RECEIVED 09 APR 2013

Dear Madam

**Licensing Application - The Three Daggers Farm Shop Edington**

In advance of the licensing hearing on this matter we enclose the following documentation:

1. Copy Wiltshire Times dated Friday 8 March showing public notice of two applications.
2. Copy White Horse News dated 28 February 2013 showing notice of two applications.
3. Five sets of site photographs with location and site plans. There are three sets of these photographs for the committee, one for the Council's licensing officer and one for the parties who have made representations. Please note the detailed site plan shows the location from which each photograph was taken. The purple triangle on the plan effectively shows the area covered by the photograph.
4. Land Registry filed plans for 46A Westbury Road and 13 Tinhead Road.
5. Residents petition in support of application.
6. Letters in support of application.
7. Copy email from Annabel Wilkinson of Wiltshire Council Environmental Health Department regarding bottle recycling - as the Committee can see from this email the bottle recycle facility which is sited at the pub is a Council operated facility, our clients simply allow it to be sited within the pub because that is a convenient place for people in the village to stop and drop off their recycling.

Yours faithfully

Wiltshire County Council

1 April 2013

Dear sir

Re : Farm Shop and Micro Brewery : Three Daggers Edington

I write in support of the Licence Application made by Mr Jenkins. I understand there is some local opposition which I believe to be ill-founded and misguided. Mr Jenkins and his partner have successfully rejuvenated the village public house providing not only a much needed village amenity but employment for a number of local people. As far as I am aware there have been no complaints whatsoever about their responsibilities under the existing premises licence. I live within a few hundred yards of the premises and have no fears at all that I shall suffer from anti-social behaviour, traffic problems or noise as a result of the recent development.

The addition of a Farm Shop and Micro Brewery can only improve facilities in the local area and provide even more much needed employment. Adding a licence to the premises will provide opportunities for individuals and societies to take advantage of a well designed building with safe off road car parking.

I hope the Committee will give this application support.

Yours sincerely

[REDACTED]

R M Davies

**Subject:** Support for the Three Dagers' Proposals for the New Farm Shop

**Date:** Monday, 1 April 2013 07:36:44 British Summer Time

**From:** Neil Griffiths

**To:** Jackie Cosens, Adrian Jenkins

**CC:** Lise Griffiths

Dear Adrian and Jackie

Having been made aware of the objections to the plans for Farm Shop, and in particular to the plans to extend to the shop the same licence terms as currently operate for the pub, we would like to express our support for your plans for the shop, and are happy for this letter to be shared with local representatives or the planing committee.

Having lived in Edington for over 11 years we have been concerned for some time at the loss of amenities from the village, and knock-on effects such as loss of local employment. When the Lamb Inn (as it was then called) was closed by Enterprise Inns this took away one of the key focal points for our community, and so we were delighted when it was re-launched as the Three Dagers. The further development of the shop and microbrewery is particularly pleasing as it further reinstates lost amenities, renews community focal points and brings new local employment.

Our property is a couple of hundred yards along the road from the pub and shop and although we recognise that there will be some additional traffic and people, it has always been our wish, as it has for most of those we know in the village, that it should be a vibrant local community and not a stuffy, unwelcoming place that has been "preserved in aspic". Since the pub re-opened as the Three Dagers we have not experienced any nuisance from noise or light pollution and would not anticipate the licence application for the Farm Shop changing this significantly. Thus far there has been a sensitivity to the risk of local disturbance arising from the Three Dagers' operations, and we would hope and expect this to continue with the new development.

We were actively involved in the development of the current Parish Plan, and I (Neil) was one of the authors. The plan was careful to reflect the views of the majority of those living in the village (a survey was carried out of all households) and a particular outcome of this was strong support for appropriate local development, business and employment. 62% of those surveyed wished there to be further employment opportunities within the village, and a particular theme within the plan is to support the development of existing businesses (e.g. The Three Dagers) to create more jobs. The lack of any shop, and the loss of community venues particularly in the Tinhead end of the village were two specific concerns raised in the plan which we hope that the farm shop development may assist in easing.

As you will know, we are regulars at the pub, and are actively involved in a range of local community and charity activities. As long-standing residents who work closely with many others in the village, we know that the overwhelming majority support the developments at the Three Dagers, and for our part we can confirm that support.

If you would like us to communicate our support directly to the planning authorities we would be pleased to do so.

Kind regards

**Subject:** Planning Application

**From:** Brian Dennehy

**To:** 'Adrian Jenkins'

**CC:** [REDACTED]

Adrian,

We were most surprised to hear that you are having 'issues' with the planning application for the farm shop.

The 3 Daggers have brought much need employment to the area and the expansion of the business will only serve to provide further employment opportunities. The expanded business will be a valuable asset to Edington village, provide an amenity through which local producers will be able to promote and sell their produce and will in all likelihood generate business opportunities for others within the village. We are both at a loss to see how the introduction of a farm shop can be seen as anything but a positive step forward in these difficult times.

As regular visitors to The 3 Daggers from Steeple Ashton we have always found the current business to be run in a highly professional manner sympathy to both your neighbours and the surrounding area and doubtless it would be your intention to run the new operation in a similar manner.

If we can provide any support please do not hesitate to contact me.

Kind Regards

Brian

**Subject:** Hillview Jacky Hiscock

**From:** Jacky Hiscock

**To:** Adrian Jenkins

Adrian,

We are writing to you to express our support for you in your venture at The Three Daggers together with the Village Shop and Micro Brewery. Having lived in this village for 27years we have seen what was a thriving village with 3 shops, a Post Office, a Church, a School, a Chapel and Hall, the Parish Hall, a Bakery and 2 pubs gradually reduce to a village with a Part time Post Office. Parish Hall, Church and 1 Pub (which very nearly closed before the current owners became involved). To have something which will bring employment and vibrancy to the village cannot be overlooked and must be supported. This pub has always supported the Village Fair and in more recent years the Village May Ball. We are lucky enough to still have various social groups in the village and apart from the Parish Hall and Church to meet in, the Pub is the only other focal point.

Objections without evidence does appear to be making unfounded assumptions.

kind regards,

Jacky and Ernie Hiscock

**From:** Jasper Dorgan

**To:** [REDACTED]

**Ref:** The Three Daggers Licencing Application

Dear Adrian,

As a local and long time resident of Edington, and close neighbour of the Three Daggers, I write to advise that I have no objections to the proposed new licencing application being made by the pub. The objections raised and fomented by a very small number of individuals do not reflect the views and support of the vast majority of villagers and local Tinhead neighbours for the pub's and local shop's proposed activities. I hope and trust that the objections to the licence application will be rejected and that the pub can maintain its growing and much valued role as an enterprising, popular and friendly pub, restaurant, meeting place, local employer and community minded asset for the village and its residents.

I have no objections to the licencing application being made by the Three Daggers.

Yours sincerely

Jasper Dorgan

**Subject:** support of application

To whom it may concern.

I am writing as a concerned neighbour and villager of Edington. As I understand a small number of villagers have complained reference to the application of licence for the village shop. This is a shame as the villagers complaining are very new to the village, and do not as yet understand the overwhelming feeling the village has in support of this new facility. I have lived and worked in the village for around fifteen years. Both before and during my time here the village has been dying, due to losing its amenities including the previous Post Office, Bakery/shop, many Public Houses, the school, and Methodist Chapel. To see new investment in the village resulting in extra employment added services and benefits for all is a wondrous thing and should not be denied. The individuals who are complaining purchased their properties knowing that further developments were occurring at the site. They have already stated that their "escape to the country was at risk". This shows that they are only concerned with themselves and not with the greater good. As to the complaints reference to noise, litter and light pollution. This will be no greater than already being witnessed at the three Dagers. Which as a neighbour living five properties away is near insignificant. Please do not prevent the only investment in this village in a number of years. By doing so you will prevent employment, services, facilities and possible further investment in our village.

Yours sincerely

**Farm Shop and Micro Brewery support**

It is with regret that I hear there are objections to the Three Daggers improvements to our village. As a local, long term and permanent resident of the village I truly believe the shop will enhance the village to locals and outsiders alike, it will provide an opportunity for everyone to have access to locally produced food and other quality goods and provide much needed employment in the area.

The Daggers premises both out and inside are immaculately kept and have been since trading, the shop and surrounding area is a great improvement to the brown field site it replaces.

As far as I am aware there have been no incidences of antisocial behaviour or public nuisance as a result of the pub trading and believe there is unlikely to be any from the shop customers.

I believe there will be limited disturbance to local residents on closing after brewery tours as groups of people usually car share on evening group visit, however I suggest a early closing for the brewery tours (avoiding late night road parking).

I am aware that the shop will be open from 8am – 8pm and presume the internal lights will dimmed or turned out when not trading (reducing any “new” light pollution)

The new layout of the car park providing one entry/exit has greatly improved the safety of car users and walkers accessing the premises from the B3098.

I would like to express my support for the village shop and brewery and disagree with many of the objections that have been raised.

Yours sincerely

**Subject:** Farm Shop

Dear Jackie

As a resident of Edington for 19 years, I am shocked that the Farm shop is still receiving a negative attitude from certain members of the village.

I have to say that I whole heartedly support the Pub and the building of the Farm shop, including the Micro Brewery.

It wasn't so long ago that the village was up in arms of the possibility of losing the Pub completely. Thankfully, Mr. Pike had a vision that would not only save the Pub, but the building of the Farm shop would also create a "village shop" that was also lost a few years ago.

My business is based in the next village of Steeple Ashton, there, a shop was opened by the community. This has proved a massive success and added life back into the village.

The objection raised are probably made by people that do not have the vision or understanding, that unless there is progression, a village community will die, exactly what would have happened if Mr. Pike had not purchased the pub.

These objectors clearly come from the school of "not in my back yard"

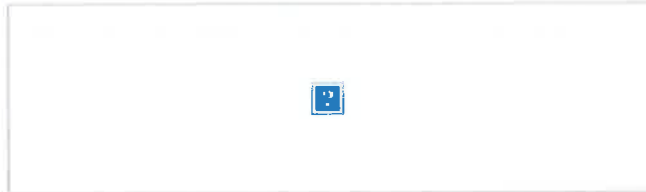

It is patently clear that all the alterations to the Pub and building of the Farm Shop, including the road access and landscaping, are designed and built to an extremely high quality and therefore would have a very positive effect.

You have my total support for your license application. And I am safe in the knowledge that you and your team will continue with the utmost professionalism.

With my very best wishes

Stephen

Stylish & Luxury B&B

**Subject:** Fwd: License for the micro brewery/ farm shop

**Date:** Wednesday, 3 April 2013 18:19:38 British Summer Time

**From:** Sian Bryant

**To:** [REDACTED]

Dear Adrian,

I have heard that the license for the micro brewery/ farm shop has received some objections. I would just like to offer my support for your plans.

I am delighted that we will have yet another facility in the village which will provide opportunities for local people. The pub and now the shop and micro brewery will be the hub of the village. I believe your plans for the license make good sense and I have no doubt that our peaceful village will not be threatened in any way.

You have already shown that you and Jackie can manage the pub in a highly efficient manner, and I am really confident that this will be the same "next door".

I am absolutely convinced that all issues affecting the local community and customers have been considered fully. For example the new parking arrangements are much improved to accommodate the new facility.

My overwhelming belief is that this new venture, in addition to the pub provides:

- ◆ Opportunity for the local community, in terms of jobs and the provision of outstanding services that many people can be proud of.
- ◆ The chance to do something different, to make Edington a place people want to visit. This is interesting!
- ◆ A more sustainable community.
- ◆ Some aspirations for local children.

I am confident that you and Jackie will manage the license of the micro brewery with the same due diligence and professionalism as you do the pub and for that reason I fully support you.

Sadly, the objections of the minority often are heard most loudly so be in no doubt that the family Bryant are behind you all the way!

Here's wishing you the very best of luck with this, see you soon

Sian and Gareth Bryant

**Application for Licence Edington farm Shop and Micro Brewery**

Dear Mr A Jenkins,

I write to give my support to the application for a licence for the above premises.

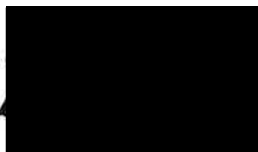

These two enterprises will bring genuinely sustainable, and much needed, employment to the village and, as well as providing the important facility of a village shop, it will help underpin both social and economic activity within the community. It will provide local jobs for local people provide a facility for functions and social gatherings and be able to support village functions such as the very popular Edington Charity May Ball which raises funds for village and local charity including the Bath Cancer Unit. It will offer a facility for people to go and buy draught local ale to consume at home and at parties and my understanding is it will complement, rather than compete with or detract from, the commercial activity of the neighbouring Three Dagers.

To refuse the licence could put many aspects of the functionality of the premises at risk with a potential impact on local employment and on the ability of the community to take full advantage of the social and recreational facilities.

I support the application because it will maximise the ability of the shop and micro-brewery to operate efficiently and effectively without compromising the surrounding village environment.

I believe the benefits of the application far outweigh any objections to it – which are based largely on assumption and conjecture rather than any hard evidence - and I urge the committee to support the application.

Yours sincerely

**Dear Adrian**

**I am writing in support of your application for the opening hours of the shop & micro brewery adjacent to your thriving public house , in Marston we have no village amenities and rely on Worton for school , public house and transport connections, which is far from an ideal situation .**

**We and many surrounding villages could only dream want Edington will have to offer in the future, along with added employment to the struggling rural economy it will be a win win situation for the local area and beyond.**

**Given that a normal 9-5 occupation is no longer normal and we all require flexibility in our daily and weekly routines the extended opening hours will be suited to the rural position with customers being able to access the shop to and from work rather than having to travel to supermarkets.**

**I wish you the best for the future and look forward to visiting the new shop when open at a time to suit me.**

**Yours Sincerely**

**William Warden  
on behalf of Marston Parish Council.**

Dear Adrian & Jackie,

Please add mine and Andrew's supporting comments to your cause. The shop and any licensing that is needed goes hand in hand with any new venture of this kind and there is only positive plus points to this new venture. To have a shop and a pub in one village is invaluable on so many levels and maybe these three villagers should bear this in mind! (And get out more!) Any further support needed, you have Andrew's and mine.

Regards, Claudia Gulliver, Edington House, Edington.

**To:** Adrian Jenkins <[REDACTED]>  
**Subject:** Three Daggers alleged noise nuisance

Dear Mr Jenkins

I am sorry to have to contact you again but unfortunately I have received two complaints alleging noise problems from bottle recycling and collection from the Three Daggers, late at night and early in the morning.

Please could you advise me who collects your waste bottles and at what times they collect them, as far as you're aware.

Could you also ensure that your staff avoid disposing of bottles to outside bins early in the morning or late at night. Ideally avoiding this between 9pm and 9am, as I think you already endeavour to do, should have the desired affect I believe.

I have advised the complainants to keep a written note of when and how the noise affects them, as is the normal procedure and if it becomes necessary we will carry out monitoring visits/install monitoring equipment.

I look forward to hearing from you.

Regards

Annabel

## Petition In Support Of Edington Farm Shop and Micro Brewery Licensing Application

### The Issue

The new village Farm Shop and Micro Brewery has applied for a licence to sell alcohol until 11pm – the same as the Three Daggers pub. Three objections to the application have been lodged which means the decision will now have to go before a licensing hearing rather than simply being approved by the committee.

The objectors believe that granting a licence will encourage anti-social behaviour, create public nuisance, prejudice public safety and create potential harm to children. They also claim that the licence will have a detrimental impact on the locality causing light pollution, noise pollution, traffic congestion and litter.

The shop and brewery is seeking a licence to ensure that there is the flexibility within the business to conduct tours and tastings during the evenings and to host occasional functions. It does not mean the shop will be open selling alcohol every evening until 11pm or that there will be a bar running every night at the brewery in competition to the Three Daggers.

To refuse the licence could put many aspects of the functionality of the premises at risk with a potential impact on local employment and on the ability of the community to take full advantage of the social and recreational facilities the venture offers.

We would like to show our support for this new venture and we ask you to help us by signing this petition.

We, the undersigned, support the application for a licence until 11pm at the Edington Farm Shop and Micro Brewery. We do not believe such a licence would have a detrimental or adverse effect on the quality of life in our village or pose any threat to the community and we urge the committee to approve the licence as requested.
