

Appendix 2: Summary of Changes

Page	Change
4	Total pharmacies changed from 74 to 73 of which 2 are distance-selling pharmacies
4	28 dispensing practices amended to 25
5	<p>Additional paragraph added to the conclusion:</p> <p>Although current provision is deemed reflective of population need, future provision maybe required in line with the NHS (pharmaceutical services and local pharmacy services) regulation 2013. The reader should bear these regulations in mind when deciding future pharmacy provision as a result of demographic or population size changes or changes in the health and wellbeing needs of the local populations change. The actual/potential merger of primary care services may or may not cause gaps in local pharmaceutical services but requests from pharmacies to change location or hours of business may cause gaps.</p>
6	NHSUMS has been commissioned to 30 Sept 2018 (not 31 March 2018)
7	PNA correct at time of writing amended to January 2017
12	PCT changed to 'NHS and local commissioners'
13	<p>Final paragraph reworded to read:</p> <p>Wiltshire HWB consulted formally on the draft PNA from September to December 2017. The consultation closed 01 December 2017 and feedback was reviewed and incorporated into the final PNA document which is scheduled for the Wiltshire HWB in January 2018 for approval prior to publication.</p>
17-18	<p>Changes to military population in Wiltshire updated to read:</p> <p>Military personnel in Wiltshire constitute around 3.3% of the total population, and including dependants the total is estimated to be around 30,000 people. Locally, military personnel and their dependents are estimated to constitute over 20% of the total population in some wards (e.g. Tidworth, Bulford, Durrington, Upavon, Warminster East, and Lyneham). Increases in the numbers of military personnel and their dependents in the south of the county will take place during the lifetime of the PNA, which may have implications for local health services.</p> <p>A major impact on south Wiltshire in particular will be felt from the Army's transformation under the 'Army 2020' concept and the Army Basing programme. The changes to the Army's structure, reorganisations, and relocations will result in an estimated increase of approximately 4,000 uniformed personnel, and an estimated 3,200 dependants, living and working in Wiltshire. All unit moves are planned to be complete by December 2019 following completion of the building of additional single living and service families' accommodation.</p> <p>Following its closure as a RAF station, MOD Lyneham has become a key defence technical training site for electronic and mechanical engineering. Part of the Defence College of Technical Training, MOD Lyneham has around 1,500 military</p>

	<p>and 700 civilian personnel as students and staff. Additionally a regular Army unit of approximately 500 personnel will be based at MOD Lyneham from 2019.</p> <p>The Ministry of Defence medical centres provide primary healthcare for service personnel and some families. Tidworth, Larkhill, Bulford, Lyneham and Warminster military sites all have access to a Medical Centre with a dispensary staffed by a Pharmacy Technician on site. Corsham personnel have access to a Medical Centre on site where prescriptions are faxed to a local Lloyds pharmacy for dispensing. In addition, all Military Medical Centres have access to a MOD Regional Pharmacist and pharmacy technician based at the Regional Headquarters of Defence Primary Health Care Central and Wessex Region, based in Tidworth.</p> <p>Wiltshire's Health and Wellbeing Board will ensure that as part of the planning for army re-basing the provision of pharmaceutical services will be reviewed on an ongoing basis and supplementary statements to this PNA will be issued when necessary.</p>
22	Dispensing Appliance Contractors details added: Fittleworth Medical (Salisbury) is the only noted DAC in Wiltshire.
23	NUMSAS is now commissioned until 30 September 2018
25	<p>Work with the Acute hospitals last paragraph reworded:</p> <p>In a bid for integrated working between community pharmacy and Acute settings, a IT system called PharmOutcomes is being used to facilitate this integrated working across all Acute Trusts and community pharmacies. This includes the Royal United Hospital using the referral service to provide discharge summaries for patients who have medicines packaged into weekly dosage systems. Salisbury Foundation Trust have this functionality and is using it to provide discharge summaries for patients with weekly dosage systems. Great Western Hospital use similar functionality to refer patients starting on anticoagulant medicines for further support.</p>
25-26	<p>Core strategy reworded:</p> <p>The anticipated increase in each community area over the next three year period until 2020/21 would not have a significant impact on provision of, or access to pharmaceutical services</p>
27	<p>Military, sentence added:</p> <p>Military families / dependants may access NHS services and community pharmacies in the areas in which they live.</p>
38	Alcohol screening and brief interventions service removed from 'locally commissioned pharmacy services' and added to non-commissioned service
