

Planter Options

Whilst we await detailed guidance from Wiltshire Council on the acceptable design of the planters we have not been able to finalise our choice.

Also given the shape of the traffic calming build outs they would be best served by the use of several small planters on a modular basis.

The intent would be to spend circa £750 on planters from the following ranges (or similar) and the remaining £250 on soli and plants. Labour would be free and supplied by volunteers.
