

Warminster Area Board 19 May 2011

Chairman's Announcements

Digital Inclusion

Wiltshire Council's business plan for 2011-15 has prioritised a number of areas for investment, of which Digital Inclusion and supporting the rollout of superfast broadband for both business and home users is a key area. The Council has set the ambitious target of enabling 85% of all premises to be able to access superfast broadband (possibly 95% with additional funding) and for all premises to be able to receive standard broadband by 2015.

To help understand existing coverage and the requirements for the future, Wiltshire Council will be launching a superfast broadband survey for home and business users between 26 April and 3 June. This will allow people to say what types of services they can currently access over internet and how well their service performs. The survey also asks about their views for getting superfast broadband in their community in future. This information will allow the Council to better understand the demand for this service and where it will need to prioritise investment.

The council is keen to get as many responses as possible to help inform its rollout plans over the next 4 years.

The survey is available on-line and also as a printed document.

Details are available from: www.wiltshire.gov.uk/digitalinclusion

Printed versions can be requested by calling and asking for the digital inclusion survey from the start date of the survey - 0300 456 0100

Results of the survey will be shared on the Council web site in July, via the same link.
