Full Council Meeting - Tuesday 21 July 2020 - Recorded Vote

Agenda Item 13a - Notice of Motion No.21 - Walking and Cycling As Amended

Council Resolves:

- 1) That Wiltshire Council highways and planning departments should prioritize the requirements of cyclists, pedestrians and horse riders when planning works on Wiltshire's roads, bridleways and footpaths. That all major planning applications of 10 units or more must show clear evidence of integration of safe cycling and pedestrian routes with those of the surrounding street layouts, and that any infrastructure planning by the Council should place safe cycling as a high investment priority and move it up from its current medium priority, as set in the current Local Transport Plan (LPT3) to sit alongside walking.
- 2) That Wiltshire Council's Cabinet further supports these principles by the appointment of two 'Czars' from among current portfolio holders, with one for cycling and horse riding, and one for walking, to promote and facilitate change to these activities, by listening to what area boards, town and parish councils and community cycling, walking, horse riding and environment groups have to say to them and by communicating and developing these ideas with cabinet members for health, transport and spatial planning.
- 3) That Wiltshire Council will expand its 'Bikeability' programme to all age groups, from 8 to 80, or if this is not possible develop a parallel system for adults, seeking funding from related retail outlets and the involvement of local qualified trainers and cycling groups.
- 4) Wiltshire Council will review with SUSTRANS and other cycling, walking and horse riding groups the digitally available footpath, bridleway and cycle route maps for the whole county.
- 5) That Wiltshire Council will with parish and town councils consider:
- a) making widespread provision of theft-resistant cycle parking facilities sufficient for the demand.
- b) reducing traffic speeds in urban areas.
- c) the adoption of auto speed watch cameras
- d) dual-use cycle/footpaths in pedestrianized areas and between towns and villages.
