At Cricklade with the recent challenges around the weather we have been looking at how we can ensure more cricket gets played at our Southam Ground. We have also worked much closer with the local school Prior Park and this is where our application comes in. The field adjacent to us is owned by Prior Park but we have used it a few times as it has an artificial wicket on it. We would like to work in partnership with the school to get a new two artificial pitches layed specifically for junior cricket.

**Why can't you fund this project from your reserves:**

We run a very lean operation and recently were fortunate enough to get support from the Full Area Board which we had to support 50 percent internally for some serious work on our square which was again linked with the weather. This has meant our funds are very lean so no real support we can offer ourselves as yet. You will see from our surplus we generally spend around 9.5 -10k per year and this is where we are in terms of surplus so fund raising is needed this year to just carry on as normal. That said we have commitment from Prior Park School for 50 percent of the total value below as their contribution as would then become a shared use facility which we are already discussing a usage agreement. So they will contribute 10824.60 of their own funds and we are already exploring other funding sources to support our 50 percent of the total project cost.

We are a small community group and do not have annual accounts or it is our first year:
