Metro Count Speed Survey Result – Upper Woodford (30 mph Speed Limit)

The Results of the survey for the area of Upper Woodford are provided below.

The survey was carried out between 25/08/2011 and 05/09/2011. A total of 10669 vehicles were checked. The 85th percentile was 34.7mph (the 85th percentile is the speed at which 85% of the traffic is travelling at or below).

As with every other department, we have to target our limited resources to where they will be most effective and as such I would remind you that unless there are exception circumstances we will not except another count request for this location or close surrounding area for another 12 months. For your information the thresholds for interventions are below;

In a 30mph speed limit the following criteria will be applied;

30 to 34.9mph 85th percentile = No Further Action (NFA)

35 to 38.9 mph 85th percentile = eligible for Community Speed Watch

39 to 42 mph 85th percentile = eligible for the Speed Indicator Device (SID) programme

Community Speed Watch does not operate in any speed limit above 40mph.

Any other results in higher speed limits will be discussed on their individual basis and merit.

Yours sincerely

Malcolm Burns
