Big Society & Localism: what does it mean for the Melksham area?

Tues 12 April 2011, 6pm
Seend Community Centre

A special seminar hosted by Melksham Area Board:

- Big Society and the Localism Bill
- Local arrangements in Wiltshire – Moving Forward
- Neighbourhood planning and the Wiltshire Core Strategy
- Wiltshire Core Strategy update for the Melksham community area.

Everyone is welcome!

Abbi Gutierrez • Melksham Community Area Manager • Tel 01225 718443 • abbi.gutierrez@wiltshire.gov.uk

Wootton Bassett & Cricklade Area Board

Present a special seminar on

**LOCALISM
&
WHAT IT MEANS FOR THE WOOTTON BASSETT AND
CRICKLADE COMMUNITY AREA:**

SEMINAR

**4th April 2011
at 6.30pm
Purton Village Hall, Purton**

You will be very WELCOME!

We will be discussing:-

-The Localism Bill and what it means to you

-Neighbourhood Planning & Update on the Wiltshire Core Strategy

Appendix 2 - Sample presentation on neighbourhood planning and the core strategy

Agenda

- 6.30 Welcome by Area Board Chairman
- 6.35 Localism presentation
Questions
- 7.10 Neighbourhood planning and the Wiltshire Core Strategy
Questions
- 7.40 Short break
- 7.50 Planning for Devizes Community Area
- 8.40 Feedback session

Wiltshire Council
Where everybody matters

Localism Bill

- New freedoms for local government
- New powers for local communities
- Giving local people more of say
- Changes to the way we plan for new houses

Wiltshire Council
Where everybody matters

Localism Bill

- Cut through red tape and things that make life difficult
- Communities taking things over and running them
- Services meet the needs of people living in communities
- Services provided in a variety of ways
- Everyone has the opportunity to voice opinions and challenge on issues close to their hearts

Wiltshire Council
Where everybody matters

Localism Bill

- Community Right to Buy, e.g. Pubs, village shops, swimming pools - what's important to your community?
- Community Asset Transfers, e.g. schools, land, buildings
- Community Right to Challenge – you take over the running of a local service; could be local organisation, parish council, social enterprise, mutual
- Local referendums – you can suggest votes on any local issue you think is important
- Referendums to veto council tax rises you think are too high

Wiltshire Council
Where everybody matters

A commitment to work together locally...

“Our vision is to create stronger, more resilient communities in Wiltshire... where communities can solve problems locally with our support.”

Councillor Jane Scott
Leader, Wiltshire Council

Wiltshire Council
Where everybody matters

What does this mean for us?

Helping communities to tackle local concerns. For example...

- Safe Place Project
- Speedwatch
- Community farm
- Community hub in Calne
- Saving local shops
- Running local advice cafes
- Mobile cinemas
- Volunteering in the library

Wiltshire Council
Where everybody matters

What does this mean for us in Devizes?

Helping communities to tackle local concerns. For example...

- Community shop in Rowde
- Mobile skatepark in Devizes
- Installing drop kerbs to help access
- Preventing dog fouling in Devizes
- Funding for a range of community projects from hospital radio to 'Bluez n Zuz'
- Tackling speeding through the villages

Wiltshire Council
Where everybody matters

Understanding Communities

The challenge for us together...

- What do we know about the area?
- How much are we spending here?
- How are services performing?
- How do we compare with other areas?
- What are the local issues?

Wiltshire Council
Where everybody matters

Local leadership

So, what can we do together?

- Pass more powers to the local area and invest a further £3.2m over four years through the Area Boards
- Create more opportunities for people to get involved and continue to work to make sure everyone has a voice
- Changing role and accountability of elected councillors

Wiltshire Council
Where everybody matters

Responding to the local challenge

So, what will we do?

- Work with the community to produce one simple action plan for the area
- Make sure public service plans and budgets are talked about locally and included in the area action plan
- Give people more of a say in the decisions made about where they live and how their services should be provided

*Building stronger
more resilient
communities in
Wiltshire'*

Neighbourhood Planning and Wiltshire Core Strategy

Wiltshire Council
Where everybody matters

Introduction

1. Introduction to neighbourhood planning and up-date on Wiltshire Core Strategy programme

Questions

2. Developing the Wiltshire Core Strategy - Planning for Devizes Community Area

Questions and group discussion

Wiltshire Council
Where everybody matters

“For far too long local people have had too little say over the planning system that has imposed bureaucratic decisions by distant officials in Whitehall and the town hall. We need to change things so there is more people-planning and less politician thinking, so there is more direct democracy and less bureaucracy in the system. These reforms will become the building blocks of the Big Society”

Eric Pickles
Secretary of State for Communities and Local Government

Wiltshire Council
Where everybody matters

Neighbourhood Planning :

Basic Principles

- Empower local communities to **take control** of their areas **Community ownership** of the process
- Inspire innovation and creativity in communities
- Restore the idea that **development can be a force for good**

(Communities and Local Government)

Wiltshire Council
Where everybody matters

Neighbourhood plans

*“Cannot say no to growth.
They are not a licence to opt out”*

- Greg Clark, Minister for Decentralisation

Wiltshire Council
Where everybody matters

Preparing a Neighbourhood Plan

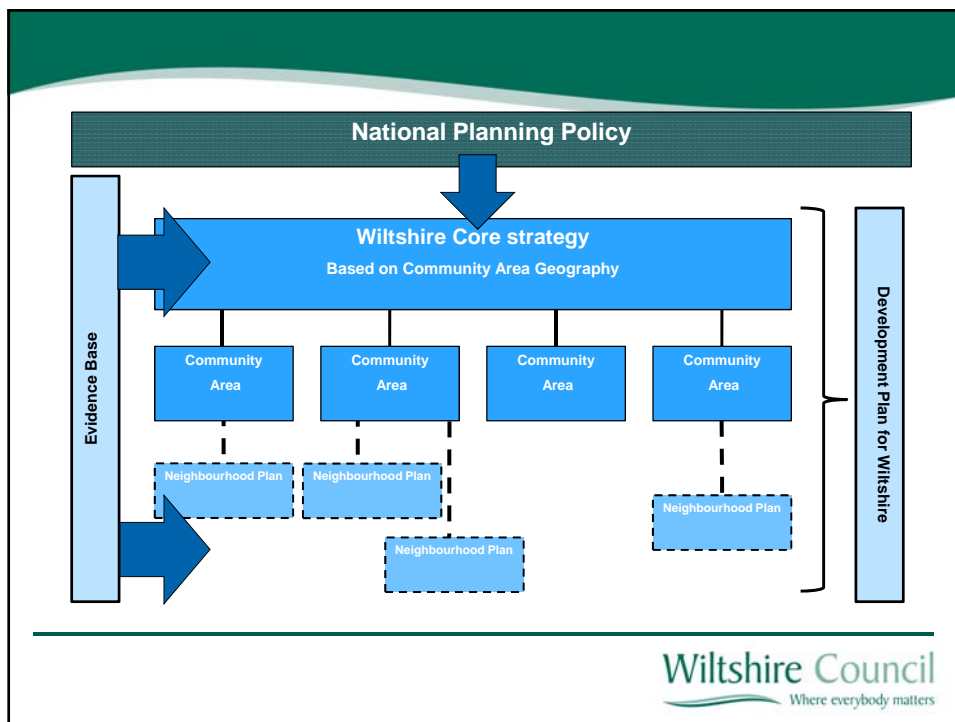

- Neighbourhood plans enable communities to bring forward and influence development
- Emphasis is on supporting development and shaping change within defined neighbourhoods.
- Bill suggests neighbourhoods be built on parish footprints but more than one parish could come together
- Wiltshire Council has to agree area
- Identify 'non-strategic' sites and policies for local distinctiveness

Wiltshire Council
Where everybody matters

Neighbourhood Plan Process

- General conformity with the Wiltshire Core Strategy and has regard to national planning policy
- Light touch examination by independent assessor
- Wiltshire Council must adopt a legally compliant plan if local people vote in favour through referendum
- Neighbourhood plans will form part of the development plan alongside, not as a replacement for, the Wiltshire Core Strategy.

Wiltshire Council
Where everybody matters

Progressing the Wiltshire Core Strategy

Government :

- will introduce strong presumption in favour of sustainable development
- expects local planning authorities to approve applications where plans are absent, out of date, silent or indeterminate

“ Local planning authorities should therefore press ahead without delay in preparing up to date development plans”

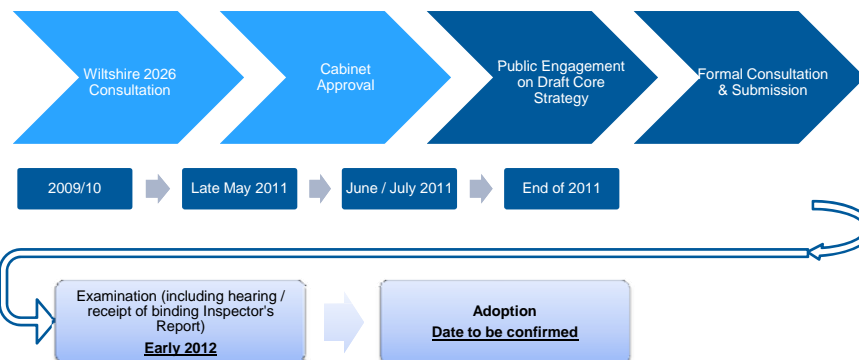

- Greg Clark, Minister for Decentralisation

Role of the Wiltshire Core Strategy?

Wiltshire Council still has a duty to prepare its Core Strategy (Local Plan) setting out how, where and when new development should take place within Wiltshire.

Important to ensure the needs of the economy, environment and communities are properly balanced.

Wiltshire Core Strategy Timetable

Thank you for listening

Any questions?

Wiltshire Council

communities in
Wiltshire'*

**Planning for Devizes
Community Area**

Wiltshire Council
Where everybody matters

Purpose of this part of evening

To discuss the emerging strategy for Devizes Community Area.

Taking into account:

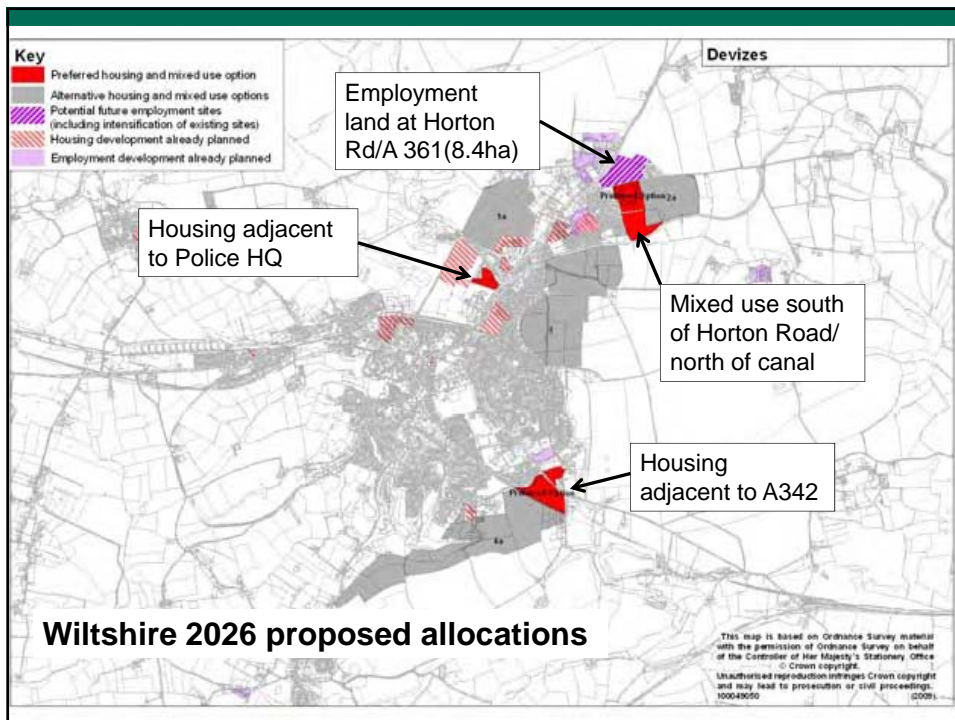

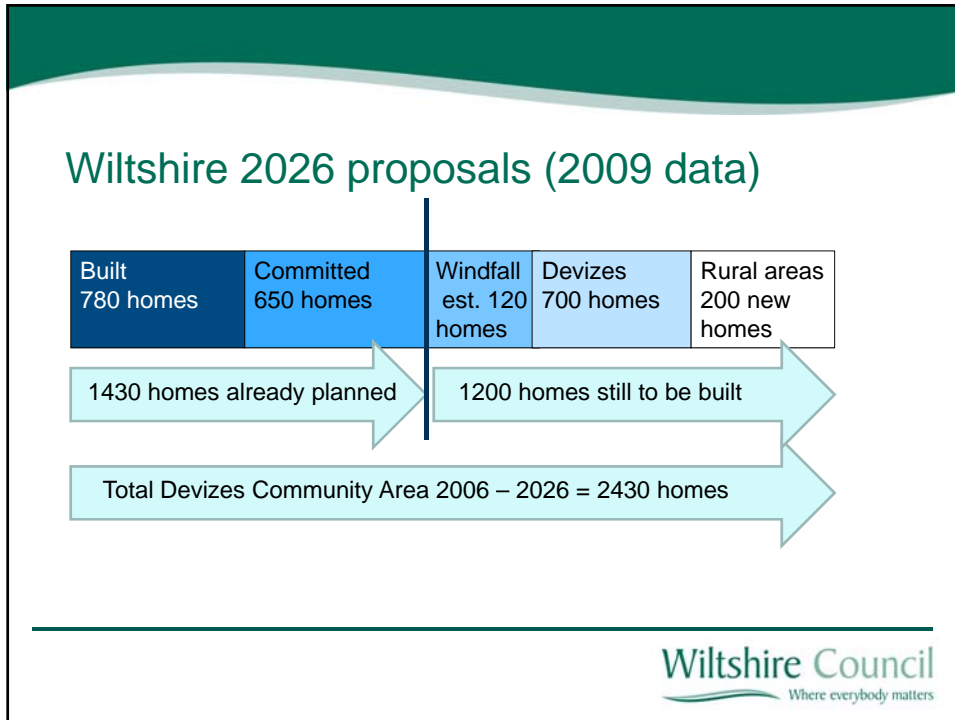

- Initial proposals in Wiltshire 2026 for Devizes Community Area
- Community responses to Wiltshire 2026 consultation
- Continuing work by Wiltshire Council
- What the evidence tells us about the challenges Devizes faces

Wiltshire Council
Where everybody matters

Wiltshire 2026 proposals

- 2400 homes 2006-2026
- 700 homes on sites in Devizes + new employment site
- 200 homes on sites in Great Cheverell, Market Lavington and West Lavington/Littleton Pannel which are suitable for modest levels of development
- Bromham and Potterne suitable for limited infill development.
- Elsewhere classed as villages in the countryside

Wiltshire Council
Where everybody matters

Issues raised during consultation on Wiltshire 2026

The main areas of concern were:

- The scale of new housing – too much or too little?
- The need to protect and promote a diverse employment base.
- Appropriate retail and tourism opportunities
- The future of the Wharf and Assize Courts
- Continuing traffic congestion
- The need for a clearer rural policy for the villages
- Supply of windfall sites

Wiltshire Council
Where everybody matters

What does the evidence tell us about the Devizes Community Area?

- In the last 10 years more homes have been built in Devizes than Chippenham or Salisbury
- Devizes has a strong employment base compared to other market towns in Wiltshire
- 57% of employed residents in Devizes are employed in Devizes.
- The highway network in Devizes is reaching capacity
- The population of the community area is ageing which will influence the type and nature of housing needed.

Wiltshire Council
Where everybody matters

Issues specific to the Devizes CA?

- Maintaining and enhancing the levels of people both living and working in Devizes.
- Protecting and promoting a diverse employment base
- The right level of housing growth for the Devizes Community Area given highway capacity.
- Develop a positive policy for the rural areas which allows villages to respond to local needs
- Do specific sites need to be identified in Devizes? Sites could be identified through an alternative document in the future or through a more detailed appraisal of windfall potential

Wiltshire Council
Where everybody matters

Proposed abolition of Regional Spatial Strategies - Wiltshire's response

Draft Regional Spatial Strategy required 44,400 dwellings for Wiltshire, including 6,000 for east Wiltshire

"Local Planning Authorities will be responsible for establishing the right level of local housing provision in their area, and identifying a long-term supply of housing land without the burden of regional targets"

(Eric Pickles, Secretary of State for Communities and Local Government)

Wiltshire Council
Where everybody matters

Why should we plan for new housing?

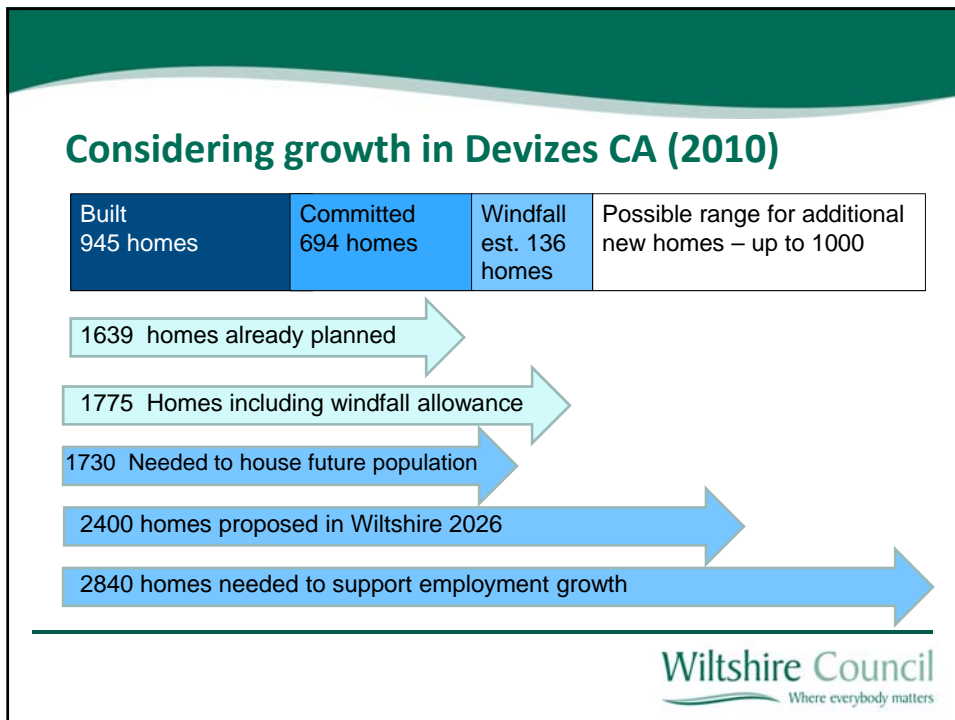

- Population growth and smaller household sizes
- The lack of access to both open market and affordable housing, coupled with an ageing population, could impact on the viability of the local economy
- The lack of appropriate housing can lead to increased commuting
- Increases disposable income in an area, supporting vitality of town
- Supply of affordable housing

Wiltshire Council
Where everybody matters

Reasons not to plan for new housing?

- Constraints on local infrastructure
- Limited opportunities on brownfield sites for housing
- Encroachment into countryside surrounding towns
- Environmental impact e.g. flood risk, landscape impact
- Impact upon built and environmental assets including the AONB
- Development often seen as a threat rather than an opportunity

Wiltshire Council
Where everybody matters

Scenarios for discussion : Devizes CA

In the period 2006 to 2026, for the Devizes Community Area:

- **1730** new homes needed to meet population led scenarios (both natural growth and projected patterns of migration)
- **0** new **dwellings**.
- **2400** new homes proposed in Wiltshire 2026 proposal
- up to **600 additional dwellings**
- **2840** new homes needed to provide population (economically active) to support employment growth in line with that across east Wiltshire
- up to **1000 additional dwellings**

Wiltshire Council
Where everybody matters

Developing an appropriate housing requirement for Wiltshire and Devizes Community Area

- The Wiltshire Core Strategy will come under scrutiny through the examination process
- Need to be sure proposals are robust and evidence based
- Important to find the right balance between the views of local communities, national policy objectives and responding to the evidence base
- Presumption in favour of sustainable development

Wiltshire Council
Where everybody matters

Thank you for listening

Any questions before we break into discussion groups on the emerging Core Strategy?

Wiltshire Council
Where everybody matters

Discussion Point 1

Are we considering the right issues within the Core Strategy for the Devizes Community Area?

Discussion Point 2

Is the level of growth of 2400 dwellings, over the plan period 2006-2026, for the Devizes Community Area still appropriate?

- Should the Devizes Community Area plan for a different level ?
- What factors should be taken into account in determining a different level of growth?

Wiltshire Council
Where everybody matters

Appendix 3 - Summary of comments at Localism meetings

APPENDIX 3 : Summary of comments at localism meetings, February to April 2011

Bradford-on-Avon St Margret's Hall, 6th April 2011

- A3.1 In Bradford-on-Avon Community Area concern was expressed about the delivery of infrastructure. The town already suffers from issues associated with traffic and transport, congestion, road safety, and pollution. The issue of out-commuting was also raised, and the feasibility of reducing this through development was questioned. It was suggested that development should be appropriately phased to ensure that the necessary infrastructure can be delivered, in order to address the identified issues, before any additional housing or employment development is built.

Calne Calne Town Hall, 5th April 2011

- A3.2 There is general support within the town for balanced and measured growth that is supported by the necessary infrastructure being in place at the appropriate stages of development and across the plan-period.
- A3.3 The impact of the closure of RAF Lyneham raises questions regarding the scale of growth to be accommodated in the towns in the vicinity of the base. The closure and potential re-use of the base is an important strategic consideration that will be addressed through the LDF process however Wiltshire Council should continue to ensure plan-led growth is achieved in Calne.

Chippenham Neeld Hall, 14th March 2011

- A3.4 From the Spring 2011 consultation event it is clear that the local community consider that brownfield land should be developed first before any greenfield sites. At the same time it was also recognised that there is a shortage of employment land available in the town.
- A3.5 The delivery of economic growth and employment opportunities is considered to be important and it was recognised that economic development can help to reduce out-commuting and provide greater opportunities for existing residents as well as making the town an attractive employment centre for young people and school leavers.
- A3.6 There was genuine concern, based on historic experiences of housing development being delivered without the necessary infrastructure to support such growth. Housing should not be provided in isolation, instead future development must ensure that infrastructure is embedded with development, in addition housing should be delivered to meet a variety of different needs, including key workers, young families and the elderly.
- A3.7 There was general support for Chippenham's future development to meet the natural demand for housing whilst also providing for employment growth with less support for providing for the future population. Any development must firstly take advantage of current PDL and only then look to appropriate Greenfield sites. In terms of the delivery of development in Chippenham it is clear that employment delivery must come forward in the short-term to help improve the self-containment of the town and to reduce out-commuting levels. Longer-term development should then be balanced to ensure there is a better balance between residents and job opportunities.

Corsham
Corsham Town Hall, 13th April 2011

- A3.8 The recent consultation events identified a number of issues that are considered relevant to new planned development. These included, the impact that the decreasing military presence will have, which will reduce the employment offer in the area, as well as the impact of development at the neighbouring settlement of Chippenham. Both of these are considered to have the potential to have negative impacts on the self-containment of Corsham, which already sees large out-commuting flows. In order to counter this, sufficient employment land should be delivered in conjunction with future housing delivery. There was also a desire to ensure that the rural areas could deliver to meet local needs, including the delivery of rural business.
- A3.9 A further concern was the lack of infrastructure associated with recent developments to the west of the town.

Devizes
Corn Exchange, 7th April 2011

- A3.10 The consultation event raised several issues, among which a need to provide opportunities for young residents, in terms of housing, employment and education provision was raised.
- A3.11 Similarly to other areas, there was a strong consensus that employment and infrastructure needs to be delivered before housing to ensure that the town is sustainable.
- A3.12 In Devizes the particular issues of traffic congestion, the road network and the consequential noise and air pollution that is created was raised several times. Discussions considered how opening up cross town routes could help relieve pressure on the radial routes. In relation to new development there was a view that housing growth should follow employment growth, and that the employment provided should add to the diversity and choice of employment in Devizes. (This could also help provide an opportunity to look at opportunities to improve the through flow of traffic before more housing.) Where development takes place the Council should make sure the money is spent on local community initiatives and not lost. There was little discussion of the 'right' scale of growth for Devizes Community Area. There remains concern about how the status of villages within the core strategy has been determined. There was a feeling that the nature of employment in the rural areas is changing and needs more support to introduce better IT and broadband to enable home working.

Marlborough
Marlborough Town Hall, 30th March 2011

- A3.13 It was felt that the level of development within the town, and the community area, must take due account of the communities significant environmental constraints including the AONB and the World Heritage Site.

Malmesbury
Malmesbury Secondary School, 22nd March 2011

- A3.14 Over the plan period the general consensus from the engagement exercise is that growth scenarios towards the lower end are considered to be appropriate and that this growth should come forward towards the end of the plan period given the current number of existing commitments. Economic development in the town is also considered to be a very important issue for the community area and to move away from a single large employer by expanding its employment base to protect the town from future economic uncertainty. On this basis

there was some agreement that slightly higher levels of growth could be provided within Malmesbury and the rural settlements to ensure that the economic base was maintained as well as making important key services such as schools viable and ensuring the delivery of affordable housing.

Melksham
Seend Community Centre, 12th April 2011

A3.15 A Localism Meeting was held in Seend on 12th April 2011, and this included discussion around proposals relating to Melksham to be included in the Wiltshire Core Strategy. It was concluded that those who attended the meeting supported employment development in Melksham, and broadly supported the proposals set out in Wiltshire 2026 to provide a total of around 2,040 homes in the Community Area over the plan period. There was a suggestion that employment development should be provided first, and that housing should come later.

Pewsey
Burbage Village Hall, 6th April 2011

A3.16 In Pewsey Community Area, the issue of infrastructure and employment delivery and its relationship to housing delivery was raised. It was felt that growth needs to be balanced to achieve sustainability.

A3.17 The issue of ensuring that housing delivery catered to the local community, especially in terms of affordable housing was noted. This related to creating an attractive environment to retain young persons.

A3.18 There was also recognition that some growth needed to be supported in the villages.

Tidworth and Ludgershall
Tidworth Community Centre, 11th April 2011

A3.19 The recent consultation highlighted that the community felt that connectivity and transport were very important and that development had to be led by employment. There was general feeling that housing had to be supported by genuine local employment otherwise the area would become a commuter area. Broadband connectivity was highlighted as a particular concern. Support for development was also highlighted as crucial with doctors, dentists and schools seen as fundamental to success. Concerns over the infrastructure of the specific sites included transport issues, sewage and water supply problems and the amount of affordable housing coming forward on the sites. It was also highlighted that the changes in military careers and the lifestyles of soldiers and their dependants is likely to have a great effect on the area.

Trowbridge
Bridge House, Stallard Street, Trowbridge, 24th March 2011

A3.20 At the recent consultation events, there was general agreement that growth is required in order to deliver the improvements to infrastructure which have been highlighted as lacking within the town and the wider community area. Concern was raised regarding the promised delivery of economic growth and whether or not this is achievable, although it was generally accepted that growth is a positive thing for the town. The delivery of vital infrastructure and improvements to the physical infrastructure is seen as crucial in order to ensure that Trowbridge develops which should take the form of town centre regeneration and better access to schools and other vital services and facilities. The delivery of jobs is an important aspiration within the community area and it was stressed that planners need to avoid simply delivering housing without the necessary growth in jobs and delivery of appropriate

infrastructure at the right stage in the development process. Growth was generally accepted in the community area as long as it is delivered in a sustainable manner and ensures the integration of jobs and homes.

Warminster
Corsley centre, 7th April 2011

- A3.21 There was recognition that additional employment is required, especially as an existing employment centre is closing. There was also support for encouraging the people of Warminster to work in the town. It was proposed that infrastructure and employment should be delivered first and act as trigger points to prevent developers front-loading housing development, without the required infrastructure.
- A3.22 There was general consensus that the figures are about right (**1,770** homes) especially if growth is linked to new jobs in the area, however some discussion was made as to whether the people present were qualified enough, or had enough information to make an informed decision. It was understood that we need housing figures in the Core Strategy now and that it is reasonable to base these figures on the assumptions outlined in the presentation.
- A3.23 There was some appetite for more accommodation in villages (particularly Corsley) but that this would need to be supported by additional employment opportunities in these areas. It is believed that this should be addressed through revisions within the settlement strategy.

Westbury
Laverton Hall, 12th April 2011

- A3.24 There was real concern about facilities moving from the town centre at the recent consultation event. In particular the GP is set to move to the outskirts and the library could follow suit. These losses are considered to affect the viability of the remainder of the town centre, which is in need of improvement. The transport linkages across the town and in particular to the railway station were also a cause for concern.
- A3.25 It was also noted that employment delivery is required prior to additional housing. Another point was that more housing should be directed to the villages outside of Westbury.

Wootton Bassett & Cricklade
Purton Village Hall, 4th April 2011

- A3.26 Given the proximity of the Wootton Bassett & Cricklade Community area to Swindon it is likely to be significantly affected by the long-term growth at the Borough. Equally the relationships that towns such as Wootton Bassett and Cricklade, as well as the rural areas of Purton and the Lydiards, have with Swindon will require careful planning. The targeted consultations recognise the dormitory role that Wootton Bassett has with Swindon and agree that increase the towns self-containment is an important part of the strategy for the long term development of the town. Furthermore growth in the town was generally accepted as a means to address the current imbalance between homes and jobs and to help to improve the self-containment of the town as well as providing the opportunity to deliver affordable housing.

(England) (Amendment) Regulations 2009
Notice of Intention to Consult on the Scope and Content
of the Draft Wiltshire Core Strategy Development Plan
Document (DPD)

WILTSHIRE CORE STRATEGY CONSULTATION DOCUMENT

Wiltshire Council is in the process of preparing the Wiltshire Core Strategy DPD and is consulting on the scope and content of the draft document. Once adopted, the Wiltshire Core Strategy will replace elements of the Wiltshire Structure Plan (2016) and the District Local Plans prepared by the former District Councils of North Wiltshire, West Wiltshire, Salisbury and Kennet.

The Wiltshire Core Strategy Consultation Document is a step towards preparing a core strategy for Wiltshire and includes:

- the key challenges and opportunities facing Wiltshire
- the vision and strategic objectives underpinning the development of the core strategy and the use of land within Wiltshire
- a spatial strategy and settlement hierarchy that clarifies the proposed level of new jobs and homes required in Wiltshire
- community area strategies for each community area in north and mid Wiltshire
- the council's general policies to support the plans environmental, social and economic objectives in relation to the development and use of land.

You are invited to make representations to us about what the Wiltshire Core Strategy ought to contain and the proposals in the Wiltshire Core Strategy Consultation Document. The consultation will last **8 weeks**, running from **Monday 13th June** until **Monday 8th August 2011**.

Public exhibitions are being arranged so you can find out and comment on what the document says about your area. The exhibitions, staffed by council officers, will be open between 2pm and 8pm with one taking place in each Community Area. The dates will be posted on the council's web site. (www.wiltshire.gov.uk/dfconsult)

To submit comments please complete the online representation form which can be downloaded at <http://consult.wiltshire.gov.uk/portal> or, you can complete a representation form and email it to: spatialplanningpolicy@wiltshire.gov.uk

Alternatively please send your representations to: Spatial Planning, Economy & Enterprise, Wiltshire Council, County Hall, Trowbridge BA14 8JN.

Representation Forms can also be obtained from Monday 13th June from Wiltshire Council offices in Trowbridge (Bradley Road and County Hall), Devizes (Browfort), Salisbury (27 - 29 Milford Street) and Chippenham (Monkton Park) and at all libraries across Wiltshire.

Please note the closing date for submitting your representations is 5pm on Monday 8 August 2011. Any representations made to us after this date may not be taken into consideration when preparing the Proposed Submission Draft Plan.

Cabinet Press Briefing May 19th 2011

Plans to encourage sustainable and vibrant communities

Creating jobs and encouraging strong and sustainable communities through appropriate development underpin proposals, which will go out to public consultation if Cabinet agrees when it meets on Tuesday (May 24).

Council leaders have asked to approve an additional stage of consultation on a document which would help form the draft Wiltshire Core Strategy (WCS) – a plan which sets out long-term planning and development aims and principals for the county.

The WCS consultation document details the amount of new employment land to support job growth and figures for new homes required over the next 15 years to ensure the county's community areas can grow in a way that meets the needs of local people.

If Cabinet agrees, people will be able to have their say on the document and the strategies and policies which will be used to help shape how Wiltshire will develop. People would be able to comment on the consultation document from June 13 until August 8 and the responses will be used to inform the draft WCS.

The WCS process was delayed following the government's announcement of its intention to revoke regional spatial strategies – binding housing targets set by government. As a result of the announcement, Cabinet decided that Wiltshire's housing requirement should be reviewed.

This has now been carried out and consequently the consultation document includes a reduction in the number of homes required in Wiltshire from the government target of 44,400 new homes to the council's assessment of 37,010 over the next 15 years to be consulted on. Approximately half of the homes required have already been completed or are in the process of being developed.

The need to strengthen communities and make sure jobs, services and homes are developed in a balanced way underlines the council's approach. Communities should be as resilient and sustainable as possible so people have to rely less on travelling out of their communities to access services and jobs.

Cabinet member with responsibility for economic regeneration, Fleur de Rhe-Phillipe said: "We want the public to help us make sure communities across Wiltshire are able to flourish – this means growth both in terms of creating jobs and building homes but in a controlled and appropriate way. If Cabinet agrees to the council's approach then communities really do have the opportunity to have their say and make development work for them."

Notes to editors:

For more information contact the communications team on 01225 713664/713116.

The Wiltshire Core Strategy, when adopted, will provide the up-to-date strategic planning policy for Wiltshire and ensure Wiltshire develops in the most sustainable way. The South Wiltshire Core

Strategy, which is progressing ahead of the Wiltshire Core Strategy, will be subsumed into the emerging Wiltshire Core Strategy to ensure delivery of a single Core Strategy for Wiltshire.

Consultation was completed on 'Wiltshire 2026 - Planning for the future of Wiltshire' January 2010, with the outcomes reported to Cabinet on April 20 2010. Wiltshire 2026 formed the first stage in the development of a Wiltshire-wide Core Strategy. The document was based on the community areas outside of south Wiltshire, alongside an overarching spatial strategy for Wiltshire as a whole. Wiltshire 2026 enabled the council to identify with the local communities what the issues, opportunities and challenges are in planning for jobs and homes in each community area. The number of jobs and homes to be planned for within the document were based on the latest version of the Draft Regional Spatial Strategy for the South West (draft RSS).

Since then, the Government announced its intention to revoke Regional Spatial Strategies. As a result, on October 19 2010 Cabinet agreed that a comprehensive review of Wiltshire's strategic housing requirement be undertaken as part of the Core Strategy process. The outcome of the Wiltshire 2026 consultation, together with this review, has informed the development of policies and proposals for the emerging Core Strategy.

The review of the strategic requirement for jobs and homes for South Wiltshire was reported to Full Council on February 22 2011. This informed the approved changes to the level of jobs and homes within South Wiltshire (9,900 new homes and 10,400 jobs over the period 2006 to 2026) submitted to the Inspector examining the draft South Wiltshire Core Strategy. Consultation is being undertaken on these and related changes, which ends on May 27 2011. The Inspector has indicated his intention to reopen the examination formal hearing sessions during August 2011.

During March and April 2011, meetings hosted by Community Area Boards outside of South Wiltshire took place to help shape proposals for these Community Areas. At these meetings, officers were able to test their understanding of the issues relating to the provision of jobs and homes in each Community Area, using what was learnt from Wiltshire 2026 as the basis of discussion, to help determine how development could better support the sustainability of local communities. Officers have also continued to develop evidence to support the emerging Core Strategy through discussions with other key stakeholders (e.g. Environmental Alliance, Wiltshire Strategic Economic Partnership, English Heritage and Natural England).

Following the consultation, there will be the need to move forward with the preparation of a sound draft Core Strategy for Wiltshire (subsuming relevant policies and proposals from the South Wiltshire Core Strategy), to meet the Council's published timetable of bringing the pre-submission consultation draft Wiltshire Core Strategy to Cabinet November 2011.

Once the consultation has closed, all responses will be made available for viewing on the Council's website as soon as possible. The response together with new evidence will be used to inform the development of the draft Wiltshire Core Strategy, which following Cabinet approval, can then proceed to its final stage of formal public consultation before being submitted for examination.

Appendix 6 - Bradford on Avon cake sales

APPENDIX 6, Wiltshire Core Strategy Consultation Document SCI Part 1

Consultation to inform the Wiltshire Core Strategy June 2011: Bradford on Avon cake sales

Spatial planning officers attended two cake sales at Bradford on Avon primary schools to publicise the consultation amongst parents. This was a pilot set up in response to a suggestion by Cllr Hewson (Bradford on Avon Area Board Chair).

The following materials were available:

- flyers with details of forthcoming consultation events in the west Wiltshire area, and web address/contact details to find out further information
- information pack showing the proposed overall spatial strategy and delivery strategy across Wiltshire
- A3 maps of the community area and the proposed strategic site
- sign-up sheet for people who wanted to be added to the consultation database.

At the Christ Church event a print out was also available of the Bradford on Avon Community Area Strategy (an extract from the Consultation Document).

Fitzmaurice Primary School cake sale: Friday 10 June 2011

There was not much interest at first, but much more interest following an announcement from Cllr Hewson. Peter Dunford (Community Area Manager) directed people to the table from the entrance. There was positive feedback about the fact that officers were available at the cake sale, as a way of informing parents about the consultation. Three people provided email addresses for future updates.

Comments about the proposals

- Bradford on Avon needs workshops for people to work from (e.g. carpenters). These could be provided at the strategic site: they should be big enough to form a proper workplace and should be purpose built. In the past workspace has been lost to residential development. The workshops should form part of a mixed-use development, which could include a leisure aspect as well. The workshops could generate a hub for local workers.
- Traffic is a big issue in Bradford on Avon: this is particularly dangerous for children.
- Strongly against 150 new homes being provided. Bradford on Avon is already too big, and the schools are too small to accommodate more children.
- A new school is needed.
- Development should be more balanced across the community area, with more homes being directed towards the villages (and less of a focus on Bradford on Avon).

- Traffic is the big issue in Bradford on Avon.
- A bypass is needed.
- A new supermarket is needed.
- Concern that development shouldn't be permitted on existing open spaces within the town (e.g. playing fields near Fitzmaurice School).
- Concern that employment space and infrastructure will not actually be delivered alongside housing, even if this is what is in the plan.
- Some support expressed for the proposed strategic site, and agreement that development should not be provided at the Golf Course.

Christ Church Primary School cake sale: Friday 17 June 2011

There was a good level of interest, with a steady flow of people visiting the table. Peter Dunford and Cllr Hewson both directed people to the table. Eight people provided email addresses for future updates. This event lasted longer than the Fitzmaurice cake sale (around 70 minutes, as compared with around 40 minutes). School plays were taking place on the same day, which may have led to increased attendance levels.

Comments about the proposals

- Development at Kingston Farm sounds a good idea as long as we are not building on any parks.
- Public access to the river (through the Kingston Farm land) would be good, as this is not currently accessible.
- Question about how many jobs the development would create.
- Question about implications for Christ Church School.
- Question about detailed design of development.
- Overall the proposal seems logical, but there are issues with traffic in the town, school places will be needed, and the B3107 is currently very narrow.
- Bradford on Avon is growing too much – where will it stop?
- Approximately half of the development land will be used for housing (assuming 3 hectares for employment, and excluding area indicated for green space) – this proportion is too high. There is a need for more commercial units.
- Question about density of housing.
- Access to the river would be good, but is blocked by the railway.
- Concern that 40% affordable housing is too high.
- Existing trees on the Moulton Estate should be protected.
- Proposals would lead to more traffic through town, and along the B3109 to access the Bath Road.
- Is more housing needed?
- How would schools be expanded? Where would they be expanded?
- New residents are likely to look to Christ Church School for school places.

- Schools/GPs – will need to build extensions to these – just requiring money from developers is not enough; need to consider how the schools/GPs will expand.
- How will GP surgeries expand?
- A road link/bypass crossing the Moulton Estate land and crossing the river and railway would be very useful to alleviate traffic in the town centre. Development at the site could help to fund this.
- Bradford needs a bypass.
- Traffic over the town bridge needs to be sorted out.

Actions following the cake sales (Fitzmaurice and Christ Church)

A number of the comments received related to highways/transport issues (e.g. traffic in the town centre, suggestions for a bypass). It would therefore be useful for a highways/transport officer to be available at the exhibition on 28 June.

There were also a number of comments received about the need to expand schools and GP surgeries. It would be useful to obtain a briefing on any available details relating to potential expansion of schools/GP surgeries before the exhibition on 28 June.

A total of 11 people provided email addresses for future updates. The 11 people have all been added to the consultation database, and have been sent an e-mail with details of the consultation and the exhibition on 28 June.

The comments received will be considered alongside other feedback received during the consultation period, to help inform the preparation of the Submission Draft Core Strategy.

Appendix 7 - Wiltshire Assembly and library display

Wiltshire Core Strategy

This is your opportunity to express your views about how your community and Wiltshire should develop in the years to 2026.

Wiltshire needs a clear vision to guide and influence future development in the most sustainable manner.

The planning policy document to deliver this is known as a core strategy.

The purpose of this consultation is to seek your views on the Wiltshire Core Strategy consultation document. In particular:

- the issues covered in the consultation document
- employment land to deliver jobs and homes needed in Wiltshire 2006-2026
- a strategy for Wiltshire to deliver growth and ensure sustainable development takes place
- specific proposals on the nature and scale of growth appropriate for each community area and at main settlements
- general policies to support the plan's environmental, social and economic objectives.

Your opinions could make the difference.

The consultation document is supported by an interim sustainability appraisal, a Habitats Regulations Assessment and a series of draft topic papers all available on the council's web site (www.wiltshire.gov.uk/wcsconsult2011).

Wiltshire Core Strategy Consultation Document

The Wiltshire Core Strategy Consultation Document contains:

Introduction

Clarifies the role of and approach to the core strategy

What is Wiltshire like and where does Wiltshire want to be?

Sets out the key challenges, principles, vision and strategic objectives underpinning the emerging core strategy

Delivering the vision for Wiltshire

Proposes the level of new jobs and homes required and the role of settlements and explains how infrastructure to support development will be provided

Community Area Strategies

Sets out proposals for individual community areas outside south Wiltshire and the key issues to be addressed in those communities

Delivering strategic objectives

Policies to shape and manage development

The document pulls together responses to the Wiltshire 2026 consultation (2009/10), recent meetings in each community area about levels of growth in Wiltshire and emerging proposals to change the planning system (2011) and ongoing dialogue with Wiltshire's many partners.

Note

The community area strategies for south Wiltshire (Salisbury, Amesbury, Wilton, southern Wiltshire, Tisbury and Mere) are within the South Wiltshire Core Strategy proposed submission draft which is at a more advanced stage. These community area strategies will be subsumed into the Wiltshire Core Strategy at an appropriate time.

Wiltshire's community areas

A proposed spatial strategy for Wiltshire

The spatial strategy promotes the most sustainable pattern of development based on an assessment of the role of places and considers the appropriate level of development in those places as follow:

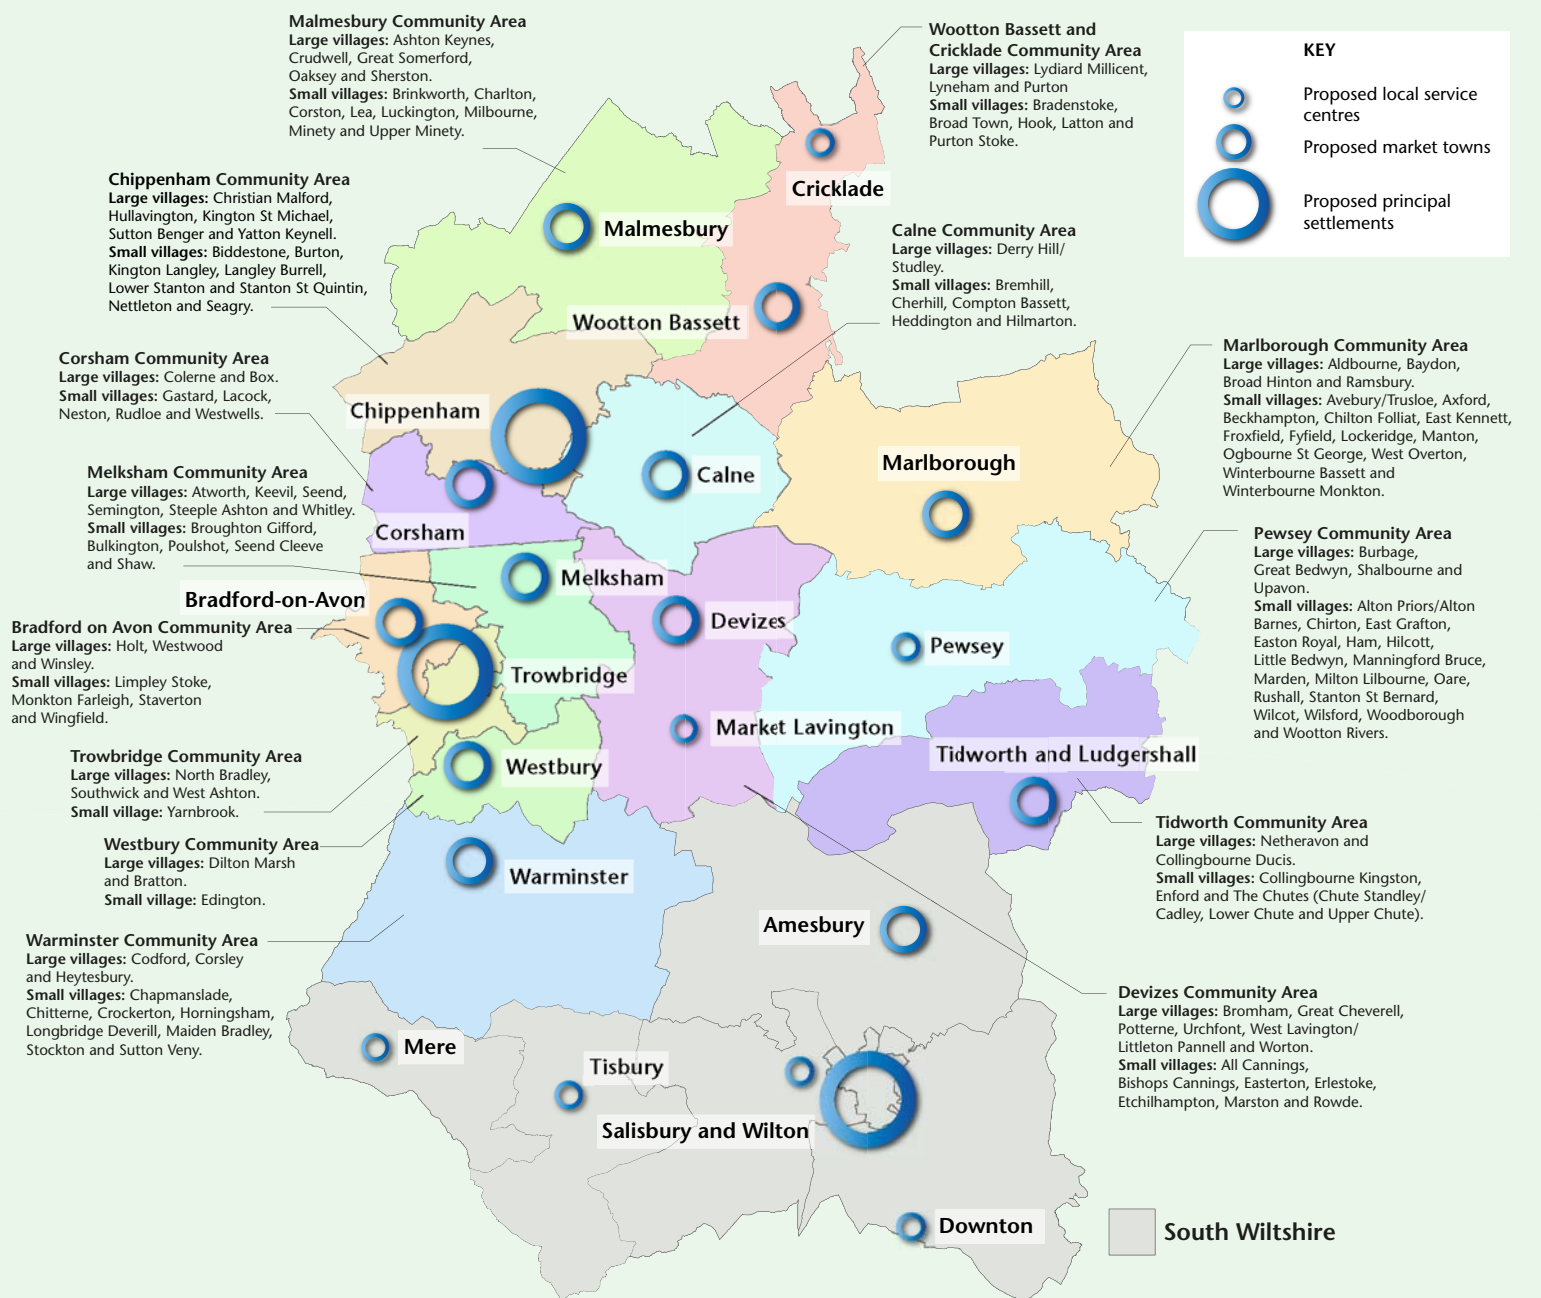

Principal settlements – strategically important centres and the primary focus for development.

Market towns – the focus for locally significant development.

Local service centres – modest levels of development acceptable to safeguard their role within the rural area.

Large villages – small sites acceptable primarily within existing settlement boundaries to reflect the level of jobs and services available.

Small villages – only limited infill allowed to reflect very limited jobs and services available. Settlement boundaries to be removed.

**Do you agree with the proposed settlement strategy summarised above?
 Are there any changes that you would suggest?**

The delivery strategy 1

The delivery strategy sets out the level of new employment land and homes proposed to be delivered over the period 2006 to 2026 in a way that maximises benefits from development whilst minimising environmental and social impacts.

It proposes 175 to 182 hectares of new employment land and 37,000 new homes be delivered. A significant number of homes are already planned for, as follows:

Number of dwellings (net)

	Proposed housing requirement (a)	Completions 2006 to 2010 (b)	Deliverable commitments at 2010 (already planned) (c)	Residual requirement 2010 - 2026 (to be planned) = (a) - [(b) + (c)]
South Wiltshire	9,900	1,785	1,585	6,530
Wiltshire (excl. South Wiltshire)	27,100	6,585	7,285	13,230
Wiltshire total	37,000	8,370	8,870	19,760

The delivery strategy also proposes to:

- phase development to manage the supply of homes to ensure it is better aligned to the delivery of job growth and infrastructure, to help redress imbalance between jobs and homes and to address out-commuting
- make the best use of previously developed land to support regeneration opportunities, in particular the central areas of Chippenham, Trowbridge and Salisbury
- focus employment land on settlements with economic potential to ensure Wiltshire's economic prosperity
- deliver 11,000 affordable homes
- release non strategic allocations through community led neighbourhood plans or other development plan documents to deliver levels of development proposed.

The delivery strategy 2

Summarised below are the total proposed level of housing and employment land for each community area. The consultation document identifies what proportion of these figures relate to the principal settlements and market towns.

*'Still to be identified' - relates to the number of new homes left to be provided once dwellings built since 2006, deliverable sites with planning permission (including sites subject to completion of legal agreements) or outstanding local plan sites and new proposed strategic site allocations have been taken off. It is proposed that the residual number of homes could be brought forward as windfall sites or subsequent site allocations.

**Do you agree with the proposed delivery strategy summarised above?
 Are there any changes that you would suggest?**

Delivering strategic objectives

It is important that the policies to deliver the overall strategy of the plan are supported by other policies to manage and shape development. These are listed below and will apply to the whole of Wiltshire.

To deliver a thriving economy that provides a range of job opportunities

- CP21 Additional employment land
- CP22 Existing employment sites
- CP23 Economic regeneration
- CP24 Re-use of military establishments
- CP25 Rural diversification and enterprise

To address climate change

- CP26 Sustainable construction and low carbon energy
- CP27 Stand-alone renewable energy installations

To provide everyone with access to a decent, affordable home

- CP28 Providing affordable homes
- CP29 Meeting housing needs
- CP30 Lifetime homes standards
- CP31 Meeting the needs of Gypsies and Travellers

To help build resilient communities

- CP32 Protection of services and community facilities

To protect and enhance the natural environment

- CP33 Biodiversity and geodiversity
- CP34 Landscape
- CP35/36 Green infrastructure/development Management policy

To safeguard and promote a high quality built and historic environment

- CP37 High quality design and place shaping
- CP38 Protection of the historic environment
- CP39 Housing density
- CP40 Stonehenge and Avebury

To enhance the vitality and viability of town centres

- CP41 Retail and leisure

To promote sustainable forms of transport

- CP42 Sustainable transport
- CP43 Transport and development
- CP44 Development impacts on the highway network
- CP45 Transport strategies
- CP46 Demand management
- CP47 Movement of goods
- CP48 Strategic transport network

To minimise the risk of flooding and ensure effective water management

- CP49 Flood risk
- CP50 Water efficiency and the River Avon Special Area of Conservation
- CP51 Pollution and phosphate levels in the water environment

**Do the policy areas summarised above cover the right subjects?
Are there any other subject areas that need to be considered?**

How to find out more

The consultation lasts until 5pm on 8 August 2011. All documents are available on the council's web www.wiltshire.gov.uk/wcsconsult2011 or can be viewed in the council's offices in Chippenham (Monkton Park), Devizes (Browfort), Salisbury (Milford Street) and Trowbridge (County Hall and Bradley Road) as well as all local libraries.

You can also get involved by visiting a more detailed exhibition between 2pm and 8pm at the following venues:

24 June	Paragon Hall, Westbury
28 June	St Margarets Hall, Bradford on Avon
29 June	Marlborough Town Hall, Marlborough
29 June	Guildhall, Salisbury
4 July	Town Hall, Corsham
5 July	Bouverie Hall, Pewsey
5 July	Assembly Hall, Melksham
6 July	Neeld Hall, Chippenham
7 July	Antrobus House, Amesbury
11 July	Ceres Hall, Corn Exchange, Devizes
12 July	Nadder Hall, Tisbury
13 July	Bridge House, Trowbridge
13 July	Village Hall, Lacock
14 July	Memorial Hall, Downton
14 July	Library, Warminster (2-7pm)
15 July	Town Hall, Calne
18 July	Town Hall, Malmesbury
18 July	Library, Wootton Bassett
20 July	Memorial Hall, Ludgershall

Comments can be submitted:

- online at <http://consult.wiltshire.gov.uk/portal>
- by email to spatialplanningpolicy@wiltshire.gov.uk
- in writing to Spatial Planning, Economy and Enterprise, Wiltshire Council, County Hall, Bythesea Road, Trowbridge, Wiltshire. BA14 8JN

All comments received during this consultation will be used to develop the draft Wiltshire core strategy.

More information about the South Wiltshire Core Strategy is available at:

<http://www.wiltshire.gov.uk/planninganddevelopment/planningpolicy/southwiltshirecorestrategy.htm>

Parish newsletter

June 2011

This month, amongst other things we're talking about the local development framework the cost of highways work in Wiltshire and new self service machines in libraries.

Wiltshire Council local development framework

Wiltshire residents are being asked to comment on two plans out for public consultation this summer. The first outlines the number of jobs and homes needed in Wiltshire over the next 15 years and the second makes proposals for the location of new waste management facilities across Wiltshire and Swindon. The two consultation documents which will be made public on 13 June are:

- The Wiltshire Core Strategy consultation document, and
- The Wiltshire and Swindon Waste Site Allocations Development Plan Document (DPD)

Public exhibitions are being arranged so you can find out and comment on what both documents say about your area. The exhibitions, staffed by council officers, will be open between 2pm and 8pm with one taking place in each community area. The [dates confirmed so far](#) are listed on the council website. Additional dates will be posted on the council's [consultation portal](#) as soon as they are available.

The consultation is open from **13 June until 8 August 2011**. Wiltshire Council encourages anyone wishing to view and comment on the consultation documents to use the council's [consultation portal](#).

Alternatively hard copies of the documents can be viewed in the council's offices in Chippenham (Monkton Park), Devizes (Browfort), Salisbury (Milford Street) and Trowbridge (County Hall and Bradley Road) as well as all local libraries.

For further information on the Wiltshire Core Strategy consultation document please telephone 01225 713489 or email: spatialplanningpolicy@wiltshire.gov.uk.

For further information on the Wiltshire and Swindon Waste Site Allocations DPD please telephone 01225 713429 or email: mineralsandwastepolicy@wiltshire.gov.uk.

Appendix 10 – Comments recorded at exhibitions

APPENDIX 10: Summary of comments received at consultation events, summer 2011

Bradford on Avon exhibition –

2 – 8 pm, 28 June 2011 at St Margaret’s Hall

Attendance

43 people were counted as visiting the exhibition throughout the day.

Comments received on post-it notes

1. Car parking saturated in Bradford on Avon. Need north side car park.
 - a) To reduce car parking problem.
 - b) To reduce cars across the bridge.
2. Access to any future development on Moulton land should be shared with new access to Kingston Mill.

[These comments have been passed on to the sustainable transport team].

Comments received during conversation

- Lorries using the town bridge are a problem – should have signage earlier, before they reach the bridge, and should also enforce the weight limit. [These comments have been passed on to the sustainable transport team].
- Concern about more housing – development at Kingston Mills will increase traffic.
- Should provide employment space.
- Concerns regarding the future of Treenwood Industrial Estate and land to the rear of Sainsburys. Worry that Sainsburys will be allowed to expand (again) and thereby detract from the town centre offer.
- An owner of land near the previous route proposed for the Melksham Canal Link expressed concerns that the new route will mean that development of their land is not so favourable. Asked for contact details of decision makers. [Supplied development management contact].
- Parking is a real issue, especially for the doctor’s surgery. [This comment has been passed on to the sustainable transport team].
- Park and ride scheme suggested. [This comment has been passed on to the sustainable transport team].
- Happy with development at Kingston Farm.
- Holt – feel policies support what want to achieve in Holt. Pleased to see policies on sustainable transport, carbon reduction and affordable housing. Feel Wiltshire Council is very good at consultation. Feel much more involved than with previous regime. No longer ‘done to’.
- Traffic – concerned about impact of major growth in Trowbridge – will cars pass through Bradford on Avon to Bath. Why not direct south to A36? [These comments have been passed on to the sustainable transport team].

- Traffic – concerned that there is no prospect of a by-pass for Bradford on Avon, cannot understand how anyone local could oppose a bypass. Feels it is necessary to allow for any growth. [These comments have been passed on to the sustainable transport team].
- Traffic – addressing this should be a number one priority, above everything else. Need to stop lorries from reaching the town bridge in the first place. [These comments have been passed on to the sustainable transport team].
- Large amount of development planned at Trowbridge – need to consider the impacts of this on Bradford on Avon.
- Too much information presented – how do you expect people to take it all in? Too many consultations.
- Len Turner: employment at Kingston Farm site – would be better if this were located at the town end, near the existing employment sites (rather than at the eastern end of the site).
- Should be more grants to help people install renewable energy – e.g. solar panels on roofs and small wind turbines. A lot of older people are keen to do this but no help is available – even a small grant would encourage this. [These comments have been passed on to the climate change team].
- Railway noise would affect homes at Kingston Farm (as the railway line is located to the south of the site). However, the proposed green space may help to buffer this.
- Peter Dunford: concern that the Trowbridge town map (on the first Trowbridge poster) does not clearly show that Staverton is in the Bradford on Avon Community Area.
- The employment land should not have parking spaces – bicycles should be provided instead. If the employment is really for local people then they can commute to work by bicycle.
- Need a strong policy on renewable energy development, which identifies broadly the types of location which would be suitable (e.g. solar PV on industrial estates, not on Green Belt land as has been permitted at Kingston Farm).
- Concern from Woolley residents about proposals for development to the north of Holt Road.
- Conversation about planning benefits of development i.e. Section 106.
- Questions about how the housing numbers were formulated.

Calne Community Area Exhibition –

2-8pm, 15th July 2011, Calne Town Hall

Attendance: 22

Summary of comments:

Residents in Calne Community Area need to be made aware of any potential expansion east of Chippenham. The developers promoting land east of Chippenham are circulating a leaflet promoting development of the area.

The type of employment that is allowed in the town is important – we don't want big warehouses. Further detail is needed on type of employment.

A couple of comments asked where new development will be going. It was explained that a strategic site is not currently proposed in Calne and that small site allocations will be identified through either a site allocations development plan document or a neighbourhood plan.

Chippenham Community Area Exhibition –

2-8pm, 6 July 2011

Attendance: 138

Summary of comments

Some support for the proposals. Certain groups continued to oppose the proposals, maintaining the view that Chippenham doesn't need to grow.

Key issue mentioned by many people was traffic; connectivity around the town; perceived congestion hot spots and where the new roads will be.

M4 Junction 17, Lyneham and Hullavington were suggested as better alternatives to the Chippenham proposals.

Recognition that the town centre and the variety of shops needs improving.

Views expressed that there has been housing development in the past, which do not have any facilities. E.g. Cepen Park; Pewsham.

It was commented that Abbeyfield School is located some distance from the proposed sites. This will exacerbate issues with travelling to school.

Corsham Community Area Exhibition –

2-8pm, 4th July 2011, Corsham Town Hall

Attendance: 46

Summary of comments

Proposed southern expansion of Chippenham was chosen because it was the line of least resistance not the right choice from a planning point of view. Corsham and Lacock parish residents were not invited to take part in the discussions that led to this choice and so were not able to put forward their views.

Chippenham area of growth should be cross referenced in Corsham CA strategy.

Showell farm was dismissed previously when the owners tried to develop contrary to the then local plan. What has changed to make it suitable now?

There are listed buildings within the Showell Farm site that need to be protected.

General acceptance that redundant MoD sites in Corsham need to be planned for but no clear view on future use although one or two people seemed to assume it would be housing.

Pleased that no new greenfield allocations proposed.

Want to see development support the town centre.

There were concerns about some of the notations shown on map on edges of Corsham. Are these accurate?

Strategy needs to reflect type of industry attracted to Corsham because of MoD technology and the impact of Bath University's presence on the development of art and craft industries in Corsham.

How do we get approved employment sites occupied?

No real objection expressed to the overall number of houses proposed for the Community Area and Corsham. Some people thought it was misleading not to show the Chippenham proposals that fall within the community area in the figures.

The view was expressed by a number of people that Corsham's railway station should be reopened and that part-funding could come from Wiltshire Council. Negotiations have taken place over a number of years but no plans have been finalised.

Felt that the remaining housing figure to be identified should be easy to accommodate on brownfield sites and that Corsham could accommodate a larger amount of housing to increase self-containment and improve local services/facilities.

Cricklade Town Council Exhibition –

2-7pm, 21st July 2011, Cricklade Town Council offices

Attendance: 10 between 2-5pm when officers in attendance. Local members available between 5pm and 7pm

Summary of comments:

A rural buffer should be identified to protect towns and villages in the area being encompassed by the expansion of Swindon.

There is a lack of recognition of the flood issues that Cricklade experiences.

The Thames Path should be referred in the document.

Some increased housing growth in Cricklade would enable local young people to stay in the town.

There is not enough recognition of the town of Cricklade.

Devizes Community Area Exhibition – 2-8pm, 11th July 2011, Corn Exchange Devizes

Attendance: 172

Record of comments

How can we be proposing additional houses in Devizes given the level of traffic congestion if we have no proposals to alleviate that congestion?

How did we arrive at the number of homes proposed? People wanted to understand the process leading up to proposed levels explaining in the core strategy itself.

There have been enough houses built in Devizes in the past few years - we don't need any more. This was raised repeatedly.

Support for a neighbourhood plan/town plan to look at windfall and brownfield opportunities within the existing boundaries of the town.

The council should not build anymore homes until air quality issues in Devizes caused by congestion have been addressed. This was raised repeatedly.

The council should not be proposing any more houses until the Devizes traffic model has been revised and updated to give a truer picture of traffic issues in the town. Only then can we start to discuss the appropriate number of houses for Devizes in the light of that information.

There was support for the neighbourhood plan process in Market Lavington and some discussion around combining parishes to have a plan for the Lavingtons rather than individual areas as the villages here support each other and coalescence may become an issue.

The statement for Devizes should recognise local ambitions for a railway station possibly at Lydeaway.

The strategy for Devizes needs to recognise important green spaces in the town. There is a risk that these spaces will be eroded by development and affect the character of the town.

There was support for employment led development but people wanted to see more in the strategy about the quality of the proposed employment site, the type of uses suitable, more about how access to the site will be accommodated and more on how existing residential amenity will be protected.

How is Lyneham being developed and why is it not on this map?

Police headquarters land to be designated as public open space. This will address the shortage of such area at the northern end of town.

The town of Devizes is the community centre but it is important to note that surrounding villages have historic/heritage sites that are no less important than the town conservation are marked on the display map. This needs reviewing in the context of CP37-CP39.

There is already a flooding problem at Whistley, Potterne. Is there any risk the proposed changes to the Potterne Sewage treatments may conflict with policy CP49?

Given that the changes to the Potterne STW is part of the strategic planning for the area is there a mechanism to inform nearby residents of the proposed plans for the works? Ie on Whistley Road, Potterne.

Lacock Parish Council Exhibition –

2-7pm, 14th July 2011, Lacock village hall

Attendance: 140

Record of comments

Proposed southern expansion of Chippenham was chosen because it was the line of least resistance not the right choice from a planning point of view. Corsham and Lacock parish residents were not invited to take part in the discussions that led to this choice and so were not able to put forward their views.

Rat running through Lacock is coming from Melksham and Chippenham as people try to avoid congestion in Melksham. A new traffic lights junctions with the A350 would help.

Lacock in a position that proposals in Melksham, Chippenham and Corsham likely to affect traffic in and around the village.

Chippenham area of growth should be cross referenced in Corsham CA strategy.

Southern extension of Chippenham is coming too close to Lacock.

Why does the core strategy only plan to 2026. Where is the longer term plan if as we say Chippenham is a sustainable market town that will see significant growth in each plan period? Planning for a much longer period can provide more certainty to residents.

How can the historic setting of Lacock be protected? Is it possible to have policies similar to landscape setting of towns or landscape setting of World Heritage sites for Lacock?

Showell farm was dismissed previously when the owners tried to develop contrary to the then local plan. What has changed to make it suitable now?

Is Showell farm truly deliverable?

What type of employment is likely to be encouraged at Showell Farm?

Is the whole of the site area identified at Showell Farm to be developed?

There are listed buildings within the Showell Farm site that need to be protected.

Why are we not considering Thingley junction (think this is the name) instead of Showell Farm?

A view expressed that the southern extension of Chippenham should not jump the railway line as this is a clear physical boundary and should be reinforced as such by any development. Once the railway is breached where do you stop?

Lacock Public Meeting 14 July 2011, 7-9pm

Chairman: Cllr Dick Tonge

Officers: Alistair Cunningham; Georgina Clampitt-Dix

Alistair Cunningham gave a presentation.

The chairman then invited members of the audience to make comments.

- Can you give reassurance that in other land won't be built on in future (e.g. Lackham between Chippenham and Lacock)?
- Chippenham growth has happened in the past e.g. Cepen Park. The town has died, due to out-of-town shopping and outcommuting. It will become another Swindon.

Response: What you say this evening becomes part of the evidence. We are here to listen. We have been listening since 2009 consultation. Lower housing numbers now proposed. Evidence based. This is available. Phasing proposed. Strategy is about jobs; facilities that communities need and then housing. This has been the message from Cabinet. If the number is too low, then Chippenham is susceptible to speculative planning applications. We believe the proposed number is defensible. If we say there should be no development, it wouldn't stop development happening.

- Lacock has been here for 1000+years. It shouldn't be sacrificed for short term economic growth.

Response: Agree; This needs to be backed up with evidence. Developers will use the same evidence too. Urban boundaries don't recognise Community Area boundaries. There will be constraints, to which regard is had.

- Housing Projections – Attended workshop in March at which concerns were expressed about having more housing in Chippenham and that this won't improve the town. Despite the reduction from the RSS figures, growth is still being promoted. Other authorities aren't doing this e.g. Swindon.

Response: Wiltshire has challenged Swindon and BANES. Our approach has been to prepare different scenarios for the Chippenham community area. These have been

subject to consultation. As a result the 'jobs scenario' was opted for. This has lower housing numbers than what we could have done. Wiltshire Cabinet members agreed with this approach. We can't prove the town will be supported, but one of the aims we want to achieve is an improved town centre. There is a key question in the Core Strategy about this. Chippenham is suffering now in comparison with Bath and Swindon.

- People will still shop elsewhere.
- Parking charges recently increased.
- Have you walked from the area to Chippenham? How far is it? Majority of people wouldn't be able to walk/cycle to Chippenham.
- Past Planning Policy History for site quoted:
 - 1999 Public Inquiry
 - December 2002 – Land excluded from development by NWDC
 - 2005 – Nathaniel Lichfield commented on Showell Farm being outside the framework boundary.

Showell Farm is an 'island in the middle of the countryside'. How have things changed?

Response: We recognise the historical context. Our approach has changed. The North Wilts Local Plan focussed on brownfield land. For the Core Strategy, all the issues have been revisited. There is not enough brownfield land. We have recognised constraints including landscape in coming to the options.

- Hermann Miller interested in the site. This will be large scale industrial sheds. How will these be landscaped?
- Why are you considering new land before completing sites you already have?

Response: Showell Farm could be taken up by companies who can't expand on existing sites. We have allowed for 585 dwellings on brownfield sites, including on existing employment sites. Also, employers want to move to Chippenham.

- Traffic Modelling for Chippenham - What will happen if Hermann Miller move to Showell?

Response: We will have to undertake traffic modelling for all the options. If modelling raised issues, it may have implications for the options.

- What about Lyneham? People want development to go there.

Response: Lyneham isn't available now. There are 2 military options still on the table. Cllr Jane Scott has been pressing for an answer. However, Lyneham won't meet needs of Swindon or for Chippenham. If business moves from Chippenham, then Chippenham dies.

- There are lots of sites to let.

Response: Sites aren't suitable.

- Other sites have the advantage of being in proximity to M4 and the railline. How does this site fit, as it furthest from the rail and M4?

Response: We have looked for alternatives. There aren't any available alternative sites. A site at Junction 17, M4 wouldn't meet the needs of Chippenham. Showell Farm in conjunction with housing and infrastructure, that will support the town. Chippenham is a sustainable settlement. Plans need to stack up and need to be deliverable.

- 2 schools are oversubscribed. 1500 children will go across the town to Abbeyfield School. It is a difficult route.

Response: This is an issue which we need to consider and address. This has been raised already. Young People during consultation gave the counter argument. We need to give it proper consideration.

- Other traffic will be generated and will create more issues in the town centre.

Response: This needs more work, which will be done and then presented to Cabinet. Every option has compromises.

- Melksham proposals will have bigger impact on Lacock than Chippenham. Traffic uses the backroads through Lacock. Is a rat run in the rush-hours. Is a bypass for Melksham being considered?

Response: These points need to be considered.

- Has water engineering modelling been carried out?

Response: We are talking to providers as part of the infrastructure work.

- Edward Heard, Chippenham 2020 – Promoting East Chippenham – Has walked to Showell from the town. It takes 29 minutes to walk, 40 minutes by road.

Response: Point made in presentation that you are constrained by the land promoted. Elected representatives are expected to find the best solution. Use compulsory purchase if necessary.

- These proposals were slipped under the radar.

Response: All those on Community area board circulation list; parish council; town council and ward member contacts were invited.

21: Resident in Reybridge- Accept that you can't influence the routes people travel; No control over where people buy houses; go to work. How does this fit with reducing the carbon footprint and meeting EU Directive for reducing emissions?

- Proposals do not appear in the Corsham Community Area section.

Response: Acknowledged some areas are within adjacent Community Areas. However, we will revisit cross-referencing between community areas.

- Lacock has international and local appeal. Urban development will spoil this.

- Council will be disadvantaged when trying to sell sites to business because Wiltshire hasn't achieved enterprise zone status.

Response: Agree. In the 1980's businesses relocated to enterprise zones. Wiltshire and Swindon are looking to put a new bid to Government for enterprise status.

- How many people will work on employment sites?
- How much weight is given to consultation responses?
- What is the interest in Showell Farm?

Response: Developers bringing forward sites. Also discussions with businesses. This is your opportunity to comment.

Malmesbury Community Area Exhibition – 2-8pm, 18th July 2011, Wesleyan Hall

Attendance: 150

Summary of comments:

Malmesbury Town Council handed out a leaflet of their interpretation of the housing numbers outside the event, see attached scanned document.

This leaflet focused on the increase in the overall housing requirement for the Malmesbury Community Area from the Wiltshire 2026 consultation event at the end of 2009, and the fact that the housing requirement for the county as a whole has decreased.

The housing numbers for the plan period have increased from 1100 dwellings to 1200 dwellings for the plan period. The justification for this can be found in Topic Paper 17: Housing Requirement Technical Paper.

Many questions focused on the justification for this increase in the housing requirement and objections to increased housing numbers/ any further housing development in the town of Malmesbury. The increase in the housing requirement was not supported.

A couple of comments stated that there were 100 empty homes on the Filands Estate and asked why these are not taken into account in the future housing requirement for the town.

Many comments focused on infrastructure issues in the town, in particular that the schools in the town are currently at capacity with children having to be bussed out to schools in surrounding villages.

There was concern that the high street was lacking in retail provision.

Lack of free parking in the town centre was an issue.

It was stated that the amount of employment land to be identified in the town should be specified. It was stated that the level of employment proposed in the town was not in line with the level of housing being proposed for the plan period.

It was asked whether extra care housing proposed at Burnham House would count towards the housing requirement. There is not currently a planning application on this site but if it is defined as extra care housing it will count towards the housing requirement.

It was asked whether the housing requirement could be phased over three time periods rather than the proposed two (2006-2016 and 2016-2026).

Wiltshire Core Strategy

Some information Wiltshire Council won't tell you.

Since the previous consultation in late 2009 Wiltshire Council have recalculated the number of houses needed to be built in the county before 2026 and have reduced the number by 17%. However the number they wish to see built in Malmesbury has increased. These are the figures for the Market Towns;

Town	2006 Total Dwellings	Housing requirement	Growth % 2006-26
Amesbury	8161	2100	25.7
Bradford-upon-Avon	4396	510	11.6
Calne	6914	1240	17.9
Corsham	4015	1050	26.2
Devizes	7381	1730	23.4
Malmesbury	2347	760	32.4
Marlborough	3280	610	18.6
Melksham	8309	1930	23.2
Tidworth & Ludgershall	4121	1750	42.5
Warminster	7820	1650	21.1
Westbury	5994	1290	21.5
Wootton Bassett	4859	920	18.9
All Market Towns	67597	15540	23.0

Even with the proposed second highest rate of growth in Wiltshire the important improvements to our infrastructure – more Primary School capacity, better sewers etc., will not be delivered.

Why should we accept such growth?

Malmesbury Town Council

Marlborough Community Area Exhibition –

2-8pm, 29th June, Marlborough town hall

Attendance: 20

Summary of comments

Comments on the community area strategy for Marlborough were limited with no new issues raised. Comments related to **????**

Melksham community area exhibition:

2–8 pm, 5 July 2011, Melksham Assembly Hall

Attendance: 35

Summary of comments received during conversations

- Question about whether we have had interest from companies/businesses looking to relocate to Melksham.
- Questions about the process of identifying sites which are considered to be 'strategic'.
- Concern about roadworks in the town centre and loss of one hour free parking from town centre car park combined with new ASDA removing trade from town centre. Resulting in loss of quality shops.
- Question about cost of consultation during time of cuts to services e.g. bus routes.
- Melksham Without Parish Council – difficulties getting through to team on consultation telephone number.
- Melksham needs more cycle ways.
- Concerns about design of development – e.g. instead of having a play area to be shared between houses, would be better to use the space for private gardens.
- Concerned about congestion on A350, from the ASDA roundabout up towards Beanacre. This is a pinch point. Are there any plans for highways improvements here?
- Need a strong policy to support the canal link project. The canal will only come forward if development takes place alongside it.
- Wiltshire Workspace and Employment Land Strategy recommends that 12.6 ha of employment land should be provided in Melksham – why is only 4ha identified in the Consultation Document?
- Question about what sort of development would be permitted at Hampton Park – i.e. what type of employment?
- Comments from Dave Roderick relating specifically to transport: More provision for cyclists – Hilperton Way in Trowbridge should have cycleway, provision along the A350 Chippenham bypass should be provided alongside in green space (could also be bridleway for horse riders). Possible use of land alongside railway line from Melksham – Trowbridge and Melksham – Chippenham, if fenced from rail line could provide safe off-road alternatives for cyclists and walkers.

- Question about the timetable for the provision of a link road from Cereal Partners to Westinghouse Way [Query passed on to sustainable transport team].
- The Golf Course and the old Christie Miller site would be wanted for industry rather than housing.
- Question about whether there are any plans to provide access to Bowerhill from the east via the disused railway line [Query passed on to the sustainable transport team].
- If building employment development at Bowerhill/Hampton Park, then need to improve bus services from Bowerhill to the town centre.
- Businesses should be encouraged to provide specific bus services for employees.
- Combined fire, police and ambulance stations haven't worked all over the country, so why are you proposing another one at Chippenham?
- Should plan for the canal to be delivered – the canal should be a priority. This would then help to attract businesses (e.g. canal-side cafes) and would give people a reason to come to Melksham.
- Encouraging employment development should also be a priority (as well as the canal).
- Current state of Melksham is very depressing. Town centre is dying – people go to supermarkets instead.
- Melksham Without Parish Councillor:
 - The display materials for Melksham Community Area appear to identify Bowerhill and Berryfields as part of Melksham Town. This isn't the case as both Bowerhill and Berryfields are recognised locally as distinct settlements (villages).
 - The A350 should be considered in its entirety and not incrementally. Melksham probably needs a bypass to the east linking to the A350, but can/will this be built – doubtful. Demand management measures are not and will not work – more needs to be done to address existing and planned commuter flows.

Additional comments from Cllr Hubbard

- Concerned that we will be leaving a policy vacuum in Melksham by not identifying a strategic site. Concerned that this will leave it open to developers to come forward.
- Should add something to the policy text to explain that it is not an open invitation for developers – development is not expected to come forward until later in the plan period (specify years) and sites will need to be identified through a proper process, which would be subject to full consultation.
- Concerned that consultation material refers to housing to be provided at Melksham town – need to clarify that these homes are actually likely to be provided on sites outside the current town limits.
- A more detailed map of Melksham is needed, with the proposed employment land clearly marked, so people can easily identify where they live etc. The 'grey blob' map is not sufficient. [A more detailed map of Melksham was made available later in the exhibition in response to this comment].

Pewsey Community Area Exhibition –

2-8pm, 5th July 2011, Bouverie Hall, Pewsey

Attendance: ??

Summary of comments

Parish council want to promote a town plan. Discussions about what a town plan/neighbourhood plan could achieve and who should lead.

Questions over the supply of employment land in the Pewsey area and how to promote existing sites, intensify the use of under used sites and release new sites. Future use of the current KLP allocation by the railway considered. Some views expressed that it should remain for employment.

Questions about the strength of the employment policies in relation Manor Farm, Manningford Bohune.

Didn't come across views that objected to the status of Pewsey being changed to a local service centre rather than large village but not many people attended.

Tidworth and Ludgershall Community Area Exhibition –

2-8pm, 20th July 2011, Ludgershall Memorial Hall

Attendance: 62

Summary of comments

Affordable housing

Low cost shared equity housing is wrong as the housing provider benefits as they sell the house eventually at full market value. Final price of the house to the purchaser should be 10-20% below market value so they buy at a reduced rate to enable them to get on housing ladder quicker. Homes should then be subject to a perpetual covenant to ensure house always sold at below market value.

Collingbourne Ducis

There are traffic issues in the village particularly at the A346 junction with the pub and school. Propose make a triangle one way (A346/A342/A338) with roundabouts at the main road junctions to help slow down traffic on this stretch of road where vehicle speeds are too high.

CP17

Policy for Ludgershall need to add info on the impact of the proposed development on the SPA/SAC and add reference to ensure the current playing field area remains as recreation

space/open space to allay fears identified in the HRA about dog walkers going into the SPA/SAC.

Access to MSA Depot proposal

A lot of concern about the potential traffic impact in Ludgershall from this development. There were several discussions about different ways to allay these fears eg new road into the site across Castledown if level crossing can be agreed across railway line. (Railway apparently used infrequently and at very slow speeds) or a road extending from rear of development towards the school and then connect to Tidworth Road which may remove need to cross the railway.

Trowbridge Community Area Exhibition –

2-8pm, 13th July, Bridge House

Attendance: 60

A number of comments were made about the exhibition which were both supportive and objecting and are reflective of the formal comments received to the consultation document. Overall there appears to be acceptance of the need for some development in Trowbridge, although many comments were received about the importance of adequate infrastructure being delivered alongside any housing, particularly in relation to improving transport infrastructure and public transport connectivity around the town. The need for appropriate development on brownfield land within the central area of town was made by several individuals. Other specific comments included:

- The impact of any additional traffic from new development in Trowbridge on Bradford on Avon and Staverton.
- General support for proposals for regenerating brownfield sites in the central area of Trowbridge, but some scepticism expressed about the success of the Trowbridge Vision Board to deliver appropriate and successful development in the past.
- Concern was raised about the proposals for further supermarket provision in Trowbridge and what impact this may have on existing businesses.
- The importance of protecting the separate identity of the villages around Trowbridge was highlighted and the need for some green space to be kept green between the town and the villages.
- The classification of Hilperton was the subject of several questions and many of the individuals visiting the exhibition expressed a very strong view that Hilperton should be classified as a 'large village' and be identified as such on the appropriate maps. A popular view expressed was that Hilperton has always been classified as a separate village, even being referred to as such in the Domesday Book.
- There was general support for the need for an additional secondary school in Trowbridge and agreement that it's careful location could help reduce through town traffic.
- The importance of protecting areas for wildlife and avoiding any development on the floodplain was also raised by several individuals.

Warminster Community Area Exhibition –

2-7pm, 14th July, Warminster Library

Attendance: 50

This exhibition was jointly run in partnership with Warminster Town Council who were also consulting on a draft Town Plan during the summer. The town plan has been prepared through a community led process over the past two years and has been used to inform the Warminster Area Strategy set out in the emerging Wiltshire Core Strategy. The town plan exhibition proved to be very popular, perhaps generating more comments than the core strategy itself, and this may be a reflection of the importance of the town plan to Warminster.

A recent consultation on proposed waste sites, as set out in the Waste Core Strategy Site Allocations DPD, also generated a number of questions. Although important, these matters are separate to the emerging Wiltshire Core Strategy consultation itself.

The core strategy consultation generated few specific issues and most of the questions related to local landowners who were interested in their land being considered for inclusion within the proposed strategic site to be allocated in the core strategy. There were no objections to any of the proposals and overall there appeared to be general support for the Warminster Area Strategy.

Westbury Community Area Exhibition

2-8pm, 24th June, Paragon Hall

Attendance: 37

The exhibition was jointly run in partnership with Westbury Town Council who had recently published their Vision and Scoping Study for Westbury. This study had been produced through a community led process and had been used to inform the emerging Wiltshire Core Strategy. Overall there was a good level of support for the core strategy and some appreciation for how the Town Council work had informed its production. Particular questions/ issues raised included:

- Concern over possible re-location of Matravers School (not proposed in core strategy).
- Support for development of land around Westbury Railway Station, particularly if this could help deliver a new road to alleviate traffic on Oldfield Road and also to provide improved access to Westbury Station. The need for improved bus access to the station was also expressed.
- Support for town centre improvements, particularly those highlighted in the Town council led work and support for the focus on protecting the independent retail sector in the town.
- Some concern was expressed over the proposed employment allocation at Hawkeridge and why such development could not be located at either the North Acre or West Wilts Trading Estate sites. Concern was also expressed over the possible landscape and environmental impact of the proposed development.

- A number of questions were raised about the future scale of housing in surrounding villages.

Wootton Bassett and Cricklade Community Area Exhibition –

2-8pm, 18th July 2011, Wootton Bassett Library

Attendance

20 people were counted as visiting the exhibition throughout the day.

Comments received during conversation

- How do we make planning policy more effective? Brynard's Hill was permitted despite policy – what would prevent this happening again outside WB?
- Re grants being made available for projects in local communities – where waste (landfill) sites are present?
- Concern from Lydiard Tregoze resident that development of 2000 houses shouldn't be allowed at Hook Street – would lead to coalescence with Swindon
- Concern about Junction 16 of M4 tunnel and roundabout proposals linked with front garden area
- Objection from Purton residents to development of current application of 700 houses at Ridgeway Farm.
- Statement in paragraph 5.20.5 about main food shopping and convenience retail provision is unclear: is this referring to Wootton Bassett or Cricklade?
- The Strategy does not take account of what is actually happening. Brynard's Hill would not have been allowed if the CS had not had 150 homes on this land in the original draft. Brynard's Hill was overturned on appeal before on two counts.
- On closure of Lyneham, 2,000 people living in WB but working at Lyneham. Up to 1,000 might need to relocate away from WB. This has not been taken into account of in developing the housing figures.
- Coalescence with Swindon Missed? Not mentioned in Doc.
- RSS identified WB as a dormitory town – building should be limited to local needs
- Infrastructure no right for more houses to west of Swindon. Need to consider how to prevent coalescence – especially now rural buffers have gone.
- If Spatial Planning makes no objection to Ridgeway Farm – need to emphasise that we're not objecting because 1,000 (as in the Structure Plan) are OK – but no more. Need to emphasise that 1,000 is the limit
- In the past there has been insufficient robustness from WC in resisting developers
- Tunnel under Motorway – leading up to Junction 16 – plans by Swindon BC. Roundabout on road from WB to lead and tunnel. Concerned that this will lead to development to the west of Swindon.

Other Points

- Question about how wider issues relating to climate change are being integrated within the CS. E.g., tarmac not designed to cope with extreme weather conditions. How is the wider climate change study incorporated in the proposals?

Appendix 11 - Schedule of issues raised and changes proposed in each community area

APPENDIX 11 - Schedule of community area suggested changes as a result of consultation

Bradford on Avon

Theme	Issues Raised	Suggested Changes	Further work needed
Infrastructure	<ul style="list-style-type: none"> • CS should mention the need for a new footbridge • Suggested additions to text at para. 5.5.2 relating to existing pressures on infrastructure (schools, sewers, doctors etc) and narrowness and often single track nature of the historic radial routes out of town, which are unable to absorb significant additional volumes. • Promoters of Kingston Farm site question whether development will be able to cross-subsidise all essential infrastructure requirements listed under para. 5.5.7 • Kingston Farm site will deliver the Silver Street element of the Historic Core Zone proposals • Text about improvements to sewer system should be flexible enough to allow for an off-line/non-mains drainage system • Reinforcement of the low pressure gas mains in the town will be considered in detail by the Kingston Farm project team but will only be undertaken if it is necessary to enable the development to proceed. • Reasonable contributions towards primary and secondary education infrastructure will be provided, subject to demonstrable need, through the Kingston Farm development. • Kingston Farm could incorporate relocation of one of the existing GP surgeries in the town as part of the mixed-use development proposals, subject to viability. • Wiltshire Scullers School seeks contributions from Kingston Farm development to form a trust fund to be ring fenced for rowing. • Difficult to get dentist's appointment • More should be made of the need to secure a contribution from the strategic site toward the wider infrastructure in BoA. • Support improvements to B3107 but suggest a more flexible policy statement to allow further improvements to road infrastructure in the area. • Kingston Farm would be a suitable location for a park and ride scheme or a car park. • Road between Bradford and Forwards Common needs upgrading if Kingston Farm development goes ahead. • Safe pedestrian and cycling access is also required in outlying settlements such as Woolley – problems are not limited to the town centre • The following problems should be mentioned: Woolley Street and Woolley Terrace/Cemetery Lane suffer from: rat running, speeding traffic particularly through Woolley Green and at the entrances to Woolley, blind junctions that put pedestrians at risk, dangerous junction at the Cemetery • Para 5.5.7 should mention the need for Green Infrastructure within and throughout the town • Para 5.5.7 should mention the need to conserve and enhance the rural setting and foster the town's relationship with this rural hinterland • There should be a bullet encouraging local food production and encouraging the development of local markets • Better access to recycling facilities for the northeast sector of Bradford on Avon • Improved broadband should be listed as an infrastructure requirement • A range and variety of business premises including workshops and studios as well as offices – particularly catering for smaller companies and allowing flexibility for their expansion, should 	<ul style="list-style-type: none"> • Add text to para. 5.5.2: "The existing infrastructure in the town is under pressure, with schools and doctors at or near capacity". • Add to para 5.5.5: "The need for a new footbridge to link the Kingston Mill development with the town centre". • Add text to end of second bullet of para.5.5.7: "Alternatively off-line/non-mains drainage systems may be provided where these are agreed with Wessex Water". 	<ul style="list-style-type: none"> • Suggested further infrastructure requirements to be considered as IDP and strategic sites pro forma are developed • Concerns from promoters of Kingston Farm site about viability of infrastructure requirements to be considered as IDP and strategic sites pro forma are developed • Further detail on how/where schools and GP surgeries would expand to be provided in IDP

	<ul style="list-style-type: none"> be listed as an infrastructure requirement • Need north side car park • Suggestion for park and ride scheme • New school needed • Bypass needed • Questions about how and where schools/GPs would be expanded 		
Traffic	<ul style="list-style-type: none"> • Further development should not be permitted until traffic issues are sorted out (this issue is raised in a number of responses). • Historic Core Zone measures should be fully implemented and evaluated before further development is approved. • Air Quality needs to be addressed before further development is approved. • Traffic impacts of Kingston Mills should be considered. • Effects of existing commitments (including Kingston Mills) need to be assessed before further development is permitted. • Two respondents noted that the Local Highways Authority is quoted in TP12 as saying that there should be a general presumption against specific housing growth in BoA. • Traffic volumes, congestion, exhaust pollution, parking, and intimidation of pedestrians and cyclists in Bradford town centre are not just "issues", but serious environmental problems. • Text about the AQMA is incorrect. 	<ul style="list-style-type: none"> • Add requirement in CP9 that for all applications in BonA for which a transport assessment is required (as set out in the Local Validation Checklist), the transport assessment must include consideration of the likely future impacts of the Kingston Mills development. • Amend para. 5.5.2 to state "There are serious problems with high traffic volumes and congestion in the town centre and an Air Quality Management Area covers Market Street, Silver Street, Masons Lane and part of St Margaret's Street." 	<ul style="list-style-type: none"> • Check implications of the statement from the Local Highways Authority as quoted in TP12 • Decision needed on whether to continue with phasing requirement- if this is retained then consider additional requirement that impacts of existing commitments and Historic Core Zone measures are assessed before permission is granted at Kingston Farm site. Consider adding reference to AQMA in CP9 and need to ensure that development does not exacerbate this.
Strategic sites	<ul style="list-style-type: none"> • Coombe Mine County Wildlife Site should be mentioned specifically. Development proposals should seek to protect and enhance species and habitats in the first instance, and should be in line with Core Policy 33. • Need an assessment of likely impact of the allocation on the Cotswolds AONB, and comparison with other sites in this regard (Natural England) • The policy should mention the need for green infrastructure as an integral part of development at Kingston Farm, including buffering to any views from the south, and green corridors that provide wildlife habitat and future direct pedestrian links to the Town Centre. • Suggestion that an exemplar SuDS scheme should be included as part of the sustainable development outcomes (Environment Agency). • Kingston Farm site does not have capacity to accommodate proposed development at appropriate density (Redcliffe Homes) • 50 dwellings, up to 45,000 square foot of employment, and associated community facilities should be accommodated at Land North of Holt Road – sharing the allocation with Kingston Farm • SA was not carried out in a consistent manner and therefore unfairly disadvantaged the Holt Road site. Request that SA is revisited to ensure a more informed, balanced and robust appraisal is carried out. • Employment provision under consideration for the Kingston Farm site is not 2-3ha of 	<ul style="list-style-type: none"> • Add reference to Coombe Mine CWS: 'Development must ensure that ... Species and habitats associated with the SAC and Coombe Mine County Wildlife Site are protected and enhanced in line with Core Policy 33'. Add text to Core Policy 9 "Development must ensure that ... green infrastructure is provided as an integral part of the development, including buffering of views from the south and green corridors to provide wildlife habitat and possible future direct pedestrian links to the town centre". Add reference to 	<ul style="list-style-type: none"> • Add assessment of impact on AONB to strategic sites topic paper Consider appropriate density of housing at Kingston Farm site and investigate concerns over capacity of the site • Assess option for 150 dwellings and 2-3 hectares employment land to be split and provided across both the Kingston Farm and Land North of Holt Road sites • SA to be revisited in

	<p>additional employment but rather in the form of replacement premises for an existing employer on site, with scope for future expansion.</p> <ul style="list-style-type: none"> • Judgement of Likely Significant effect and possible Appropriate Assessment of Kingston Farm needed • Promoters of Kingston Farm site support requirement that the development is exemplary in terms of sustainability and incorporates renewable energy generation (if economically and technically feasible) to enable the development to achieve a "carbon neutral" status. • Suggested amendments (from promoters of Kingston Farm site) to wording of CP9: "development is expected to deliver" rather than "development must deliver"; "space for existing local firms to expand"; "up to 40% affordable housing subject to demonstrable need and economics of provision". • Request from promoters of Kingston Farm site to amend proposals map to be consistent with latest proposals from site promoters • Disagree with proposals for development on land at Woolley (north of Holt Road) due to lack of infrastructure and need to protect Conservation Area. • Shouldn't allocate a site at BoA now: wait for Neighbourhood Planning • Objections to Kingston Farm site due to traffic impacts • Would be a shame to build dense housing on lovely piece of rural land • Land North of Holt Road is most appropriate location for additional strategic requirement (which will arise from extended plan period and need to demonstrate 5 years + 20% supply) (Redcliffe Homes) • Objection to Kingston Farm site: this will urbanise the eastern side of Bradford, with other developers making subsequent approaches • Access to Kingston Farm should be shared with new access to Kingston Mill • Would be better if employment were located at the town end of the Kingston Farm site, near existing employment sites • Railway noise would affect homes at Kingston Farm, but proposed green space may help buffer this • Workshops should be provided, e.g. for carpenters • Mixed use development at Kingston Farm could include a leisure aspect as well • Public access to the river through Kingston Farm would be good • Proportion of site used for employment should be higher • Existing trees on Moulton Estate should be protected 	<p>exemplar SuDS scheme to CP9/strategic sites proformas Amend wording of CP9 to state "...space for existing local firms to expand" rather than "space for an existing local firm..."</p>	<p>light of the concerns raised and the updated information provided by Redcliffe Homes in relation to the Holt Road site.</p> <ul style="list-style-type: none"> • Concern about level of employment to be provided at Kingston Farm site to be investigated. • Need for Judgement of Likely Significant effect / possible Appropriate Assessment of Kingston Farm site to be investigated.. • Specific policy requirements relating to sustainable development and renewable energy provision at the strategic allocation to be developed for the submission draft. • Consider changes to proposals map as suggested by promoters of Kingston Farm site (needs further consideration)
<p>Transport</p>	<ul style="list-style-type: none"> • Land should be protected for a possible new station at Holt. 		<ul style="list-style-type: none"> • Consider adding reference to potential reinstatement of Holt Station, if this is considered to be deliverable (dependent on conversation with Sustainable Transport).
<p>Holt and the area of opportunity</p>	<ul style="list-style-type: none"> • Request for addition of reference to the need to reduce excessive volumes of traffic on the B3107 through Holt. • Suggestion from Holt Regeneration Ltd that para. 5.5.5 should state: "An Area of Opportunity in Holt (designated in the West Wiltshire District Plan 1st Alteration) will be redefined and identified as a suitable location for comprehensive mixed-use development to be brought forward as an allocation in a subsequent Site Allocation DPD or Neighbourhood Plan". 	<ul style="list-style-type: none"> • Add reference in para. 5.5.5 to traffic volumes through Holt, and the need to ensure these are not exacerbated by development of the area of opportunity or the strategic allocation at BonA. 	<ul style="list-style-type: none"> • Check with Holt PC whether they still intend to prepare a NP, and add the following text to para. 5.5.5 if they do: "An 'area of opportunity' in

		<p>There are likely to be some increases in traffic volumes – compromise for delivering employment growth in BoA/ the site is the most sustainable available. Suggest – Development of the area of opportunity in Holt should include provision for live/ work or local employment opportunities to help reduce the need for commuting. Consideration is also needed for any impacts from development on the high traffic volumes along Holt Road.</p>	<p>Holt (designated in the West Wiltshire District Plan) will be protected as it continues to offer a sustainable location for mixed use development. Holt Parish Council intends to prepare a Neighbourhood Plan to cover this area, and proposals for development should take account of this neighbourhood planning process”.</p>
<p>Employment</p>	<ul style="list-style-type: none"> • Would be useful to quantify the number of jobs Winsley should aspire to create over the plan period. • Loss of employment land should be resisted, and this should be explicitly stated in CP9. • New housing should only be permitted when it is employment led. • It is unclear how many jobs would be provided at the strategic site, and whether these would genuinely be for local people. 		<ul style="list-style-type: none"> • Consider identifying the number of jobs to be provided in BonA Community Area over the plan period, and the split of these jobs between the town and the rest of the CA (dependent on outputs of further employment research) • Approach to loss of employment land to be reviewed in light of draft NPPF – • Suggested requirement for all residential development to be employment led to be considered. • Further detail on the employment to be provided at the Kingston Farm site to be developed for the submission draft Core Strategy.
<p>Historic character/landscape / distinctive character of</p>	<ul style="list-style-type: none"> • Unique character and landscape of BoA is an asset, and this could be emphasised in the Core Strategy. • Should recognise value of historic and natural environment to the economy in the CA. • Text should recognize that Bradford on Avon encompasses a range of diverse and distinctive 	<ul style="list-style-type: none"> • Strengthen para. 5.5.1 and/or 5.5.2 relating to the unique character and landscape of BoA. • Strengthen references in para 	<ul style="list-style-type: none"> • Consider deletion of ‘where possible’ from CP9 as suggested.

<p>BonA</p>	<p>communities and neighbourhoods, including separate hamlets such as Woolley as well as outlying settlements such as Woolley Green.</p> <ul style="list-style-type: none"> • Concern that expansion will spoil the character of BoA • Importance of historic environment for culture and economy • Delete 'where possible' from the statement that "development must ensure that ... the setting of the Conservation Area, and The Hall and its park and garden is protected and, where possible, enhanced". 	<p>5.5.2 to the historic environment as major economic and cultural asset</p> <ul style="list-style-type: none"> • Add reference to communities and neighbourhoods in para 5.5.2: "The town comprises a range of diverse and distinctive communities and neighbourhoods, including separate hamlets such as Woolley, and the Community Area also includes a number of villages 	
<p>Phasing of development</p>	<ul style="list-style-type: none"> • Support for phasing of development towards the end of the plan period from Bradford on Avon Preservation Trust, Duncan Hames MP, Campaign for Better Transport • Disagreement with phasing of development from BoA Town Council, Cllr Rosemary Brown, BoA Property Ltd (Kingston Farm site) • Objection to size, scale and timing of development proposed: there should be a pause for reassessment 		<ul style="list-style-type: none"> • Decision needed on whether or not to retain the phasing requirement. Mix of views on this point.
<p>Tourism/canal</p>	<ul style="list-style-type: none"> • Importance of tourism and the Kennet and Avon Canal should be more fully recognised. • Requirement for development to ensure protection and enhancement of River Avon corridor should include reference to Kennet & Avon Canal 	<ul style="list-style-type: none"> • Amend para 5.5.2 to highlight importance of tourism to BoA economy, and role of K&A Canal in attracting tourists • Amend CP9 to include list of requirements for all development in the CA (not just the strategic site), and include "The environmental corridors of the River Avon and the Kennet and Avon Canal are protected and enhanced" in this list. 	<p>Check K and A Canal adequately protected through generic policies.</p>
<p>Flood risk</p>	<ul style="list-style-type: none"> • Need to address flood defences - the road bridge and rail link are both vulnerable. 	<ul style="list-style-type: none"> • Add sentence to para 5.5.2: "There is an area of flood risk in the town centre, and any applications in this area will need to take account of Core Policy 49 (Flood Risk)". 	
<p>Typos</p>	<ul style="list-style-type: none"> • Holt should be shown as a large village on the map 	<ul style="list-style-type: none"> • Amend map to show Holt as large village 	
<p>Staverton/ CA definition</p>	<ul style="list-style-type: none"> • The position of Staverton - in Bradford on Avon 'community area' for administrative purposes but with the Waterside development in Trowbridge for planning purposes - needs to be explained in future documents. • Needs to be clearer about those parts of the community area which are included in Trowbridge for spatial planning purposes 	<ul style="list-style-type: none"> • Add explanation (perhaps after para. 5.5.5) 	
<p>Cotswolds AONB</p>	<ul style="list-style-type: none"> • No mention in the Core Policy of the Cotswolds AONB. Any development must have due regard to the AONB, including an assessment of the likely impact of proposed development on the AONB. 	<ul style="list-style-type: none"> • Add reference to AONB in the wider list of requirements for all development in the CA (not just 	

		<p>the strategic site): "Development must ensure that ... proposals have regard to the Cotswolds AONB Management Plan, in line with Core Policy 34"</p> <p>Add some reference to AONB in bullet points</p>	
Retail/town centre	<ul style="list-style-type: none"> I do not believe there is a lack of convenience retail offer in the town centre. There is 1 central supermarket and 2 early-late convenience stores. A new supermarket is needed 		<ul style="list-style-type: none"> Investigate latest position regarding retail at Kingston Mills development, and amend text of para 5.5.2 if appropriate.
Housing numbers	<ul style="list-style-type: none"> The area of opportunity in Holt will deliver some of the housing requirement in the community area. Struggling to fill residential and commercial units at Kingston Mills: so shouldn't build more homes. Housing numbers in BoA are too low (Malmesbury TC); too low particularly in light of affordable housing need (Barratt Bristol); housing numbers are insufficient to meet needs based on household projections (Holt Village Regeneration Ltd); housing numbers will need to be increased as plan period should be extended to at least 2028 and will need to demonstrate 5 years + 20% housing land supply (Redcliffe Homes) Proposed level of growth seems high given physical and environmental limitations (Friends of Woolley) Strongly against 150 new homes: BonA is already too big and the schools are too small to accommodate more children Development should be more balanced across the community area, with more homes directed towards the villages A number of comments objected to the provision of more housing in BonA as this will exacerbate existing traffic problems/destroy the character of the town. 		<ul style="list-style-type: none"> Consider whether the proposed housing figures for the rest of Bradford on Avon community area are sufficient (taking account of potential development of the area of opportunity and the comments indicating that housing numbers are too low to meet affordable/general housing need). Check whether there is any evidence of difficulty in filling empty units at Kingston Mills.
Green infrastructure	<ul style="list-style-type: none"> Bradford on Avon Town Council requests the inclusion of the following statement after "Development must ensure that...": "Existing green and open spaces within the town are protected." Development shouldn't be permitted on existing open spaces within the town (e.g. playing fields near Fitzmaurice School). 		<ul style="list-style-type: none"> Review saved policies – do these already give enough protection without the need for a further reference in the Core Strategy?
Impacts of development at Trowbridge	<ul style="list-style-type: none"> Concern about impact of development at Trowbridge on BonA: specifically impact on traffic and wildlife. 		<ul style="list-style-type: none"> Likely impacts on BonA of development in Trowbridge need to be assessed. Appropriate references can then be added to submission draft.

Calne Community Area

Theme	Issues Raised	Action / Suggested Changes
Natural environment	<ol style="list-style-type: none"> Reference should be made to taking account of the setting of the North Wessex Downs Area of Outstanding Natural Beauty (AONB). Reference should be made to the River Marden when referring to development in the town centre of Calne. 	<ol style="list-style-type: none"> Agree reference should be made to the North Wessex Downs Area of Outstanding Natural Beauty (AONB). Suggest addition of following text to paragraph 5.6.4: "In planning for new development consideration must be had to the setting of the North Wessex Downs Area of Outstanding Natural Beauty (AONB)" Suggest addition of following text to the last paragraph of core policy 10: "Development must take account of the setting of the North Wessex Downs Area of Outstanding Natural Beauty (AONB)". NB: There are comments on AONBs in other community areas – other text may be more appropriate to ensure a consistent approach. Agree reference should be made to the River Marden. Suggest addition of following text to paragraph 5.6.4 bullet 1: "The role of the River Marden will be considered as part of the town planning process."
Non-strategic sites	<ol style="list-style-type: none"> A strategic site should be allocated in Calne. A direction of growth should be proposed to indicate where in or adjoining the town non-strategic sites will be appropriate. Non-strategic sites should be delivered as a number of smaller sites, not one larger site. 	<ol style="list-style-type: none"> A justification was not found for a strategic site in topic paper 14. Confirm that a strategic site is not required in Calne. Non-strategic sites will be identified through community led neighbourhood plans or a subsequent development plan document. This enables the local community to influence where non –strategic growth will occur. No further action. There is no specification on how many non-strategic sites will be identified in the community area. No further action.
Housing numbers	<ol style="list-style-type: none"> Support for housing numbers in the area. Higher housing numbers should be allocated in Calne to reflect limited opportunities in the rest of the community area and its unconstrained nature. The higher numbers should be redistributed from Corsham Wootton Bassett. The plan period should be changed to 2010-2030. 	<ol style="list-style-type: none"> Consider level of growth for Calne through a review of the housing requirement of Wiltshire. Consider whether the plan period should change though a review of the housing requirement for Wiltshire.
Phasing	<ol style="list-style-type: none"> Phasing should be developed to ensure housing only comes forward once jobs have been delivered. 	<ol style="list-style-type: none"> Consider whether phasing should change though a review of the housing requirement for Wiltshire.
Campus	<ol style="list-style-type: none"> There are proposals for 'campus' style development of services in Calne. These should be reflected in the Core Strategy. 	<ol style="list-style-type: none"> Agree reference should be made to campus development. Further work should be carried out to understand the details of the current campus proposals. Suggest new paragraph inserted after 5.6.4 with the following text: "The delivery of a proposed leisure campus in Calne will provide enhanced community facilities in the town centre and help to strengthen the overall offer of the town" NB: There are comments on campus development in other community areas – other text may be more appropriate to ensure a consistent approach.

Theme	Issues Raised	Action / Suggested Changes
Employment	1. Station Road is no longer an industrial estate – it should be removed as a Principal Employment Area.	1. Check and remove Station Road Industrial Estate from core policy 10.
Town centre	1. The land to the rear of Lloyds Bank should be considered for town centre regeneration. 2. Parking should be subsidised. 3. Greater reference should be made to town centre regeneration in the Core Strategy.	1. This will be dealt with through the neighbourhood planning process for Calne. 2. This will be dealt with through the neighbourhood planning process for Calne. 3. Suggest addition of following text to bullet point 1 of paragraph 5.6.4: “This will identify projects to help strengthen and regenerate... ”
Transport	1. Recommendation to put in place a one-way system on Oxford Road and William Street. 2. Development must not impact on the strategic road network.	1. This level of detail will be dealt with through the neighbourhood planning process for Calne. 2. Insert reference to the strategic road network in paragraph 5.6.4: “The impact of development on the strategic road network must be taken into account”.
Spatial Strategy	1. Further clarity should be provided on the definition of ‘limited development’ at Large Villages.	1. Carry out further work on the definition of ‘limited development’. See spatial strategy workstream.

Chippenham Community Area

Theme	Issues Raised	Action / Suggested Changes
5.1.5 Bullet Point 2	The following paragraphs are therefore recommended to replace the second bullet point "Chippenham suffers from a strategic danger of becoming a dormitory town, with insufficient retail and leisure facilities in the town centre and a net out-flow of commuters: future development should urgently redress this. “	Bullet point 4 already covers the issues relating to retail and leisure offer in the town centre. However, AGREE to give further consideration to rewording bullet point 2.
Chippenham CA	There is a need to make much more explicit links between the identified issues and the Strategy. It is unclear from the Consultation Document how the strategy will address Chippenham’s issues.	AGREE to consider rewording to ensure there are clear linkages between the strategy and the issues for Chippenham.
5.1.5 Final bullet point	It is unclear why powerlines need to be identified as an issue specific to Chippenham	This issue arose during discussions with infrastructure and utility providers. As it appears in the infrastructure delivery plan work and has been considered as part of the site selection process, it is unnecessary to include it as an issue in paragraph 5.1.5. AGREE to delete issue relating to powerlines from paragraph 5.1.5.
5.1.14 Bullet Point 1	An amendment is suggested to the first bullet point of section 5.1.14 as follows A place to live and work - Create a sustainable community through the provision of appropriate employment and business land in order to enable the opportunity of working locally and to reflect the needs of the local	AGREE to amend wording of bullet point 1 to read: A place to live and work - Create a sustainable community through the provision of appropriate employment and business land in order to enable the opportunity of working locally and to reflect the needs of the local economy. Town centre facilities will be

Theme	Issues Raised	Action / Suggested Changes
	economy. Town centre facilities will be attractive to residents, visitors and employers alike.	attractive to residents, visitors and employers alike.
Core Policy 5	<p>With the inclusion of the 'South West Area of Search', the Hill Corner Road scheme's ability to bring forward a modest amount of employment land becomes much less significant: it needs therefore to be established whether the housing in the first phase necessarily has to precede the housing in the South West Area of Search, particularly if the latter will release more resources to achieve the Vision for the town.</p>	Comments about phasing noted. AGREE to reconsider this issue.
Core Policy 4 Chippenham Central Area of Improvement	River Avon enhancement Inclusion of plans for the new route for the Chippenham Branch of the Wilts & Berks Canal to connect upstream of Chippenham making the River Avon navigable from this junction to Monkton Park.	Agreed. Amend Core Policy and/or supporting text to refer to new canal route.
Core Policy 4 Chippenham Central Area of Improvement	The importance of the River Avon Corridor as a green corridor for wildlife is mentioned in the preceding text and we would like to see this reflected in the Core Policy itself. For example, a phrase could be added as follows in italics: "In addition, the River Avon Corridor will be enhanced for leisure and recreation uses and developed as an attractive cycle/pedestrian route connecting with the town centre, while conserving and enhancing its role as a wildlife corridor ."	Agreed. Amend Core Policy 4 and/or supporting text to read ' In addition, the River Avon Corridor will be enhanced for leisure and recreation uses and developed as an attractive cycle/pedestrian route connecting with the town centre, while conserving and enhancing its role as a wildlife corridor.'
Core Policy 4 Chippenham Central Area of Improvement and Map 5.2	The area of opportunity does not include the whole of the town centre and does not include the area south of the station and Cocklebury Road. Areas such as the Westinghouse Site would also benefit from this and could be better used.	We will reconsider the extent of the Chippenham Area of Opportunity, the areas of improvement and the connection with the sites identified in Core Policy 5.

Corsham

Theme	Issues Raised	Action / Suggested Changes
Spatial Strategy / Settlement Strategy	1. Given the location of Rudloe and the likely developments near to the village, Rudloe should be classified as a large village not a small village.	1. Review designation. Consider change to large village.
Community Areas	1. Relationships between community areas are badly communicated. The effect of the allocations at Chippenham on the Corsham CA and particularly Lacock is not properly presented.	1. Major development in neighbouring community areas should be referenced at a number of points, particularly 5.7.5, and infrastructure requirements in 5.7.7 should reflect the allocations i.e. required infrastructure in the Corsham CA area should be listed.
Overarching Amendments	<p>1. Section should include;</p> <ul style="list-style-type: none"> • a list of key objectives and outcomes; • prioritised programme of key projects (with in built inflexibility for these to shift and/or be added to); • a list of key initiatives that will help to deliver this (and which will be prioritised). <p>This list will need to be flexible but can be based on Appendix 8 to Topic Paper 8.</p>	1. Consider whether all community area section should be amended to included some/all of the suggestion to help clarify the objectives and outcomes of each individual Community Area
Core Policy Wording	1. The phrase 'If required' should be removed from the final sentence.	1. Change as stated

Theme	Issues Raised	Action / Suggested Changes
Specific issues to be addressed at Corsham (Para 5.7.5).	<p>2. Paragraph four sets out a requirement for mixed-use developments and should be deleted</p> <p>1. Bullet point 2 delete the word 'some', where it says 'allow for some economic diversification'. Delete 'of MoD', where it says 'within a number of MoD sites in the area'.</p> <p>2. Bullet point 6 replace 'leisure campus' with 'community campus'.</p> <p>3. An additional bullet point or an amendment to the final bullet point is needed to include the development of the cycle network which is at an advanced stage. An additional bullet point is needed to highlight the need for new allotment land in Corsham.</p>	<p>2. Consider if specifying mixed use is deliverable and necessary. Potentially add 'where appropriate' as not all sites can develop as mixed use.</p> <p>1& 2 Include suggested changes to bullet points</p> <p>3. Amend final bullet point as above to include references to cycle network cycle network. Consider whether allotments could/should be added to list of infrastructure requirements in Para. 5.7.7</p>
Area Maps	<p>1. The designation maps used with the present NWLP are not part of this document but are still relevant.</p> <p>2. The road and rail network should be superimposed upon Map 5.10 as it is difficult to cross reference with the wording in other parts of the plan.</p>	<p>1&2 Pass on suggestion to team drafting new maps. Designations/features that should be included;</p> <ul style="list-style-type: none"> • parish boundaries; • conservation designations; • roads & rail • other important landscape designations
Corsham	<p>1. Para 5.7.1 - needs to state that Corsham has an attractive and historic area which needs sensitive development.</p>	<p>1. Improve references in 5.7.1 and amend bullet point 4 in 5.7 5 to include sensitive development in Corsham town centre.</p>
Relationship of Corsham and Neston, Weswells & Rudloe	<p>1. A realistic approach must be taken to the unique relationship of Corsham with its satellite settlements of Neston, Westwells & Rudloe</p> <p>2. A landscape appraisal demonstrates that development at Rudloe can be achieved without undue impact on the landscape character and quality of the break in between these settlements. Development at Sand's Quarry will provide for Corsham and the community area without compromising the individuality of Westwells village and having an undue impact on the greenbelt.</p>	<p>1&2. The relationship between Corsham and the collection of settlements listed is very important and needs further investigation. The importance of maintaining the integrity of these smaller settlements must be understood. Point 2 shows that development pressure is looking at development sites in and around the smaller settlements. If the value of the greenspaces and integrity of settlements needs to be protected this needs to be stated in policy, if not then the policy must reference how these settlements will operate in the future – Strategic decision for senior management.</p>
Infrastructure	<p>1. There is a need for a household recycling facility in Corsham possible locations include Thingley, Leafield or former MoD land at Rudloe Site 2 or Copenacre.</p> <p>2. Paragraph 5.7.7 - need to add the community campus and connections with railway station and communications between the facilities at Corsham and the rest of the Community Area.</p>	<p>1. Cross reference with Waste Sites DPD and add household recycling facility and listed sites to infrastructure requirements.</p> <p>2. Add integrated transport solutions and communications to future facilities including community campus, rail station and wider community area. Add Rail station and cycle network to infrastructure requirements.</p>
Green Infrastructure	<p>1. There needs to be a landscape character update - how are the distinctive characters of settlements and their landscape settings protected. This should also refer to protecting a green corridor to the east of the CA up to the A350 as an important contribution to the green infrastructure network.</p>	<p>1. Check with natural environment team. Specific references may be needed about landscape protection between settlements in the community area. If references are necessary then these should be written into the policy. See below.</p>
Transport	<p>1. Reopening the train station should be a priority in the community area.</p> <p>2. References to improving bus services are vague and need to includes actual measures and plans.</p>	<p>1. Remove wording for train station 'not realistic in the plan period' and replace with 'reopening will remain a priority'</p> <p>2. Discuss with passenger transport what improvements can be made. Possible</p>

Theme	Issues Raised	Action / Suggested Changes
	<p>3. The proposed cycle network needs a more prominent position.</p>	<p>measures include "intelligent" bus stops, route adjustments and integration with neighbouring authority services.</p> <p>3. See below, add to infrastructure requirements.</p> <p>1,2&3 Re-word final bullet in 5.7.5 to include 'Improved public transport connectivity will include reopening of Corsham rail station and integration of local bus services to link it with the main areas of housing and employment in the Community Area.'</p>
SuDs	<p>1. In Corsham CA it is recommended for the requirement for the appropriate use of SuDS is included in the policy wording.</p>	<p>1. Add SuDs to list of infrastructure. This is</p>
MoD Sites	<p>1. Basil Hill is no longer a term used by the MoD, the site is known as MoD Corsham.</p> <p>2. The land interests of Copenacre and Rudloe are now separated.</p> <p>3. Redevelopment of redundant MOD sites should be for uses proportionate to the uses which existed during the active MOD occupation of the site.</p>	<p>1, Contact MoD (Defence Estates) to confirm and amend if necessary. This appears in a number of places within section 5.7 and should be amended as required.</p> <p>2. References to MoD sites in policy text (3rd Para.) should be amended to read; 'Proposals for the redevelopment of MoD sites that are well related to the town will be supported where they ensure the proposed uses are complimentary to existing and surrounding development sites. All major development sites coming forward in the wider Corsham area must clearly demonstrate that the proposal will be well integrated into the existing settlements and enhance the character of the area'</p> <p>3. Possible add wording in text that talks about proportional red-development or potentially reference CP24 which should provide the framework for MoD sites.</p>
Leafield Employment Allocation	<p>1. Leafield is not an appropriate site given the inevitable overload on the transport infrastructure especially Potley Bridge.</p> <p>2. An improved crossing of the railway line at Valley Road/Potley Lane should be provided to enable and Potley Lane should be widened to provide appropriate access for HGV's and other goods vehicles.</p> <p>3. An appropriate alternative access route should be constructed.</p>	<p>1,2 & 3Contact transport to ascertain whether there is an existing or future issue at Potley Bridge.</p> <p>Potentially de-allocated Land East of Leafield or include Potley Bridge improvements in infrastructure requirements/identification of an alternative route.</p>
Spring Technology/Corsham Media Park	<p>1. Spring Technology Park is actually titled Corsham Media park and all references to it should to be.</p> <p>2. Given its size, its potential, its planning status and the scope for early and sustained delivery, it clearly meets any definition of a strategic site. It should be listed in CP11 and this should be reflected in paragraph 5.7.3.</p>	<p>1&2 Investigate with Economy team whether this should form a saved/allocated site in the Core Strategy. This may depend on the outcome of Leafield site.</p> <p>Paragraph 5.7.3 should be amended to reflect the status and expectations of the delivery of this development to ensure the description of the community area reflects these future changes.</p>

Devizes

Number	Officer/D ept.	Theme	Issues Raised	Action / Suggested Changes
1.	CG	Air quality	<ol style="list-style-type: none"> 1. Poor air quality due to rapid increase in housing. 2. Air quality exceeds EU safety levels at several locations 3. Reduce air pollution before more houses permitted 4. Develop a viable plan to reduce air pollution 5. Reference to air quality at para 5.8.5 bullet 2 is inaccurate. 6. No more homes until air quality issues addressed. 	<p>Amend para 5.8.5 bullet 2 to reflect the current position and need to consider the affects of all development on air quality.</p> <p>Introduce new core policy on air pollution and need to comply with EU regulations.</p>
2.	CG	Congestion	<ol style="list-style-type: none"> 1. Congestion has an economic impact on the town. 2. Tourists and shoppers are deterred from coming to Devizes by levels of congestion. 3. There should be clearer reference in the core strategy to traffic management measures. 4. Continuing congestion affects air quality. 5. More investment is needed in changing attitudes and subsidising alternatives 6. 	<p>Amend bullet point re congestion (para 5.8.5) to relate to new transport plan and the need for all development that will increase the numberof vehicles on the roads in Devizes to contribute to the implementation of that plan</p> <p>Add new bullet point about the need for future development (para 5.8.5) to contribute to future demand management and prepare a transport assessment.</p>
3.		Overall housing numbers	<ol style="list-style-type: none"> 1. Housing development has led to a serious traffic and air pollution situation. 2. Who are the new houses for? 3. There is no shortage of properties for sale in the area – Devizes has had enough. 4. Bring empty homes back into use. 5. Invest in infrastructure before more homes (transport, education, social, health etc) 6. the number of houses for Devizes town is too great given the existing problems of traffic congestion and poor air quality 7. Other areas in east Wiltshire should be considered first eg Marlborough 8. Availability of 'windfalls' should be taken into account. 	<p>Retain proposal for 1730 homes in Devizes and no new strategic allocations'.</p> <p>Add new bullet point to reduce the rate of annual development and phase development over the plan period to recognise the need to enable infrastructure and traffic congestion to be addressed. (para 5.8.5)</p>
4.	CG	Retail	<ol style="list-style-type: none"> 1. The town's retail success comes from having many independent retailers. 2. The town has enough chain stores 3. Concerns about the type of retailer suitable for Devizes 4. New retail development should not be supported on the Central Car Park 5. Devizes is mostly liked by shoppers for its range of individual smaller and specialist shops 6. Any attempt to bring in larger branches of national retailers would destroy the special character of the town. 7. New retail development should be concentrated in the town centre. 8. Should not presume there will be growth in the retail sector. Expert views suggest the reverse is likely because of 	<p>Amend bullet 4, para 5.8.5.to remove reference to the Central Car Park and add reference to recent research (add footnote to original document)</p> <p>Add new sentence to core policy 12 re identification of the prime shopping centre as per consultant's recommendations and introduce greater flexibility as to where new development could go. Add "<i>The prime shopping areas for Devizes are identified on the proposals map (check). Within this area, proposals for new comparison retail units will be supported provided the proposal is integrated with and provide enhancement to the existing fabric of the town centre and respects the historic character of the town</i>".</p>

			increased on-line buying	
5.	CG	Potterne sewerage Treatment Works	<ol style="list-style-type: none"> 1. Parish and residents should be informed when reinforcement of the sewer system to Potterne treatment works take place. 2. Concerns about HGV movements and noise disturbance that will be created during works. 3. Question whether the water course through Potterne has capacity for any increase from these sewage works as there has already been some localised flooding. 	Ensure Infrastructure Delivery Plan is clear about the process for delivering new infrastructure, who should be consulted and precautions during construction.
7.	CG	Railway station	<ol style="list-style-type: none"> 1. Include safeguarding of a site for a new railway station on the main line at either Lavington or Lydeaway . 2. A station will add to the towns ability to attract high value employment opportunities 	Add new bullet to para 5.8.5 that relates to the long term aspiration for a railway station to serve Devizes.
8.	CG	Character of the town	<ol style="list-style-type: none"> 1. Incremental developments over the past decade have already damaged the special character of the historic town 2. Devizes is an attractive market town and is fast losing its character with the extra housing. 3. Protect important green and built spaces within the town. 4. The new development at Willowbrook has spoilt Horton Road due to the number of new street lights installed, removal of verges and increase in street and road markings. 5. 	Add to Core Policy 12, a clear statement that development at Devizes should support its role as a significant service centre but not exacerbate existing constraints within the highway network or undermine the towns rich built, historic and natural environment.
9.	CG	Landscape setting	<ol style="list-style-type: none"> 1. Unacceptable pressures on the landscape setting around Devizes and on green spaces within Devizes. 2. The strategy should specifically identify green buffer zones where there is a likelihood of distinct communities merging through urban sprawl or linear housing development. 3. Expansion of Devizes is putting pressure on greenfield sites that have no protected status but are vital to the setting of Devizes and the North Wessex Downs AONB. 4. Take account of landscape character, landscape features and seek to create a more appropriate edge to the town 	<p>Add new bullets to para 5.8.5 that highlight the sensitivity of the landscape setting around Devizes, the importance of sites of biodiversity value, the proximity of the AONB and the Avebury World Heritage site.</p> <p>Amend supporting text to recognise that the Devizes Urban Area includes the administrative areas of Devizes town, and parts of Bishops Cannings and Roundway parishes.</p>
10.	CG	Need for an employment allocation	<ol style="list-style-type: none"> 1. Growth in Devizes should be employment led 2. Alternative sites should be considered. 3. Support for the town as a location for strategic employment growth which seeks to further diversify the existing employment offer in the town, ensuring that it remains an area of key economic importance in Wiltshire in the future. 	Retain employment allocation
11.	CG	Employment Allocation, Horton road	<ol style="list-style-type: none"> 1. Site has potential to damage the setting of the AONB. 2. There needs to be a detailed landscape and visual impact assessment of the proposal 	<p>Include all of these issues in a development template for the Horton Road site that is linked to core policy 21:</p> <ul style="list-style-type: none"> • A landscape and visual assessment of the site;

			<ol style="list-style-type: none"> 3. Development should be supported by a development brief prepared before an application is submitted. 4. Concern over where access will be taken from. 	<ul style="list-style-type: none"> • Consideration of the nature of businesses to be provided and the potential for an incubator workspace function; • the impact the development will have on the approach to Devizes from the north on the A361 and east on Horton Road; • proposals to mitigate the impact of the development on the North Wessex Downs AONB and adjoining land uses; and • appropriate points of access to the site.”
12	CG	New strategic allocations	<ol style="list-style-type: none"> 1. Site should be allocated at Hillworth Road (xx homes) 2. Site should be allocated at Coate Bridge (400 homes) 3. Site should be allocated NE of Roundway Park (400 homes) 4. Site should be identified East of Laywood (xx homes) 	Retain proposal for 1730 homes in Devizes and no new strategic allocations.
13	CG	Green space	<ol style="list-style-type: none"> 1. Green open space is recognised as being essential for health and well-being. 2. Devizes now has a very low proportion of such green open spaces. This includes, but is not limited to, public parks, woodland areas, broad roadside verges, allotments and private gardens. 3. Land must be allocated and reserved for such purposes within the strategy 	Add new bullet to para 5.8.5 that recognises the risk to existing greenspace and refers to the role of the Green Infrastructure Strategy.
14	CG	Assize Courts and Devizes Wharf	<ol style="list-style-type: none"> 1. Support proposals for Devizes Wharf 2. Need for action at the Assize Courts 	Amend bullet 3, para 5.8.5 to emphasise the regeneration opportunities at the Assize Courts and Devizes Wharf and refer to the ongoing preparation of a planning brief for Devizes Wharf.

Malmesbury

Theme	Issues Raised	Action / Suggested Changes
Education	<p>1. Malmesbury has a specific infrastructure problem related to primary school capacity and provision in the town. The draft Core Strategy Consultation Document proposed to phase development until after 2016 to enable a solution to be found to the primary school capacity issues in town that did not require children being bussed out to village schools.</p> <p>Further dialogue with the education authority has now provided further evidence and the proposal to phase development until after 2016 is unlikely to make any difference to the primary school issues in the town. Instead alternative solutions to the problem are being sought.</p>	<p>1. Remove reference to phasing development in Malmesbury until after 2016 because of the primary school capacity issues in the town. Suggest the following changes:</p> <ul style="list-style-type: none"> • Paragraph 5.9.3: remove “Therefore, further development will be phased towards the latter half of the plan period in order to address local educational issues associated with capacity at existing schools”. • Remove bullet 1 of paragraph 5.9.4. • Insert the following bullet point into paragraph 5.9.4: “The primary schools in the town are close to capacity. Collaborative working will continue as a neighbourhood plan is produced for the area to ensure that satisfactory solutions to primary school capacity are reached”. • Paragraph 5.9.6: remove “The phasing of some new homes towards the latter half of the plan period also reflects the level of development that has already occurred and will enable a solution to be found to the current capacity issues in primary schools in the town”. • Core policy 13: remove “If new edge of town greenfield development is required, this should be phased and only commence when sufficient provision of primary school places has been forthcoming”. <p>Further work is required with the Education Authority to identify satisfactory solutions to primary school capacity issues over the plan period.</p>
Housing growth	<p>1. The overall housing figure for Wiltshire has reduced (44,000 to 37,000 dwellings) but the figure for Malmesbury town has increased (730 to 760 dwellings) and the figure for the community area has increased (1100 to 1200 dwellings). A number of comments, particularly at the exhibition, requested a more thorough justification for this. Malmesbury seems to have a disproportionate amount of development compared to other market towns.</p> <p>2. Many comments objected to housing growth because it was not felt that appropriate infrastructure is in place or being provided. In particular many comments referred to a lack of primary school capacity in the town and objected to children being bussed out to village primary schools.</p> <p>3. It was suggested that housing development should be phased over three time periods rather than the proposed two (2006-2016 and 2016-2026).</p> <p>4. Housing should be distributed evenly between Malmesbury and the other villages in the area.</p>	<p>1. Justification for the increase in the housing requirement is found in Appendix 4 of Topic Paper 17. Suggest the evidence is reviewed for Malmesbury Community Area, including considering new evidence on infrastructure and whether more development can be allocated to the villages.</p> <p>2. As above.</p> <p>3. Consider whether phasing should change through a review of the housing requirement for Wiltshire.</p> <p>4. As 1 above.</p>
Empty homes	<p>1. There is the perception that there are a high number of empty homes (>100 homes) on the Filands estate. These should be taken account of in calculating the housing requirement for Malmesbury.</p>	<p>1. Whilst empty homes do not fall directly under the remit of spatial planning this issue has been raised numerous times and further work should be carried out to assess the number of empty homes in Malmesbury and what is being carried out to address the issue.</p>

Theme	Issues Raised	Action / Suggested Changes
Non-strategic sites	<ol style="list-style-type: none"> 2. A strategic site should be allocated in Malmesbury. 3. The following sites have been recommended for housing: land at Reeds Farm, land at Park Road, land at Charlton Pk (this could include a new primary school). 4. The following sites have been recommended for employment or leisure use: Charlton Park Estate, Brokenborough Farm, Brook Farm, Hankerton. 	<ol style="list-style-type: none"> 2. A justification was not found for a strategic site in topic paper 14. Confirm that a strategic site is not required in Malmesbury. 2. Non-strategic sites will be taken forward through either the neighbourhood planning process or a site allocations dpd.
Design	<ol style="list-style-type: none"> 1. New housing development must be of high quality design as opposed to the perceived poor quality housing at the Filands Estate. Local materials should be used in new development. 	<ol style="list-style-type: none"> 1. Agree this is a particular issue in Malmesbury. Suggest addition of following text to paragraph 5.9.4 bullet 5: "Future development should be of high quality design and well integrated with the existing built form of the town, including using local materials where appropriate"
Natural environment	<ol style="list-style-type: none"> 1. Reference should be made to taking account of the setting of the Cotswolds Area of Outstanding Natural Beauty. 2. Greater reference should be made to the historic and landscape assets in the Malmesbury Community Area. 3. Account should be had of biodiversity issues related to the River Avon floodplain. 	<ol style="list-style-type: none"> 1. Agree reference should be made to the Cotswolds Area of Outstanding Natural Beauty. Suggest addition of following text to paragraph 5.9.4 as bullet point 5: "In planning for new development consideration must be had to the setting of the Cotswolds Area of Outstanding Natural Beauty (AONB)" NB: There are comments on AONBs in other community areas – other text may be more appropriate to ensure a consistent approach. 2. Suggest addition of following text after the last paragraph of core policy 13: "Development must take account of: <ul style="list-style-type: none"> • The setting of the Cotswolds Area of Outstanding Natural Beauty (AONB). • The historic nature of the town including impact on the Abbey and Market Cross and the setting of the town". Check with the landscape and design team that these criteria provide sufficient detail.
Employment	<ol style="list-style-type: none"> 1. There should be more clarity on the amount of employment land that should be identified in the community area. The level of employment growth proposed is not in line with the level of housing proposed. 2. There should be more clarity on the type of employment that will be provided in the community area. 3. Lucent Park should be identified as a Principal Employment Site. 4. The term 'economic diversification' should be defined. 	<ol style="list-style-type: none"> 1. Further work will be carried out on employment requirements to inform the pre-submission draft Core Strategy. 2. As above. 3. Further work to find out the current status of this site. 4. Further work to provide a definition of 'economic diversification'. Refer to economy workstream.
Transport	<ol style="list-style-type: none"> 1. Further information should be provided on how traffic congestion will be addressed and on the proposed traffic demand solution. 2. Is it realistic to expect the M4 and A429 to bring economic opportunities 	<ol style="list-style-type: none"> 1. Further work to provide some details on the proposed traffic demand solution in the Infrastructure Delivery Plan. Refer to transport and infrastructure work streams. 2. Check with economic development.

Theme	Issues Raised	Action / Suggested Changes
	to Malmesbury.	
Context	<ol style="list-style-type: none"> Reference should be made to the proximity of Cotswold Water Park and RAF Kemble and the economic opportunities this can provide. Reference should be made to the role of Cirencester. The map should more clearly show the built up area that is considered to be Malmesbury town. 	<ol style="list-style-type: none"> Agree. Suggest addition of following text to paragraph 5.9.4 as bullet point 4: "Development that makes use of the economic opportunities that the close proximity to Cotswold Water Park and RAF Kemble bring should be explored". Agree. Suggest addition of following text to the end paragraph 5.9.1: "The community is located at the north of the county and interacts with Cirencester to the north of Wiltshire". Provide a clearer map showing the built up edge of the town.
Spatial strategy	<ol style="list-style-type: none"> The classification of Oaksey as a Large Village should be reassessed. Minety and Upper Minety should be jointly designated as a Large Village. Further work should be carried out on how groups of villages function together, for example, Sherston, Luckington, Alderton and Sopworth. 	<ol style="list-style-type: none"> Reassess role of Oaksey as part of the spatial strategy work stream. Reassess role of Minety and Upper Minety as part of the spatial strategy work stream Refer to the spatial strategy workstream.

Marlborough

Include world heritage site boundary on inset map within community area section (page 85).
Retail	<ul style="list-style-type: none"> Wording relating to retail provision should align to PPS4 and NPPF (sequential approach) 	<ol style="list-style-type: none"> 1. Para 5.10.4 bullet 2 replace, suggested wording – '<u>No further retail provision outside of Marlborough town centre will be supported. Any additional comparison retailing should be located within the town centre of Marlborough.</u>' Add to CP14.
Residential development	<ul style="list-style-type: none"> Inclusion of strategic site 	<ol style="list-style-type: none"> 1. Strategic issue.

Melksham

Theme	Issues Raised	Suggested Changes	Further work needed
Housing numbers	<ul style="list-style-type: none"> Objection to level of development proposed in Melksham: in combination with level proposed in Chippenham and Corsham this leads to a high concentration of development in a small area and will encroach onto small buffer areas between settlements. Objection to extra housing on Greenfield sites. Housing numbers in Melksham are too low (representation from Malmesbury Town Council) There seem to be fewer infrastructure and environmental constraints than those affecting other Market Towns, so level of growth should be higher. Housing numbers in Melksham are insufficient (Braeman Holdings). The number of homes to be provided in the remainder of the Melksham Community Area (110) is not in accordance with the RSS proposed changes and should be reviewed. Housing numbers in Melksham and the rest of the Community Area should be increased, having regard to the latest household projections, to address the affordable housing shortfall and contribute towards improved infrastructure in the town. The remainder to be identified in the rest of the community area (35) is wholly inadequate to meet the needs of the 11 identified settlements. Need to clarify that the housing numbers proposed in 'Melksham town' will apply to the 	<ul style="list-style-type: none"> Add clarification to table 5.19 that the numbers proposed for 'Melksham Town' could also be provided within MWPC boundaries, on land well-related to the town 	<ul style="list-style-type: none"> Comments received to be taken into account in developing housing numbers for submission draft. Housing figures to be updated to take account of latest available information (e.g. on East Melksham Strategic Site). Consider assessing Bowerhill and Berryfield through settlement strategy methodology (see below) and

Theme	Issues Raised	Suggested Changes	Further work needed
	<p>Melksham urban area, which includes areas within the Melksham Without Parish Council boundaries.</p> <ul style="list-style-type: none"> The text and table of housing numbers should be updated to reflect the increase in the overall number of dwellings to be provided at the East Melksham Strategic Site. Table 5.19 should make it clear if the 'Melksham Town' housing numbers are also intended to cover Bowerhill and Berryfield. 		<p>identify as appropriate. This should make it clear that 'Melksham Town' numbers do not apply to these settlements.</p>
Settlement strategy	<ul style="list-style-type: none"> Errors in assessment of Keevil for settlement strategy. Bowerhill should be identified as a large village or local service centre, and Beanacre and Berryfield should be identified as small villages. These three settlements are all distinct communities, and should be recognised as such. Shaw and Whitley are linked with shared facilities and should be considered together. Taken together they should be in the large village category. 	<ul style="list-style-type: none"> Amend map 5.14 to remove Bowerhill and Berryfield from the depiction of the 'urban area' of Melksham 	<ul style="list-style-type: none"> Review assessment of Keevil based on representations received Review appropriate classification of Bowerhill, Beanacre and Berryfield Consider assessment of Shaw and Whitley as linked settlements rather than separately
Infrastructure	<ul style="list-style-type: none"> Maintenance and enhancement of rights of way and cycle networks should not only be in the town, but also links from the town to rural villages. Text is unclear as to the sustainable transport provision which will support growth in Melksham. Map should be added. Request for better shelter for passengers at Melksham station Request for passing loop at Melksham station so line can accommodate additional freight as well as more frequent passenger trains A credible TransWilts train service could be part of improved public transport connectivity Cannot achieve an increase in road network capacity by traffic demand management alone. There should be a commitment to establish a transport hub at an improved rail station to tie in improvements to rail and bus services. There should be a requirement for developers to provide light industry/business start-up units as part of their development levy, thus creating a direct link between the development of dwellings and the level of employment. Need to upgrade the A350 Need to have regular cross Wiltshire rail services Need more clarity as to what will be delivered in terms of transport (e.g. details of the demand management solution, public transport, cycle network). More detail needed on aspiration to improve Melksham Railway Station and services. Shortage of A&E and inpatient care in Melksham, Chippenham and Trowbridge areas. Concern about congestion on A350 from ASDA roundabout up towards Beanacre. Need to improve bus services from Bowerhill to town centre if building employment development at Bowerhill/Hampton Park. Demand management measures are not and will not work – more needs to be done to address existing and planned commuter flows. Highway 'demand management and containment' needs to take place before any future 	<ul style="list-style-type: none"> Amend point 4 of 5.11.7: "Maintenance and enhancement of rights of way and cycle networks both within the town and between the town and rural villages" 	<ul style="list-style-type: none"> Review list of infrastructure requirements in light of comments received and IDP consultation responses Review text on demand management solution to increase road network capacity, depending on details of this set out in IDP

Theme	Issues Raised	Suggested Changes	Further work needed
	<ul style="list-style-type: none"> development Minor Injury Unit is needed 		
Economy	<ul style="list-style-type: none"> Town Council supports identification of Melksham as location for strategic employment growth Link road between the A350 and Bowerhill industrial estate is key factor in promoting additional employment opportunities (Town Council). Concern that development strategy for Melksham is a work in progress, particularly with regard to identification of employment land, as only 4 ha identified Wiltshire Workspace and Employment Land Strategy recommends that 12.6 ha of employment land should be provided in Melksham – why is only 4 ha identified? Concern about small amount of employment land identified – not enough and not in line with neighbouring settlements All existing land used commercially should be protected for employment uses Cooper Tyres site in town centre should be protected for employment use Concern that allowing employment development towards the east of Melksham is as likely to attract workers from Trowbridge as from Melksham Concern about lack of substance as to how Wiltshire Council will develop employment. Further strategic employment land should be allocated to the south of Melksham, with good access to the A350. 7.5 ha site at Upside Park is unsuitable for development solely for employment purposes: designation as Principal Employment Area should be deleted or amended to mixed use. Objection to more employment as this will generate more heavy traffic, and the traffic strategy outlined is insufficient to cope with this. Question about type of employment to be provided. Emphasis should be placed on regenerating established employment sites prior to new development Detailed comments from MWPC (in response to Wilts 2026) on where employment development will/will not be appropriate. 	<ul style="list-style-type: none"> Add to list of issues in para 5.11.4: “The regeneration and improvement of existing employment sites such as the Bowerhill Industrial Estate”. 	<ul style="list-style-type: none"> Consider adding further detail about potential link road between the A350 and Bowerhill IE. Identify further employment sites in Melksham (taking into account comments received) if the new employment study indicates that further sites are needed. Review approach to protection of employment sites in Melksham (including Principal Employment Areas) in light of statements in draft NPPF. Add indication of types of employment development which would be appropriate, depending on outcomes of recent research.
Strategic sites	<ul style="list-style-type: none"> Concern that no strategic housing/mixed use sites are identified in Melksham, including: <ul style="list-style-type: none"> Concern from Melksham Town Council that this leaves areas vulnerable to exploitation by developers Concern from landowners that lack of strategic site and lack of identification of appropriate location for development leaves the impression that the council is not quite sure what it wants to see at Melksham Request from Melksham Without Parish Council to inform which areas are intended for development. The lack of a strategic housing site will fail to meet the housing land availability targets set out in the draft NPPF There is no clarity in Core Policy 15 as to whether acceptable future growth will include land adjacent to the existing settlement boundary. More guidance would be helpful on proposals for new residential development: e.g. setting out a sequential approach to redevelop brownfield sites in the town centre in the first instance, followed by more peripheral sites with strong transport links to the town. Need some guidance on where more housing would be acceptable (e.g. to help deliver Eastern Bypass) Land north of the A3102 should be identified as the next logical site to continue expansion 	<ul style="list-style-type: none"> Strengthen text of CP15 to make it clear that any large housing sites will need to be identified through a NP/DPD (i.e. lack of strategic site is not open invitation to developers) 	<ul style="list-style-type: none"> Consider possibility of identifying strategic site at Melksham, and consider all reasonable alternatives if it is decided that a strategic site should be identified If a strategic site is not identified, consider strengthening text of Community Area Strategy to provide a clearer strategic framework for subsequent NP/DPD (e.g. list of requirements for development, including preservation of historic setting of the Spa, protection of open land between Melksham and

Theme	Issues Raised	Suggested Changes	Further work needed
	<p>of the town</p> <ul style="list-style-type: none"> • A strategic site should be identified to the south of Melksham • The Highcroft Farm site (8.98 ha immediately to the south of Melksham town boundary) should be included in Core Policy 15. • Land to the north of the A3102 (Sandridge Common) should be allocated for future development in Melksham. • The potential to enlarge the East Melksham Strategic Site to the south should be investigated. This would offer the opportunity to secure key highway and sustainable linkages at Melksham. • Development on the other side of the A3102 is an obvious logical progression from the east of Melksham and could help finance more of a future Melksham Eastern Bypass. • Detailed comments from MWPC (in response to Wilts 2026) on where housing/mixed use development will/will not be appropriate. 		<p>Bowerhill, etc). Also identify broad area of search – e.g. identified sites must be well-related to Melksham town.</p>
<p>Wilts & Berks Canal</p>	<ul style="list-style-type: none"> • The Town Council supports the restoration of the Wilts & Berks Canal in principle. • A number of respondents indicated that the Melksham Canal Link Project should be part of the plan and/or there should be policy protection for the proposed route • There should be a specific policy commitment to the development and regeneration of the Wilts and Berks Canal • Land use in the canal corridor (along the proposed new Melksham Link route) should be considered as an opportunity for enabling development. • The council should recognise that the canal restoration will only be achieved through enabling development. • Melksham Without Parish Council supports restoration of the canal, but wants assurances that the canal development will not be permitted to have a detrimental effect on existing activities and facilities along its route and will not be allowed to encourage inappropriate development in the countryside, the loss of higher grade land from agricultural use or the coalescence of communities. • The restoration of the Wilts & Berks Canal will: contribute to extension of rights of way and cycle networks; provide stimulus for sympathetic river frontage development; provide public access to both banks of the river within the town; reinvigorate Melksham; stimulate the economy and provide a living visitor attraction. • The Environment Agency states that the restoration of the Wiltshire and Berkshire canal will need to consider environmental impacts and emphasises that there is a large amount of work to be undertaken to establish the potential environmental risks/ barriers, including assessing the potential impact on Water Framework Directive issues, such as water abstraction, water quality, biodiversity, as well as flood risk issues. 		<ul style="list-style-type: none"> • Possibility of protecting the proposed route of the Melksham Canal Link project to be considered through GI Topic Paper. New policy? • Specific reference to be made to environmental risks/barriers when drafting policy relating to the canal link, or references to be added to text if policy is not added • Sites along the proposed canal route to be considered through site selection process if it is considered that a strategic site should be identified for Melksham.
<p>Town centre regeneration / town plan</p>	<ul style="list-style-type: none"> • A Town Plan for Melksham should consider land use and regeneration opportunities in the River Avon corridor • The council should emphasise the link between the canal and regeneration, especially where it will bring additional tourist traffic and general interest, together with an improved environment, to the centre of the town alongside the River Avon. • Wiltshire Council should encourage Melksham Town Council and Melksham Without Parish Council to prepare a comprehensive Town Plan • Suggestion from the Environment Agency that a Melksham Town Centre Area Action Plan could be produced, incorporating the Wilts & Berks Canal proposals. • Paragraph 5.11.6 could be split into two statements, one focussing on regenerating Melksham Town Centre and the other focussing on the restoration of the Wilts and Berks 	<ul style="list-style-type: none"> • Amend first sentence of para. 5.11.6: "Regeneration of Melksham Town Centre is a priority, and this should include a focus on improving the setting of the historic environment and maximising opportunities for regeneration of the River Avon corridor". 	<ul style="list-style-type: none"> • Add references to links between the canal and regeneration when redrafting text to take account of possible new canal link protection • Add specific reference to canal in context of the Town Plan

Theme	Issues Raised	Suggested Changes	Further work needed
	<p>Canal.</p>	<ul style="list-style-type: none"> Amend 2nd sentence of para. 5.11.6 to state: "The preparation of a 'town plan', which could be adopted as a supplementary planning document (SPD), or other similar document (e.g. a neighbourhood plan), may offer an opportunity to assist in the delivery of town centre regeneration, and will be supported by the council. It will be important that both Melksham Town Council and Melksham Without Parish Council are fully involved in this process". Split para. 5.11.6 to create separate para. about the canal. 	
Lacock	<ul style="list-style-type: none"> Core Policy 15 should make reference to Lacock. If the homes proposed for Melksham are provided to the east of the town there is a strong possibility that they will exacerbate the current traffic problem in the Lacock area. 	<ul style="list-style-type: none"> Add reference in CP15 to the need for a Transport Assessment for certain proposals (as set out in the Local Validation Checklist), and that this should include consideration of traffic impacts in the wider area, including nearby villages such as Lacock 	
Retail	<ul style="list-style-type: none"> Primary Retail Frontage should be redefined to include Sainsbury's. Smaller towns such as Melksham should not be held back, from providing retail opportunities needed for their residents in preference to the larger towns of Chippenham, Trowbridge and Salisbury. Larger and medium sized retail units needed in town – larger units could encourage companies such as Wilkinsons and Currys to come to the town. Needs to be a concerted effort to expand Melksham's retail base, possibly through getting rid of the old 60s Avon Place Precinct and replacing it with fewer, larger units. Need for more balance within the retail base: current imbalance with a plethora of takeaway food outlets and "cheap" shops but very few essential quality retail outlets such as a shoe shop, a men's clothing shop or a bookshop. 		<ul style="list-style-type: none"> Consider through retail topic paper.
Transport	<ul style="list-style-type: none"> Should include specific mention of the need for a much improved railway station. Question about timescale for provision of link road between A350 and Bowerhill Industrial 	<ul style="list-style-type: none"> Add to list of issues in para. 5.11.4: "The need to improve 	<ul style="list-style-type: none"> Consider adding further detail about potential link road

Theme	Issues Raised	Suggested Changes	Further work needed
	Estate.	public transport provision, including improving the railway station and increasing the frequency of train services”.	between the A350 and Bowerhill IE.
Phasing of development	<ul style="list-style-type: none"> Concern that existing housing allocations should be given time for consolidation (originally raised by Melksham Without Parish Council in response to Wiltshire 2026 consultation, but MWPC requested that these comments should be read alongside more recent representations). 		<ul style="list-style-type: none"> If no strategic site is to be identified in Melksham then consider adding phasing requirement, with development to be provided towards the end of the plan period (2016 onwards)

Tidworth and Ludgershall

Theme	Issues Raised	Action / Suggested Changes
AONB	1. No reference to the setting of the AONB in the core policy or in regards to Drummond Park allocation.	Insert reference to setting of the AONB and allocations at Ludgershall in 4 th bullet of specific issues. Or, insert reference in 2 nd paragraph under table 5.22
Spatial Strategy/Settlement Strategy	1. 'Everleigh should be added to the list of small villages in the Tidworth Area.'	1. Investigation shows that some information is incorrect for Everleigh and it should be included in list of small villages.
Transport	<p>1. The lack of major highway infrastructure work needs to be addressed urgently with a bypass or link road to alleviate traffic from High Street, Castle Street and Butt Street.</p> <p>2. Ludgershall's Memorial Junction is nearing capacity the only way to resolve the problem is to provide a second road that runs parallel with the existing A342 or a bypass for the town.'</p>	Provide these comments and detailed work from Georgia Developments to Highways for comment as to whether there is a strategic highway issue that needs to be resolved.
Drummond Park	<p>1. Issues with site boundary at Drummond Park extending beyond current application site.</p> <p>2. The current solutions that have been provided for the Memorial Junction are also not acceptable.</p> <p>3. MoD response has indicated that some parts of the site may not be available.</p>	Remove section to the northeast of A342. Contact MoD (landowner) and Network Rail to ensure that the extended site is available and to investigate whether a secondary access could be provided if necessary. (See 3 above)
Water Cycle Study	1. No mention of the need to consider foul and surface water disposal and water cycle study. This, along with water supply needs to be identified as it is a possible constraint.	Include a water cycle study in list of infrastructure requirements. This is noted in current site proformas.
Sewage	'Southern Water owns and operates Ludgershall Wastewater Treatment Works (WWTW), which is located approximately 1.5 km southeast of Drummond Park.'... 'Drummond Park is located within the Veolia inset appointment in this area. The next periodic review is in 2014 to cover the investment period 2015 to 2020. The earliest possible date by which additional capacity could be delivered to serve Drummond Park is 2017.'... 'There is also limited sewerage capacity in the catchment to convey wastewater from new development to the WWTW. If Drummond Park is proposed to	Contact Veolia and Drummond Park landowners (Zog & MoD) to check both dates and sewage and wastewater connection plans & details.

Theme	Issues Raised	Action / Suggested Changes
	connect to Ludgershall WWTW, an assessment would need to be carried out to establish the impact of additional flows on the sewerage system, and/or the possible route of new infrastructure.'	
CP17	This policy (<i>Core Policy 17</i>) makes no reference of proximity to settlements. Proposed Policy 24 does not comply with Core Policy 17. Any redevelopment of MOD sites will come forward with appropriate community consultation. The needs of the wider community shall be fully considered, however, the operational requirements of the MOD, or Treasury Rules regulating disposal of sites, shall be of paramount importance.	Include reference to proximity to identified settlements when referring to prioritisation of brownfield land in CP17.

Trowbridge

Theme	Comment	Action / Suggested Changes
CP6 General	The policy is considered to be a little vague and the map not easy to decipher. Consideration is needed for strengthening the wording of the policy.	Agreed/ amend as indicated.
CP6 Education	It should be more clearly stated where the proposed new secondary school is to be located.	Agreed/ amend as indicated.
CP6 Wildlife	Consideration is needed for adding further reference to the importance of the River Biss corridor and the Biss Meadows Country Park.	Agreed/ amend as indicated.
SO1 Housing Numbers	The level of housing growth should be reviewed in the light of changes to national policy and updated accordingly.	Agreed/ action as indicated.
SO8 Transport	Consideration is needed for why Park and Ride facilities are not considered appropriate in Trowbridge	Agreed/ action as indicated. Wiltshire Council Highways Officers have confirmed that Trowbridge is simply not a large enough settlement for park and ride to be a viable option. A transport strategy for Trowbridge is however being developed and will include a comprehensive suite of measures to tackle traffic issues in the town.
SO7 Retail	Consideration is needed for updating the Primary Retail Frontage to incorporate the recently constructed Sainsbury's.	Agreed/ action as indicated. Action for Retail Topic Paper
Hilperton	Consideration is needed to identify the most appropriate approach to protecting the separate identity of Hilperton.	It is considered appropriate to classify Hilperton as a 'large village' which will ensure it is afforded the same level of protection from development as for any other village identified in the WCS. Amend classification for Hilperton.
Housing Requirement	A review of the housing requirement for the villages in the Trowbridge Community Area should be undertaken.	Agreed/ action as indicated.

Infrastructure	The need for extra child care provision in West Ashton should be reviewed.	Agreed/ action as indicated.
Maps	The maps of proposed development should also include any planned development with permissions including for employment as well as for housing.	Agreed/ action as indicated.
Southwick country park	Southwick Country Park is a valuable asset and is instrumental in providing a green buffer between Trowbridge and Southwick and should be referred to in the Core Strategy securing its future and protecting it as an important green buffer.	Agreed/ amend as indicated.
Design	We believe that a further point needs to be added about the quality of design of housing. Developers should be required to adhere to the "Trowbridge style" of brick and stone, varied roof lines and where possible, chimney stacks (used as air conditioning vents). A good example is the recent development at Timbrell Street/Prospect Place, compared with the very poor design at British Row - close to Sainsbury's store.	The comment about the need for high quality design is noted and the proposed policy approach to address this matter will be reviewed.
	The deliverability of the West Ashton site allocated in the district plan in the short term should be reviewed with appropriate amendments made to the WCS.	Agreed/ amend as indicated.
Hilperton relief road	The Hilperton Relief Road should be referred to in the text and annotated on the appropriate map.	Agreed/ amend as indicated.
Electricity supply	Consideration for electricity power lines is needed in relation to the proposed strategic site.	Noted. Ensure this matter is addressed through the master planning for the proposed strategic site.
Areas liable to flood	We would recommend this policy reiterates the point that development must ensure layouts of housing or employment land avoid the higher flood risk areas associated with the River Biss and tributaries crossing the site. We also note biodiversity improvements to the River Biss will be made and we therefore support Core Policy 7 regarding development and protection of migratory corridors, which should also relate to watercourses. It is currently not totally clear in this policy that that is the case; hence we recommend this latter point is made clearer in the policy.	Noted. Consideration will be given to amending the policy wording to reflect the points raised.
Additional site	Consideration should be given to including SHLAA site 292 in the WCS.	To consider site as part of the review if the strategic sites.
National policy	A review of the housing requirement is needed which is up to date with emerging national planning policy.	Agreed/ action as indicated.
Additional site	Consideration should be given to including SHLAA site 613 in the WCS.	To consider site as part of the review if the strategic sites.

CP8 Viability	Add clear reference to the map to the Trowbridge Energy Network feasibility study.	Agreed/ amend as indicated.
---------------	--	-----------------------------

Warminster

Theme	Comment	Action / Suggested Changes
CP18 Non Strategic Sites	Ensure 44/48 Bath Road is included in the review of the strategic site	Agreed/ action as indicated.
CP18 Non Strategic Sites	Ensure land at Folly Lane is included in the review of the strategic site	Agreed/ action as indicated.
CP18 Non Strategic Sites	Ensure land off Victoria Road is included in the review of the strategic site	Agreed/ action as indicated.
CP18 Landscape	Consideration should be given to whether Cley Hill should also be mentioned in the text.	Agreed/ amend as indicated.
CP18 Strategic Site	Reference to CP 44 should be updated to read CP51.	Agreed/ amend as indicated.
CP18 Strategic Site	Revise details relating to FRA requirements during master planning process.	Agreed/ action as indicated.
CP1 Settlement Hierarchy	The wording of CP 1 should be reviewed to consider adding greater flexibility for development adjacent to the policy limits where appropriate.	Agreed/ action as indicated.

Westbury

Theme	Comment	Action / Suggested Changes
CP19 Transport	Changes are required to reflect the wider detail of the issues facing Westbury associated with traffic/ congestion.	Agreed/ some additional reference can be added – however this will be addressed through the recognition that additional work is needed as below.
CP19 Transport	The need for further work to identify long terms approaches to mitigating traffic issues	Agreed/amend as indicated.

	in Westbury should be added.	
CP19 Transport	Consider adding reference to a development brief being prepared for Station Road to include the need for a new road junction and connection to Mane Way.	Agreed/amend as indicated. Consideration should also be given to this site being classified as strategic to improve deliverability. To be considered through the review of strategic sites.
CP19 Landscape	Ensure landscape/ environmental matters are reviewed as part of the master planning process for the strategic site.	Agreed/ action as indicated.
CP19 Strategic Site	The policy wording should be amended to specify more clearly what type of employment uses would be appropriate on the strategic site, i.e. high quality office development.	Agreed/amend as indicated.
WCS General	There is a need to provide improved maps and also a clear statement about town/ village policy limits.	Agreed/ action as indicated.
WCS General	Consideration should be given for presenting additional detail about how neighbourhood plans would be brought forward.	Agreed/ action as indicated.
Parking Charges	The impact of parking charges on town centre businesses should be raised with the appropriate council department.	Agreed/ action as indicated.

Royal Wootton Bassett and Cricklade

Theme	Comment	Action / Suggested Changes
Spatial Strategy / Settlement Strategy	<ol style="list-style-type: none"> Lydiard Millicent should be defined as a small, NOT large village. Purton has all the necessary services and facilities to be a Local Service Centre. Bradenstoke should be considered as a large village 	<ol style="list-style-type: none"> Review designation. Consider change to small village. Disagree, but we should check criteria / justification at Core Policy 20 page 29) and review as this point is likely to be challenged. Tend to disagree, but review designation at Core Policy 20 page 29) and consider change.
Rural Buffer	<ol style="list-style-type: none"> Need a firm rural buffer between Swindon and Purton to prevent coalescence between Swindon and outlying settlements. The various settlements in the CA all have their own individuality and character. This needs to be protected, especially against growth from Swindon. 	<p>There is a great deal of concern over this point and we need to respond.</p> <p>1 and 2.</p> <p>.a. Strengthen Core Policy 34 – Landscape at point iii. ‘iii. the separate identity of settlements and the transition between man-made and natural landscapes at the urban fringe, particularly in relation to Swindon and the outlying Wiltshire settlements.’</p> <p>b. Amend paragraph 6.5.7; ‘This is particularly the case at Salisbury, Chippenham, Trowbridge and between Swindon and the neighbouring Wiltshire settlements.’</p> <p>c. add reference to these text points at the end of the last bullet point in 5.20.5.</p>

Theme	Comment	Action / Suggested Changes
		<p>...and will be taken forward by appropriate and strong policy mechanisms (see Core Policies 33 (especially paragraph 6.5.7) and 34).</p> <p>d. Add to 5.20.6 'The separate identity of Wootton Bassett, Cricklade and the smaller towns and villages, especially those closest to Swindon will have been maintained and enhanced...'</p>
Village Boundaries	Need to relax these to allow limited development adjacent.	Consider approach.
Relationship between Cricklade and Wootton Bassett and villages	<ol style="list-style-type: none"> 1. Emphasis in the CS is on Wootton Bassett at the expense of Cricklade and the rest of the Area Board Area. 2. Why are WB and Cricklade in the same area? They are different. 3. Voices of the villages not being heard 	<ol style="list-style-type: none"> 1 and 2. Need to explain / justify this in order to answer this long term complaint. Add line after first line of 5.20.1; 'The community area is located in the north-east of Wiltshire and contains the historic market towns of Wootton Bassett and Cricklade. Although of differing size and character, both settlements are at the heart of a coherent community area, not least because of the relationship they all have with their much larger neighbour, Swindon'. 3. Add line to end of 5.20.2 'The area also contains numerous villages with varying local character and needs'.
Transport	<ol style="list-style-type: none"> 1. Lack of any apparent overall transport plan 2. Need to improve rural transport 3. Need to tackle traffic and congestion problems – rural 'rat runs'. 4. Congestion in Cricklade – especially HGVs. Bypass Cricklade. 5. Congestion in WB. Bypass Wotton Bassett 6. Junction 16. Concern at capacity issues. Swindon's proposed alterations to the junction are not considered to be a good way forward. 7. Re-open WB rail station - feasible as a result of main line electrification." 8. Support sustainable transport - protection for the proposed route of the Swindon & Cricklade Railway from Mouldon Hill to Moredon Bridge junction with the Swindon to Gloucester railway line. 9. We would look for the Cricklade Country Way, namely the railway and the canal to have a protected corridor to the west of the town of Cricklade to allow expansion north of the town. 	<ol style="list-style-type: none"> 1, 2 and 3. Policies 42 on > (SO 8, paragraph 6.8, page 157) do not specifically mention transport issues in rural areas and how these might be tackled. Consideration should be given to making good this apparent omission, possibly by an extra bullet point in Core Policy 43. 'that the proposal attempts to address specific rural transport issues such as speed, congestion and vehicle width / weight where applicable.' Consider acknowledging rural issues such as those above in Core Policy 47. 4 and 5. Consider adding references to the proposed bypass schemes (or at least the issues of Wiltshire's smaller congested towns) in paragraph 6.8.19 (Strategic Transport Network) 6. Expand on latest development in this issue at 5.20.9 7,8 and 9. Consider responding to these issues in text at 5.20.9.

Pewsey

Theme	Issue(s) Raised	Action / Suggested Changes
<p>Vehicle movement</p>	<ul style="list-style-type: none"> • Traffic congestion • A346 	<p>2. Include specific reference to the A346. <p>Drafting errors</p>	<ul style="list-style-type: none"> • Reference to 'town' 	<p>1. Change town to <u>village</u> para. 5.13.3 and para. 5.13.3 bullet 1.</p>

Appendix 12 – Summary of comments received after the consultation

Appendix 12:

Summary of comments received after the close of consultation

Name	Summary of comments re Coate Bridge developer proposal
Brookes, Anna	I object to the proposed development of 400 homes by MacTaggart and Mickel on the land bordering Coate Road in Devizes Wiltshire. It will increase the amount of traffic on roads which can barely cope with the current volume. Wiltshire Council is already in breach of EU regulations regarding air pollution in Devizes and the increase in traffic is going to have a serious impact on air quality. Devizes does not have the road infrastructure, schools or medical facilities to cope with an increase in population by approximately 10% and as there are no prospects of increased employment opportunities in Devizes most of the occupants of these new houses will have to commute outside of the town for work
Devizes Community Area Planning Partnership	The DCAP Housing and Built Environment group are most concerned that the Core Strategy Consultation process has been used by developers to promote new developments. Windsor Drive defines Devizes' eastern boundary and that all land to the east of this road is, and should remain, countryside. DCAP also considers that farmland to the north of the current Quaker's Walk development should also be included as countryside adjoining Devizes. . Large scale development before there is a significant increase in employment opportunities is likely to increase commuting to Swindon. Housing solutions that avoid the use of the A361 are essential if air quality is to be permanently improved and concerns about traffic congestion addressed. Any development near Coate Road or Quaker's Walk either falls foul of the need to reduce traffic on London Road or will lead to the undesirable commuting to Swindon.
Gough, Josephine	I am writing to express my objections to the proposed development of greenfield land along Coate Road/ Windsor Drive in Devizes. Devizes does not have the infrastructure, jobs or local facilities to accommodate more housing. Also the area for the proposed development has varied wildlife including Barn Owls, Little Owls, Badgers and many small birds which would lose their natural habitat.
Guinn, Mrs Jennifer	I write to STRONGLY object to the proposed development at Coate Bridge. The London Road is at saturation point and to my mind this development will also make Windsor Drive a rat run. In my opinion the Council need to look at the problem with the pollution aspect and the infrastructure of Devizes before any agreement for future housing.
Helm, Pat and Denis	Devizes already has enough new houses and the London Road can't cope with the present traffic. 400 more homes at Coate Bridge will add to the already high air pollution.

<p>Hillier, Mr Ben</p>	<p>I would like to raise a strong objection to the proposed development of 400 houses in Devizes, along Coate Road at the bottom of Windsor Drive. I understand there is a need for new houses but strongly feel that this would be the wrong place/development. Devizes already has inadequate roads to meet the population, adding over 500 cars to the town would significantly increase this, causing visitors to avoid the town, huge congestion issues for the residents of the town, and very worrying health issues. Wiltshire Council is already in breach of EU regulations over air pollution from traffic in Devizes. Other issues are lack of jobs, pressure on schools, lack of medical facilities. If more houses are needed in Devizes, surely it would be better to build them in smaller numbers on brownfield sites.</p>
<p>Knight, Mr Tristan</p>	<p>Devizes simply cannot accommodate the increased burden of 400 houses and the associated plethora of socio-economic / transport challenges that come with such extensive development as proposed at Coate Bridge. An additional 400 houses would require significant investment in the woefully inadequate roads and community infrastructure surrounding Devizes.</p>
<p>Lewis, Miss Kate</p>	<p>My name is Kate Lewis, I am 11 years old and I live on Windsor Drive in Devizes, near where you are planning to build some new houses. I emailed to tell you why I am against this. Coate Road is lovely, my dad and I often cycle down there to the farm to get our sausages but new houses would spoil the view completely. A fabulous place would be turned into another identical estate like the others that we already have here in Devizes, adding probably another 1,000 people to our population and over 500 cars to our already very busy roads, meaning there will probably be mayhem towards the bottom of Windsor Drive. I think that until measurements are in place to bring the air pollution in Devizes to legal limits, no more housing developments should take place. I also think that before any more houses are built, better local provision is in need, patients are facing a 40 mile trip to Swindon Hospital, and when there is a life or death emergency that is too far to travel. Is there room for so many more children in our schools? There have been so many new houses in Devizes recently, does there need to be anymore?</p>
<p>Morrice, Mrs C</p>	<p>I wish to oppose to the proposed building of 400 houses on the land surrounding Coate and Nursteed Road. This development will have a huge impact on the surrounding infra structure which is incapable of dealing with the increased population already. The nearest hospital is approximately 20miles away. Schools are full; the rush hour traffic is backed up London Road in both directions. Already the pollution in Devizes is above the legal limits with consequential effects on health. Not to mention the spoiling of a beautiful part of the town. Having seen Little Owls, deer and nesting buzzards in this area, how do the developers propose to integrate the need for wildlife habituation and protection as it is near a boundary of Outstanding Natural Beauty.</p>

<p>Pilgrim, Mr Jeremy</p>	<p>Unfettered building on greenfield sites will be disastrous to the quality of life in this country. The road network through Devizes has been neglected for years and it is already inadequate for the existing amount of traffic, notably at peak times. Additional homes will make this worse. Air pollution is already at illegal levels according to EU regulations. This will be exacerbated by this development, and indeed any other housing development in Devizes. Additional school places and new medical infrastructure would be needed. Since its construction, Windsor Drive has been regarded as a reasonable limit for the urban development of the town of Devizes, and building on this particular site will open the floodgates for a ribbon of further urban sprawl along the eastern side of Windsor Drive round to Nursteed. Strongly recommend that the Council should not approve any new housing development in Devizes generally and this site in particular, until the air pollution problem has been resolved and a development plan for Devizes has been drawn up and approved including improvements to all relevant areas of infrastructure. Also comments on the principle that simply delivering more houses is not the answer to providing homes for young people that they can afford or providing an impetus to the local economy (especially as contractors could be brought in from Scotland).</p>
<p>Pull, Jane and Dave</p>	<p>Both my husband and myself strongly object to Coate Bridge proposal. We have no Police Station, no Hospital the roads are so congested through Devizes that it is a nightmare from getting to one side of town to the other. There is little work available. Nothing could be worse for the town than this proposal. Also these are green fields that people are wishing to build on.</p>
<p>Russ, Zena</p>	<p>Housing within Devizes has expanded hugely in recent years but no expansion of services or transport provision. Very little change in the road networks, the schools, the medical provisions or the shopping facilities over this period of time. We have lost our local hospital, the schools are over-crowded, the doctor surgeries have not been enlarged, the shops available are limited. Devizes struggles in rush hour now, it will definitely not be able to cope with the extra vehicles that these new residents will probably have. Local employment is another issue.</p>
<p>Smith, Jamie</p>	<p>I wish to strongly object to the proposed 400 houses on the Coate Road in Devizes. This is totally unacceptable for many reasons, air pollution, traffic problems, lack of facilities e.t.c.</p>
<p>Sutherland, Mrs Christine</p>	<p>I am writing to protest most strongly against the proposed building of 400 houses on the Coate road Devizes. This will cause even more problems on the London Road in Devizes. There are reports in the local press about air pollution, and more houses and traffic will add to this. Building on the Coate Toad will destroy yet more hedgerow and wild life habitat.</p>
<p>Thomas, Mr Andrew</p>	<p>I am writing to voice my concern about proposals announced by the developers Mactaggart and Mickel to build 400 new homes on a site along Coate Road and the bottom of Windsor Drive in Devizes. There are a number of reasons for my concern: strain on the transport system; an increase in population without large investment in new public facilities would impact on the quality of life of current Devizes residents; local schools at capacity; doctors over subscribed; waiting lists for NHS dentists; lack of economic demand; increase incommuting; pressure on the police service; loss of wildlife habitat and greenfield land. .</p>

<p>Trust for Devizes</p>	<p>Several developers have clearly indicated intentions for significant developments in Devizes, namely:, Merchant Venturers have submitted a planning application for a new residential complex for elderly people at Quakers Walk; Merchant Venturers have proposed that a site to the north east of Roundway Park should be included in the Core Strategy as suitable for around 400 houses; MacTaggart and Mickle, has consulted on a proposal to develop around 300 houses near Coate village. Such proposals raise a number of concerns including a need for essential infrastructure; planned infrastructure such as cyclepaths and footpaths connecting to the centre of town and greenspaces; doctors, dentists, recreation space and community centres; additional local jobs and affordable housing; and the need to address air pollution from traffic congestion; improve community well being; and better design.</p> <p>In relation to the Merchant Venturers proposal at NE Roundway Park, the concerns are that it would create an extension to unbroken urban sprawl, it would add to traffic problems, it would be particularly visible from the high ground in the adjacent AONB to the detriment of the AONB. Traffic will have to use the already overloaded London Road for access to the town and for journeys to the west.</p> <p>In relation to the proposal for development in the Coate area it would also extend the Devizes urban sprawl and merge of communities. There is a natural boundary for Devizes at Windsor Drive and green areas beyond that should be preserved. This area is also potentially visible from the AONB to the detriment of views. Again traffic would use the London Road adding to the already serious congestion.</p>
--------------------------	---

E-petition

In addition to the above individual comments an e-petition signed by 103 people was received together with a paper petition signed by 125 people objecting to the alternative allocation proposed to the North East of Roundway Park. It states ‘We, the undersigned, object to the Society of the Merchant Venturer’s proposal to include the field to the North East of Roundway Park as a Strategic Site for housing development in the Wiltshire Core Strategy for 2026.’ (For more details on the e-petition follow the web link below +web link from e-mail).

<http://cms.wiltshire.gov.uk/mgEPetitionDisplay.aspx?ID=28&RPID=4600011&HPID=4600011>

Devizes Area Board

At the Devizes Area Board meeting on the 28th November 2011 a motion was submitted concerning the proposed sites at Coate Bridge and NE Roundway Park. The meeting made the following resolutions:

Members of public at the meeting expressed firm opposition to any development by Mactaggart & Mickel, or any other developer, on the site at Coate Bridge in Devizes.

Members of public at the meeting expressed firm opposition to any development by the Merchant Venturers, or any other developer, on the site at Folly Road in Devizes.

Appendix 13 – Overview of policy changes

Appendix 13: Overview of main changes to policies in the Wiltshire Core Strategy Consultation Document

The table below indicates how policies have changed as a result of consultation and signposts where the policy can be found in the Wiltshire Core Strategy submission document

Policy no. consultation document	Policy name	Changes	Policy no. submission draft
CP1	Settlement strategy	Amended policy to ensure that there is no confusion regarding which policy sets out what. New policy simply states the settlement strategy and the specific settlements which fall within each category. Specific details relating to the type and scale are now presented within core policy 2.	CP1
CP2	Delivery strategy	Policy has been revised to clearly present the type and scale of development appropriate within the different tiers of settlements identified. Housing requirement expressed as a minimum not maximum. Reference to phasing removed. All strategic allocations are now listed in the policy with links to development templates in an Appendix to the plan that provide more detail on how the sites should be developed.	CP2
CP3	Infrastructure requirements	Supporting text and policy amended for clarity	CP3
	Spatial strategy - Amesbury CA	Introduced from South Wiltshire Core Strategy	CP4
	Porton Down	Introduced from South Wiltshire Core Strategy	CP5
	Stonehenge	Introduced from South Wiltshire Core Strategy	CP6
CP4	Chippenham central area	No change	CP9
CP5	Spatial strategy - Chippenham CA	Sites at north Chippenham (750 dwellings/2.5 ha employment), east Chippenham (700 dwellings/6ha employment) and south-west Chippenham (800 dwellings/18ha employment) confirmed. Overall community area housing requirement of 4,500 retained. Series of amendments to support text for clarification.	CP10

Policy no. consultation document	Policy name	Changes	Policy no. submission draft
CP6	Trowbridge Vision Areas of Opportunity	No change	CP28
CP7	Spatial Strategy - Trowbridge CA	Saved allocation at West Ashton identified. Overall housing numbers retained but employment element at Ashton Park Urban extension reduced to 15 ha. Hilperton now named as a large village. West Ashton named as a small village not a large village. Supporting text strengthened by adding reference to the importance of the River Biss corridor and the Biss Meadows Country Park, by adding reference to Southwick Country Park and by adding reference to Hilperton relief road.	CP29
CP8	Trowbridge low carbon renewable energy network	No change	CP30
CP9	Spatial strategy - Bradford on Avon CA	Overall housing numbers and strategic site (Kingston Farm) retained as in June 2011 consultation document, no-longer requiring that housing at strategic site should be phased towards end of plan period, importance of resisting loss of employment land is emphasised in supporting text, transport assessment required for all major applications, including assessment of likely future impacts of Kingston Mill development	CP7
CP10	Spatial strategy - Calne	Overall housing numbers retained and no new strategic site allocated. Supporting text strengthened by adding reference to sensitivity of AONB, River Marden, the adjacent World Heritage Site and proposed campus development	CP8
CP11	Spatial strategy - Corsham	Overall housing numbers retained and no new strategic site allocated. Supporting text strengthened by adding reference to sensitivity of AONB, the adjacent Bradford-on-Avon Bats SAC, cycling links between settlements and the proposed community campus development. Rudloe now named as a large village	CP11

Policy no. consultation document	Policy name	Changes	Policy no. submission draft
CP12	Spatial strategy - Devizes	Overall housing numbers retained and no new strategic site allocated. Supporting text strengthened by adding reference to sensitivity of the landscape surrounding Devizes, ongoing traffic modelling work and need for developer contributions, implications of the air quality monitoring and the need to protect existing greenspace within the town.	CP12
CP13	Spatial strategy - Malmesbury	Overall housing numbers retained and no new strategic site allocated. Supporting text strengthened by adding reference to sensitivity of the historic environment and building materials, to recognise the sensitivity of the surrounding landscape and the economic opportunities presented by the Costwold Water Park and RAF Kemble. Reference to phasing removed.	CP13
CP14	Spatial Strategy - Marlborough	Overall housing numbers retained and a new strategic site allocated. Supporting text strengthened by adding reference to sensitivity of the North Wessex Downs AONB, Avebury World Heritage Site and SSSIs within and adjacent to the town. Also add reference to the importance of tourist accommodation, the A346 and for new retail development to be within Marlborough.	CP14
CP15	Spatial strategy - Melksham	Overall housing numbers retained as in June 2011 consultation document, no strategic site, District Plan employment allocation to be carried forward (Hampton Business Park), supporting text emphasises need for regeneration of town centre, Melksham and Bowerhill are considered together for purposes of the strategy and the housing growth identified for Melksham town will also serve to meet the needs of Bowerhill, however the supporting text recognises that Bowerhill has important individual characteristics and states that these should be protected, where practicable. Beanacre, Berryfield and Keevil are now named as small villages. Shaw & Whitley have been clustered to one large village	CP15
	Melksham link project	New policy to protect proposed route for Melksham link canal (linking Kennet and Avon Canal with the historic alignment of the Wilt and Berks Canal, via the river Avon)	CP16

Policy no. consultation document	Policy name	Changes	Policy no. submission draft
	Spatial strategy - Mere	Introduced from South Wiltshire Core Strategy	CP17
CP16	Spatial strategy - Pewsey	Supporting text strengthened by adding reference to sensitivity of the landscape surrounding Pewsey and the A346. Drafting errors corrected.	CP18
	Spatial strategy - Salisbury and Wilton	Introduced from South Wiltshire Core Strategy	CP20
	Maltings/Cental Car Park	Introduced from South Wiltshire Core Strategy	CP21
	Salisbury Skyline	Introduced from South Wiltshire Core Strategy	CP22
	Old Sarum airfield	Introduced from South Wiltshire Core Strategy	CP23
	Spatial strategy - Southern Wiltshire CA	Introduced from South Wiltshire Core Strategy	CP24
	New Forest National Park	Introduced from South Wiltshire Core Strategy	CP25
CP17	Spatial strategy - Tidworth and Ludgershall CA	Overall housing numbers retained and no new strategic site allocated. Supporting text strengthened by adding reference to sensitivity of the landscape surrounding Ludgershall, the need for a water cycle study and requirements in relation to Drumond PARK allocation clarified. Everleigh is now named a small village	CP26
	Spatial strategy - Tisbury	Introduced from South Wiltshire Core Strategy	CP27
CP18	Spatial strategy - Warminster	Overall housing numbers retained and allocation of new strategic site confirmed. Supporting text strengthened by further reference to sensitivity of River Avon SAC and the Salisbury Plain SSSI, the need for the early delivery of employment growth and pressure on primary and secondary education in the town.	CP31

Policy no. consultation document	Policy name	Changes	Policy no. submission draft
CP19	Spatial Strategy - Westbury	Overall housing numbers retained, employment allocations retained and new strategic housing allocation at Station Road added. Supporting text strengthened by reference to traffic congestion and the need for transport assessment relating to major development. Requirements relating to the strategic allocations clarified for example landscaping and type of employment at Mill Lane.	CP32
	Spatial strategy - Wilton	Introduced from South Wiltshire Core Strategy	CP33
CP20	Wootton Bassett and Cricklade	No strategic allocations. Policy remains that no housing outside main settlements (e.g. by expansion of Swindon West) is necessary. Have responded to concerns about protecting open countryside and comments on identity of settlements has been strengthened (effectively a rural buffer policy without a line on the map). Recognition of infrastructure needs and role of development in meeting these added. Now referred to as Royal Wootton Bassett. Lydiard Millicent added as a small village	CP19
CP21	Additional employment land	Amended to remove duplication with transport policies.	CP34
CP22	Existing employment sites	Strengthening of the supporting text and policy on existing employment land to ensure it is clear to development management and landowners the supporting documentation required to support the policy which protects existing employment sites from other uses	CP35
CP23	Economic regeneration	No change	CP36
CP24	Military establishments	Amended policy wording to include existing military facilities, the policy now puts a focus on economic uses on site and ensuring that the context, landscape and historic value of each site is fully taken into account during redevelopment. Mechanisms for delivery focus on early community involvement and decisions made before the sale of sites by the MoD.	CP37
CP25	Rural diversification and enterprise	Subsumed into new supporting rural life policy	

Policy no. consultation document	Policy name	Changes	Policy no. submission draft
	Tourist development	New policy covering tourism to ensure that this important economic sector is supported whilst being suitable in scale for its location	CP39
CP26	Sustainable construction and low carbon energy	Minor amendments to improve clarity of the policy	CP41
CP27	Standalone renewable energy installations	Minor amendments to improve clarity of the policy	CP42
CP28	Providing affordable homes	Policy reworded to reflect the evidence presented within the viability study. Rural exception site element of the policy now stands alone as a policy in its own right.	CP43
	Rural exceptions sites	New policy to allow rural exception sites to come forward. The policy identifies a number of criteria to be met. The exceptions policy also allows for cross-subsidy to take place in exceptional circumstances.	CP44
CP29	Meeting housing needs	The section which relates to meeting the needs of 'vulnerable and older people' now stands alone as a policy in its own right. The rest of the policy remains unchanged.	CP45
	Meeting the needs of Wiltshire's vulnerable and older people	New policy to assist in the delivery of new housing to meet the specific needs of older and vulnerable people. The policy identifies broad development considerations which proposals should take account of. The policy also sets out exceptional circumstances where development for specialist accommodation will be considered appropriate.	CP46
CP30	Lifetime homes standards	Incorporated into the new policy on meeting the needs of Wiltshire's vulnerable and older people	
CP31	Meeting the needs of Gypsies and Travellers	Policy amended to plan for the period 2011-2021 in line with latest draft guidance. Criteria for the location of sites retained but clarified further and an additional criterion relating to access added.	CP47

Policy no. consultation document	Policy name	Changes	Policy no. submission draft
	Supporting rural life	New policy on supporting rural life including rural economic development, improving infrastructure, re-use of redundant buildings and the role of community ownership to ensure that our rural communities are supported	CP48
CP32	Protection of services and community facilities	No change	CP49
CP33	Biodiversity and geodiversity	Potential impacts of development upon wildlife will be addressed and opportunities to enhance biodiversity through sustainable development will be encouraged. Opportunity for biodiversity enhancement highlighted.	CP50
CP34	Landscape	The unique characteristics of all landscapes (particularly including those outside of protected areas) will be recognised and given weight in planning decisions in order to protect Wiltshire's countryside from visually intrusive development	CP51
CP35	Green infrastructure	Two policies proposed in the June 2011 consultation document have now been merged into one, no major changes to policy content since June 2011, but references added to developer contributions, and new and existing country parks added to list of priorities for the enhancement of the GI network in supporting text.	CP52
CP36	Green infrastructure development management policy		CP52
	Canal restoration	New core policy to safeguard the historic alignments of the Wilts and Berks and Thames and Severn Canals, includes requirement that proposals for canal restoration will need to demonstrate that the cultural, historic and natural environment will be protected and enhanced, with no overall adverse effect.	CP53
	Cotswolds water park	New core policy which supports the provision of outdoor or water-based sports, leisure and recreation facilities in the Cotswold Water Park area, and sets out criteria to be met by such proposals.	CP54

Policy no. consultation document	Policy name	Changes	Policy no. submission draft
	Air Quality	New policy and supporting text seeking to reduce the impact of development on air quality and highlight mitigation measures that can be used to improve air quality. Reference to the preparation of an SPD incorporating a developers toolkit added	CP55
	Contaminated land	New policy and supporting text relating to the treatment of contaminated land and measures required to demonstrate that a site is suitable for development.	CP56
CP37	Ensuring high quality design and place shaping	Policy has been revised to present more detailed criteria relating to place shaping and design	CP57
CP38	Ensuring protection of the historic environment	Policy and text has been revised to be more spatial distinct and proactive.	CP58
CP39	Housing density	Incorporated into the design policy. Requirement for a minimum net density removed.	
CP40	Stonehenge and Avebury WHS	This policy has been slightly amended to reflect stakeholder feedback incl. comments received from English Heritage.	CP59
CP41	Retail and leisure	Amended to accord with latest guidance.	CP38
CP42	Sustainable transport	Elements of policy transferred to supporting text and need to reduce car use emphasised in policy.	CP60
CP43	Transport and development	Need to reduce car use emphasised in policy and reference to manual for streets added. Included in explanatory text that a development management DPD would be produced that would include consideration of detailed transport-related matters such as site permeability, transport mode integration and parking standards.	CP61
CP44	Development impacts on the transport network	Reference to relationship with primary road network added	CP62
CP45	Transport strategies	Reference to safety added. Drafting errors amended	CP63

Policy no. consultation document	Policy name	Changes	Policy no. submission draft
CP46	Demand management	No change to policy. Added to explanatory text that a development management DPD would be produced that would include local parking policies, including cycle parking standards.	CP64
CP47	Movement of goods	No change to policy. Added a reference to the Wiltshire Local Transport Plan 2011-2026 Freight Strategy to explanatory text.	CP65
CP48	Strategic transport network	Policy amended to reflect relationship with neighbouring authorities and to protect land to deliver improvements to the strategic road network. Minor amendments for clarification. The strategic transport network is defined in the supporting text.	CP66
CP49	Flood risk	No change.	CP67
CP50	Water efficiency and the River Avon Special Area of Conservation	Re-named 'Water Resources' and reference to River Basin Management Plans, Source Protection Zones, Safeguard Zones and Water Protection Zones added.	CP68
CP51	Pollution and phosphate levels in the water environment	Re-written to relate specifically to the protection of the River Avon SAC. Additional support text to relate to the spcitic issues in relation to the River Avon SAC and ongoing work on a Nutrients Management Plan.	CP69
