**Please state the ground(s) for review (please read guidance note 1)**

Excessive noise in the late evening and beyond midnight disturbing residents of St Mary's Place caused by live and recorded music being performed in the rear area outside the premises.

Please provide as much information as possible to support the application  
(please read guidance note 2)

St Mary's Place lies at right angles to the premises and the noise, being energy in wave form, is funneled between the buildings (of St Mary's Place and those parallel to it on Station Hill) and affects all the dwellings from the base of the hill to the top.

The properties on St Mary's Place are either listed and/or within a Conservation Zone and so have limited opportunity to fit sound insulation such as double glazing.

The street has a mix of the very old, children of pre- and school age and working adults all of whom are impacted detrimentally by disrupted sleep. Residents quiet enjoyment of their homes will be impossible especially during the warmer/lighter months.

The disturbance occurs frequently and as it takes place outside (at the rear of the premises) there are no barriers to lessen or block the noise from outside performances. This is especially problematic on bank holiday weekends when the disturbance occurs on Friday, Saturday and Sunday nights.
