ID	Grant Type	Project Title	Applicant	Amount Required
424	Community Area Grant	Community woodworking workshop and green work craft materials	The Nature of It	£2000

**1. Which type of grant are you applying for?**

Community Area Grant

**2. Amount of funding required?**

£501 - £5000

**3. Are you applying on behalf of a Parish Council?**

No

**4. If yes, please state why this project cannot be funded from the Parish Precept**

**5. Project title?**

Community woodworking workshop and green work craft materials

**6. Project summary:**

A workshop and tools will enable our organisation to run projects and sessions for the community, in specific local charitable groups and children and young adults with special needs. Greenwood and bush crafts have a proven therapeutic benefit and the outputs will also include skills development and confidence building. Traditional crafts are an important part of our heritage and are sadly in decline due to the pressures of modern life, lack of skilled crafts people and spaces where the training/crafts occur. We endeavour to champion local, traditional and sustainable crafts and this project reflects this aim.

No

**12. If so, which Area Boards?**

**13. Please tell us WHO will benefit and HOW they will benefit from your project benefit your local community?**

Local charities - Local groups will either be able to come on site to do greenwood crafts or if they cannot reach us we will take our mobile equipment and tools out to them. Special needs groups - Primary age children will benefit as we will incorporate greenwood crafts into our Opportunity to Grow course. Secondary age children and young adults will benefit from enterprise workshops and green gym style outlets for therapeutic benefit.

**14. How will you monitor this?**

All people accessing the service will be required to register and also feedback on the session or project. All of the information pertaining to the project will be openly accessible to the area board and other contributing organisations.

**15. If your project will continue after the Wiltshire Council funding runs out, how will you continue to fund it?**

This project is planned to continue in the future and will be funded in part from selling of greenwood crafts from our enterprise projects. Additionally, we will be available to hire at fayres and seasonal events for the public to try greenwood crafts for themselves. Some ongoing costs may be financed from applications to national and regional organisations.

**3. Are you applying on behalf of a Parish Council?**

No

**4. If yes, please state why this project cannot be funded from the Parish Precept**

**5. Project title?**

KLVH Committee Room Display Screens

**6. Project summary:**

Our committee room is long and narrow (10m x 3.3m). We have tried placing 32 inch display screens (one donated one borrowed) at either end of the long committee table but this was not very effective. Wall mounted screens are required at the centre of each long wall. This project provides two such 42 inch screens plus a 22 inch screen in front of the chairman/secretary (at the table end) and an outlet to connect the existing 32 inch screen on a mobile stand. All are driven from a distribution amplifier fed by laptops (on our WiFi network).

**12. If so, which Area Boards?**

**13. Please tell us WHO will benefit and HOW they will benefit from your project benefit your local community?**

Our current committee room users who hold meetings will benefit from much better and uniform access to information for all participants. This can be expected to improve the quality of discussion and decision making and should also speed the progress of meetings. Such users include the Parish Council, our own and the Playing Fields committees, the village school PTA and numerous similar local organisations. The displays will complete the committee room IT suite making it an ideal instructional facility for the benefit of those, especially older members of the community, wishing to develop computing and internet skills. We have hosted one such session and there is the opportunity to increase such use in the future. This addresses Chippenham and Villages Community Plan priorities 2.1, 2.6 and 2.9. Finally, the committee room is an under-utilised resource, especially during the mornings. The addition of high quality display screens will complete our IT provision (we already have broadband/WiFi available to all users throughout the hall) and make the facility attractive to new prospective users. We have been approached by a business interested in using the committee room for breakfast meetings provided we have suitable IT facilities. As such users will pay the full standard rate the increased revenue will enable us to keep down our concessionary rate charges to local residents, charities and not-for-profit organisations.

**14. How will you monitor this?**

The qualitative benefits will be monitored by running a survey at the end of the first year and through informal discussions with users. As is our standard practise we will invite suggestions on how our facilities could be further enhanced (for delivery beyond the scope of this project). Benefits in terms of increased utilisation and revenue will be monitored through our existing twice yearly utilisation and cash flow analysis. Our booking software (Avalon Halls for Hire) exports data which we use in conjunction with internally produced analytical tools to generate detailed "health" reports for presentation to our Board of Trustees each January and July and to the community at our AGM in May. These are sufficiently detailed to provide clear evidence of the quantitative benefits being delivered.

**15. If your project will continue after the Wiltshire Council funding runs out, how will you continue to fund it?**

From normal hall revenue.

**16. Is there anything else you think we should know about the project?**

N/A

All current and prospective users of the hall (community groups, local societies, fund-raising committees, faith groups and commercial hirers) will be able to make use of new improved IT equipment, as well as it being available for IT training purposes - one of the members of the Chippenham Rotary Club is a Wiltshire Council Digital Champion, and has involved other Club members in running training courses for members of the public at the hall - which are intended to be continued in the future.

**14. How will you monitor this?**

A record is kept of all Hall bookings, feedback from users is regularly sought, and the Hall and its facilities is marketed in a manner which reflects that feedback.

**15. If your project will continue after the Wiltshire Council funding runs out, how will you continue to fund it?**

From the Trusts own internal funds.

**16. Is there anything else you think we should know about the project?**

The Trust is proposing an improvement programme for the Hall comprising a complete refurbishment, including new windows and external doors, heating system, floor coverings, decorations, electric shutters to kitchen and bar, new lighting, improvements to ladies toilets, and external wall-cleaning, at a current estimated total cost of Â£40427. As noted above, as a first phase, the Hall kitchens have been totally renovated, thanks in part to a grant of Â£5000

from the Chippenham Area Board. A modest legacy of some Â£7000 is available to go towards these costs from the estate of a deceased member of the Chippenham Rotary Club

We are keen to promote volunteer working with our project and the tools will ensure that individuals and group volunteers who join our projects sessions will be properly equipped to work effectively.

**14. How will you monitor this?**

We record the volunteer support at each session and keep records of hours worked. We offer Wiltshire Time Credits to our volunteers for contributed hours. A log will be kept of use of the tools by other groups and individuals.

**15. If your project will continue after the Wiltshire Council funding runs out, how will you continue to fund it?**

This funding will pay for tools & equipment only, which will be used for the ongoing project. The River Clean-Up project takes place outdoors and is run totally by volunteers, therefore no ongoing costs.

**Why can't you fund this project from your reserves:**

'parkrun' Chippenham is a new initiative, run by volunteers with no current funding base of its own and therefore no reserves. The set-up of a new local 'parkrun' event is supported by the national 'parkrun' organisation that provide half the funds needed. Their rules stipulate that the other half of the setup cost - £3,000 - must be funded locally. This is a one-off set up fee. Ongoing costs are minimal, and met by the national 'parkrun' organisation.

We are a small community group and do not have annual accounts or it is our first year: yes

this has been the trend in other 'parkrun' towns. The Harriers will also become more prominent in the County due to the regular running of this timed 5k event by some members. This speed training will make them more competitive for the County Championships. Finally, there will also be significant benefit to the town and local businesses from drawing visitors in who would otherwise not have visited Chippenham - hopefully the runners or their partners will do a spot of shopping during/after the event, and certainly most will be looking for a cafe for breakfast or just a drink following on from the run.

**14. How will you monitor this?**

Statistics are held for the attendance and results of every 'parkrun' event. Changes in numbers, regular attendees, age groups, etc will be monitored for quantitative and percentage fluctuations in figures. Individuals taking part can monitor their own progress and improvement - timings are emailed the same day and posted on the website with historical results and stats including age group records and age-graded performances (for those getting older!)

**15. If your project will continue after the Wiltshire Council funding runs out, how will you continue to fund it?**

This application is to provide half of the funds needed to set up 'parkrun' in Chippenham. This is a one-off cost. Once up and running there is very minimal cost involved, but any costs that do arise are met by the national 'parkrun' organisation.

**16. Is there anything else you think we should know about the project?**

**6. Project summary:**

The Festival has identified a unique opportunity of bringing to a Chippenham audience an act which integrates the best in modern dance (e.g. Hip Hop) and traditional folk dance. Although well beyond the normal scope of this Folk Festival, with the support of Wiltshire Council, we can bring the Demon Barbers XL show, a nationally famous 17 piece ensemble, to work with an established Chippenham modern street dance group, local youth and children in a pre-concert workshop. This will explore the cross-over between modern street and traditional folk dance. The Folk Festival also requests support to replace obsolete sound equipment.

The Folk Festival is non-profit making and lets major contracts annually. It carries a level of reserves commensurate with contingencies which may arise. Compared to the annual outgoings the reserves are small; compared to the annual impact of the Festival on the local economy they are minute.

Happy Caterpillars Heating Replacement

**6. Project summary:**

The Happy Caterpillars infrastructure (building and contents) are in excess of 13 years old having been purchased secondhand in 2000 when the Hullavington Village Hall was damaged by fire and need to be rebuilt. The heating system is LPG based and only has one heater which is becoming inefficient and regularly breaks down. The Staff and Children of Happy Caterpillars require a permanent and robust heating system and if possible for it to be Eco-Friendly. We are researching various options, Solar Panels, Air Sourced System and Electric. We are a not for profit organisation employing 5 staff and providing pre-schooling to 15-25 2-4 year olds annually. In the past 2 years we have been close to having to send children home when the heating has failed.

This project will benefit the wider community of Hullavington and its surrounding villages in the provision of pre-school facilities for 2-4 year olds. It will directly benefit the current staff and children.

**14. How will you monitor this?**

Children numbers are currently average 7.5 per session. Our break-even point is 10. A new heating system and the publicity that we will generate will hopefully encourage other parents to use our setting. We would monitor new numbers.

**13. Please tell us WHO will benefit and HOW they will benefit from your project benefit your local community?**

The local community of Chippenham will benefit from this project in a number of ways as follows: 1. It will allow additional daytime and evening activities to be developed, that can target local people, especially with targeted activities for the elderly (low level/impact classes (fall prevention, yoga/Pilates) and social events afterwards, coffee mornings, luncheons), parent & toddler groups (soft play, parties) and young mums (workout, yoga/Pilates classes) 2. It can ensure that the sports club and dome becomes a venue that can cater for all age ranges and become an integral part of the local infrastructure for accessible sporting activities especially during the day when there are limited facilities available 3. Provide an affordable facility for social and sporting events to support the local community i.e. a venue for birthday parties, local craft fairs, sports tournaments, indoor training venue for sports junior sections, indoor provision for schools The project includes storage elements so the equipment can be stored safely and securely and ensure that it is maintained to a high standard so can last for a number of years before replacement is required. The CCTV requirement is to ensure that participants at the dome feel safe whilst partaking in an activity at the facility. The project will support the area plan local priorities by 1. Increasing and improving the health of the local community through increased leisure and physical activity provision 2. Provide a facility that can be used by the local community within the local area for social and leisure activities bringing people together and providing them with a better life 3. The increased offer of activities could lead to a reduction in anti-social behaviour as young people are provided with a facility that can provide them with activities they want to partake in

**14. How will you monitor this?**

The project will make a huge difference to the local community by expanding our current use of the Dome. There will be no formal collection of usage numbers however it is anticipated with the additional activities on offer bookings at the facility will increase so we proposed doing a comparison on previous years' bookings and which new companies/clients we have engaged with to monitor how successful the additional activities have been.

**15. If your project will continue after the Wiltshire Council funding runs out, how will you continue to fund it?**

The project is to raise finance to purchase the equipment necessary to expand the current program of activities on offer at the Dome; any further costs, i.e. replacement equipment and increased utilities (from increased usage) will be funded through the Dome and Chippenham Sports club via the hiring charges.

**16. Is there anything else you think we should know about the project?**

N/A

**6. Project summary:**

Last year, a grant from the Area Board helped us purchase the school building and open it to the public. We want to build on this by offering a more exciting and authentic experience for

visitors. Our existing costume collection is limited and not historically accurate. We want to upgrade the collection by adding more authentic costumes for use by volunteers and visitors. Some would be professionally made, while our team of volunteers could tackle simpler ones. As part of the project we would like to offer a workshop, looking at how to make and wear Victorian clothes.

**Why can't you fund this project from your reserves:**

Until March 2013 the property was leased and, as the lease neared expiry, a question mark hung over the future of the project. It was by no means certain that the owner would agree to sell and, given that uncertainty, all but the most essential maintenance work was postponed. When eventually we succeeded in purchasing the property (thanks in a large part to a previous generous Area Grant) it was agreed that priority must be given to repair and maintenance work. Renewing the heating in the building and re-decoration are already in

hand. Work is needed to repair the chimney stack and we are looking to improve access for visitors with limited mobility. This means little is left to spare for development work. However our community access programme has raised more than Â£1,000 this year and we would plan to plough this back into the project as match funding, in order further to improve the experience of our visitors.

We are a small community group and do not have annual accounts or it is our first year:

No

**12. If so, which Area Boards?**

**13. Please tell us WHO will benefit and HOW they will benefit from your project benefit your local community?**

Before we purchased the property, the Project had little contact with the local community. Our remit was confined to school groups plus a handful of organised visits each year by clubs and societies. Many local people had never set foot in the schoolroom. Our first priority, on purchasing the building, was to open it up to the general public and we succeeded in attracting more than a thousand visitors through our Summer Sundays and a campaign aimed at community groups, while our blog on the Heritage Open Days website brought in record numbers for Heritage Weekend. This year we hope, with the Area Board's support, to build on our success and establish consolidate Sevington's position as a real community asset. We already have a healthy number of bookings from local groups. The Summer Sundays, which proved so successful, last year, will we hope, continue to attract young families and local people. We know how much the school groups enjoy the sense of being taken back in time

and we would like extend this experience to our community visitors by offering them not just a tour of the schoolroom, but a re-enactment authentic in every detail. For this we need costumes for visitors and volunteers, and those taking part need training in the manners and modes of Victorian Sevington in order to play their roles convincingly.

**14. How will you monitor this?**

We will monitor the quality of the experience through informal discussion with visitors, and the evaluations sheets which we give out to our guests will enable us to keep track of numbers, and analyse the spread of age, gender and ethnicity. We are particularly anxious to audit use by people with limited mobility, in order to inform our plans to improve access.

**15. If your project will continue after the Wiltshire Council funding runs out, how will you continue to fund it?**

This is a one off project.

**16. Is there anything else you think we should know about the project?**

This is a standalone project.
