a repair/carry out the necessary works.
3. **Under Investigation** – this issue is currently with a Highways technician or engineer – they may be awaiting information from the customer or the issue requires further investigation e.g. wet weather inspection, drainage survey, exploratory excavation, ownership query.
4. **Discretionary works** – this issue is not a highway safety issue and has been identified as one which falls within the remit of the parish steward scheme.
5. **Other** – the issue has been identified as one which does not require any action by Local Highways. This could be for a number of reasons –
 - the report has been cancelled by the user,
 - there is insufficient information provided to assess the issue and the customer has not provided contact details,
 - the issue is not the responsibility of Wiltshire Council e.g. un-adopted highway, gas/electricity/telephone/water/cable company, Highways England, housing association,
 - the technician attended site and nothing was found at the stated location
 - the issue has been passed to another service within Wiltshire Council e.g. rights of way, bridges.
6. **Works Instructed** – the technician has assessed the issue as requiring works to be carried out and has either dealt with the issue personally or has referred it to the contractor for repair.
