

Older People Accommodation Development Strategy

Overview

The Council has produced a 10 year development strategy, modelled across two timeline options, which will modernise the way that older people’s accommodation is provided, develop and adopt an integrated accommodation system, ensure the best use of increasingly scarce resources and respond to local needs in local communities.

The capital cost of the proposed development programme, including extra care, nursing and specialist dementia care provision, is approximately £220m based on current prices. Under these proposals the Council does not anticipate funding developments directly and will be working to maximise investment from the private and voluntary sectors. An innovative joint procurement exercise with Devon County Council is also being progressed in an attempt to reduce future Social Housing Grant requirements for extra care developments by accessing potential cross-subsidisation of schemes through the inclusion of Council owned land.

The proposed development strategy and service remodelling would enable the Council to realise a cost avoidance of approximately £600m over the next 25 years when compared to the “do nothing” option. This will assist the Council to offset the challenges of the forecast demographic change of older people and is achieved through a diversion of people from residential care to community support or specialist nursing or dementia care, which achieves an average saving per person of £44 per week.

The delivery of these new developments would enable the existing not fit-for-purpose or outdated facilities to be replaced, whereby the current residents would be relocated to the new schemes and the existing homes closed.

The development strategy will be delivered through a variety of partnerships, contractual arrangements and funding opportunities. These include:

- A long-term partnering agreement with The Orders of St John Care Trust, who currently operate the Council's care homes for older people, which recognises the need for developments and / or significant refurbishments due to the ageing nature of the existing facilities.
- The Department of Health Private Finance Initiative through which the Council has been provisionally allocated £49.687m to deliver specialist dementia care and nursing facilities in the south and north of the county.
- An innovative Preferred Developer Partner Framework agreement which is being jointly procured with Devon County Council to facilitate the development of extra care housing with little or no requirement for public subsidy i.e. Social Housing Grant, due to the potential cross subsidisation of facilities through the inclusion of Council owned land.
- A review of the sheltered housing stock to assess the quality of accommodation and its ability to meet current and future needs. Facilities may be recommended for refurbishment to provide community extra care housing or to meet other Council priorities i.e. the provision of affordable general needs accommodation.
- Utilising private sector and Registered Social Landlord (RSL) initiatives which may reduce the requirement for Council led developments in particular community areas.

The Older People Accommodation Development Strategy was approved by the Council's Cabinet on 25th January 2011 and the full document is available on the Council's website.
