## Note 3

Police Staff Costs
Police Officer Numbers now stand at 1,054 . The initial Vision programme is based on 1,062 officers. This will need to be reviewed to consider the outcomes of work undertaken to reduce the management structure to deliver $£ 1.1 \mathrm{~m}$ of savings in 2013-14. To meet the finance plan actual officers required at year end is 1063 . Intakes are planned for November, January and March. With 4 leavers forecast on average per month the year end forecast is 1069. As we are expected to be understrength for the majority of the year underspends in pay, pensions, etc. are forecast. The first four months has also seen a reduction in pension costs with the average currently $23.7 \%$ against a budgeted $24.5 \%$. Assuming this continues a $£ 0.3 \mathrm{~m}$ underspend is forecast.

The requirement for PCSOs is split between 137 normal PCSOs and 1 schools PCSO. PCSO's The current strength is 135 . The plan for the year is to have 1 intake of 15 PCSOs in October. With 1 PCSO expected to leave each month an underspend is forecast each month until October (when the intake is planned) resulting in a net underspend for the year. The forecast strength at 31 March 2014 is 142 (above the budgeted establishment).

This years budget is based on 863 staff after Vision and Management Structure savings. At the end of July actual numbers are 826. As this is below the budgeted level an underspend is expected. Some of the vacancies are being covered by Agency staff hence the overspend in this line.

Note 4 A current underspend of $£ 41 \mathrm{k}$ exists. The majority surrounds staffing costs due to vacancies, based on this an underspend is expected.

A shorffall in investment income is currently forecast. During last year $£ 5 \mathrm{~m}$ was invested with a $2.85 \%$ return, this has matured in May. It has now been reinvested at $0.9 \%$. This was the best achievable within the Treasury Strategy however this is lower than budgeted for.
