<p>Our project will benefit all hall our users. We have an average of around 500 people of all ages attending various clubs, sessions, classes, parties and other events generally on a weekly basis, obviously some events are less frequent. The Hall recently received a 'Solve' grant for a green energy check and hall user consultation. The most potentially energy saving and easy to implement recommendation was for much more insulation in the loft area. This would prevent heat being lost through the roof, prevent burst pipes, save the Trust from wasting our limited funds and help keep the hire costs down for all our user groups. We have recently had some problems with some hall users using fire doors (of which we have 3) for access or, worse still, forgetting to securely close them after a session, with obvious security implications. We have had two instances of people getting into the hall, one resulting in a theft of some audio equipment. We consulted Dave Budd who is the crime reduction officer at Trowbridge Police and he recommended installing independent, alarmed door closures. Again all hall users as well as the Trust would benefit from the knowledge that the Hall was as secure as possible, thus potentially saving time , money and potential disruption to normal activities.</p>			

Wiltshire Council will be unable to meet the ongoing costs of your project. Please describe, therefore, how you will ensure the financial sustainability of your project beyond the period of this grant (if successful)?

There would be negligible ongoing costs with these items. We will be seeking additional funding to meet the more complex recommendations from the green energy survey such as solar panels, additional interior screening and possible geo-thermal heating if they prove viable.

3 – Additional information to support and strengthen your application e.g consultation, community involvement, energy efficiency measures

Please tell us more about the organisations and groups that are involved in your project, who will benefit from the award and how will you know that it is making a difference.

IMPORTANT: PLEASE DO NOT TYPE IN PARAGRAPHS – THIS SECTION IS LIMITED TO 1500 CHARACTERS ONLY (INCLUSIVE OF SPACES)

As stated above, we have already used a small grant to carry out a 'green survey' of hall some user groups, especially the 'Autumn Leaves' the older people's club with over 70 members that meets bi-weekly in the hall, and have had our energy survey and EPC to work towards. As regards the 'greening ' of the hall, all the hall users will benefit if the hall is warmer and more secure. We will know that there is a difference being felt when users, especially the older and parents and carers of the very young (eg toddler group) no longer have to complain that they feel cold! It is to be hoped that people will see that the hall is taking these steps to save energy whilst improving the overall climate if the premises and that they may be inspired to take some of the ideas into their own homes. We are always able to display any information such as leaflets, that we feel to be relevant to hall users.
