

Housing supporting your Area Board

One size doesn't fit all

We know that each area and community has its own individual needs and so housing has been preparing to work with the new Area Boards and help shape the housing service to fit your area.

Your Key Contact

There are six Heads of Service in housing and they will each be the key link for three Area Boards. They will make sure that when you need information about any housing matter that relates to your area you will get it; if a housing initiative has been agreed for your area, they will be the key contact and if you need a housing officer to go along to your area board, it can be arranged with them. We will ensure that there is always a housing officer there if there is a housing issue planned for discussion at an area meeting.

Graham Hogg is the Service Director working with the South West Wiltshire area board as the key corporate contact.

Community Awaydays

We are encouraging all housing staff to provide a day each year to work on area board projects and we would encourage area boards and area partnerships to propose projects where a team of housing staff could come and work for a day on a project that improves your area. This could be any type of project and ideally not housing related. Ask your key contact for more details.
