

Pewsey Area Shadow COB
Update to Pewsey Area Board
2nd July 2012

The proposals of the Shadow Community Operations Board (SCOB) having been approved by the Pewsey Area Board last month, the Campus plans have now gone to the next stage in their progress towards reality.

The SCOB met with members of the County Feasibility Team who will be responsible for the final format of the Campus, their report should be available for the SCOB's consideration by mid July.

One further development has been the setting up of a Campus website enabling people in the Pewsey area and beyond to keep in touch with the progress of our new Campus.

The website will also contain information on the history and the future of the project as well as having a 'Contact Us' facility where you will be able to express your views and opinions, so watch out for the new website at www.pewseyareacampus.co.uk.
