

REPORT OUTLINE FOR AREA PLANNING COMMITTEES**Report No.**

Date of Meeting	15 February 2017
Application Number	15/10682/FUL
Site Address	Marden Farm, Rookery Park, Calne, Wiltshire, SN11 0LH
Proposal	Proposed Development of 56 Residential Dwellings, Open Space, Landscaping, Sustainable Urban Drainage, Vehicular Access & Associated Infrastructure & Engineering Works.
Applicant	Redrow Homes Ltd
Town/Parish Council	CALNE WITHOUT
Electoral Division	CALNE RURAL – Cllr Christine Crisp
Grid Ref	399900 169504
Type of application	Full Planning
Case Officer	Chris Marsh

Reason for the application being considered by Committee

The application has been referred back to Committee due to further delays in the completion of the S106 agreement following the death of one of the original parties. An amended resolution granting a further extension of time for completion of the agreement and issue of planning permission is sought.

Background

The application was originally considered at the Committee meeting of 17 February 2016, whereupon Members voted on the following resolution, subject to the deletion of Condition 6 from the list recommended by Officers:

That authority is delegated to the Area Development Manager to GRANT planning permission, subject to conditions listed below and completion of a S106 legal agreement within six months of the date of the resolution of this Committee.

In the event of failure to complete, sign and seal the required section 106 agreement within the defined timeframe to then delegate authority to the Area Development Manager to REFUSE planning permission for the following reason:-

The application proposal fails to provide and secure the necessary and required Services and infrastructure supporting the proposed residential development including Affordable Housing; Waste; Public Open Spaces; Air Quality Management and is therefore contrary to Policies CP3 CP43 & CP55 of the Wiltshire Core Strategy Adopted January 2015 and Paras 7, 14 & 17 of the National Planning Policy Framework March 2012.

An engrossed copy of the legal agreement was subsequently circulated for signing during the week ending 12 August 2016, however the illness and later death of a third party signatory prevented the agreement's completion. An amended resolution was subsequently passed by Committee at the meeting of 24 August 2016 to allow for the completion of Probate and associated amendments to the agreement, and worded as follows:

That authority is delegated to the Area Development Manager to GRANT planning permission, subject to conditions listed below and completion of a S106 legal agreement within six months of the date of the resolution of this Committee or one month after the completion of Probate, whichever is the later.

In the event of failure to complete, sign and seal the required section 106 agreement within the defined timeframe to then delegate authority to the Area Development Manager to REFUSE planning permission for the following reason:-

The application proposal fails to provide and secure the necessary and required Services and infrastructure supporting the proposed residential development including Affordable Housing; Waste; Public Open Spaces; Air Quality Management and is therefore contrary to Policies CP3 CP43 & CP55 of the Wiltshire Core Strategy Adopted January 2015 and Paras 7, 14 & 17 of the National Planning Policy Framework March 2012.

Although Probate is anticipated to be completed imminently, it has become apparent that due to the passing of time the required additional changes to the agreement to reflect the updated title and interested parties will take longer than initially anticipated. In light of these changes, it is not considered feasible that the agreement will be signed prior to either of the deadlines set out in the resolution of 24 August 2016.

In order to guard against the risk of having an out-of-date or legally unsound agreement to secure necessary planning obligations in respect of the development, a further extension of time is sought as an amendment to the resolution. It is considered by officers that this represents a reasonable request in the circumstances, which are exceptional. Given the applicant's intended dovetailing of housebuilding between this site and the larger scheme of 125 dwellings directly adjacent, it is not considered likely that this will impact significantly on housing delivery.

The earlier resolution is therefore referred back to Committee with a recommendation to authorise an extension of time for a further six months from the original resolved deadline, in order to complete the current agreement and issue planning permission. Substantive planning obligations and conditions remain unchanged.

RECOMMENDATION

That authority is delegated to the Area Development Manager to GRANT planning permission, subject to conditions listed below and completion of a S106 legal agreement on or before 24 August 2017.

In the event of failure to complete, sign and seal the required section 106 agreement within the defined timeframe to then delegate authority to the Area Development Manager to REFUSE planning permission for the following reason:-

The application proposal fails to provide and secure the necessary and required Services and infrastructure supporting the proposed residential development including Affordable Housing; Waste; Public Open Spaces; Air Quality Management and is therefore contrary to Policies CP3 & CP43 of the Wiltshire Core Strategy adopted January 2015

CONDITIONS AND INFORMATIVES:

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

REASON: To comply with the provisions of Section 91 of the Town and Country Planning Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

D29 16 P4 Rev A - Tree Protection Plan
Received 11 November 2015
MARD-15-04-01 rev A - Site Location Plan
MARD-15-04-02 rev B - Planning Layout
MARD-15-04-03 rev C - Proposed Materials Layout
MARD-15-04-04 rev B - Enclosures Layout
MARD-15-04-05 rev B - Storey Heights Layout
MARD-15-04-06 rev B - Adoption Layout
394-CH-010 rev D - Drainage Strategy
RED20064-11B Sheet 1 - Landscape Proposals rev B
RED20064-11B Sheet 2 - Landscape Proposals rev B
RED20064-11B Sheet 3 - Landscape Proposals rev B
RED20064-11B Sheet 4 - Landscape Proposals rev B
RED20064-11B Sheet 5 - Landscape Proposals rev B

Received 25 January 2016

House Types Booklet rev C

Received 26 January 2016

REASON: For the avoidance of doubt and in the interests of proper planning.

- 3 No development shall commence on site until the exact details and samples of the materials to be used for the external walls and roofs have been submitted to and approved in writing by the Local Planning Authority. Development shall be carried out in accordance with the approved details.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, in the interests of visual amenity and the character and appearance of the area.

- 4 All soft landscaping comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the first occupation of the buildings or the completion of the development whichever is the sooner. All shrubs, trees and hedge planting shall be maintained free from weeds and shall be protected from damage by vermin and stock. Any trees or plants which, within a period of five years, die, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of a similar size and species, unless otherwise agreed in writing by the local planning authority. All hard landscaping shall also be carried out in accordance with the approved details prior to the occupation of any part of the development or in accordance with a programme to be agreed in writing with the Local Planning Authority.

REASON: To ensure a satisfactory landscaped setting for the development and the protection of existing important landscape features.

- 5 No development shall commence on site until details of the estate roads, footways, footpaths, verges, junctions, street lighting, sewers, drains, retaining walls, service routes, surface water outfall, vehicle overhang margins, embankments, visibility splays, accesses, carriageway gradients, drive gradients, car parking and street furniture, including the timetable for provision of such works, have been submitted to and approved by the Local Planning Authority. The development shall not be first occupied until the estate roads, footways, footpaths, verges, junctions, street lighting, sewers, drains, retaining walls, service routes, surface water outfall, vehicle overhang margins, embankments, visibility splays, accesses, carriageway gradients, drive gradients, car parking and street furniture have all been constructed and laid out in accordance with the approved details.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, to ensure that the roads are laid out and constructed in a satisfactory manner.

- 6 No part of the development shall be first occupied, until the visibility splays shown on the approved plans have been provided with no obstruction to visibility at or above a height of 600mm above the nearside carriageway level. The visibility splays shall be maintained free of obstruction at all times thereafter.

REASON: In the interests of highway safety.

- 7 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking or re-enacting or amending that Order with or without modification), the garages hereby permitted shall not be converted to habitable accommodation.

REASON: To secure the retention of adequate parking provision, in the interests of highway safety.

- 8 No construction works shall take place anywhere on the site outside the hours of 0730 and 1800 on Mondays-Fridays and 0800 and 1300 on Saturdays. Works shall not take place at any time on Sundays and Bank or Public Holidays.

No burning of waste or other materials shall take place anywhere on the site at any time.

REASON: To ensure the retention of an environment free from intrusive levels of noise, activity and pollution in the interests of the amenity of the area.

- 9 No development shall commence on site until a scheme for the discharge of surface water from the site (including surface water from the access / driveway), incorporating sustainable drainage details and information regarding existing ordinary watercourses within the site (as well as pollution protection to the proposed attenuation pond), has been submitted to and approved in writing by the Local Planning Authority.

The development shall not be first occupied until surface water drainage has been constructed in accordance with the approved scheme.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, to ensure that the development can be adequately drained.

- 10 No development shall commence on site until a scheme for the discharge of foul water from the site, including full details of pumping station/finishes/fencing/prevention measure to prevent pollution of proposed adjacent attenuation pond and other SUDS features, has been submitted to and approved in writing by the Local Planning Authority.

The development shall not be first occupied until foul water drainage has been constructed in accordance with the approved scheme.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, to ensure that the proposal is provided with a satisfactory means of drainage and does not increase the risk of

flooding or pose a risk to public health or the environment.

- 11 No development shall commence on site (other than that required to be carried out as part of a scheme of remediation approved by the Local Planning Authority under this condition), until steps (i) to (iii) below have been fully complied with. If unexpected contamination is found after development has begun, development must be halted on that part of the site affected by the unexpected contamination to the extent specified by the Local Planning Authority in writing until step (iv) has been complied with in full in relation to that contamination.

Step (i) Site Characterisation:

An investigation and risk assessment must be completed to assess the nature and extent of any contamination on the site, whether or not it originates on the site. The investigation and risk assessment must be undertaken by competent persons and a written report of the findings submitted to and approved in writing by the Local Planning Authority. The report of the findings must include:

- A survey of the extent, nature and scale of contamination on site;
- The collection and interpretation of relevant information to form a conceptual model of the site, and a preliminary risk assessment of all the likely pollutant linkages;
- If the preliminary risk assessment identifies any potentially significant pollutant linkages a ground investigation shall be carried out, to provide further information on the location, type and concentration of contaminants in the soil and groundwater and other characteristics that can influence the behaviour of the contaminants;
- An assessment of the potential risks to
 - o human health,
 - o property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes,
 - o adjoining land,
 - o groundwater and surface waters,
 - o ecological systems,
 - o archaeological sites and ancient monuments;

This must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11" and other authoritative guidance.

Step (ii) Submission of Remediation Scheme:

If any unacceptable risks are identified as a result of the investigation and assessment referred to in step (i) above, a detailed remediation scheme to bring the site to a condition suitable for the intended use must be prepared. This should detail the works required to remove any unacceptable risks to human health, buildings and other property and the natural and historical environment, should be submitted to and approved in writing by the Local Planning Authority. The scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, a

timetable of works and site management procedures.

Step (iii) Implementation of Approved Remediation Scheme:

The approved remediation scheme under step (ii) must be carried out in accordance with its requirements. The Local Planning Authority must be given at least two weeks written notification of commencement of the remediation scheme works.

Step (iv) Reporting of Unexpected Contamination:

In the event that contamination is found at any time when carrying out the approved development that was not previously identified it should be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment should be undertaken in accordance with the requirements of step (i) above and where remediation is necessary, a remediation scheme should be prepared in accordance with the requirements of step (ii) and submitted to and approved in writing by the Local Planning Authority.

Step (v) Verification of remedial works:

Following completion of measures identified in the approved remediation scheme a verification report (referred to in PPS23 as a validation report) must be produced. The report should demonstrate the effectiveness of the remedial works.

A statement should also be provided by the developer which is signed by a person who is competent to confirm that the works detailed in the approved scheme have been carried out (The Local Planning Authority can provide a draft Remediation Certificate when the details of the remediation scheme have been approved at stage (ii) above).

The verification report and signed statement should be submitted to and approved in writing of the Local Planning Authority.

Step (vi) Long Term Monitoring and Maintenance:

If a monitoring and maintenance scheme is required as part of the approved remediation scheme, reports must be prepared and submitted to the Local Planning Authority for approval at the relevant stages in the development process as approved by the Local Planning Authority in the scheme approved pursuant to step (ii) above, until all the remediation objectives in that scheme have been achieved.

All works must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11" and other authoritative guidance.

REASON: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely

without unacceptable risks to workers, neighbours and other offsite receptors.

- 12 No development shall commence until a Landscape, Ecological and Arboricultural Management Plan (LEAMP) has been submitted to and approved in writing by the Local Planning Authority. The submitted LEAMP shall have particular regard to the measures secured under Condition 21 of the permission N/12/04038/FUL and the addendum to the Ecological Impact Assessment (dated 20th October, 2015) so as to support and enhance the ecological mitigation measures previously agreed.

All capital works shall be carried out to the approved timescales and all areas identified in the LEAMMP shall be managed in accordance with the approved prescriptions in perpetuity. All monitoring reports shall be submitted in writing to the local planning authority.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, to ensure adequate protection, mitigation and compensation for protected species, priority species and habitats.

- 13 No development shall commence on site (including any works of demolition), until a Construction Method Statement, which shall include the following:

- a) the parking of vehicles of site operatives and visitors;
- b) loading and unloading of plant and materials;
- c) storage of plant and materials used in constructing the development;
- d) the erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate;
- e) wheel washing facilities;
- f) measures to control the emission of dust and dirt during construction;
- g) a scheme for recycling/disposing of waste resulting from demolition and construction works;
- h) measures for the protection of the natural environment; and
- i) hours of construction, including deliveries

has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be complied with in full throughout the construction period. The development shall not be carried out otherwise than in accordance with the approved construction method statement.

REASON: The matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, to minimise detrimental effects to the neighbouring amenities, the amenities of the area in general, detriment to the natural environment through the risks of pollution and dangers to highway safety, during the construction phase.

14 INFORMATIVE TO APPLICANT:

Any alterations to the approved plans, brought about by compliance with Building Regulations or any other reason must first be agreed in writing with the Local Planning Authority before commencement of work.

15 INFORMATIVE TO APPLICANT:

This permission shall be read in conjunction with an Agreement made under Section 106 of the Town and Country Planning Act, 1990 and dated the [INSERT].

16 INFORMATIVE TO APPLICANT:

The applicant should note that the grant of planning permission does not include any separate permission which may be needed to erect a structure in the vicinity of a public sewer. Such permission should be sought direct from Thames Water Utilities Ltd / Wessex Water Services Ltd. Buildings are not normally allowed within 3.0 metres of a Public Sewer although this may vary depending on the size, depth, strategic importance, available access and the ground conditions appertaining to the sewer in question.

17 INFORMATIVE TO APPLICANT:

The applicant is requested to note that this permission does not affect any private property rights and therefore does not authorise the carrying out of any work on land outside their control. If such works are required it will be necessary for the applicant to obtain the landowners consent before such works commence.

If you intend carrying out works in the vicinity of the site boundary, you are also advised that it may be expedient to seek your own advice with regard to the requirements of the Party Wall Act 1996.

18 INFORMATIVE TO APPLICANT:

The applicant should note that any works on, over or near (within 8m of top of bank) an ordinary water course will require a separate formal Land Drainage Consent application and approval, as will any new proposed connection.

19 INFORMATIVE TO APPLICANT:

Please note that Council offices do not have the facility to receive material samples. Please deliver material samples to site and inform the Planning Officer where they are to be found.

20 INFORMATIVE TO APPLICANT:

The applicant is advised that the development hereby approved represents chargeable development under the Community Infrastructure Levy Regulations 2010 (as amended) and Wiltshire Council's CIL Charging Schedule. A separate Community Infrastructure Levy Liability Notice will be issued by the Local Planning Authority. Should you require further information with regards to CIL please refer to the Council's Website

www.wiltshire.gov.uk/planninganddevelopment/planningpolicy/communityinfrastructurelevy
